## JOURNAL OF THE TELEGRAPH.

PUBLISHED MONTHLY, ON 20TH OF EACH MONTH, AT  
195 BROADWAY.

THE JOURNAL is issued on the 20th of each month. Its circulation is nearly 25,000 and is steadily increasing. It goes to every State, Territory and Province on the Continent, and is delivered to all the offices of the Western Union Telegraph Company, which now exceed \$1,000 in number. Hence it is the best advertising medium of its class in the world.

## TERMS OF SUBSCRIPTION.

(Invariably in Advance.)

One Copy, one year, postage included.....\$ 1 00  
One Copy, six months, postage included..... 50  
Single Copies..... 10

## ADVERTISING RATES.

One Inch space—each insertion.....\$ 2 00  
Half Inch " " "..... 1 00  
Quarter Column " " "..... 4 00  
Half " " "..... 8 00  
One " " "..... 16 00

Cuts charged for according to space occupied.  
Business Notices, on Editorial page, 50 cents per line for each insertion.

Nothing inserted for less than one dollar.  
A reasonable discount will be allowed on advertisements to remain standing, for which special arrangements can be made.

NEW YORK, JANUARY 20, 1897.

September 1, 1895.

## TO ALL WESTERN UNION MANAGERS:

Particular attention is called to the third remark under Rule 2, which says:

"The importance of the address (of a message) cannot be over-estimated. When the address given seems insufficient, a better one should be requested."

Insufficient addresses not only put customers to inconvenience from the delay necessary to obtain additional particulars, but they create expense to the Company in the use of the wires for the transmission of service messages, and sometimes in the defence of suits arising from claims for damages.

Managers and receiving clerks are therefore requested to keep the rule well in mind and to give the subject particular attention as occasion demands.

THOS. T. ECKERT,  
President and General Manager.

GOVERNMENT telegrams that Army Officers send, not written upon the (blue) official form furnished by the Quartermaster General, should invariably be paid for by their senders—but, government telegrams that Army Officers send, written upon the (blue) official form furnished by the Quartermaster General, should be accepted without payment by their senders, and being transmitted checked "paid govt. rate," should (unless otherwise specially directed) be taken credit for in, and turned in (as voucher for such credit) with, the monthly Form No. 4 Report.

The foregoing applies only to government telegrams of Army Officers, and does not apply to other government telegrams.

All Weather Bureau telegrams should also be accepted without payment by their senders and being transmitted checked "paid govt. rate" should also be taken credit for in, and turned in with, the monthly Form No. 4. Report.

TREASURER'S OFFICE,  
WESTERN UNION TELEGRAPH COMPANY, }  
NEW YORK, JANUARY, 1898.

To Superintendents: I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

First. Every remittance to the treasurer must be accompanied by a letter of transmittal, written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expense must be reported, like any other item, in the monthly account current (form 4.) Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

Second. Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5.00, 5 cts.	Over \$40.00 to 50.00, 18 cts.
Over \$5.00 to 10.00, 8 cts.	Over 50.00 to 60.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over 60.00 to 75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over 75.00 to 100.00, 30 cts.
Over 30.00 to 40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank drafts can be obtained at less expense.)

Third. If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

Fourth. If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

Fifth. If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

Sixth. Drafts, express money orders and post office money orders must be made payable to R. H. Rochester, Treasurer, and sent by mail. They must not be made payable to R. H. Rochester, without the title.

Seventh. The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

Eighth. The large envelope, Form 124, should be used only for making remittances by express.

Ninth. Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

R. H. ROCHESTER, Treasurer.

UNITED STATES Government telegrams that are filed for transmission by Army officers, on the War Department—Official Telegram form (on blue paper, and certified as on Official Business by the officers sending them) should always be checked "Paid" Govt. rate; but no cash payment required for them from the sender. Each such certified telegram is always a sufficient voucher for the government rate charges due upon it.

A MESSAGE sent "collect," reported as "uncollectible," and collected for by sending office from its sender, should always be booked and reported as it was originally checked—and should never be booked and reported as if checked "paid." See Rule 69 Western Union Book of Rules. The amount collected from sender should be reported in the Form No. 4 Report as Receipts for "Guaranteed Messages"—and should not be reported as "Telegraph Receipts."

THE attention of all telegraph offices is directed to the following decision of the Secretary of War, in relation to telegrams regarding leaves of absence of army officers:

"Telegrams sent to any headquarters, making application for leaves of absence, or extension of leaves, or of inquiry whether leaves have been granted, and the replies made by telegraph thereto, are regarded as personal, and must not be sent or paid for as public dispatches."

NEW YORK, May 20, 1894.

## To All Western Union Managers:

You are authorized to send "collect," without the guarantee required by Rule 18, messages of traveling agents or representatives addressed to their home firms, upon sufficient evidence of their connection with those firms.

THOS. T. ECKERT,  
President and General Manager.

A RECENTLY discovered mountain lake on the island of Fernando Po is situated at an altitude of 1,330 meters and is 1,170 meters long and 800 meters wide. High mountains surround the lake and a waterfall leaps into it, but there is no visible outlet. —Prometheus.

## New York Telegraphers' Aid Society.

The quarterly report of the New York Telegraphers' Aid Society, ending December 31, is as follows:

Balance on hand September 30.....	\$6,145 77
Receipts during quarter:	
Fees.....	\$23 00
Dues.....	1,242 50
Total.....	\$7,411 27
Disbursements:	
Sick Benefits.....	\$541 73
Expenses.....	46 50
Balance on hand.....	6,823 04

Total.....\$7,411 27  
Attested to by Gardner Irving, G. W. Patterson, and Maxwell Green, auditing committee.

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, January 30, 1897.

The following list of "Changes" corrects the Tariff Book of January, 1897, to date. Changes in the list of "New Offices" are not included.

The hand **✱** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices," which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Chester Heights, Pa., which was formerly a double star station, but which is now a Western Union office in Square 59.

See Special Notices at end of this circular.

### CHANGES.

A modification of Rule 68, to take effect on and after January 1, 1897, has been authorized. As modified, the rule will read:

Rule 68. Sunday's messages will be entered as a part of the previous Saturday's business, except when the first day of the month falls on Sunday, in which case Sunday's messages will be entered as a part of the business of the following Monday.

Bander Abbas  
Lingah

The Atlantic Cable rate to Great Britain, Ireland, France and Germany, from Wyoming, is 24c. per word.  
Correct Tariff Book, page 407.

## SPECIAL NOTICES.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the

necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 86) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc., do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own state.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated as night message offices in the Tariff Book.

Offices having special rates, should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 407 to 422, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 855 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 185), Catskill Mountains (page 189), and Lake George (page 197.) When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Notifications of the arrival of steamers at the Port of New York will be forwarded to any ad-

dress during the Company's usual office hours, upon payment of \$1.00, plus the tolls for a ten word message between New York City and the office ordering the report.

Orders should be addressed to Manager Marine Department, New York City.

This order does not apply to New York City, Brooklyn, Hoboken or Jersey City.

THOMAS T. ECKERT,  
President.

#### TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, January 18, 1897.

To All Transfer Agents and Offices:

The transfer service has been resumed at Frankfort, Ind., and temporarily discontinued at Beatrice, Neb., Natoon, Ill., and Salisbury, N. C.

On January 2d, Strathroy, Ont., was added to the list of Class E, transfer offices in Arthur Cox's district.

On January 15th, Canon City, Col., Greeley, Col., and Telluride, Col., was added to the list of Class D, transfer offices in B. J. Diekey's district.

Perry, Okla., should be stricken from the list of transfer offices in Tariff Book of January, 1897.

Managers will correct their lists accordingly.

THOS. T. ECKERT,  
President

#### GOLD AND STOCK LIFE INSURANCE ASSOCIATION.

The Annual Meeting of the Gold and Stock Life Insurance Association was held in Room 79, 195 Broadway, New York, January 18th.

The Secretary reported the present membership 980, and a net increase of membership during the year of 26, and a monthly average of 916. Ten deaths were reported, one to every 92 of membership. The average age of deceased members was 42 years and 9 months, and the average duration of membership 8 years and 10 months.

## THE ADAMS CABLE CODEX.

*Eighth Edition, Just Published.*

This code is especially gotten up for the use of travellers by sea or land, and contains over 10,000 sentences referring to business and social matters, and covers such topics as Arrival and Departure, Business, Buying and Selling, Bonds and Stocks, Condition of Market, Congratulations, Drafts, Financial, Illness, Letters of Credit, Letters and Telegrams, Returning Home, Securing Staterooms, Shipment, Shipping, Standing of Firms, etc.

It should be in the hands of every one who uses the land or ocean telegraph lines. It saves its cost many times over in one message, and in one case one code word covers over 70 words of text.

Price, in cloth, 50 cents; in paper, 25 cents. By mail, 4 cents postage extra.

For a limited time only telegraph operators can obtain a sample copy of this code, by sending 14 cents in stamps.

Operators at principal telegraph and cable offices of the Western Union Telegraph Co. throughout the country can obtain the wholesale discount on any codes ordered of us.

## No. 2 O. K. Outfit, WITH SOUNDER AND KEY

On same base, or separate, as ordered.

Complete Outfit	-	-	\$3.75
Sounder	-	-	2.25
Key	-	-	1.00
Sounder and Key on one base	-	-	3.25

The above Outfits consist of a beautiful Sounder wound to 20 ohms, and one of my unrivaled Nickel Plated, Legless, Steel Lever Keys: One Cell 5x7 Battery (or 6x8 Battery, 10c. extra); 15 ft. Insulated Office Wire, 1 lb. Vitriol, 1 Instruction Book, all safely packed, and will be shipped on receipt of price, or sent C. O. D., subject to inspection, if you send me \$1.00 with order. State whether you wish Key and Sounder on same Base or separate. Write your address plain and full, also state by what Express Company you wish goods shipped. Address,

I. H. MOSES,

36 SOUTH WATER ST., CLEVELAND, OHIO.

## PONY TELEPHONE RECEIVERS.

This telephone receiver weighs only 6 ounces. The spool is wound with silk wire to the standard resistance of 75 ohms. The binding posts will not get loose. The shell of the receiver is of cast steel and is strongly magnetized. The adjustment is rigid and will not become changed even by the greatest carelessness.

It is a perfect working telephone receiver, and one that costs ten times as much will not work better.

With suitable signal apparatus, this telephone receiver makes a complete telephone outfit, as it can be used as a transmitter and receiver combined.

The price, as well as the instrument, is small. We always make low prices on our specialties, in order to make them up in quantities.

Price.....50 Cents.

# EUREKA TELEGRAPH OUTFIT

Outfit Complete, With Battery, \$2.25.

(Without Battery, \$1.75.)

Sent by express C. O. D., when the express charges are guaranteed by express agent.

## DESCRIPTION.

The Eureka Learner's Outfit, as shown by illustration, is a first class, full size telegraph set. All of the working parts—which includes key lever, sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. The key is of the curved lever pattern, and sounder gives a loud and clear sound, equal to the best expensive instrument.

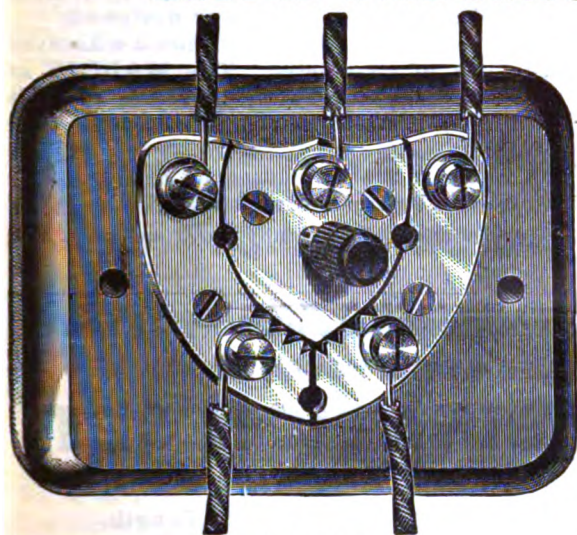

## THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.....	\$2.25
Eureka instrument only (no battery or wire), for short lines....	1.75
Eureka instrument only, wound for lines 1 to 15 miles.....	2.00
Postage on instrument only (battery not mailable).....	.40

We claim this the BEST low priced telegraph set ever made. Its one of our specialties and made in large quantities.

## UNION LIGHTNING ARRESTOR AND GROUND WIRE SWITCH.

(Illustration full size.)

Just the thing for private telegraph lines. Serves as a lightning arrestor, cut out and also ground wire switch.

Price, each,  
\$0.50.

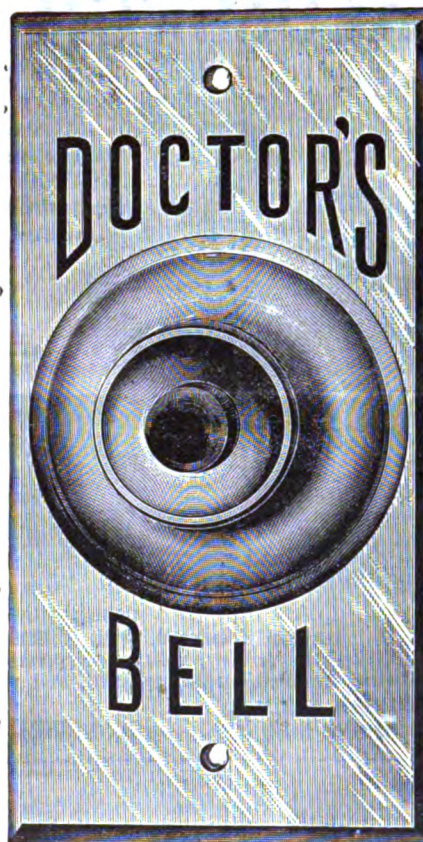

## SMALL ANNUNCIATORS.

We make all sizes, but this pattern is intended for use where a small case is desired. It is reliable and sold at a low price. Gravity drop pattern. Tags furnished with any numbers, or lettered as desired.

Price, No. 2.....	\$2.00.
“ 4.....	3.00.
“ 6.....	3.75.

Our regular Electrical Supply Catalogue,  
224 pages, 10 cents,

## PUSHBUTTONS.

We make nearly 100 different styles of push buttons.

They are all finely finished and made from best metal.

THIS STYLE (cut full size) furnished in bronze (“Doctor’s Bell,” “Night Bell” or “Janitor’s Bell”).

Price, each.....\$0.75.

Our Pushes are finished in bronze, nickel plated, silver plated, oxydized silver, oxydized copper, brass and Bower Barff (dead black).

## IF YOU WANT

J. H. BUNNELL &amp; CO.'S

**STEEL LEVER****SOLID  
TRUNNION****KEYS.**

OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

**THE BUNNELL STEEL LEVER KEY** is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is only one-half the weight of the ordinary brass lever as generally made. The entire Lever and Trunnions together being made of but one piece of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of hardened platina points, sticking is absolutely prevented.

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

PRICE,  
1.75.

**LEGLESS PATTERN STEEL LEVER KEY**

New Form with Open Base.

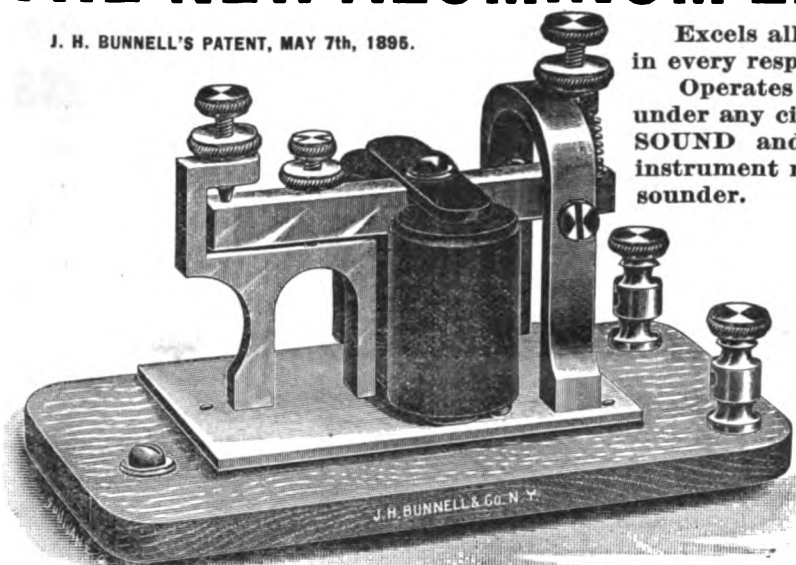

A beautiful and perfect Key suitable for use on Fine Decks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

**THE NEW ALUMINUM LEVER GIANT SOUNDER**

J. H. BUNNELL'S PATENT, MAY 7th, 1895.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the FINEST and BEST SOUNDER ever designed.

Operates with ONE CELL only of LOCAL, having no need whatever under any circumstances for the use of two cells. The MARGIN of SOUND and STRENGTH and QUICKNESS with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, . . . . . \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length, \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

**NEW GIANT SOUNDER, 20 OHMS RESISTANCE, AND STEEL LEVER KEY****COMBINATION SET,**

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. Price, \$4.50. Sent by mail to any distance, carefully boxed, and PREPAID by us, on receipt of the above price.

Same set, but wound to 8 ohms (local), \$4.00.

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine LEARNERS' OUTFIT, \$4.75.

**NEW**  
**MAIN LINE SOUNDING RELAY**  
**WITH ALUMINUM LEVER.**

Gives more than three times the volume of sound given by the very best Box Relays, or any other form of sounding Relays, for short or long main lines, ever before produced.

They are unequalled for Wrecking Instruments, Testing Sets, Switch-board Sets, Temporary Offices, and all places where it is desirable to dispense with the use of Local Batteries.

These instruments are made with full size relay magnets 150 ohms resistance, having both magnet and armature adjustments and fully suited for doing, in a greatly improved manner, the work of regular main line Box Relays. They are highly sensitive to the weakest currents and will give a clear working sound on circuits where, without them, a relay with local sounder and battery would be absolutely necessary.

Price, 150 ohms Resistance, with Key on Base . . . . . \$9 00  
" " " without Key . . . . . 8 00

In Mahogany Case, for Wrecking Sets, \$2.50 extra.

Price, 200 to 300 ohms, with Key on base . . . . . 8 50

" " " without Key . . . . . 8 50

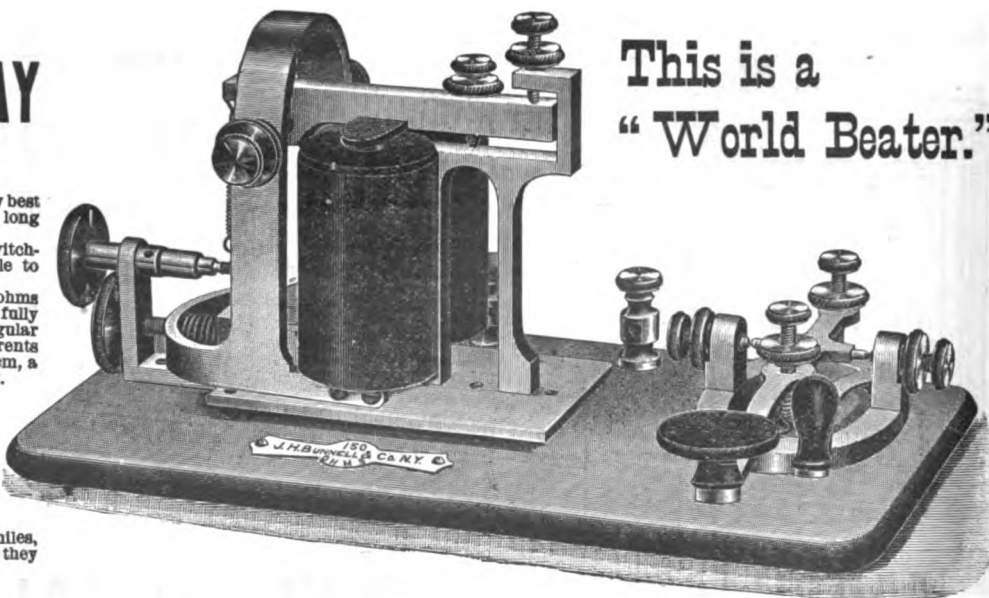

Price, 20 to 100 ohms, with Key on Base . . . . . 8 50

" " " without Key . . . . . 7 50

This latter class for all circuits from a mile or two up to 100 miles, when with ordinary main battery power suitable for such lines, they are equal to the best local sounders.

H. BUNNELL & Co.'s Manual of Instruction for Learners of Telegraphy, latest edition, which we will send free of charge to all who apply by mail or otherwise. It is the plainest and best book of instruction in Telegraphy ever published, being fully complete in description, explanation and illustrations.

**The Standard Dry Battery,**

J. H. BUNNELL & CO., Sole Manufacturers.

This improved form of Dry Battery having been thoroughly tested in comparison with all others, is presented to the Electrical Trade, and to all users of Open Circuit Battery, as the very best yet produced.

Its very compact form, being smaller than any other of equal capacity, and its

**Great Strength, Durability  
and Recuperative Power**

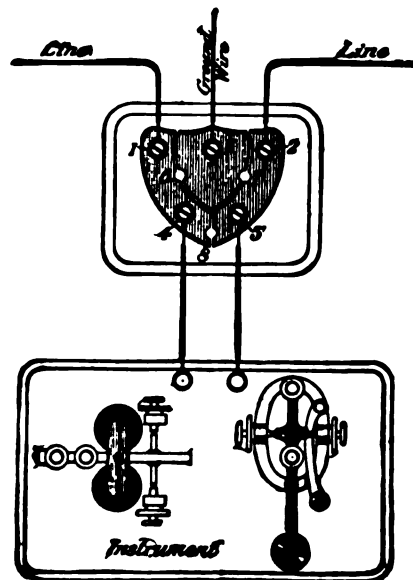

Are its Chief Merits.

OVER 400,000 CELLS IN USE.

It is a first-class Dry Battery for Electric Bells, Telephones, Gas Lighting, Burglar Alarms and all open circuit work.

**PRICE, 60 CENTS PER CELL.**

Special Discount to the Trade.

**The Union Lightning Arrester and Ground Switch.**

As lightning is frequently attracted to outdoor lines and thereby enters the offices, sometimes damaging the instruments, or even setting fire to curtains or other inflammable material about the instrument table, a simple and cheap instrument called "lightning arrester and cut-out," is used for the purpose of intercepting and carrying to the earth such discharges of lightning as would be liable to cause damage. This apparatus is entirely effective, and is a complete safeguard against lightning.

**PRICE, 80 CENTS BY MAIL, PREPAID.**

Send for our **LATEST CATALOGUE**, January, 1895, containing 224 Pages and nearly 700 ILLUSTRATIONS the **VERY BEST** Telegraph and Electrical Supplies ever offered to the trade.

VOL. XXX.

NEW YORK, FEBRUARY 20, 1897.

WHOLE NO. 524.

## INTERNATIONAL CO-OPERATION IN THE ADVANCEMENT OF SCIENCE.

THERE is a growing appreciation of the fact that the secrets of science, as they are from time to time revealed, are not, or should not be, considered as the property of the individual, but that they belong to the race at large. This is evident from the increase in the number of societies for the promotion of science, some of which take a name which indicates that this advancement is the special object of their endeavor. Closely allied to these are the specific technical and engineering societies, at whose periodical meetings the experience and discoveries of the members are recorded, and subsequently published for the benefit of the general public. In addition to the monthly or quarterly meetings of the local branches, there are the great annual gatherings of the technical and scientific societies, in which the chosen representatives of the local societies meet to discuss the progress of the year, and present such new theories and laws as have been proposed or discovered.

It would be difficult to overestimate the service that has been done to science, whether pure or applied, by these annual conventions. In reading the reports of proceedings, especially the proceedings of the annual conventions, we have often been impressed with the fact that the authors of two different papers upon the same or related subjects will frequently supply each other with the missing link in their arguments. Separated, perhaps, by many thousand miles of distance, they have attacked the problem from two different points of view, and the half truths which each investigator had discovered, and which promised separately to remain an unsolved problem, dovetail together at the convention into a complete demonstration. Co-operation is the very life of successful scientific research; for genius is scarce, while industrious mediocrity is plentiful. There are, doubtless, multitudes of searchers in the fields of science who are carrying fragments of disjointed truths which, if gathered in one place and pieced together, would make a valuable addition to the ascertained truths of science.

It is true there are the columns of the scientific press, which have undoubtedly proved the most effective of all means for the exchange of ideas, the record of discovery, and the spread of scientific knowledge; but the general congress or convention has the advantage that it is not local in its scope or effect; that the attention of the scientific world is centered upon it in the expectation of hearing the very latest and most important scientific facts; and that in the various meetings there is an opportunity

for the verbal exchange of ideas for question and answer, and for detailed and exhaustive debate. There is an incidental but very real value, moreover, in the scientific congress in the fact that it brings the members of widely separated districts into contact, and introduces that element of personal sympathy and regard which is one of the most promising features of our modern civilization.

It was a natural step from the National to the International Congress. Within the past few years, several of the latter have been organized, and in nearly every case they have grown steadily and accomplished good work. The arguments for the National are doubly strong for the International Congress: for the wider differences of climax, character, opportunities and methods of research which exist among nations give the annual reunion of their leading scientists a special value. For, undoubtedly, the system or general drift of scientific research undertaken by any people will be modified by its national temperament. In Germany, we might expect that the theoretical tendency would be predominant; in England and America, the practical; and it is in the personal intercourse of the representatives of these separate schools that we naturally look for special results, which could never be independently achieved.

The time is certainly ripe for the establishment of a great international association for the advancement of science. The various national associations have shown by their recent fraternal exchange of courtesies that they are prepared for it and are fully alive to the benefits which it would confer. They are selecting their places of meeting near the national border lines, in order that the interchange of visits may be facilitated. We learn that the American Association will meet next year at Detroit, and that it will adjourn to Toronto to assist in welcoming the visiting British Association.

This body has responded by inviting the officers of our gathering to attend as honorary members, and throwing its doors open to all the members and fellows. The same spirit is shown across the water, where the Association Française pour l'Avancement des Sciences has chosen Boulogne as its meeting place, and in response to its suggestion that the British Association should meet at some town on the opposite coast, the latter body has chosen Dover for its gathering in 1899. The mention of the year 1899, the closing year of the century, naturally suggests that the opening year of the twentieth century would be a fitting time for the first meeting of an international association. It will be the year of the great

Parisian Exposition, which will be certain to attract a large number of scientists from both hemispheres, and the intervening national meetings will give ample opportunity for founding the association and concluding all necessary arrangements.—*Sci. Am.*

THE great Anaconda mine is a source of wonderful wealth. Tons of copper are daily refined and turned out for commercial use with an undiminished regularity. While this particular mine, equipped in every possible manner with electric appliances, stands forth unexcelled as an example of scientific applications, many smaller mine owners have held back until recently, being in doubt as to the reliability and cheapness of this power in mining. But compressed air machines are becoming obsolete in this great field of work, and according to the report of the State Inspector of Mines, the best mining practice calls for the installation of electrical machinery wherever possible.—*Electrical Age.*

## ELECTRIC AND LIGHT OSCILLATIONS.

ACCORDING to the Austrian physicist Puluj, the oscillations from a Leyden jar are from 100,000 to 1,000,000 per second, depending on its size, but in order that the electric rays produced thereby should become visible as red light the number of oscillations would have to be increased to 400,000,000,000. A tuning fork which makes 1,000 vibrations per second would have to vibrate 12,000 years, before it would make 400,000,000,000 oscillations.—*Electrical World.*

## THE A B C OF THE X-RAYS.

BY W. H. MEADOWCROFT, NEW YORK.

THE American Technical Book Co., 5x7½ in. 189 pp. Price, cloth, 75 cents; paper, 50 cents.

In this little work Mr. Meadowcroft has followed the same style of exposition as that pursued in his deservedly popular "A B C of Electricity." In both, nothing has been sacrificed to accuracy, with the result that those well up in electrical work as well as the layman, can read it to advantage.

The author introduces his subject with a brief sketch of the history of the Röntgen ray and then explains in succession the principles of operation as well as the details of construction of the various parts of an X ray apparatus, including Ruhmkorff and high frequency coils, tubes, circuit breakers, etc., all made thoroughly clear by diagram and pictorial reproductions. The chapters on manipulation and practical suggestions, as well as that on photographic plates will prove all-sufficient for the obtaining of the most satisfactory results.

The book ought to be in the hands of every one interested in X-ray work.

## JOURNAL OF THE TELEGRAPH.

PUBLISHED MONTHLY, ON 30th OF EACH MONTH, AT

195 BROADWAY.

THE JOURNAL is issued on the 30th of each month. Its circulation is nearly 25,000 and is steadily increasing. It goes to every State, Territory and Province on the Continent, and is delivered to all the offices of the Western Union Telegraph Company, which now exceed 21,000 in number. Hence it is the best advertising medium of its class in the world.

## TERMS OF SUBSCRIPTION.

(Invariably in Advance.)

One Copy, one year, postage included.....\$ 1 00  
One Copy, six months, postage included..... 50

Outs charged for according to space occupied.

Business Notices, on Editorial page, 50 cents per line for each insertion.

Nothing inserted for less than one dollar.

A reasonable discount will be allowed on advertisements to remain standing, for which special arrangements can be made.

NEW YORK FEBRUARY 20, 1897

September 1, 1895.

## TO ALL WESTERN UNION MANAGERS:

Particular attention is called to the third remark under Rule 2, which says:

"The importance of the address (of a message) cannot be over-estimated. When the address given seems insufficient, a better one should be requested."

Insufficient addresses not only put customers to inconvenience from the delay necessary to obtain additional particulars, but they create expense to the Company in the use of the wires for the transmission of service messages, and sometimes in the defence of suits arising from claims for damages.

Managers and receiving clerks are therefore requested to keep the rule well in mind and to give the subject particular attention as occasion demands.

THOS. T. ECKERT,  
President and General Manager.

GOVERNMENT telegrams that Army Officers send, not written upon the (blue) official form furnished by the Quartermaster General, should invariably be paid for by their senders—but, government telegrams that Army Officers send, written upon the (blue) official form furnished by the Quartermaster General, should be accepted without payment by their senders, and being transmitted checked "paid govt. rate," should (unless otherwise specially directed) be taken credit for in, and turned in (as voucher for such credit) with, the monthly Form No. 4 Report.

The foregoing applies only to government telegrams of Army Officers, and does not apply to other government telegrams.

All Weather Bureau telegrams should also be accepted without payment by their senders and being transmitted checked "paid govt. rate" should also be taken credit for in, and turned in with, the monthly Form No. 4. Report.

TREASURER'S OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, January, 1893.

To Superintendents: I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1891) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

First. Every remittance to the treasurer must be accompanied by a letter of transmittal, written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expense must be reported, like any other item, in the monthly account current (Form 4.) Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

Second. Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5.00, 5 cts.	Over \$40.00 to 50.00, 15 cts.
Over \$5.00 to 10.00, 8 cts.	Over 50.00 to 60.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over 60.00 to 75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over 75.00 to 100.00, 30 cts.
Over 30.00 to \$40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank drafts can be obtained at less expense.)

Third. If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

Fourth. If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

Fifth. If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

Sixth. Drafts, express money orders and post office money orders must be made payable to R. H. Rochester, Treasurer, and sent by mail. They must not be made payable to R. H. Rochester, without the title.

Seventh. The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

Eighth. The large envelope, Form 124, should be used only for making remittances by express.

Ninth. Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

R. H. ROCHESTER, Treasurer.

UNITED STATES Government telegrams that are filed for transmission by Army officers, on the War Department—Official Telegram form (on blue paper, and certified as on Official Business by the officers sending them) should always be checked "Paid" Govt. rate; but no cash payment required for them from the sender. Each such certified telegram is always a sufficient voucher for the government rate charges due upon it

A MESSAGE sent "collect," reported as "uncollectible," and collected for by sending office from its sender, should always be booked and reported as it was originally checked—and should never be booked and reported as if checked "paid." See Rule 69 Western Union Book of Rules. The amount collected from sender should be reported in the Form No. 4 Report as Receipts for "Guaranteed Messages"—and should not be reported as "Telegraph Receipts."

THE attention of all telegraph offices is directed to the following decision of the Secretary of War, in relation to telegrams regarding leaves of absence of army officers:

"Telegrams sent to any headquarters, making application for leaves of absence, or extension of leaves, or of inquiry whether leaves have been granted, and the replies made by telegraph thereto, are regarded as personal, and must not be sent or paid for as public dispatches."

NEW YORK, May 30, 1894.

To All Western Union Managers:

You are authorized to send "collect," without the guarantee required by Rule 18, messages of traveling agents or representatives addressed to their home firms, upon sufficient evidence of their connection with those firms.

THOS. T. ECKERT,  
President and General Manager.

JOHN W. KIRK.

JOHN W. KIRK, who was closely associated with the telegraph from its beginning, died at Piqua, O., on January 14th. He was born at Connellsville, Pa., January 31st, 1814, but in his early youth removed to Ohio. In its early days before the advent of railroads, he became identified with the stage business, through which he was brought into relations with the Post Office Department, and thereby received the appointment to superintend the expenditure of the appropriation made by Congress to test the practical value of the electric telegraph. This brought him into close relationship with Prof. Morse, and he was associated with the first public triumph of the line built between Washington and Annapolis Junction, in the transmission by it to Washington of the information that Henry Clay was nominated for the Presidency at the Whig convention of 1844 held at Baltimore.

He was one of the passengers on the steamboat "Griffith," burned on Lake Erie two generations ago, when a dead body found on the beach was for some time supposed to be his. His hair turned gray within twenty-four hours after that catastrophe, and the impressions of a drowning man from his experience were interestingly portrayed by Robert Dale Owen. His burial was in Forest Hill Cemetery at Piqua.

#### M. B. LEONARD.

M. B. LEONARD, Superintendent of Telegraph of the Chesapeake & Ohio R. R. Company, and President last year of the Association of Railway Telegraph Superintendents, died at Richmond, Va., on February 6th, of a cancerous affection of the throat.

He was born in Philadelphia in 1856, and in his youth became a Western Union operator at New York, but soon changed therefrom to Railroad service, at first with the New York Central Company, then with the Erie Company, and for the past fifteen years with the Chesapeake & Ohio Company.

THE daily papers of London are printing glowing accounts of a new scheme to light English prisons by electricity, the power to be generated by treadwheels, these to be operated by the inmates. The matter is not seriously considered.—*Electrical Journal*.

WHAT is the limit of speed in telegraphy? The question has been answered many times, but in each case it has been found necessary to revise the answer soon after it was given, as a few more seconds were clipped off the record. When the name of the winner of the Derby is known in all the principal points of the United States a quarter of a minute after the contest is over; when the result of an international yacht race with three relays is announced in Glasgow 44 seconds after the winner sails across the finish line in New York's lower Bay, it seems as though the practical annihilation of time was accomplished. But the men who spend their time in trying to improve the telegraphic service have not been satisfied with these astonishing records, and have tried to drive the time limit still nearer the vanishing point. As a result of their efforts it may be said that the number of relay points have been reduced to a minimum and that if time will not wait for any man it will at least almost stand still sometimes.

The fastest service, both in public and private wire work of the Western Union Telegraph Company, has regularly been between the great exchanges of the country, viz.: New York, Chicago, St. Louis, Boston and New Orleans, and also many smaller cities where business interests are not so heavy. Especially is this noted between the Stock and Produce Exchanges of New York and Chicago. This has been so principally because of the millions of dollars annually invested therein, which hinge on the momentary fluctuation of the market, and consequently demand the fastest service that can possibly be equipped and arranged for regardless of expense.

The limit, for the time being at least, has now been reached by an improvement which was recently made in the connection between

the Produce Exchanges in these two great centres of American trade. The floors of the two Exchanges have for a long time been connected by direct wires, so that only a few seconds were consumed in sending information from one to the other. Some time ago, however, the Western Union's manager in New York suggested that time might be saved in sending quotations if a telegraph apparatus was set up in the wheat pit itself. This meant saving a trip of perhaps fifteen feet between the wheat pit and the telegraphic booth, but in saving off seconds one must cut exceedingly thin, and even the smallest things have to be taken into account. The change brought about by the adoption of this suggestion may best be observed by taking a peep into the New York Produce Exchange, for instance, at the opening of business.

At one side of the circle known as the wheat pit stands a high box, which looks like an old-fashioned pulpit, and in which two men are sitting. In front of one of them is a telegraph instrument, the wire from which runs directly to the floor of the Chicago Exchange, and before the other is a set of keys, controlling the big indicator at the end of the room, which announces at every moment of the day the ruling price of wheat on the floor of the Exchange. As soon as the first bid is offered, before the sound of the man's voice can travel across the floor of the Exchange, the operator in the pulpit presses one of his keys, and the big indicator on the great dial flies around to the figures named in the first transaction. In the second while we have been watching the performance, the "reporter," who has been standing just below the pulpit among the brokers, has scratched the same figures on a yellow slip, has passed this sheet up to the man above him, and the opening price in New York is written in a lightning flash at the Chicago end of the wire.

The booth in which the wire terminates on the floor of the Chicago Exchange is at one side of the room, next to the blackboard on which the New York quotations are displayed. The slip on which the message is received is handed directly to the man at the board, who chalks down the figures with the speed that long practice has given him. The whole transaction occupies perhaps five seconds, and is repeated every time a fresh transaction is made throughout the day. The difference between the time it takes the message to travel across the floor of the New York Exchange, less than 100 feet, and to Chicago, 1,000 miles away, is so slight that the announcement may be said to be made simultaneously in both places. This represents the perfection of telegraphic communication as carried on at present.

It is quite true, also that a message may be sent and an answer received through the private offices on the floors of these Exchanges, where leased wires are had, more quickly than through the public telegraph offices. It is a matter of record that a message has been sent from New York to Chicago, delivered to a broker on the floor of the Exchange, and an answer returned to the sender in New York, all in thirty seconds. In fact this has been done several times. The New York manager of the Western Union is authority for the statement, that in sending the thousands of

messages which travel back and forth between the two Exchanges over the public wires the average time between receiving a message and delivering its answer is not more than two minutes and one-half. It is an interesting fact that if a New York business man sends two messages at the same time, one addressed to the uptown district of his own city, and the other to the business part of Chicago, or any of the great cities, the chances are that the second message will reach its destination first. The reason for this is simply that the facilities for sending the second message are better than for the first.

Of course in accomplishing the quick work which has been described the completeness of the connection is not the only factor, though it is very important. The operators employed in this work are all men who have been carefully picked from the most skillful operators in the service of the company, the transmitters and receivers are of the latest patterns, and every precaution is used to secure accuracy and speed, where the slightest deficiency in either, may mean the loss of thousands.

Of late years the vast business interests between the Atlantic and the Pacific Coast cities have greatly increased. This necessitated more direct communication between New York and San Francisco, which was done by replacing iron telegraph wires with copper, and doing away with several of the relay stations, thus forming a direct land route by telegraph from the Pacific to the Atlantic, and enabling a bulletin on anything of interest that happens here to be flashed across the continent in ten seconds time.—*New York Sun*.

PROBABLY the largest X-ray coil is the one recently completed for the Western University, under direction of Professor Fessenden. It is wound with 50 miles of small wire, and is arranged to give a spark over 20 inches long, while the capacity of the machine reaches 80 inches. The current is received from two portable storage batteries.—*Electrical Review*.

ACCORDING to *Engineering*, some recent researches by Captain Abney show that the light of the starry sky is to that of the full moon about as 1:44,000. The latter is usually considered to be about as 1:600,000 to that of the sun at noon, so that we receive over 13,000,000 million times as much light as from the stars, taking both hemispheres into consideration.

THE electric letter box is by no means an unfamiliar device. As the postman's mail is dropped into the street door box, electric contact is made and a bell is rung in the kitchen. This is a very simple and admirable provision against the possibility of an important letter that may demand an instant reply lying unnoticed in the box. A variation of this device is now used for calling the attention of postal clerks to the incoming of special delivery letters. The invention, which is credited to a former letter carrier, consists of a slanting box, at the lower end of which there is a sheet of metal working on swivel points. When the letter is dropped into the box it slides down upon the metal sheet and holds the lower edge down, thus making an electric circuit that rings a bell continuously until somebody goes to the box and lets the letter out, which is done by unhooking and raising the front part of the box. Electric letter boxes are the newest addition to the department houses.—*The Electrical Journal*.

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, February 20, 1897.

The following list of "Changes" corrects the Tariff Book of January, 1897, to date. Changes in the list of "New Offices" are not included.

The hand **✱** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices," which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Chester Heights, Pa., which was formerly a double star station, but which is now a Western Union office in Square 59.

See Special Notices at end of this circular.

### CHANGES.

A modification of Rule 68, to take effect on and after January 1, 1897, has been authorized. As modified, the rule will read:

Rule 68. Sunday's messages will be entered as a part of the previous Saturday's business, except when the first day of the month falls on Sunday, in which case Sunday's messages will be entered as a part of the business of the following Monday.

Extra charge for boat hire in addition to rate to Jask is now \$8.82

The Atlantic Cable rate from Wyoming to Great Britain, Ireland, France and Germany, is 34c. per word.  
Correct Tariff Book, page 407.

## SPECIAL NOTICES.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc., do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own state.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated as night message offices in the Tariff Book.

Offices having special rates, should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 407 to 422, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 855 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 185), Catskill Mountains (page 189), and Lake George (page 197.) When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the

sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Notifications of the arrival of steamers at the Port of New York will be forwarded to any address during the Company's usual office hours, upon payment of \$1.00, plus the tolls for a ten word message between New York City and the office ordering the report.

Orders should be addressed to Manager Marine Department, New York City.

This order does not apply to New York City, Brooklyn, Hoboken or Jersey City.

THOMAS T. ECKERT,  
President.

## TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, February 18, 1897.

## To All Transfer Agents and Offices:

On February 8th, Waterbury, Conn., was advanced from Class D, to Class B, transfer office.

On February 15th, Miamisburg, Ohio, was added to the list of Class E, transfer offices in C. E. Page's district.

Journal of January 20th, says transfer service temporarily discontinued at Natoon, Ill., should read Mattoon, Ill., also says Canon City, Greeley and Telluride, Col., new transfer offices in B. J. Dickey's district, should read J. J. Dickey.

Managers will correct their lists accordingly.

THOS. T. ECKERT,  
President.

## STAGE SETTING AIDED BY ELECTRICITY.

SOME POPULAR PLAYS AND WHAT ELECTRIC LIGHTING DOES TO ENHANCE THEIR BEAUTY.

NEARLY all of the most perfect effects where Light is employed on the stage are produced by the stereopticon, or that most powerful adaptation, the sciopicon, many of the stage uses for which I described in the August number of this Magazine. One of the most beautiful and natural phenomena that the sciopicon produces upon the scene of the stage is the rainbow. Painted stereopticon slides were used for many years to produce this effect, but the result was crude, and they were never an artistic success. The latest method is to project the rays of an 8,000-candle-power arc light through a five-inch lens, thence through the opening of a glass slide cut out to form the familiar semicircle of the rainbow, and through a set of glass prisms, causing the separation of the various colors, of which white light is composed. The glass prisms take the place of the natural prisms formed by myriads of water-drops through which the rays of the sun pass in making the rainbow in the sky.

The aurora borealis, the well-known phenomenon of the Arctic regions, is another subject for fine stereopticon effect, and is being shown very successfully in the Arctic melodrama, "Under the Polar Star." For this effect two circular glass discs of equal size are prepared by painting upon the edges a succession of opaque lines running from the center to the outer edges, in imitation of the streaks of

light produced by the aurora. These discs are revolved in opposite directions by micrometrical screws. The powerful rays of light piercing a red medium are projected through these discs, producing fierce, fiery rays intersecting each other, and shooting upward from the horizon line far into the heavens. The discs can be prepared so that these northern lights are made to assume various forms, as they appear in nature. Some are like hanging drapery of silk and lace, the folds of which hang in giant lengths from the clouds, and these are accurately and very effectively produced for stage illusion. The discs are operated upon a common axis in a small box, which is fastened in front of the lenses of the sciopicon. They are moved by means of a hand-crank; a spring presses the gearing hard upon the edges of the discs and produces friction enough to move them rapidly around in opposite directions. The opening in the box through which the rays of light are projected, may be cut in relief to conform to the outlines of the landscape, or of floating icebergs.

A very startling stage effect, used in battle scenes, is the explosion of a bomb-shell "in full view of the audience." Electricity, a willing slave in the hands of a skillful operator, makes it possible to produce the sound and flash of a bomb so that the full effect is heard and seen, and at the same time with little or no danger. The bomb is prepared of a solution of fire-proof papier-mache, glued together in sections so that it may be easily blown into small pieces upon the discharge of a large firecracker hidden upon its inside. The operator stands in the wing waiting for his cue. He holds the bomb in hand. Under his foot is a push button connecting electric wires, one with the firecracker in the bomb, another with a small cannon or a battery of firecrackers hidden from the audience by the scenery. At hearing the word which acts as his cue to proceed, he throws the bomb upon the stage. A piece of fuse attached to the bomb, sparks and sizzles menacingly. The audience watch with bated breath. At the proper instant he presses the button underneath his foot, and with a deafening explosion the bomb is seen to burst with a flash of light.

A most realistic bit of scenic detail is found in the play "On the Mississippi." One of the scenes depicts a southern swamp, glowing with the phosphorescent light of fire-flies. The secret of this effect is a net hung in front of the back scene, upon which are fastened small Geissler tubes. These wormy little tubes are connected individually to a battery operated by a keyboard, and can be excited at the will of the operator. By swinging the net gently backward and forward the motion of the flying lightning bugs is perfectly produced.

In the opera of "The Flying Dutchman" the hidden genius of the stage produces electrically the phenomenon of St. Elmo's fire, which occurs in the tropics on account of the electrical tension between the earth and the clouds, producing glowing streaks of bluish-white light on the topmasts and yards of ships. A 100 candle power arc lamp, placed on top of each mast, and operated individually from a keyboard, is the means by which this effect is produced.

Clouds of steam are always effective in adding to the beauty of a stage picture on account of their susceptibility of taking the color of calcium or electric lights. A box about fifteen

feet in length, having half-inch open slits in the top through which the steam escapes, is masked behind a low set piece of rock or shrubbery, and connected at either end with steam pipes. As the clouds arise, a row of white, red and blue incandescent lights from behind gives the appearance of sunlight sparkling on the mist of a waterfall. When used for this purpose a most startling effect is made by playing the rainbow upon the clouds. A familiar use of this steam appliance is in the last act of the German opera "Die Walkure," and in the Brocken scene in "Faust."

One of the most pleasing uses to which electricity has ever been put on the stage has been seen in the electric dances; not so much in this country as in Germany and France, especially at the Paris Casino. The dancers wear dresses in which are hidden miles of fine electric wires, which are connected either through metal plates in the stage or by wires running directly to the operator standing behind the scenes. Multi-colored lights are flashed from the hair, corsage, belt and ankles of the dancer in iridescent splendor. One performer made very effective use of a skipping-rope composed of globes of colored incandescent lights, each surrounded with flower-like petals and glass, and alternating with small oblong strips of mirror glass that reflected the brilliancy of the light and multiplied its colors. Sometimes one of these specialties utilizes the light produced by a ten horse-power engine.

The French are the pioneers of the danse lumineuse, and it was in existence in their country twenty-five years before dynamos were made, being produced with the aid of electric cell batteries. The famous inventor of electric effects, M. Gustave Trouve, first brought out the electric dance. In the early gorgeous productions of the "Black Crook" many electric torches, crowns, jewels, hairpins, belts and necklaces were used. Sita, a once famous electric dancer, used six hundred small lights in her costume.

The very latest application of electricity in dancing is that invented by Loie Fuller, consisting of moving yards of skirts in the light of focusing lamps, distributed at different points on the stage, overhead, in the wings, and from underneath the stage through a plate of glass upon which the dancer moves—*Claxton Wilstach, in Godey's*.

There has recently been more interest in electrical stocks, not only in New York, but in this and the Boston markets. No industry in the country has such good prospects for business and immediate profits. All the leading concerns have orders ahead, and the prospect is for a big year.—*Phila. Press*.

According to Fitz Gerald, one pound of carborundum required about seven-hp hours for its production.

#### AN EPIDEMIC IN RAYS.

ACCORDING to the Vienna correspondent of a London paper, Prof. Friedrich stated at the Vienna Academy of Sciences that he had discovered a new species of rays which show definitely whether death has taken place; pictures taken on photographic plates differ according to whether the body traversed is dead or living.—*Electrical World*.

THE Bressa prize of the Royal Academy of Sciences of Turin will be awarded in 1899. The value of the prize is nearly \$3,000. It will be given for the most important scientific work produced during the years 1895-1898. The term will be closed at the end of December, 1898. The competitors must send their contributions in print before the above-stated time. The prize may, however, be awarded to a non-competitor, if he is considered the most worthy to receive it.—*Scientific American*.

#### GOLD AND STOCK LIFE INSURANCE ASSOCIATION.

195 BROADWAY, NEW YORK.

THE GOLD AND STOCK LIFE INSURANCE ASSOCIATION is a fraternal Association, organized in 1878, for the purpose of affording to Telegraphers and others in Electrical pursuits, the advantage of insurance on a plan differing somewhat from the usual method followed by most insurance companies and associations.

The plan of the Association is briefly:

Initiation Fee.....\$1.00  
Dues per Month......50

Payments to beneficiaries of deceased members, \$50 per month for ten months, or total insurance, \$500.

Any person, of not less than eighteen or more than forty-five years of age, who is, or who has been engaged in telegraph or other electrical service, eligible to membership.

Medical examinations are not required when the general good health, family history and character of the applicants appear to make such examinations unnecessary.

The "GOLD AND STOCK" has been in active operation for nineteen years, and since its organization has collected and disbursed to beneficiaries of its deceased members over \$40,000.

It is in no sense antagonistic to, nor in competition with, other insurance organizations, relying upon the telegraphic fraternity for support.

The plan of monthly payments to beneficiaries will be found to be a welcome supplement to other policies, and the promptness with which all obligations have been discharged, as well as the rigid economy with which the business has been conducted, should commend the Association to all.

President: R. J. HUTCHINSON, N. Y. Stock Exchange, New York.

Vice-President: A. J. DRIVER, Gold and Stock Telegraph Co., New York.

Treasurer: M. BRISTOL, New York.

Secretary: WM. J. DEALY, W. U. Telegraph Co., New York.

## THE ADAMS CABLE CODEX.

*Eighth Edition, Just Published.*

This code is especially gotten up for the use of travellers by sea or land, and contains over 10,000 sentences referring to business and social matters, and covers such topics as Arrival and Departure, Business, Buying and Selling, Bonds and Stocks, Condition of Market, Congratulations, Drafts, Financial, Illness, Letters of Credit, Letters and Telegrams, Returning Home, Securing Staterooms, Shipment, Shipping, Standing of Firms, etc.

It should be in the hands of every one who uses the land or ocean telegraph lines. It saves its cost many times over in one message, and in one case one code word covers over 70 words of text.

Price, in cloth, 50 cents; in paper, 25 cents. By mail, 4 cents postage extra.

For a limited time only telegraph operators can obtain a sample copy of this code, by sending 14 cents in stamps.

Operators at principal telegraph and cable offices of the Western Union Telegraph Co. throughout the country can obtain the wholesale discount on any codes ordered of us.

## A SMALL HAND DYNAMO AND "BUBIER'S POPULAR ELECTRICIAN"

Sent one year for only \$2.00. Express on dynamo to be paid by receiver. The dynamo is suitable for experimental work, gives shocks, rings magneto bells, will light a small lamp, etc. Weight about 7 pounds.

"Bubier's Popular Electrician" is an illustrated monthly 12 page magazine, devoted to electricity and mechanics. The article are written in plain language that any one can understand. Price of dynamo without magazine, \$1.50. Price of magazine without dynamo, \$1.00 per year. Catalogue of books on electricity sent free. Address

BUBIER PUBLISHING CO., Lynn, Mass.

## ARM REST FOR TELEGRAPH OPERATORS.

One of the most practical patented inventions of the day, supplying a long felt want. Operators know how tiring their work is to the arm; and often it leads to paralysis. The "Rest" prevents that disease, and cures it when contracted. It is invaluable to beginners. Substantially made of hard wood and leather, highly finished.

Sent post-paid for only \$1.00.

AGENTS WANTED.

HENRY W. GOODROE,

Hinesburgh, Vt.

TRADE MARKS,

 Cleveland, Ohio.

**No. 2 O. K. Outfit,**

WITH SOUNDER AND KEY

On same base, or separate, as ordered.

Complete Outfit - - \$8.75

Sounder - - - - 2.25

Key - - - - - 1.00

Sounder and Key on one base 8.25

The above Outfits consist of a beautiful Sounder wound to 20 ohms, and one of my unrivaled Nickel Plated, Legless, Steel Lever Keys; One Cell 5x7 Battery (or 6x8 Battery, 10c. extra); 15 ft. Insulated Office Wire, 1 lb. Vitrol, 1 Instruction Book, all safely packed, and will be shipped on receipt of price, or sent C. O. D., subject to inspection, if you send me \$1.00 with order. State whether you wish Key and Sounder on same Base or separate. Write your address plain and full, also state by what Express Company you wish goods shipped. Address,

**I. H. MOSES,**

36 SOUTH WATER ST., CLEVELAND, OHIO.

## PONY TELEPHONE RECEIVERS.

This telephone receiver weighs only 6 ounces. The spool is wound with silk wire to the standard resistance of 75 ohms. The binding posts will not get loose. The shell of the receiver is of cast steel and is strongly magnetized. The adjustment is rigid and will not become changed even by the greatest carelessness.

It is a perfect working telephone receiver, and one that costs ten times as much will not work better.

With suitable signal apparatus, this telephone receiver makes a complete telephone outfit, as it can be used as a transmitter and receiver combined.

The price, as well as the instrument, is small. We always make low prices on our specialties, in order to make them up in quantities.

Price.....50 Cents.

# EUREKA TELEGRAPH OUTFIT

Outfit Complete, With Battery, \$2.25.

(Without Battery, \$1.75.)

Sent by express C. O. D., when the express charges are guaranteed by express agent.

## DESCRIPTION.

The Eureka Learner's Outfit, as shown by illustration, is a first class, full size telegraph set. All of the working parts—which includes key lever, sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. The key is of the curved lever pattern, and sounder gives a loud and clear sound, equal to the best expensive instrument.

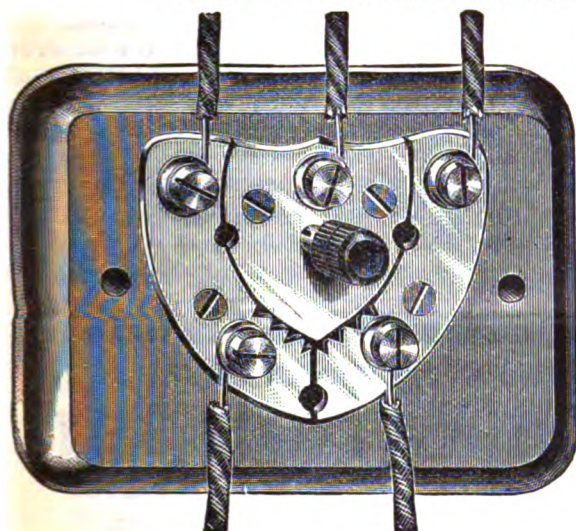

## THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.	\$2.25
Eureka instrument only (no battery or wire), for short lines.	1.75
Eureka instrument only, wound for lines 1 to 15 miles.	2.00
Postage on instrument only (battery not mailable).	.40

We claim this the BEST low priced telegraph set ever made. Its one of our specialties, and made in large quantities.

## UNION LIGHTNING ARRESTOR AND GROUND WIRE SWITCH.

(Illustration full size.)

Just the thing for private telegraph lines. Serves as a lightning arrestor, cut out and also ground wire switch.

Price, each,

\$0.50.

## SMALL ANNUNCIATORS.

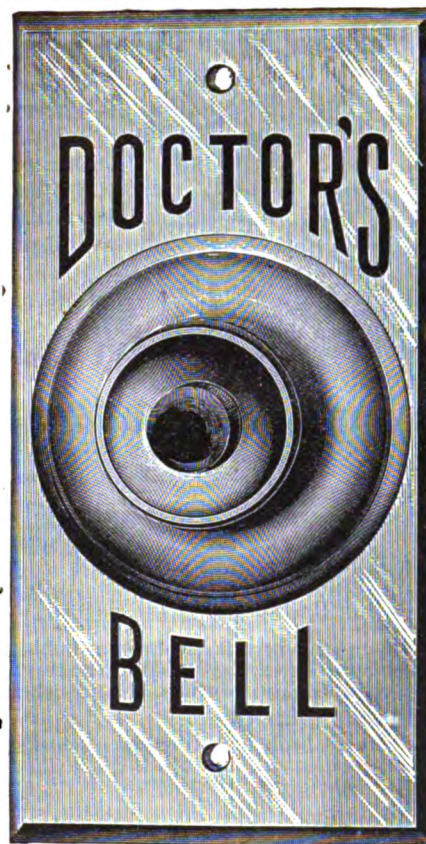

We make all sizes, but this pattern is intended for use where a small case is desired. It is reliable and sold at a low price. Gravity drop pattern. Tags furnished with any numbers, or lettered as desired.

Price, No. 2..... \$2.00.

" 4..... 3.00.

" 6..... 3.75.

# J. H. BUNNELL & CO.'S STEEL LEVER SOLID TRUNNION KEYS.

OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

**THE BUNNELL STEEL LEVER KEY** is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is *only one-half the weight* of the ordinary brass lever as generally made. The entire Lever and Trunnions together being made of *but one piece* of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of *hardened platina points, sticking is absolutely prevented.*

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

PRICE,  
1.75.

**LEGLESS PATTERN STEEL LEVER KEY**  
New Form with Open Base.

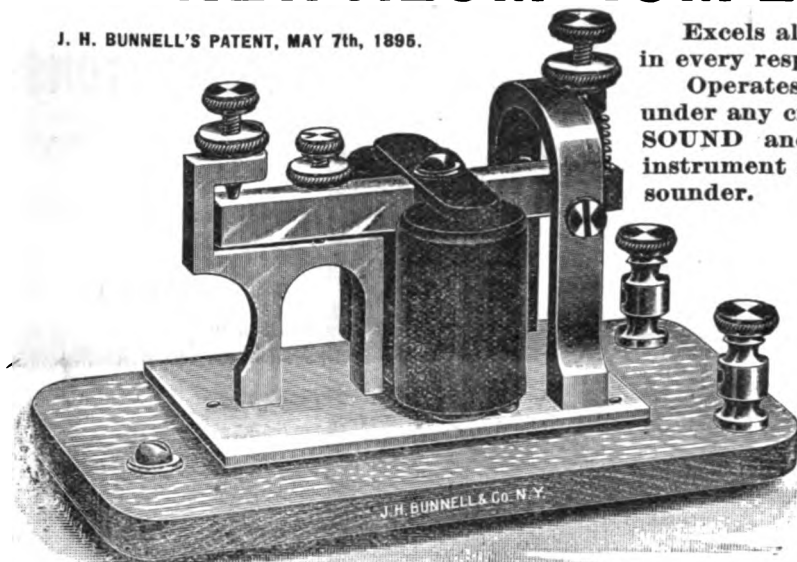

A beautiful and perfect Key suitable for use on Fine Decks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

## THE NEW ALUMINUM LEVER GIANT SOUNDER

J. H. BUNNELL'S PATENT, MAY 7th, 1895.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the **FINEST** and **BEST SOUNDER** ever designed.

Operates with **ONE CELL** only of LOCAL, having no need whatever under any circumstances for the use of two cells. The **MARGIN** of **SOUND** and **STRENGTH** and **QUICKNESS** with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length, \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

## NEW GIANT SOUNDER, 20 OHMS RESISTANCE, AND STEEL LEVER KEY COMBINATION SET,

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. **Price, \$4.50.** Sent by mail to any distance, carefully boxed, and **PREPAID** by us, on receipt of the above price.

Same set, but wound to 3 ohms (local), **\$4.00.**

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an **Extra Fine LEARNERS' OUTFIT, \$4.75.**

## NEW MAIN LINE SOUNDING RELAY WITH ALUMINUM LEVER.

Gives more than three times the volume of sound given by the very best Box Relays, or any other form of sounding Relays, for short or long main lines, ever before produced.

They are unequalled for Wrecking Instruments, Testing Sets, Switch-board Sets, Temporary Offices, and all places where it is desirable to dispense with the use of Local Batteries.

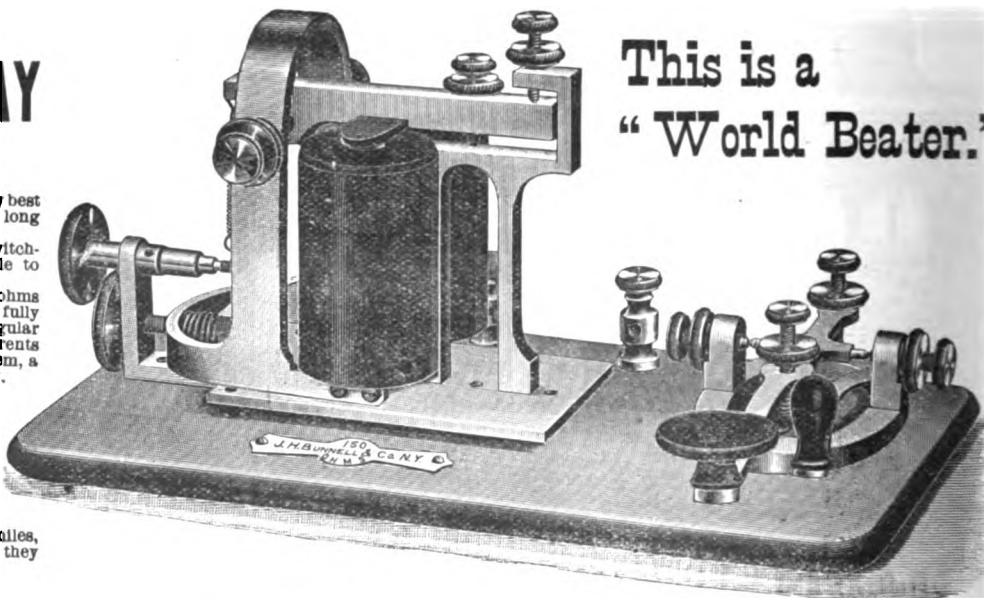

These instruments are made with full size relay magnets 150 ohms resistance, having both magnet and armature adjustments and fully suited for doing, in a greatly improved manner, the work of regular main line Box Relays. They are highly sensitive to the weakest currents and will give a clear working sound on circuits where, without them, a relay with local sounder and battery would be absolutely necessary.

Price, 150 ohms Resistance, with Key on Base .. .. .	\$9 00
without Key .. .. .	8 00
In Mahogany Case, for Wrecking Sets, \$2.50 extra.	
Price, 200 to 300 ohms, with Key on base .. .. .	8 50
without Key .. .. .	8 50
Price, 20 to 100 ohms, with Key on Base .. .. .	8 50
without Key .. .. .	7 50

This latter class for all circuits from a mile or two up to 100 miles, when with ordinary main battery power suitable for such lines, they are equal to the best local sounders.

Write for Special Discounts.

Patented May 7, 1895.

J. H. BUNNELL & CO., 76 Cortlandt Street, New York.

**FREE! COMPLETE INSTRUCTION IN TELEGRAPHY.** If you wish to know all about learning Telegraphy, constructing and operating Short Lines of Telegraph, etc., send your address by postal card or letter, and get J. H. BUNNELL & Co.'s Manual of Instruction for Learners of Telegraphy, latest edition, which we will send free of charge to all who apply by mail or otherwise. It is the plainest and best book of instruction in Telegraphy ever published, being fully complete in description, explanation and illustrations.

**The Standard Dry Battery,**

J. H. BUNNELL & CO., Sole Manufacturers.

This improved form of Dry Battery having been thoroughly tested in comparison with all others, is presented to the Electrical Trade, and to all users of Open Circuit Battery, as the very best yet produced.

Its very compact form, being smaller than any other of equal capacity, and its

**Great Strength, Durability  
and Recuperative Power**  
Are its Chief Merits.

OVER 400,000 CELLS IN USE.

It is a first-class Dry Battery for Electric Bells, Telephones, Gas Lighting, Burglar Alarms and all open circuit work.

**PRICE, 50 CENTS PER CELL.**

Special Discount to the Trade.  
Write for Quotations before ordering.

**The "Morse" Learners' Outfit**

**\$2.75 THE BEST \$2.75**

The "Morse" Outfit is a full size, well made, complete MORSE TELEGRAPH apparatus of the latest and best form for learners, including handsome giant Sounder and Curved Key, and a large Cell of the best Gravity Battery, latest form.

It is the best working set of learners' instruments for short or long lines, from a few feet up to 20 miles in length, yet offered.

All the working parts, including Sounder Levers, Sounder Yokes, Key Levers, Adjusting Screws, etc., are finely finished BRASS Composition, the same metal as in all other first-class instruments.

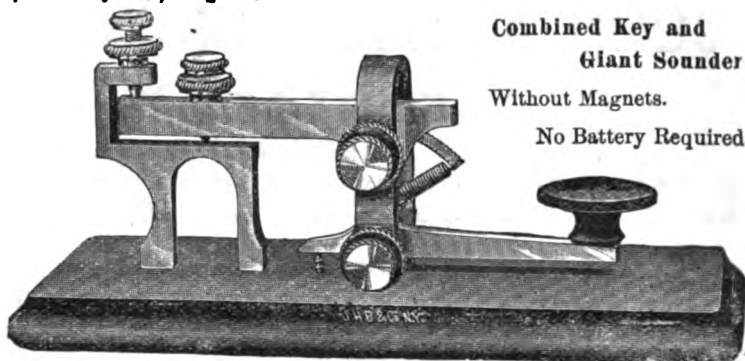

The magnets are strong. The Sounder is loud and clear. The Key is of handsome pattern, nicely finished and extremely easy and pleasant to operate.

**NEW "No. 2" IMPROVED MECHANICAL TELEGRAPH INSTRUMENT.**

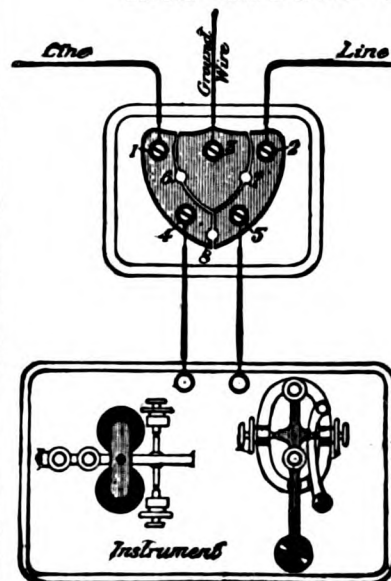

Works Perfectly as a Key, with Sound equal to the best Sounder.

FOR MORSE ALPHABET PRACTICE in sending and reading by sound, and for LEARNING OR TEACHING THE MORSE ALPHABET. Can be carried in the pocket or satchel, and is always ready for use. Works exactly like the very best Sounder and Key Combination Telegraph Set, giving loud, clear sound, with slightest force or movement of Key. All made in first-class instrument Composition Brass, same pattern as best Giant Sounder.

Price, with Telegraph Instruction Book, package of Morse Alphabet Cards, etc., \$1.50. Sent anywhere in the United States, by mail, prepaid, on receipt of price, in stamps, postal or express money order, or registered letter.

Combined Key and  
Giant Sounder.  
Without Magnets.  
No Battery Required.

**The Union Lightning Arrester and Ground Switch.**

As lightning is frequently attracted to outdoor lines and thereby enters the offices, sometimes damaging the instruments, or even setting fire to curtains or other inflammable material about the instrument table, a simple and cheap instrument called "lightning arrester and cut out," is used for the purpose of intercepting and carrying to the earth such discharges of lightning as would be liable to cause damage. This apparatus is entirely effective, and is a complete safeguard against lightning.

**PRICE, 50 CENTS BY MAIL, PREPAID.**

Send for our **LATEST CATALOGUE**, January, 1895, containing 224 Pages and nearly 700 ILLUSTRATIONS the **VERY BEST** Telegraph and Electrical Supplies ever offered to the trade.

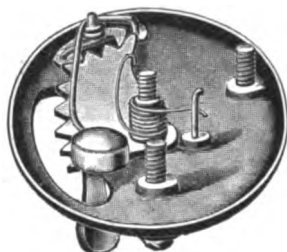

For all or any of the above, address **J. H. BUNNELL & CO., 76 CORTLANDT STREET, NEW YORK.**

## LAUGHLIN BICYCLE BELLS

	\$9,341,361 44
From which deducting for—	
Dividend of 1¼ per cent. paid January 15th.....	\$1,191,961 25
Interest on bonded debt.....	323,368 70
Sinking funds.....	20,000 00
	\$1,435,319 95
Left a surplus January 1st, 1897.....	\$7,906,041 49
Surplus January 1st, as above .....	\$7,906,041 49
The net revenues of the quarter ending March 31st, instant, based upon nearly completed returns for January, partial returns for February, and estimating the business for March, will be about.....	1,100,000 00
	\$9,006,041 49
From which appropriating for—	
Interest on bonds.....	\$323,368 70
Sinking funds.....	20,000 00
	\$343,368 70
It requires for a dividend of 1¼ per cent. on capital stock issued, about.....	1,191,961 25
Deducting which leaves a surplus, after paying dividend, of.....	\$7,570,721 54

In view of the preceding statements, the Committee recommend the adoption by the Board of the following:

**Resolved,** That a dividend of one and one-quarter per cent. on the capital stock of this Company be hereby declared payable on and after the 15th day of April next, to stockholders of record at the close of the transfer books on the 20th day of March, instant.

**Resolved,** That for the purpose of the dividend hereinbefore declared, the stock books of the Company be closed at three o'clock on the afternoon of the 20th day of March, instant, and be reopened on the morning of the 1st day of April, next.

Respectfully submitted,

THOMAS T. ECKERT, *President.*

## TESLA ON ELECTRICITY.

HIS ADDRESS IN FULL ON THE OCCASION OF  
THE COMMEMORATION OF THE INTRO-  
DUCTION OF NIAGARA FALLS  
POWER IN BUFFALO, AT  
THE ELLICOTT CLUB,  
JANUARY 12, 1897.

I HAVE scarcely had courage enough to address an audience on a few unavoidable occasions, and the experience of this evening, even as disconnected from the cause of our meeting, is quite novel to me. Although in those few instances, of which I have retained agreeable memory, my words have met with a generous reception, I never deceived myself, and knew quite well that my success was not due to any excellency in the rhetorical or demonstrative art. Nevertheless, my sense of duty to respond to the request with which I was honored a few days ago was strong enough to overcome my very grave apprehensions in regard to my ability of doing justice to the topic assigned to me. It is true, at times—even now, as I speak—my mind feels full of the subject, but I know that, as soon as I shall attempt expression, the fugitive conceptions will vanish, and I shall experience certain well-known sensations of abandonment, chill and silence. I can see already your disappointed countenances and can read in them the painful regret of the mistake in your choice.

These remarks, gentlemen, are not made with the selfish desire of winning your kindness and indulgence on my shortcomings, but with the honest intention of offering you an apology for your disappointment. Nor are they made—as you might be disposed to think—in that playful spirit which, to the enjoyment of the listeners, is often displayed by belated speakers. On the contrary, I am deeply earnest in my wish that I were capable of having the fire of eloquence kindled in me, that I might dwell in adequate terms on this fascinating science of electricity, on the marvelous development which electrical annals have recorded and which, as one of the speakers justly remarked, stamp this age as the Electrical Age, and particularly on the great event we are commemorating this day. Unfortunately, this my desire must remain unfulfilled, but I am hopeful that in my formless and incomplete statements, among the few ideas and facts I shall mention, there may be something of interest and usefulness, something befitting this unique occasion.

Gentlemen, there are a number of features clearly discernible in, and characteristic of, human intellectual progress in more recent times—features which afford great comfort to the minds of all those who have really at heart the advancement and welfare of mankind.

First of all, the inquiry, by the aid of the microscope and electrical instruments of precision, into the nature of our organs and senses, and particularly of those through which we commune directly with the outside world, and through which knowledge is conveyed to our minds, has revealed their exact construction and mode of action, which is in conformity with simple and well-established physical principles and laws. Hence the observations we make and the facts we ascertain by their help are *real* facts and observations, and our knowledge is *true* knowledge. To illustrate: Our knowledge of form, for instance, is dependent upon the positive fact that light propagates in straight lines, and, owing to this, the image formed by a lens is exactly similar to the object seen. Indeed, my thoughts in such fields and directions have led me to the conclusion that most all human knowledge is based on this simple truth, since practically every idea or conception—and therefore all knowledge—presupposes visual impressions. But if light would not propagate in accordance with the law mentioned, but in conformity with any other law which we might presently conceive, whereby not only the image might not bear any likeness to the object seen, but even the images of the same object at different times or distances might not resemble each other, then our knowledge of form would be very defective, for then we might see, for example, a three-cornered figure as a six or twelve-cornered one. With the clear understanding of the mechanism and mode of action of our organs, we remove all doubts as to the *reality* and *truth* of the impressions received from the outside, and thus we bar out—forever, we may hope—that unhealthy speculation and skepticism into which formerly even strong minds were apt to fall.

Let me tell you of another comforting feature. The progress in a measured time is nowadays more rapid and greater than it ever was before. This is quite in accordance with the fundamental law of motion, which commands acceleration and increase of momentum or accumulation of energy under the action of a continuously acting force and tendency, and is the more true as every advance weakens the elements tending to produce friction and retardation. For, after all, what *is* progress, or—more correctly—development, or evolution, if not a movement, infinitely complex and often unscrutinizable, it is true, but nevertheless exactly determined in quantity as well as in quality of motion by the physical conditions and laws governing? This feature of more recent development is best shown in the rapid

(Continued on page 31.)

(Continued from first page.)

merging together of the various arts and sciences, by the obliteration of the hard and fast lines of separation of borders, some of which only a few years ago seemed unsurpassable, and which, like veritable Chinese walls, surrounded every department of inquiry and barred progress. A sense of connectedness of the various apparently widely-different forces and phenomena we observe is taking possession of our minds, a sense of deeper understanding of nature as a whole, which, though not yet quite clear and defined, is keen enough to inspire us with the confidence of vast realizations in the near future.

But these features chiefly interest the scientific man, the thinker and reasoner. There is another feature which affords us still more satisfaction and enjoyment, and which is of still more universal interest chiefly because of its bearing-upon the welfare of mankind. Gentlemen, there is an influence which is getting strong and stronger day by day, which shows itself more and more in all departments of human activity, an influence most fruitful and beneficial—the influence of the artist. It was a happy day for the mass of humanity when the artist felt the desire of becoming a physician, an electrician, an engineer, or mechanician or—what not—a mathematician or a financier; for it was he who wrought all these wonders and grandeur we are witnessing. It was he who abolished that small, pedantic, narrow-grooved school teaching which made of an aspiring student a galley-slave, and he who allowed freedom in the choice of subject of study according to one's pleasure and inclination, and so facilitated development.

Some, who delight in the exercise of the powers of criticism, call this an asymmetrical development, a degeneration of departure from the normal, or even a degradation of the race. But they are mistaken. This is a welcome state of things, a blessing, a wise subdivision of labors, the establishment of conditions most favorable to progress. Let one concentrate all his energies in one single great effort, let him perceive a single truth, even though he be consumed by the sacred fire, then millions of less gifted men can easily follow. Therefore it is not as much quantity as quality of work which determines the magnitude of the progress.

It was the artist, too, who awakened that broad philanthropic spirit which even in old ages, shown in the teaching of noble reformers and philosophers, that spirit which makes men in all departments and positions work not as much for any material benefit or compensation—though reason may command this also—but chiefly for the sake of success, for the pleasure there is in achieving it, and for the good they might be able to do thereby to their fellow-men. Through his influence types of men are now pressing forward, impelled by a deep love for their study, men who are doing wonders in their respective branches, whose chief aim and enjoyment is the acquisition and spread of knowledge, men who look far above earthly things, whose banner is *Excelsior!* Gentlemen, let us honor the artist, let us thank him, let us drink his health!

Now, in all these enjoyable and elevating features which characterize modern intellectual

development, electricity, the expansion of the science of electricity, has been a most potent factor. Electrical science has revealed to us the true nature of light, has provided us with innumerable appliances and instruments of precision, and has thereby vastly added to the exactness of our knowledge. Electrical science has disclosed to us the more intimate relation existing between widely different forces and phenomena and has thus led us to a more complete comprehension of Nature and its many manifestations to our senses. Electrical science too, by its fascination, by its promises of immense realizations, of wonderful possibilities chiefly in humanitarian respects, has attracted the attention and enlisted the energies of the artist; for where is there a field in which his God-given power would be of greater benefit to his fellow men than this unexplored, almost virgin, region, where, like in a silent forest, a thousand voices respond to every call?

With these comforting features, with these cheering prospects, we need not look with any feeling of incertitude or apprehension into the future. There are pessimistic men, who, with anxious faces, continuously whisper in your ear that the nations are secretly arming—arming to the teeth; that they are going to pounce upon each other at a given signal and destroy themselves; that they are all trying to outdo that victorious, great, wonderful German army against which there is no resistance, for every German has the discipline in his very blood—every German is a soldier. But these men are in error. Look only at our recent experience with the British in that Venezuela difficulty. Two other nations might have crashed together, but not the Anglo-Saxons; they are too far ahead. The men who tell you this are ignoring forces which are continually at work, silently but resistlessly—forces which say *Peace!*

There is the genuine artist, who inspires us with higher and nobler sentiments, and makes us abhor strife and carnage. There is the engineer, who bridges gulfs and chasms, and facilitates contact and equalization of the heterogeneous masses of humanity. There is the mechanic, who comes with his beautiful time and energy-saving appliances, who perfects his flying machine, not to drop a bag of dynamite on a city or vessel, but to facilitate transport and travel. There, again, is the chemist, who opens new resources and makes existence more pleasant and secure; and there is the electrician, who sends his messages of peace to all parts of the globe. The time will not be long in coming when those men who are turning their ingenuity to inventing quick-firing guns, torpedoes and other implements of destruction—all the while assuring you that it is for the love and good of humanity—will find no takers for their odious tools, and will realize that, had they used their inventive talent in other directions, they might have reaped a far better reward than the sestertia received. And then, and none too soon, the cry will be echoed everywhere. Brethren, stop these high-handed methods of the strong, these remnants of barbarism so inimical to progress! Give that valiant warrior opportunities for displaying a more commendable courage than that he shows when, intoxicated with victory, he rushes to the destruction of his fellow-men. Let him

toil day and night with a small chance of achieving and yet be unflinching; let him challenge the dangers of exploring the heights of the air and the depths of the sea; let him brave the dread of the plague, the heat of the tropic desert and the ice of the polar region. Turn your energies to warding off the common enemies and dangers, the perils that are all around you, that threaten you in the air you breathe, in the water you drink, in the food you consume. Is it not strange, is it not shame, that we, beings in the highest state of development in this our world, beings with such immense powers of thought and action, we, the masters of the globe, should be absolutely at the mercy of our unseen foes, that we should not know whether a swallow of food or drink brings joy and life or pain and destruction to us! In this most modern and sensible warfare, in which the bacteriologist leads, the services electricity will render will prove invaluable. The economical production of high frequency currents, which is now an accomplished fact, enables us to generate easily and in large quantities ozone for the disinfection of the water and the air, while certain novel radiations recently discovered give hope of finding effective remedies against ills of microbic origin, which have heretofore withstood all efforts of the physician. But let me turn to a more pleasant theme.

I have referred to the merging together of the various sciences or departments of research, and to a certain perception of intimate connection between the manifold and apparently different forces and phenomena. Already we know, chiefly through the efforts of a bold pioneer, that light, radiant heat, electrical and magnetic actions are closely related, not to say identical. The chemist professes that the effects of combination and separation of bodies he observes are due to electrical forces, and the physician and physiologist will tell you that even life's progress is electrical. Thus electrical science has gained a universal meaning, and with right this age can claim the name "*Age of Electricity.*"

(To be continued.)

THE Anglo American Telegraph Co.'s reports for 1896 show increase in its traffic receipts over preceding year of about \$112,000.00.

#### THE TELEGRAPH OF THE FUTURE.

PROF. W. E. AYRTON, in a recent interesting lecture, in London, on submarine telegraphy, ventured the following remarks concerning the future: "There is no doubt the day will come, maybe when you and I are forgotten, when copper wires, gutta-percha coverings and iron sheathings will be relegated to the museum of antiquities. Then when a person wants to telegraph to a friend, he knows not where, he will call in an electromagnetic voice, which will be heard loud by him who has the electromagnetic ear, but will be silent to every one else. He will call, 'Where are you?' and the reply will come loud to the man with the electromagnetic ear, 'I am at the bottom of the coal mine, or crossing the Andes, or in the middle of the Pacific.' Or, perhaps, no voice will come at all, and he may then expect the friend is dead. Think what that will mean. Think of the calling which goes on from room to room, then think of that calling when it extends from pole to pole—a calling quite audible to him who wants to hear, absolutely silent to him who does not."

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY.  
NEW YORK, March 20, 1897.

The following list of "Changes" corrects the Tariff Book of January, 1897, to date. Changes in the list of "New Offices" are not included.

The hand **✱** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices," which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Chester Heights, Pa., which was formerly a double star station, but which is now a Western Union office in Square 59.

See Special Notices at end of this circular.

### CHANGES.

A modification of Rule 68, to take effect on and after January 1, 1897, has been authorized. As modified, the rule will read:

Rule 68. Sunday's messages will be entered as a part of the previous Saturday's business, except when the first day of the month falls on Sunday, in which case Sunday's messages will be entered as a part of the business of the following Monday.

### ALABAMA.

- 345 Behrman, changed to Fulton.
- ✱ \* Fayette Court House, changed to Sq. 331 Fayette.
- ✱ 331 Fayette Station, changed to Fayette.
- 290 Fayetteville, closed.
- 290 Jenifer, closed.
- ✱ \* \* Stonewall, closed.

### ARIZONA TERRITORY.

- \* Fort Thomas, now 151 Holbrook.
- \* Globe City, now 206 Wilcox, or 1007 Holbrook or Bowie.
- ✱ \* Jerome, Rate beyond Phoenix now 65 5.
- \* San Bernardino. Erase 1.
- \* San Geronimo, changed to Geronimo.
- \* Solomon Sta., now 351 Bowie.

### ARKANSAS.

- 596 Brentwood, closed.
- 512 Garfield, closed.
- ✱ \* \* Vandale, now 200 Wynne.
- ✱ \* \* Wabbaseka, now 150 Pine Bluff.
- ✱ \* \* Waldron, closed.

### BRITISH COLUMBIA.

- \* Cloverdale, now 85 6 (85 4 N M) Seattle, Wash.
- \* New Denver, now 997 Spokane, Wash.

### CALIFORNIA.

- 1270 Almaden Station, now \* Almaden Station, 25 2 San Jose, S. C. Co.
- ✱ \* \* Ballard, now 150 Los Olivos.
- 1218 Banning. Add (South).
- ✱ \* \* College City, now 250 Arbuckle, C. Co. or Colusa.
- ✱ \* \* Cosumne, now 250 Sacramento.
- ✱ \* \* Gasquet, now 75 4 Grant's Pass, J. Co., Org.
- \* Glenwood. Add Santa Clara Co.
- \* Highland Park, now 100 East Oakland.
- 1941 Irvine, closed.
- 1255 Marcuse, Sutter Co., closed.
- ✱ \* \* Oleta, now 450 Placerville.
- ✱ \* \* Pleasant Grove, S. Co., now 250 Sacramento, or Marysville.
- \* Randsburg, now \* Randsburg, 25 2 Kramer, or 25 2 (telephone) Mojave.
- \* San Pablo, now 250 San Pablo Sta.
- 1276 South San Francisco Station. Add San Mateo Co.
- \* Stanford University, now Sq. 1282 Stanford University (South).
- 1276 Tocaloma, closed.

### COLORADO.

- 771 Atwood, closed.
- 829 Chicosa. Erase "P. O. Apishapa."

### CHANGES.—Continued.

- 785 Corona. P. O. now Wiggins.
- ✱ \* Gillette, now 25 2 Cripple Creek. Erase foot-note.
- ✱ \* \* Lawrence, now 25 0 Victor.
- 513 Marshall, closed.
- 910 Olathe. Erase "P. O. Brown."
- 884 Ruby, G. Co., closed.

### CONNECTICUT

- 37 Glenbrook, closed.
- ✱ \* West Hartford, now:
- West Hartford:
- \* \* Charter Oak Park, 75 0 Hartford. (Free during races.)
- \* \* Elmwood, 100 0 Hartford.
- \* \* West Hartford Centre, 50 0 Hartford.
- ✱ \* Westport, now \* \* \* Westport. Free Saugatuck.
- 37 West Redding, changed to Redding.

### DELAWARE.

- ✱ \* Bethel, now \* \* \* Bethel, 25 0 Laurel.

### DISTRICT OF COLUMBIA.

- ✱ \* Rosslyn, Va., now Sq. 77 Rosslyn, Va. P. O. care Station, A., Washington, D. C.

### FLORIDA.

- \* Bone Valley, closed.
- Francis, closed.
- Hotel Ormond. Winter office, reopened.
- Marvinia, closed.
- Oxford, closed.
- Plymouth, closed.
- Rockledge. Winter office, reopened.
- 221 Suwannee Springs Hotel. Winter office, reopened.
- \* Terra Ceia, closed.

### GEORGIA.

- 175 Augusta:
- \* \* Algernon Mills, Enterprise Mills, King Mills, Orphan Asylum, and Sibley Mills, should be erased.
- \* \* Bealwood, now 50 0 Columbus.
- 175 Bon Air Hotel. Winter office, reopened.
- \* Bronco, now Sq. 265 Bronco.
- 220 Browning, W. Co., closed.
- ✱ \* Durham Junction, now Sq. 265 Durham Junction, P. O. Eagle Cliff.
- \* \* East Macon, should be erased.
- \* Flintstone, now Sq. 265 Flintstone.
- 242 Flippen, closed.
- 253 Grady, closed.
- ✱ \* Irwinville, closed.
- \* Kensington, now Sq. 265 Kensington.
- 231 Macon: \* \* East Macon, should be erased.
- 265 Martindale, closed.
- \* Menlo, now Sq. 265 Menlo.
- ✱ \* \* Odilla, closed.
- 278 Priors, closed.
- 266 Sharpsboro, closed.

### IDAHO.

- 1081 Osborne, closed.

### ILLINOIS.

- ✱ 390 Clifton Terrace, closed.
- ✱ \* Evansville, now 25 2 (25 1 N M) Coulterville or 25 0 (telephone) Sparta, R. Co.
- ✱ 328 Grayland, Tariff now same as Chicago.
- ✱ \* Hoyleton, now 25 2 (25 1 N M) Coulterville.
- 390 Newbern, changed to Dow.
- \* Oakdale, W. Co., now 25 2 (25 1 N M) Coulterville.
- 340 Pinkstaff, closed.
- ✱ \* \* Plainville, now 100 Hulls.

### INDIANA.

- ✱ \* Berne, now 25 1 (15 1 N M) Richmond, or Ft. Wayne, Ind., or Grand Rapids, Mich.
- ✱ \* Briant, now 25 1 (15 1 N M) Richmond, or Ft. Wayne, Ind., or Grand Rapids, Mich.
- ✱ \* \* Clifford, now free Columbus.
- ✱ \* \* Flat Rock Cave, now free Shelbyville.
- ✱ 286 Freetown, closed.
- ✱ \* Geneva, A. Co., now 25 1 (15 1 N M) Richmond, or Ft. Wayne, Ind., or Grand Rapids, Mich.
- ✱ \* \* Grand View, now 25 0 Rockport.
- ✱ 286 Grammer, closed.
- ✱ \* \* Hartsville, now free Columbus.
- ✱ 286 Heltonville, closed.
- ✱ \* Hoagland, now 25 1 (15 1 N M) Richmond, or Ft. Wayne, Ind., or Grand Rapids, Mich.
- 302 Hoovers, F. Co., changed to Athens.
- ✱ \* \* Huntertown, now 25 1 (15 1 N M) Kalamazoo, Mich., Ft. Wayne, or Richmond, Ind.
- ✱ 315 Indian Springs, closed.

### CHANGES.—Continued.

- ✱ 286 Kurtz, closed.
- ✱ \* \* Leavenworth, now 20 0 Louisville, Ky., or 20 1 Marengo, Ind.
- ✱ \* \* Lewis Creek, now free Shelbyville.
- ✱ \* \* Marietta, now free Shelbyville.
- ✱ 303 Marmont, changed to Culver.
- \* Middlebury, E. Co. now \* \* \* Middlebury, E. Co., 10 1 La Grange, L. Co.
- ✱ \* Monroe, A. Co., now 25 1 (15 1 N M) Richmond, or Ft. Wayne, Ind., or Grand Rapids, Mich.
- ✱ \* \* Mt. Auburn, S. Co., now free Columbus.
- ✱ \* \* Norristown, now free Columbus.
- ✱ 315 Odon, closed.
- ✱ \* Rome City, now 25 1 (15 1 N M) Kalamazoo, Mich.
- ✱ \* Ft. Wayne, or Richmond, Ind.
- \* Shipshewana, now \* \* \* Shipshewana, 10 1 La Grange.
- ✱ \* \* St. Louis Crossing, now free Columbus.
- ✱ \* \* Sulphur Hill, now free Shelbyville.
- ✱ \* Swane, row 25 1 (15 1 N M) Kalamazoo, Mich., Ft. Wayne, or Richmond, Ind.
- 286 Velonia, changed to Valonia.
- ✱ 315 Williams, L. Co., closed.
- ✱ \* \* Wilson, S. Co., now free Shelbyville.

### INDIAN TERRITORY.

- 610 Berwyn, closed.
- 623 Paoli, closed.

### IOWA.

- 467 Nora Junc., changed to Nora Springs Junction

### KANSAS.

- 726 Blakeman, closed.
- 744 Edison, closed.
- 728 McDonald, closed.
- 718 Wallace, closed.
- 635 Wherry, closed.

### KENTUCKY.

- 226 Barboursville Depot. Collect 10 cents for delivery.
- 230 Berea Depot. Collect 10 cents for delivery.
- \* Centreville, now 25 2 Paris, or Frankfort.
- ✱ 236 Covington: \* \* West Covington, now 10 0 Covington.
- 239 Crab Orchard Depot. Collect 10 cents for delivery.
- ✱ \* Elizabeth, now \* Elizabeth, 25 2 Paris, or Frankfort.
- ✱ \* Florence, B. Co., now 15 0 Cincinnati, O.
- 239 Fort Estill, closed.
- ✱ \* Gamaliel, now 25 2 Cave City, Ky., or 25 2 Nashville, Tenn.
- \* Horse Branch, now 25 2 Owensboro, or Louisville.
- 230 Irvine Depot. Collect 15 cents for delivery.
- 236 London Depot. Collect 10 cents for delivery.
- ✱ \* Marrowbone, now 25 2 Cave City.
- \* Newtown, now 25 2 Paris, or Frankfort.
- \* Normal, now 15 0 Catlettsburg.
- 316 Spottsville Depot. Collect 15 cents for delivery.
- \* Stamping Ground, now 25 2 Paris, or Frankfort.
- \* Switzer, now 25 2 Paris, or Frankfort.
- 260 Tyrone Depot. Collect 10 cents for delivery.
- ✱ \* Wasloto, now Sq. 236 Wasloto.
- \* Wingo, now \* \* \* Wingo, 25 2 Mayfield.

### LOUISIANA.

- 515 Benson, closed.
- 503 Converse, closed.
- 515 Frierson, closed.
- 493 Point aux Herbes, closed.

### MAINE.

- ✱ \* \* East Brownfield, now Sq. 20 East Brownfield, ck. Fryeburg.

### MARYLAND.

- 67 Alkin, closed.
- 67 Barksdale Race Track, closed.
- ✱ \* \* Crumpton, closed.
- ✱ \* \* Fairlee, closed.
- 85 Lineboro, closed.
- ✱ \* \* Maltota, closed.
- 85 New Windsor, closed.

### MASSACHUSETTS.

- ✱ \* \* Assonet, now Sq. 18 Assonet. P. O. Freetown.
- \* \* Campello, now Sq. 18 Campello. Tariff same as Brockton.
- ✱ \* \* Danvers Insane Hospital. Messages are telephoned from Salem, not from Danvers, Mass.
- ✱ \* Linden, now 25 0 Maplewood.
- ✱ \* Roslindale, now Sq. 21 Roslindale. Tariff same as and Ck. Boston.
- Townsend, now Sq. 23 Townsend.

## CHANGES.—Continued.

28 Townsend Centre, changed to Townsend.  
 21 West Lynn, now tariff same as and Ck. Lynn.

Muscat. Extra charge for boat hire in addition to rate to Jask in Persia is now.....\$17.63

New Caledonia.

Rate via Eastern or Indo is now \$2.47 per word beyond London.

Persia:

Basaidore  
Bunder Abbas  
Lingah

Extra charge for boat hire in addition to rate to Jask is now \$2.68

Correct Tariff Book, page 407.

The Atlantic Cable rate from Wyoming to Great Britain, Ireland, France and Germany, is 24c. per word.

## SPECIAL NOTICES.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc., do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own state.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated as night message offices in the Tariff Book.

Offices having special rates, should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new

State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in **Tariff Book** on pages 407 to 423, both inclusive, are **CABLE** messages and should be reported in accordance with rule No. 71, page 855 of **Tariff Book**. The charges on cable messages should not be entered on the Check Report (Form 7).

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (**Tariff Book**, page 185), Catskill Mountains (page 189), and Lake George (page 197.) When accepting messages for such localities, the receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Notifications of the arrival of steamers at the Port of New York will be forwarded to any address during the Company's usual office hours, upon payment of \$1.00, plus the tolls for a ten word message between New York City and the office ordering the report.

Orders should be addressed to **Manager Marine Department**, New York City.

This order does not apply to New York City, Brooklyn, Hoboken or Jersey City.

THOMAS T. ECKERT,  
*President.*

#### TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, March 18, 1897.

To All Transfer Agents and Offices:

The transfer service has been temporarily discontinued at Fayetteville, N. C., Urbana, Ohio, and Yazoo City, Miss.

On March 1st, Poughkeepsie, N. Y., was advanced from Class D, to Class C, transfer office.

On March 15th, Three Rivers, Mich., was added to the list of Class E, transfer offices in O. Corbett's district.

Managers will correct their lists accordingly.

THOS. T. ECKERT,  
*President.*

Western Union Telegraph Company,  
New York, March 10, 1897.

#### DIVIDEND NO. 114.

THE Board of Directors have declared a quarterly dividend of **ONE AND ONE-QUARTER PER CENT.** upon the capital stock of this company, payable at the office of the Treasurer on and after the 15th day of April next, to shareholders of record at the close of the transfer books on the 20th day of March inst.

The transfer books will be closed at 3 o'clock on the afternoon of March 20th inst., and reopened on the morning of April 1st, next.

R. H. ROCHESTER, Treasurer.

## ARM REST FOR TELEGRAPH OPERATORS.

One of the most practical patented inventions of the day, supplying a long felt want. Operators know how tiring their work is to the arm; and often it leads to paralysis. The "Rest" prevents that disease, and cures it when contracted. It is invaluable to beginners. Substantially made of hard wood and leather, highly finished.

Sent post-paid for only \$1.00.

AGENTS WANTED.

**HENRY W. GOODROE,**  
Hinesburgh, Vt.

## THE ADAMS CABLE CODEX.

*Eighth Edition, Just Published.*

This code is especially gotten up for the use of travellers by sea or land, and contains over 10,000 sentences referring to business and social matters, and covers such topics as Arrival and Departure, Business, Buying and Selling, Bonds and Stocks, Condition of Market, Congratulations, Drafts, Financial, Illness, Letters of Credit, Letters and Telegrams, Returning Home, Securing Staterooms, Shipment, Shipping, Standing of Firms, etc.

It should be in the hands of every one who uses the land or ocean telegraph lines. It saves its cost many times over in one message, and in one case one code word covers over 70 words of text.

Price, in cloth, 50 cents; in paper, 25 cents. By mail, 4 cents postage extra.

For a limited time only telegraph operators can obtain a sample copy of this code, by sending 14 cents in stamps.

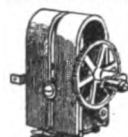

Operators at principal telegraph and cable offices of the Western Union Telegraph Co. throughout the country can obtain the wholesale discount on any codes ordered of us.

## No. 2 O. K. Outfit,

WITH SOUNDER AND KEY

On same base, or separate, as ordered.

Complete Outfit	-	-	\$8.75
Sounder	-	-	3.25
Key	-	-	1.00
Sounder and Key on one base	-	-	3.25

The above Outfits consist of a beautiful Sounder wound to 20 ohms, and one of my unrivaled Nickel Plated, Legless, Steel Lever Keys; One Cell 5x7 Battery (or 6x8 Battery, 10c. extra); 15 ft. Insulated Office Wire, 1 lb. Vitriol, 1 Instruction Book, all safely packed, and will be shipped on receipt of price, or sent C. O. D., subject to inspection, if you send me \$1.00 with order. State whether you wish Key and Sounder on same Base or separate. Write your address plain and full, also state by what Express Company you wish goods shipped. Address,

**I. H. MOSES,**

36 SOUTH WATER ST., CLEVELAND, OHIO.

## PONY TELEPHONE RECEIVERS.

This telephone receiver weighs only 6 ounces. The spool is wound with silk wire to the standard resistance of 75 ohms. The binding posts will not get loose. The shell of the receiver is of cast steel and is strongly magnetized. The adjustment is rigid and will not become changed even by the greatest carelessness.

It is a perfect working telephone receiver, and one that costs ten times as much will not work better.

With suitable signal apparatus, this telephone receiver makes a complete telephone outfit, as it can be used as a transmitter and receiver combined.

The price, as well as the instrument, is small. We always make low prices on our specialties, in order to make them up in quantities.

Price.....50 Cents.

# EUREKA TELEGRAPH OUTFIT

Outfit Complete, With Battery, \$2.25.  
(Without Battery, \$1.75.)

Sent by express C. O. D., when the express charges are guaranteed by express agent.

## DESCRIPTION.

The Eureka Learner's Outfit, as shown by illustration, is a first class, full size telegraph set. All of the working parts—which includes key lever, sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. The key is of the curved lever pattern, and sounder gives a loud and clear sound, equal to the best expensive instrument.

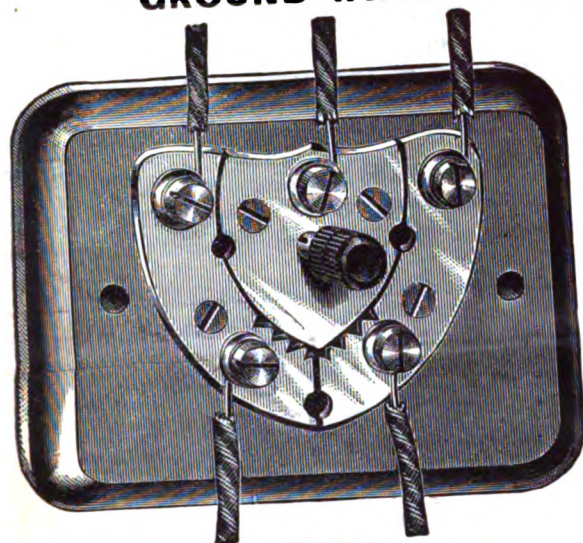

## THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.....	\$2.25
Eureka instrument only (no battery or wire), for short lines....	1.75
Eureka instrument only, wound for lines 1 to 15 miles.....	2.00
Postage on instrument only (battery not mailable).....	.40

We claim this the BEST low priced telegraph set ever made. Its one of our specialties and made in large quantities.

## UNION LIGHTNING ARRESTOR AND GROUND WIRE SWITCH.

(Illustration full size.)

Just the thing for private telegraph lines. Serves as a lightning arrestor, cut out and also ground wire switch.

Price, each,  
\$0.50.

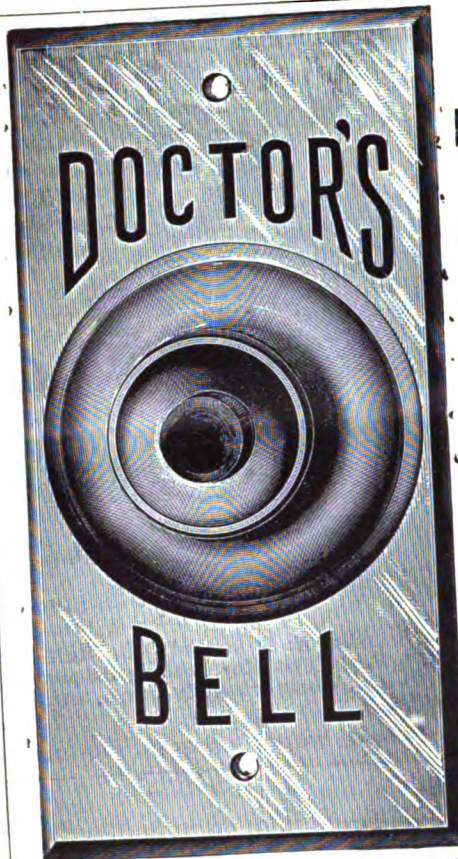

## SMALL ANNUNCIATORS.

We make all sizes, but this pattern is intended for use where a small case is desired. It is reliable and sold at a low price. Gravity drop pattern. Tags furnished with any numbers, or lettered as desired.

Price, No. 2.....	\$2.00.
" 4.....	3.00.
" 6.....	3.75.

Our regular Electrical Supply Catalogue,  
224 pages, 10 cents,

## PUSH BUTTONS.

We make nearly 100 different styles of push buttons.

They are all finely finished and made from best metal.

THIS STYLE (cut full size) furnished in bronze ("Doctor's Bell," "Night Bell" or "Janitor's Bell").

Price, each.....\$0.75.

Our Pushes are finished in bronze, nickel plated, silver plated, oxydized silver, oxydized copper, brass and Bower Barff (dead black).

## IF YOU WANT

# J. H. BUNNELL & CO.'S STEEL LEVER SOLID TRUNNION KEYS.

OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

**THE BUNNELL STEEL LEVER KEY** is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is *only one-half* the weight of the ordinary brass lever as generally made.

The entire Lever and Trunnions together being made of *but one piece* of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of *hardened platina points, sticking is absolutely prevented.*

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

PRICE,  
1.75.

**LEGLESS PATTERN STEEL LEVER KEY**

New Form with Open Base.

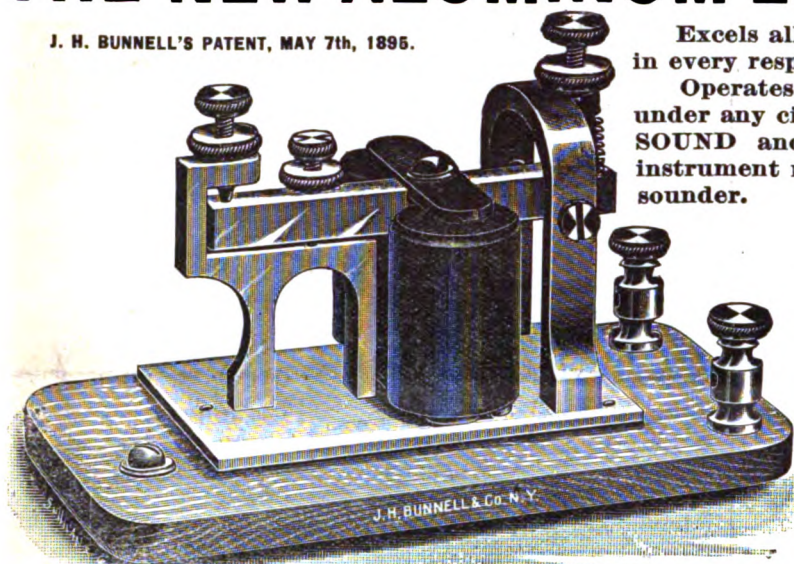

A beautiful and perfect Key suitable for use on Fine Desks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, **\$2.25.**

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

## THE NEW ALUMINUM LEVER GIANT SOUNDER

J. H. BUNNELL'S PATENT, MAY 7th, 1895.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the **FINEST** and **BEST SOUNDER** ever designed.

Operates with **ONE CELL** only of LOCAL, having no need whatever under any circumstances for the use of two cells. The **MARGIN** of SOUND and **STRENGTH** and **QUICKNESS** with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, ..... **\$2.25**

Sounders wound with fine wire to 20 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length, **\$2.75**

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

**NEW GIANT SOUNDER, 20 OHMS RESISTANCE,  
AND STEEL LEVER KEY**

## COMBINATION SET,

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. **Price, \$4.50.** Sent by mail to any distance, carefully boxed, and **PREPAID** by us, on receipt of the above price.

Same set, but wound to 3 ohms (local), **\$4.00.**

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine LEARNERS' OUTFIT, **\$4.75.**

## NEW MAIN LINE SOUNDING RELAY WITH ALUMINUM LEVER.

Gives more than three times the volume of sound given by the very best Box Relays, or any other form of sounding Relays, for short or long main lines, ever before produced.

They are unequalled for Wrecking Instruments, Testing Sets, Switch-board Sets, Temporary Offices, and all places where it is desirable to dispense with the use of Local Batteries.

These instruments are made with full size relay magnets 150 ohms resistance, having both magnet and armature adjustments and fully suited for doing, in a greatly improved manner, the work of regular main line Box Relays. They are highly sensitive to the weakest currents and will give a clear working sound on circuits where, without them, a relay with local sounder and battery would be absolutely necessary.

Price, 150 ohms Resistance, with Key on Base .. .. \$9 00

without Key .. .. 8 00

In Mahogany Case, for Wrecking Sets, \$2.50 extra.

Price, 200 to 300 ohms, with Key on base .. .. 8 50

without Key .. .. 8 50

Price, 20 to 100 ohms, with Key on Base .. .. 8 50

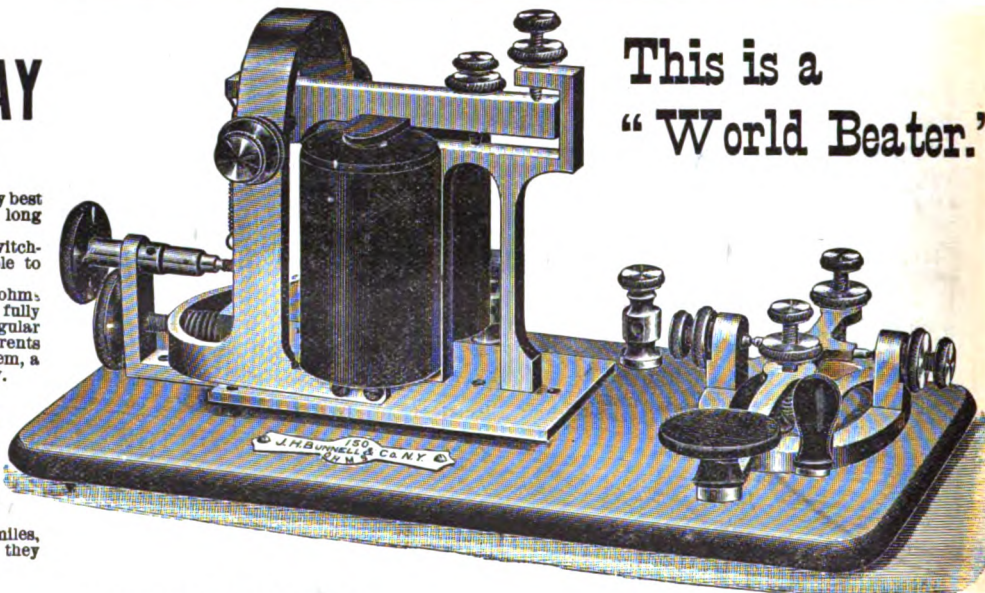

without Key .. .. 7 50

This latter class for all circuits from a mile or two up to 100 miles, when with ordinary main battery power suitable for such lines, they are equal to the best local sounders.

Write for Special Discounts.

Price, 50 cents per cell.

Get our **DISCOUNTS** before placing your orders elsewhere

This or smaller cut **FREE** for illustrating your printed matter.

**The "Morse" Learners' Outfit**

**\$2.75      THE BEST      \$2.75**

The "Morse" Outfit is a full size, well made, complete MORSE TELEGRAPH apparatus of the latest and best form for learners, including handsome giant Sounder and Curved Key, and a large Cell of the best Gravity Battery, latest form.

It is the best working set of learners' Instruments for short or long lines, from a few feet up to 20 miles in length, yet offered.

All the working parts, including Sounder Levers, Sounder Yokes, Key Levers, Adjusting Screws, etc., are finely finished BRASS Composition, the same metal as in all other first-class instruments.

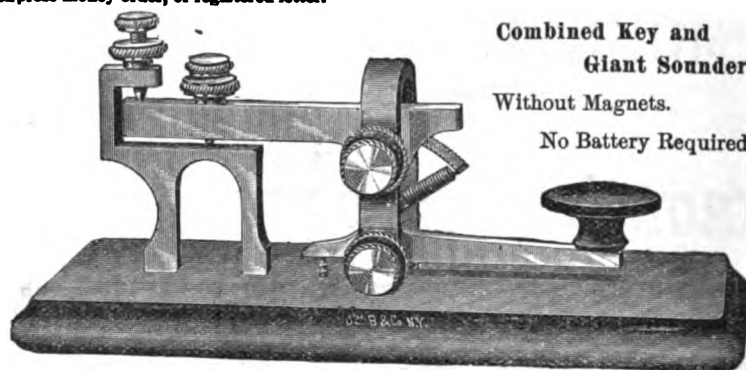

The magnets are strong. The Sounder is loud and clear. The Key is of handsome pattern, nicely finished and extremely easy and pleasant to operate.

**NEW "No. 2" IMPROVED MECHANICAL TELEGRAPH INSTRUMENT.**

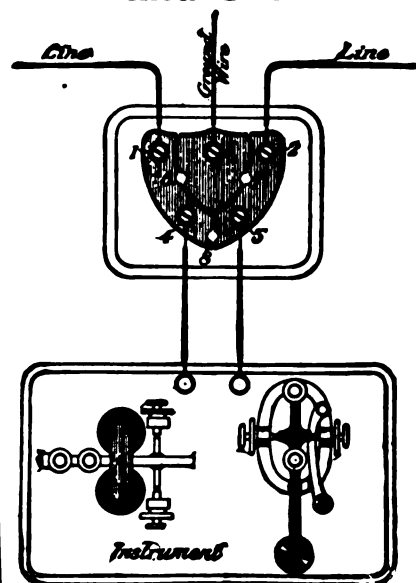

Works Perfectly as a Key, with Sound equal to the best Sounder.

FOR MORSE ALPHABET PRACTICE in sending and reading by sound, and for LEARNING or TEACHING THE MORSE ALPHABET. Can be carried in the pocket or satchel, and is always ready for use. Works exactly like the very best Sounder and Key Combination Telegraph Set, giving loud, clear sound, with slightest force or movement of Key. All made in first-class Instrument Composition Brass, same pattern as best Giant Sounder.

Price, with Telegraph Instruction Book, package of Morse Alphabet Cards, etc., \$1.50. Sent anywhere in the United States, by mail, prepaid, on receipt of price, in stamps, postal or express money order, or registered letter.

Combined Key and  
Giant Sounder.  
Without Magnets.  
No Battery Required

**The Union Lightning Arrester and Ground Switch.**

As lightning is frequently attracted to outdoor lines and thereby enters the offices, sometimes damaging the instruments, or even setting fire to curtains or other inflammable material about the instrument table, a simple and cheap instrument called "lightning arrester and cut out," is used for the purpose of intercepting and carrying to the earth such discharges of lightning as would be liable to cause damage. This apparatus is entirely effective, and is a complete safeguard against lightning.

**PRICE, 50 CENTS BY MAIL, PREPAID.**

Send for our **LATEST CATALOGUE**, October, 1896, containing 224 Pages and nearly 800 ILLUSTRATIONS the **VERY BEST** Telegraph and Electrical Supplies ever offered to the trade.

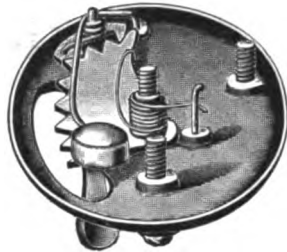

For all or any of the above, address **J. H. BUNNELL & CO., 76 CORTLANDT STREET, NEW YORK.**

## LAUGHLIN BICYCLE BELLS

No. 8 Bell Complete.

Showing inner mechanism.

Are made of Pure Bell Metal, mechanism simple and strong, and handsomely finished in nickel.

Prices run from 30c. to \$1.00, as follows:

30c., 40c., 50c., 60c., 75c., 90c. and \$1.00.

The above cut shows our No. 8 \$1.00 Bell—which shows the operating device on the underside of base—thus precluding the possibility of scratching the hand, catching the coat sleeve, etc., an item that should not be overlooked in selecting a bell.

# A Bicycle Tour

Three gentlemen for a European tour purchased new hundred dollar bicycles. One a Columbia—the others of well-known high-grade manufacture. They had an agreeable trip—particularly the Columbia rider. Before returning to America, it being late in the year—and wishing to buy new machines in 1897—they sold their wheels to a London dealer. The Columbia bicycle brought \$65.00. The others \$40.00 and \$35 respectively. But one of the many proofs of Columbia superiority. If you look a year ahead there is wise economy in

*(Continued from last month.)*

## TESLA ON ELECTRICITY.

I WISH much to tell you on this occasion—I may say I actually burn for desire of telling you—what electricity really *is*, but I have very strong reasons, which my co-workers will best appreciate, to follow a precedent established by a great and venerable philosopher, and I shall not dwell on this purely scientific aspect of electricity.

There is another reason for the claim which I have before stated which is even more potent than the former, and that is the immense development in all electrical branches in more recent years and its influence upon other departments of science and industry. To illustrate this influence I only need to refer to the steam or gas engine. For more than half a century the steam engine has served the innumerable wants of man. The work it was called to perform was of such variety and the conditions in each case were so different that, of necessity, a great many types of engines have resulted. In the vast majority of cases the problem put before the engineer was not, as it should have been, the broad one of converting the greatest possible amount of heat energy into mechanical power, but it was rather the specific problem of obtaining the mechanical power in such form as to be best suitable for general use. As the reciprocating motion of the piston was not convenient for practical purposes, except in very few instances, the piston was connected to a crank, and thus rotating motion was obtained, which was more suitable and preferable though it involved numerous disadvantages incident to the crude and wasteful means employed. But until quite recently there were at the disposal of the engineer, for the transformation and transmission of the motion of the piston, no better means than rigid mechanical connections. The past few years have brought forcibly to the attention of the builder the electric motor, with its ideal features. Here was a mode of transmitting mechanical motion simpler by far, and also much more economical. Had this mode been perfected earlier, there can be no doubt that, of the many different types of engine, the majority would not exist, for just as soon as an engine was coupled with an electric generator a type was produced capable of almost universal use. From this moment on there was no necessity to endeavor to perfect engines of special designs capable of doing special kinds of work. The engineer's task became now to concentrate all his efforts upon one type, to perfect one kind of engine—the

best, the universal, the engine of the immediate future—namely, the one which is best suitable for the generation of electricity. The first efforts in this direction gave a strong impetus to the development of the reciprocating high-speed engine, and also to the turbine, which latter was a type of engine of very limited practical usefulness, but became, to a certain extent, valuable in connection with the electric generator and motor. Still, even the former engine, though improved in many particulars, is not radically changed, and even now has the same objectionable features and limitations. To do away with these as much as possible, a new type of engine is being perfected in which more favorable conditions for economy are maintained, which expands the working fluid with utmost rapidity and loses little heat on the walls; an engine stripped of all usual regulating mechanism—packings, oilers and other appendages—and forming part of an electric generator; and in this type, I may say, I have implicit faith.

The gas or explosive engine has been likewise profoundly affected by the commercial introduction of electric light and power, particularly in quite recent years. The engineer is turning his energies more and more in this direction, being attracted by the prospect of obtaining a higher thermodynamic efficiency. Much larger engines are now being built, the construction is constantly improved, and a novel type of engine, best suitable for the generation of electricity, is being rapidly evolved.

There are many other lines of manufacture and industry in which the influence of electrical development has been even more powerfully felt. So, for instance, the manufacture of a great variety of articles of metal, and especially of chemical products. The welding of metals by electricity, though involving a wasteful process, has, nevertheless, been accepted as a legitimate art, while the manufacture of metal sheet, seamless tubes and the like affords promise of much improvement. We are coming gradually but surely, to the fusion of bodies and reduction of all kinds of ores—even of iron ores—by the use of electricity, and in each of these departments great realizations are probable. Again, the economical conversion of ordinary currents of supply into high-frequency currents, opens up new possibilities, such as the combination of the atmospheric nitrogen and the production of its compounds; for instance, ammonia and nitric acid, and their salts, by novel processes.

The high-frequency currents also bring us to the realization of a more economical system of

lighting; namely, by means of phosphorescent bulbs or tubes, and enable us to produce with these appliances light of practically any candle-power. Following other developments in purely electrical lines, we have all rejoiced in observing the rapid strides made, which, in quite recent years, have been beyond our most sanguine expectations. To enumerate the many advances recorded is a subject for the reviewer, but I cannot pass without mentioning the beautiful discoveries of Lenard and Roentgen, particularly the latter, which have found such a powerful response throughout the scientific world that they have made us forget, for a time, the great achievement of Linde in Germany, who has effected the liquefaction of air on an industrial scale by a process of continuous cooling; the discovery of argon by Lord Rayleigh and Professor Ramsay, and the splendid pioneer work of Professor Dewar in the field of low temperature research. The fact that the United States have contributed a very liberal share to this prodigious progress must afford to all of us great satisfaction. While honoring the workers in other countries and all those who, by profession or inclination, are devoting themselves to strictly scientific pursuits, we have particular reasons to mention with gratitude the names of those who have so much contributed to this marvelous development of electrical industry in this country. Bell, who, by his admirable invention enabling us to transmit speech to great distances, has profoundly affected our commercial and social relations, and even our very mode of life; Edison, who, had he not done anything else beyond his early work in incandescent lighting, would have proved himself one of the greatest benefactors of the age; Westinghouse, the founder of the commercial alternating system; Brush, the great pioneer of arc lighting; Thomson, who gave us the first practical welding machine, and who, with keen sense, contributed very materially to the development of a number of scientific and industrial branches; Weston, who once led the world in dynamo design, and now leads in the construction of electric instruments; Sprague, who, with rare energy, mastered the problem and insured the success of practical electrical railroading; Acheson, Hall, Willson and others, who are creating new and revolutionizing industries here under our very eyes at Niagara. Nor is the work of these gifted men nearly finished at this hour. Much more is still to come, for, fortunately, most of them are still full of enthusiasm and vigor. All of these men and many more are untiringly at work investigating new regions and opening up unsuspected and promising fields. Weally, if not daily, we learn through the journals of a new advance into some unexplored region, where at every step success beckons friendly, and leads the toiler on to hard and harder tasks.

*(To be continued.)*

## JOURNAL OF THE TELEGRAPH.

PUBLISHED MONTHLY, ON 20th OF EACH MONTH, AT  
195 BROADWAY.

THE JOURNAL is issued on the 20th of each month. Its circulation is nearly 25,000 and is steadily increasing. It goes to every State, Territory and Province on the Continent, and is delivered to all the offices of the Western Union Telegraph Company, which now exceed 21,000 in number. Hence it is the best advertising medium of its class in the world.

Business Notices, on Editorial page, 50 cents per line for each insertion.

Nothing inserted for less than one dollar.

A reasonable discount will be allowed on advertisements to remain standing, for which special arrangements can be made.

NEW YORK, APRIL 20, 1897.

September 1, 1895.

## TO ALL WESTERN UNION MANAGERS:

Particular attention is called to the third remark under Rule 2, which says:

"The importance of the address (of a message) cannot be over-estimated. When the address given seems insufficient, a better one should be requested."

Insufficient addresses not only put customers to inconvenience from the delay necessary to obtain additional particulars, but they create expense to the Company in the use of the wires for the transmission of service messages, and sometimes in the defence of suits arising from claims for damages.

Managers and receiving clerks are therefore requested to keep the rule well in mind and to give the subject particular attention as occasion demands.

THOS. T. ECKERT,  
President and General Manager.

GOVERNMENT telegrams that Army Officers send, not written upon the (blue) official form furnished by the Quartermaster General, should invariably be paid for by their senders—but, government telegrams that Army Officers send, written upon the (blue) official form furnished by the Quartermaster General, should be accepted without payment by their senders, and being transmitted checked "paid govt. rate," should (unless otherwise specially directed) be taken credit for in, and turned in (as voucher for such credit) with, the monthly Form No. 4 Report.

The foregoing applies only to government telegrams of Army Officers, and does not apply to other government telegrams.

All Weather Bureau telegrams should also be accepted without payment by their senders and being transmitted checked "paid govt. rate" should also be taken credit for in, and turned in with, the monthly Form No. 4. Report.

NEW YORK, May 20, 1894.

## To All Western Union Managers:

You are authorized to send "collect," without the guarantee required by Rule 13, messages of traveling agents or representatives addressed to their home firms, upon sufficient evidence of their connection with those firms.

THOS. T. ECKERT,  
President and General Manager.

NEW YORK, March 20, 1897.

## To all Western Union Managers:

The attention of managers is called to the necessity for insisting upon the requirement of Rule 4, that all unpronounceable groups of letters shall be counted one word for each letter. Some senders of messages claim that such groups as *Cpr, Chd, Wss*, which are combinations of the initials of the names of firms or corporations, shall be counted as one word each.

These claims cannot be admitted, and each letter in such combinations must be counted as one word.

THOS. T. ECKERT,  
President and General Manager.

T. P. COOK, who was Assistant Superintendent at Dallas, Tex., of the Second District Western Division Western Union Telegraph Company, has been appointed Superintendent of that district in place of Lara C. Baker, deceased.

G. G. FRANKEL at St. Louis, who was Chief Clerk to Superintendent Baker, and G. C. Felton at Dallas, who was Manager at Houston, Tex., have been appointed Assistant Superintendents of that district.

LARA C. BAKER, Superintendent of the Second District Western Division Western Union Telegraph Company, died at St. Louis, Mo., March 25, 1897, in his 57th year. Mr. Baker was born at Tuscaloosa, Ala., on May 5, 1840. He was the manager of a telegraph office at the age of 15, and at the age of 21 was the first manager of the telegraph office at Little Rock, Ark. When he was about 22 years of age he was appointed by the late Henry A. Montgomery, of Memphis, Tenn., Superintendent of the Arkansas Telegraph Company. Thereafter, until the close of his life, he was identified with the telegraph west of the Mississippi River. He was the first telegraph superintendent in the State of Arkansas, except for a short time during which Mr. Montgomery acted as his own Superintendent of the line he built between Memphis and Little Rock. Mr. Montgomery was well acquainted with Mr. Baker before he took him into his service and selected him from a number of older and more experienced telegraphers to represent him and take charge of his interests at Little Rock.

Shortly after Mr. Baker took charge of the Little Rock office, the Civil War began and, as it became more difficult to maintain the lines and meet the requirements of the Confederate military authorities, he was made Military Superintendent. He was soon involved in great difficulties caused by the advance of the

Union forces, which finally resulted in the capture of Little Rock, and, anticipating that event, he wound up his wire and carried it, together with the insulators and other material, in wagons to southern Arkansas and Texas.

D. P. Shepherd, who was at that time Superintendent of the line of the South Western Telegraph Company west of Vicksburg, Miss., also took down his wire and erected it between Houston and Crockett, Tex. Mr. Baker strung his wire between Crockett and Camden, Ark., via Marshall, Tex., and Shreveport, La. The two lines, thus re-established far from their original location, were worked as connecting lines during the remainder of the war, and afterwards, until the lines of the Arkansas Telegraph Company were acquired by the South Western Telegraph Company. Mr. Baker then broke up his war headquarters at Marshall, Tex., and returned to Little Rock as Superintendent of the South Western Company and subsequently of the Western Union Company.

In 1878 he removed from Little Rock to St. Louis, succeeding at the latter place Col. R. C. Clowry as Superintendent of the district that he continued in charge of until his death. He had been ill about three weeks, and was supposed to be convalescing when unexpectedly he suddenly expired. There survives him his widow and eight children, all of whom, except his oldest son, were at his bedside at the time of his death. He was a stepson of John Van Horn, Senior Vice-President of the Western Union Telegraph Company, and a brother of Glyn M. Baker, Manager of the Western Union office at Dallas, Tex. As a faithful and efficient officer he was held in high esteem.

ALMERIN TINKER, father of Charles A. Tinker, General Superintendent of the Eastern Division of the Western Union Telegraph Company, died at St. Albans, Vt., on April 8, 1897, in his 84th year. He was born in Vermont September 7, 1813, and for seventy-two years of his life was a resident of that State. For twelve years, from 1839 to 1851, he resided in Michigan. When he returned to Vermont in 1851 he was appointed private secretary to Ex-Governor Charles Paine, President of the Vermont Central Railroad. He was engaged with the Vermont Central Railroad for nearly forty years until 1890, when he retired from its service; on which occasion, his associates presented him with a valuable gold watch and chain, as a token of their esteem and friendship. A kindly Christian gentleman, highly esteemed for his sterling character, he lived a long life, and died at a ripe old age.

MRS. R. C. CLOWRY, wife of Col. R. C. Clowry, Vice-President and General Superintendent of the Western Division of the Western Union Telegraph Company, died at Lincoln, Neb., on Easter Sunday afternoon, 18th inst. Her funeral services and burial will be at Omaha, on 21st inst. Colonel Clowry in his loss has the sincere and affectionate sympathy of his associates and of his numerous friends and acquaintances without as well as within the Western Union Company.

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, April 20, 1897.

The following list of "Changes" corrects the Tariff Book of January, 1897, to date. Changes in the list of "New Offices" are not included.

The hand **✱** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices," which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Chester Heights, Pa., which was formerly a doublestar station, but which is now a Western Union office in Square 59.

See Special Notices at end of this circular.

### CHANGES.

A modification of Rule 68, to take effect on and after January 1, 1897, has been authorized. As modified, the rule will read:

Rule 68. Sunday's messages will be entered as a part of the previous Saturday's business, except when the first day of the month falls on Sunday, in which case Sunday's messages will be entered as a part of the business of the following Monday.

Muscat. Extra charge for boat hire in addition to rate to Jask in Persia is now.....	\$17.63
New Caledonia.	
Rate via Eastern or Indo is now \$3.47 per word beyond London.	
Persia:	
Bassidore	
Bander Abbas	
Lingah	

Extra charge for boat hire in addition to rate to Jask is now \$8.53

Correct Tariff Book, page 407.

The Atlantic Cable rate from Wyoming to Great Britain, Ireland, France and Germany, is 34c. per word.

## SPECIAL NOTICES.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc., do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own state.

Managers of offices at which messages are transferred to or from "ether lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated changes should, if possible, be made to take

effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated as night message offices in the Tariff Book.

Offices having special rates, should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 407 to 422, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 355 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 185), Catskill Mountains (page 189), and Lake George (page 197.) When accepting messages for such localities, the receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Notifications of the arrival of steamers at the Port of New York will be forwarded to any address during the Company's usual office hours, upon payment of \$1.00, plus the tolls for a ten word message between New York City and the office ordering the report.

Orders should be addressed to Manager Marine Department, New York City.

This order does not apply to New York City, Brooklyn, Hoboken or Jersey City.

THOMAS T. ECKERT,  
President.

## TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, April 17, 1897.

## To All Transfer Agents and Offices:

The transfer service has been resumed at Greenport, N. Y., Mattoon, Ill., Salisbury, N. C., Urbana, Ohio, Yazoo City, Miss., and temporarily discontinued at Frankfort, Ind., Middleborough, Ky., and Palatka, Fla.

On April 1st, Yarmouth, N. S., was added to the list of Class D, transfer offices in D. C. Dawson's district.

T. P. Cook has been appointed Transfer Agent at St. Louis, Mo., vice L. C. Baker, deceased.

It is ordered that Rule 16, of the Money Transfer Service, is to be construed as directing that when an applicant for a transfer to a National, State, County or City Official does not know the name of such Official, a "Caution" transfer may be accepted without such name.

Managers will correct their lists accordingly.

THOS. T. ECKERT,  
President.

## LIST OF OFFICERS AND DIRECTORS OF THE WESTERN UNION TELEGRAPH COMPANY.

THOS. T. ECKERT,

## ARM REST FOR TELEGRAPH OPERATORS.

One of the most practical patented inventions of the day, supplying a long felt want. Operators know how tiring their work is to the arm; and often it leads to paralysis. The "Rest" prevents that disease, and cures it when contracted. It is invaluable to beginners. Substantially made of hard wood and leather, highly finished. Sent post-paid for only \$1.00. AGENTS WANTED.

HENRY W. GOODBOE, Hinesburgh, Vt.

## THE ADAMS CABLE CODEX.

*Eighth Edition, Just Published.*

This code is especially gotten up for the use of travellers by sea or land, and contains over 10,000 sentences referring to business and social matters, and covers such topics as Arrival and Departure, Business, Buying and Selling, Bonds and Stocks, Condition of Market, Congratulations, Drafts, Financial, Illness, Letters of Credit, Letters and Telegrams, Returning Home, Securing Staterooms, Shipment, Shipping, Standing of Firms, etc.

It should be in the hands of every one who uses the land or ocean telegraph lines. It saves its cost many times over in one message, and in one case one code word covers over 70 words of text.

Price, in cloth, 50 cents; in paper, 25 cents. By mail, 4 cents postage extra.

For a limited time only telegraph operators can obtain a sample copy of this code, by sending 14 cents in stamps.

Operators at principal telegraph and cable offices of the Western Union Telegraph Co. throughout the country can obtain the wholesale discount on any codes ordered of us.

## PONY TELEPHONE RECEIVERS.

This telephone receiver weighs only 6 ounces. The spool is wound with silk wire to the standard resistance of 75 ohms. The binding posts will not get loose. The shell of the receiver is of cast steel and is strongly magnetized. The adjustment is rigid and will not become changed even by the greatest carelessness.

It is a perfect working telephone receiver, and one that costs ten times as much will not work better.

With suitable signal apparatus, this telephone receiver makes a complete telephone outfit, as it can be used as a transmitter and receiver combined.

The price, as well as the instrument, is small. We always make low prices on our specialties, in order to make them up in quantities.

Price.....50 Cents.

# EUREKA TELEGRAPH OUTFIT

Outfit Complete, With Battery, \$2.25.  
(Without Battery, \$1.75.)

Sent by express C. O. D., when the express charges are guaranteed by express agent.

## DESCRIPTION.

The Eureka Learner's Outfit, as shown by illustration, is a first class, full size telegraph set. All of the working parts—which includes key lever, sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. The key is of the curved lever pattern, and sounder gives a loud and clear sound, equal to the best expensive instrument.

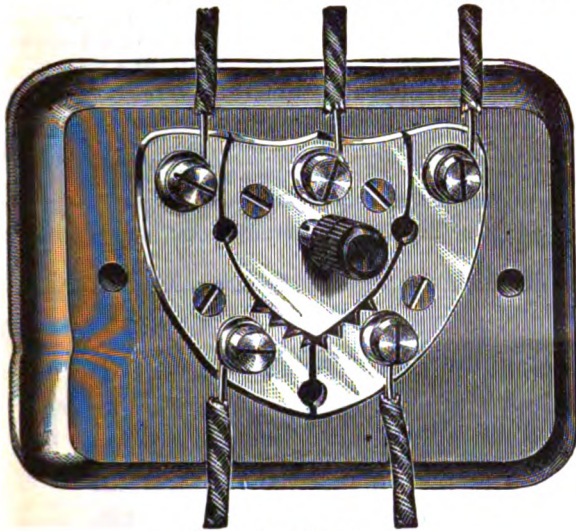

## THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.....	\$2.25
Eureka instrument only (no battery or wire), for short lines....	1.75
Eureka instrument only, wound for lines 1 to 15 miles.....	2.00
Postage on instrument only (battery not mailable).....	.40

We claim this the BEST low priced telegraph set ever made. Its one of our specialties, and made in large quantities.

## UNION LIGHTNING ARRESTOR AND GROUND WIRE SWITCH.

(Illustration full size.)

Just the thing for private telegraph lines. Serves as a lightning arrestor, cut out and also ground wire switch.

Price, each,  
\$0.50.

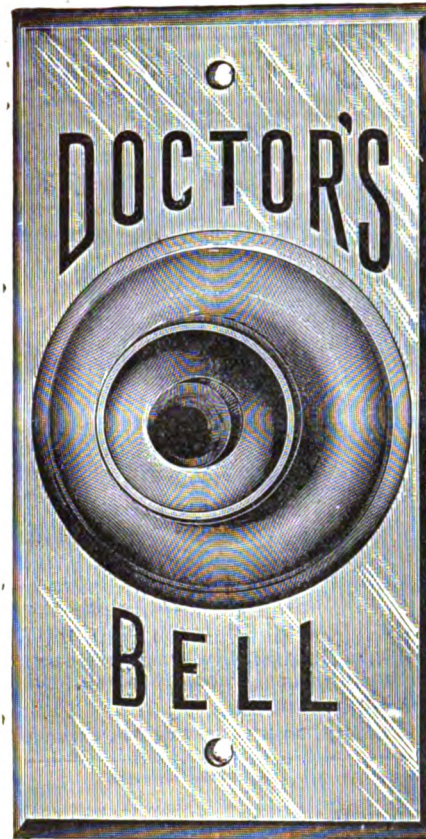

## SMALL ANNUNCIATORS.

We make all sizes, but this pattern is intended for use where a small case is desired. It is reliable and sold at a low price. Gravity drop pattern. Tags furnished with any numbers, or lettered as desired.

Price, No. 2.....	\$2.00.
“ 4.....	3.00.
“ 6.....	3.75.

Our regular Electrical Supply Catalogue,  
224 pages, 10 cents,

## PUSH BUTTONS.

We make nearly 100 different styles of push buttons.

They are all finely finished and made from best metal.

THIS STYLE (cut full size) furnished in bronze. ("Doctor's Bell," "Night Bell" or "Janitor's Bell").

Price, each.....\$0.75.

Our Pushes are finished in bronze, nickel plated, silver plated, oxydized silver, oxydized copper, brass and Bower Barff (dead black).

J. H. BUNNELL &amp; CO.'S

## STEEL LEVER

SOLID  
TRUNNION

## KEYS.

PRICE,  
1.75.OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

## THE BUNNELL STEEL LEVER

KEY is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is only *one-half* the weight of the ordinary brass lever as generally made.The entire Lever and Trunnions together being made of *but one piece* of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of *hardened platina points*, *sticking is absolutely prevented*.

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

## LEGLESS PATTERN STEEL LEVER KEY

New Form with Open Base.

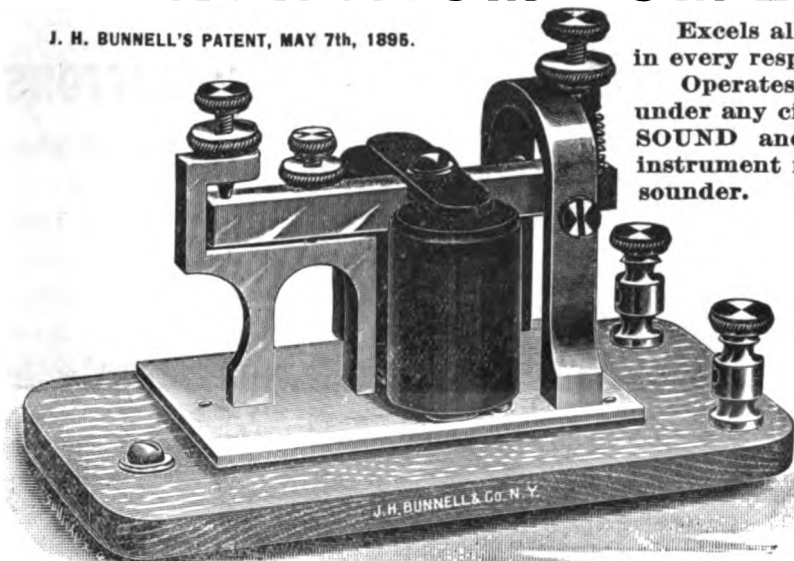

A beautiful and perfect Key suitable for use on Fine Desks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

## THE NEW ALUMINUM LEVER GIANT SOUNDER

J. H. BUNNELL'S PATENT, MAY 7th, 1895.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the FINEST and BEST SOUNDER ever designed.

Operates with ONE CELL only of LOCAL, having no need whatever under any circumstances for the use of two cells. The MARGIN of SOUND and STRENGTH and QUICKNESS with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, . . . . . \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length, \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

NEW GIANT SOUNDER, 20 OHMS RESISTANCE,  
AND STEEL LEVER KEY

## COMBINATION SET,

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. Price, \$4.50. Sent by mail to any distance, carefully boxed, and PREPAID by us, on receipt of the above price.

Same set, but wound to 3 ohms (local), \$4.00.

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine LEARNERS' OUTFIT. \$4.75.

NEW  
MAIN LINE SOUNDING RELAY  
WITH ALUMINUM LEVER.

Gives more than three times the volume of sound given by the very best Box Relays, or any other form of sounding Relays, for short or long main lines, ever before produced.

They are unequalled for Wrecking Instruments, Testing Sets, Switch-board Sets, Temporary Offices, and all places where it is desirable to dispense with the use of Local Batteries.

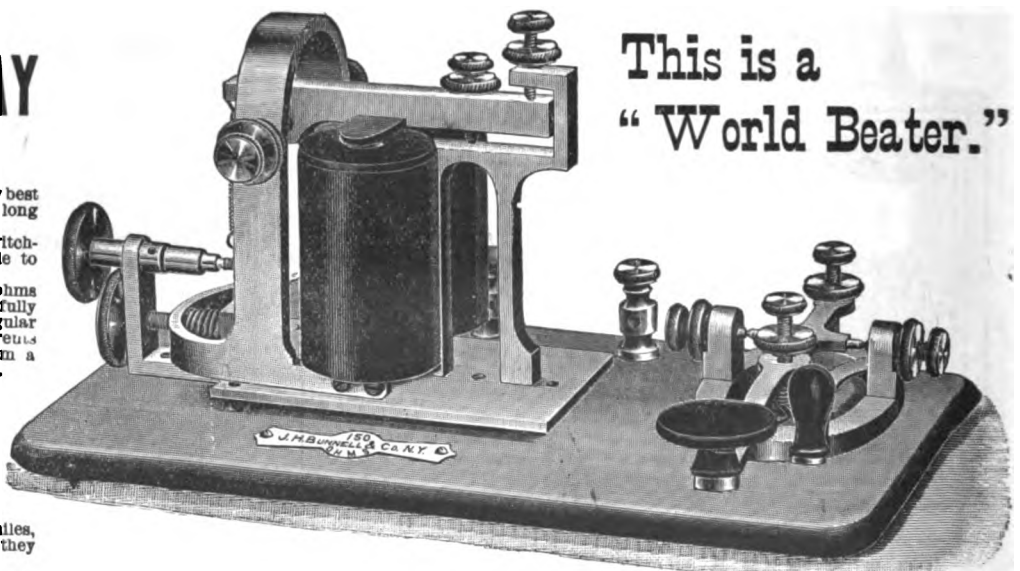

These instruments are made with full size relay magnets 150 ohms resistance, having both magnet and armature adjustments and fully suited for doing in a greatly improved manner, the work of regular main line Box Relays. They are highly sensitive to the weakest currents and will give a clear working sound on circuits where, without them a relay with local sounder and battery would be absolutely necessary.

Price, 150 ohms Resistance, with Key on Base . . . . .	\$9 00
" " " " without Key . . . . .	8 00
In Mahogany Case, for Wrecking Sets, \$2.50 extra.	
Price, 200 to 300 ohms, with Key on base . . . . .	8 50
" " " " without Key . . . . .	8 50
Price, 20 to 100 ohms, with Key on Base . . . . .	8 50
" " " " without Key . . . . .	7 50

This latter class for all circuits from a mile or two up to 100 miles, when with ordinary main battery power suitable for such lines, they are equal to the best local sounders.

**The Union Lightning Arrester and Ground Switch.**

As lightning is frequently attracted to outdoor lines and thereby enters the offices, sometimes damaging the instruments, or even setting fire to curtains or other inflammable material about the instrument table, a simple and cheap instrument called "lightning arrester and cut out," is used for the purpose of intercepting and carrying to the earth such discharges of lightning as would be liable to cause damage. This apparatus is entirely effective, and is a complete safeguard against lightning.

telegraph and bulletin service. He was buried at Cleveland, O. Of a kind and amiable disposition, he had the friendship and esteem of a large acquaintance in the field of both the telegraph and the press.

MERRITT C. BRISTOL, Superintendent of Construction of the Western Division of the Western Union Telegraph Company, died at Chicago, April 30th, aged 57 years. For thirty-six years (except for a few months during the Civil War when he was in the United States Military service), he had been in the service of the Western Union Company first as line builder and foreman and for the past eighteen years, as its Western Division Superintendent of Construction.

C. C. HINE, for the last forty years prominent in Fire Insurance circles, the last thirty years thereof as writer and publisher at New York of periodicals and books pertaining to that business, but an old-time telegrapher, died at his home in Newark, N. J., on April 17th, in his 72d year. He was born in New Haven, Conn., in 1825, but in his early life moved westward, and when a young man learned telegraphy. In 1847 he became an operator in Ohio, in which occupation he continued in Illinois, Iowa, Indiana, and at St. Louis until 1854. In 1886 he was President of the Old Time Telegraphers Associations.

THE Sixteenth Annual Meeting of the Association of Railway Telegraph Superintendents will be held at the Cataract House, Niagara Falls, N. Y., June 16 and 17, 1897.

Papers of great interest to railway and telegraph men will be read and discussed. A large attendance of members is expected. Applicants for membership in the Association will be cordially welcomed.

(Continued from last month.)

#### TESLA ON ELECTRICITY.

But among all these many departments of research, these many branches of industry, new and old, which are being rapidly expanded there is one dominating all others in importance—one which is of the greatest significance for the comfort and welfare, not to say for the existence, of mankind, and that is the electrical transmission of power. And in this most important of all fields, gentlemen, long afterwards, when time will have placed the events in their proper perspective, and assigned men to their deserved places, the great event we are commemorating to-day will stand out as designating a new and glorious epoch in the history of humanity—an epoch grander than that marked by the advent of the steam engine. We have many a monument of past ages; we have the palaces and pyramids, the temples of the Greek and the cathedrals of Christendom. In them is exemplified the power of men, the greatness of nations, the love of art and religious devotion. But that monument at Niagara has something of its own, more in accord with our present thoughts and tendencies. It is a

(Continued on page 71.)

## TARIFF BUREAU.

### MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, May 20, 1897.

The following list of "Changes" corrects the Tariff Book of January, 1897, to date. Changes in the list of "New Offices" are not included.

The hand  indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices," which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Chester Heights, Pa., which was formerly a double star station, but which is now a Western Union office in Square 59.

See Special Notices at end of this circular.

### CHANGES.

A modification of Rule 68, to take effect on and after January 1, 1897, has been authorized. As modified, the rule will read:

Rule 68. Sunday's messages will be entered as a part of the previous Saturday's business, except when the first day of the month falls on Sunday, in which case Sunday's messages will be entered as a part of the business of the following Monday.

The Atlantic Cable rate from Wyoming to Great Britain, Ireland, France and Germany, is 34c. per word.

## SPECIAL NOTICES.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc., do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own state.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 30th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated as night message offices in the Tariff Book.

Offices having special rates, should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 407 to 422, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 855 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 185), Catskill Mountains (page 189), and Lake George (page 197). When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Notifications of the arrival of steamers at the Port of New York will be forwarded to any address during the Company's usual office hours, upon payment of \$1.00, plus the tolls for a ten word message between New York City and the office ordering the report.

Orders should be addressed to Manager Marine Department, New York City.

This order does not apply to New York City, Brooklyn, Hoboken or Jersey City.

THOMAS T. ECKERT,  
President.

## MONEY TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, May 18, 1897.

To All Transfer Agents and Offices:

The transfer service has been resumed at Frankfort, Ind., Middlesborough, Ky., and Palatka, Fla.

On May 1st. Long Branch, N. J., was reopened as a Class D office.

On May 10th, Niagara, Ont., was added to the list of Class E, transfer offices in Arthur Cox's district.

A. G. Saylor has been appointed Acting Transfer Agent, at Philadelphia, Pa., vice C. S. Jarvis, removed.

Managers will correct their lists accordingly.

THOS. T. ECKERT,  
President.

(Continued from page 62.)

## TESLA ON ELECTRICITY.

monument worthy of our scientific age, a true monument of enlightenment and of peace. It signifies the subjugation of natural forces to the service of man, the discontinuance of barbarous methods, the relieving of millions from want and suffering. No matter what we attempt to do, no matter to what fields we turn our efforts, we are dependent on power. Our economists may propose more economical systems of administration and utilization of resources, our legislators may make wiser laws and treaties, it matters little; that kind of help can be only temporary. If we want to reduce poverty and misery, if we want to give to every deserving individual what is needed for a safe existence of an intelligent being, we want to provide more machinery, more power. Power is our mainstay, the primary source of our many-sided energies. With sufficient power at our disposal we can satisfy most of our wants and offer a guaranty for safe and comfortable existence to all, except perhaps to those who are the greatest criminals of all—the voluntarily idle.

The development and wealth of a city, the success of a nation, the progress of the whole human race, is regulated by the power available. Think of the victorious march of the British, the like of which history has never recorded. Apart from the qualities of the race, which have been of great moment, they own the conquest of the world to coal. For with coal they produce their iron; coal furnishes them light and heat; coal drives the wheels of their immense manufacturing establishments, and coal propels their conquering fleets. But the stores are being more and more exhausted, the labor is getting dearer and dearer, and the demand is continuously increasing. It must be clear to every one that soon some new source of power supply must be opened up, or that at least the present methods must be materially improved. A great deal is expected from a more economical utilization of the stored energy of the carbon in a battery; but while the attainment of such a result would be hailed as a great achievement, it would not be as much of an advance toward the ultimate and permanent method of obtaining power as some

engineers believe. By reasons both of economy and convenience we are driven to the general adoption of a system of energy supply from central stations, and for such purposes the beauties of the mechanical generation of electricity can not be exaggerated. The advantages of this universally accepted method are certainly so great that the probability of replacing the engine dynamos by batteries is, in my opinion, a remote one, the more so as the high-pressure steam engine and gas engine give promise of a considerably more economical thermodynamic conversion. Even if we had this day such an economical coal battery, its introduction in central stations would by no means be assured, as its use would entail many inconveniences and drawbacks. Very likely the carbon could not be burned in its natural form as in a boiler, but would have to be specially prepared to secure uniformity in the current generation. There would be a great many cells needed to make up the electro-motive force usually required. The process of cleaning and renewal, the handling of nasty fluids and gases and the great space necessary for so many batteries would make it difficult, if not commercially unprofitable, to operate such a plant in a city or densely populated district. Again, if the station be erected in the outskirts, the conversion by rotating transformers or otherwise would be a serious and unavoidable drawback. Furthermore, the regulating appliances and other accessories which would have to be provided would probably make the plant fully as much, if not more, complicated than the present. We might, of course, place the batteries at or near the coal mine, and from there transmit the energy to distant points in the form of high-tension alternating currents obtained from rotating transformers, but even in this most favorable case the process would be a barbarous one, certainly more so than the present, as it would still involve the consumption of material, while at the same time it would restrict the engineer and mechanic in the exercise of their beautiful art. As to the energy supply in small isolated places as dwellings, I have placed my confidence in the development of a light storage battery, involving the use of chemicals manufactured by cheap water power, such as some carbide or oxygen-hydrogen cell.

## ARM REST FOR TELEGRAPH OPERATORS.

One of the most practical patented inventions of the day, supplying a long felt want. Operators know how tiring their work is to the arm; and often it leads to paralysis. The "Rest" prevents that disease, and cures it when contracted. It is invaluable to beginners. Substantially made of hard wood and leather, highly finished.

Sent post-paid for only \$1.00. AGENTS WANTED.

HENRY W. GOODROE, Hinesburgh, Vt.

Western Union Telegraph Company,

NEW YORK, March 10, 1897.

### DIVIDEND NO. 114.

THE Board of Directors have declared a quarterly dividend of ONE AND ONE-QUARTER PER CENT. upon the capital stock of this company, payable at the office of the Treasurer on and after the 15th day of April next, to shareholders of record at the close of the transfer books on the 20th day of March inst.

The transfer books will be closed at 3 o'clock on the afternoon of March 20th inst., and reopened on the morning of April 1st, next.

R. H. ROCHESTER, Treasurer.

## PONY TELEPHONE RECEIVERS.

(OUT FULL SIZE)

This telephone receiver weighs only 6 ounces. The spool is wound with silk wire to the standard resistance of 75 ohms. The binding posts will not get loose. The shell of the receiver is of cast steel and is strongly magnetized. The adjustment is rigid and will not become changed even by the greatest carelessness.

It is a perfect working telephone receiver, and one that costs ten times as much will not work better.

With suitable signal apparatus, this telephone receiver makes a complete telephone outfit, as it can be used as a transmitter and receiver combined.

The price, as well as the instrument, is small. We always make low prices on our specialties, in order to make them up in quantities.

Price.....50 Cents.

# EUREKA TELEGRAPH OUTFIT

Outfit Complete, With Battery, \$2.25.

(Without Battery, \$1.75.)

Sent by express C. O. D., when the express charges are guaranteed by express agent.

## DESCRIPTION.

The Eureka Learner's Outfit, as shown by illustration, is a first class, full size telegraph set. All of the working parts—which includes key lever, sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. The key is of the curved lever pattern, and sounder gives a loud and clear sound, equal to the best expensive instrument.

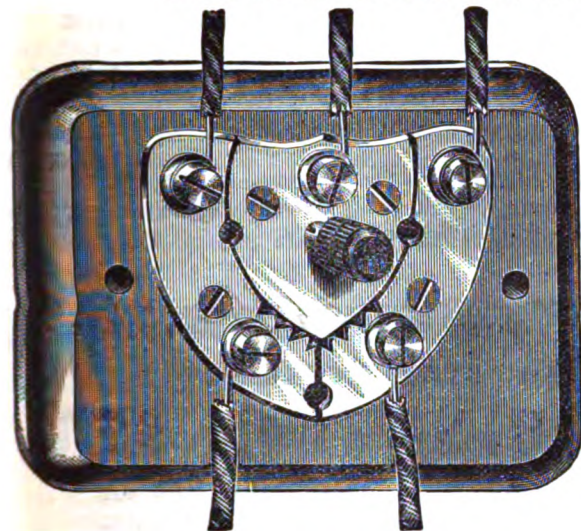

## THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.....	\$2.25
Eureka instrument only (no battery or wire), for short lines....	1.75
Eureka instrument only, wound for lines 1 to 15 miles.....	2.00
Postage on instrument only (battery not mailable).....	.40

We claim this the BEST low priced telegraph set ever made. Its one of our specialties and made in large quantities.

## UNION LIGHTNING ARRESTOR AND GROUND WIRE SWITCH.

(Illustration full size.)

Just the thing for private telegraph lines. Serves as a lightning arrestor, cut out and also ground wire switch.

Price, each,  
\$0.50.

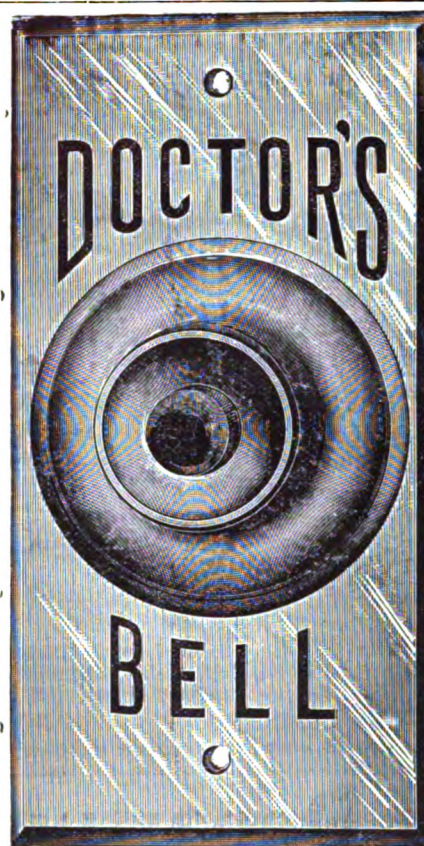

## SMALL ANNUNCIATORS.

We make all sizes, but this pattern is intended for use where a small case is desired. It is reliable and sold at a low price. Gravity drop pattern. Tags furnished with any numbers, or lettered as desired.

Price, No. 2.....	\$2.00.
“ 4.....	3.00.
“ 6.....	3.75.

Our regular Electrical Supply Catalogue,  
224 pages, 10 cents,

## PUSH BUTTONS.

We make nearly 100 different styles of push buttons.

They are all finely finished and made from best metal.

THIS STYLE (cut full size) furnished in bronze (“Doctor’s Bell,” “Night Bell” or “Janitor’s Bell”).

Price each.... \$0.75.

Our Pushes are finished in bronze, nickel plated, silver plated, oxydized silver, oxydized copper brass and Bower Barff (dead black).

## IF YOU WANT

Anything in the ELECTRICAL line write us. Our facilities for manufacturing are the best, and we carry everything in the Electrical line.

# J. H. BUNNELL & CO.'S STEEL LEVER SOLID TRUNNION KEYS.

OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

**THE BUNNELL STEEL LEVER KEY** is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is *only one-half the weight* of the ordinary brass lever as generally made. The entire Lever and Trunnions together being made of *but one piece* of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of *hardened platina points, sticking is absolutely prevented.*

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

\* Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

PRICE,  
1.75.

## LEGLESS PATTERN STEEL LEVER KEY

New Form with Open Base.

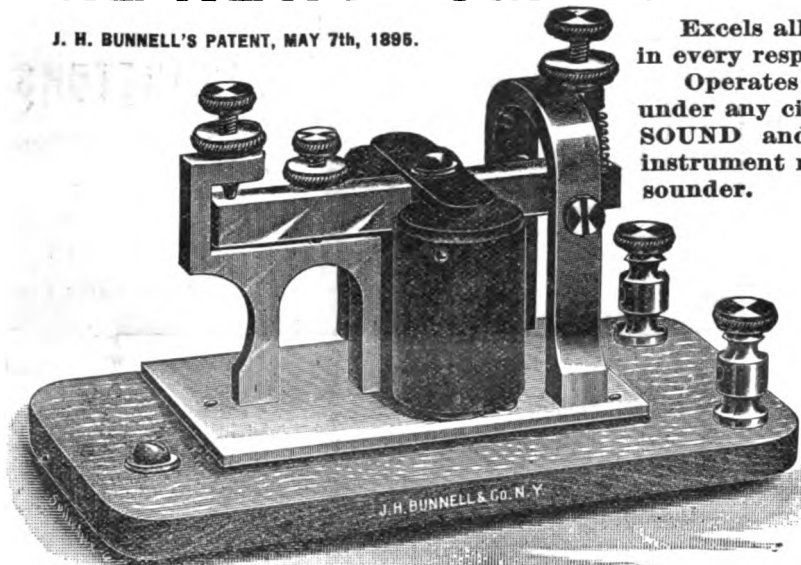

A beautiful and perfect Key suitable for use on Fine Decks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

# THE NEW ALUMINUM LEVER GIANT SOUNDER

J. H. BUNNELL'S PATENT, MAY 7th, 1895.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the FINEST and BEST SOUNDER ever designed.

Operates with ONE CELL only of LOCAL, having no need whatever under any circumstances for the use of two cells. The MARGIN of SOUND and STRENGTH and QUICKNESS with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, . . . . . \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length, \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

## NEW GIANT SOUNDER, 20 OHMS RESISTANCE, AND STEEL LEVER KEY COMBINATION SET,

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. Price, \$4.50. Sent by mail to any distance, carefully boxed, and PREPAID by us, on receipt of the above price.

Same set, but wound to 3 ohms (local), \$4.00.

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine LEARNERS' OUTFIT, \$4.75.

# The New Departure Learners' Outfit.... WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.

The IDEAL SET for HOME PRACTICE. Always Ready. NEAT, CLEAN, ATTRACTIVE.

The INSTRUMENT is our well-known "MORSE LEARNERS' APPARATUS" with STEEL LEVER KEY, arranged for use with our "MASCOT DRY BATTERY."

The "circuit-closer" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "circuit-closer" detached the Mascot Battery should last for several months' practice. The "circuit-closer" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

Instruction Book goes free with each outfit.

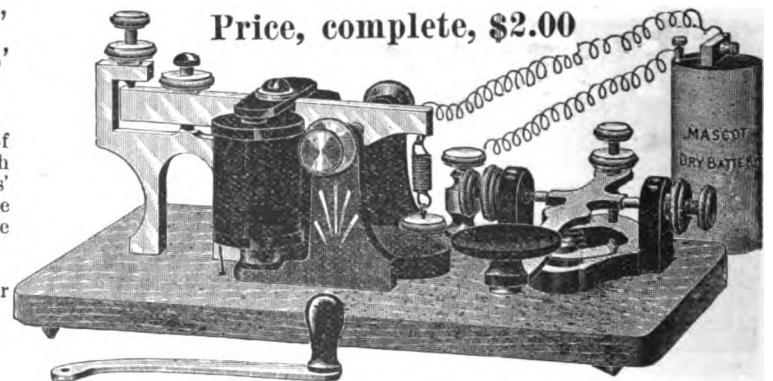

The complete outfit, packed in a wooden box, weighs about 7 lbs.

Shipped by express to any address on receipt of \$2.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 224 pages, sent on receipt of your business card.

These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 50 cents. The Mascot Dry Battery, which too heavy for mailing economically can be obtained at all hardware and electrical supply stores for 50 cents or less.

Price, complete, \$2.00

# MORSE LEARNERS' INSTRUMENTS

## WITH STEEL LEVER (SOLID TRUNNION) KEYS.

\$2.75

OUTFIT COMPLETE

\$2.75

The Key Knobs, Circuit Closer Knobs, Magnet Heads, etc., of polished hard rubber.  
The Contact points are of pure hardened platina.  
Base of polished mahogany.  
Key Steel Lever.

### THE BEST.

Price, \$2.75, complete with Battery, Book of Instruction, Wire Chemicals and all necessary materials for operating.  
"Morse" instrument, alone, without battery, \$2.25  
"Morse" instrument without battery, and wound with fine wire for lines of one to fifteen miles, 3.40  
Call of Battery complete, .45  
"Morse" Learners' instrument without Battery, sent by mail, 2.75  
(Battery cannot be sent by mail.)

### Instruction Book, Free.

Goods sent C. O. D. to points within 500 miles of New York, if one-third of the amount of the bill is sent with the order.  
Remit by Draft, Postal Money Order, or Registered Letter.  
Favorable arrangements made with agents everywhere.

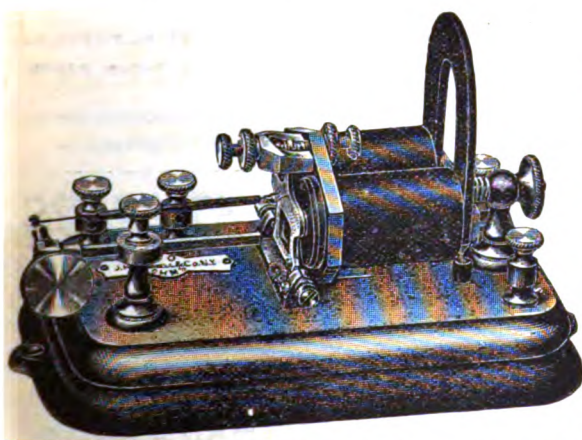

### THE NEW No. 4 HOME, D. D. ELECTRO-MEDICAL BATTERY WITH DRY CELL.

is the latest and very best instrument of the kind ever offered. Price, \$10.00. 50 per cent. discount to Telegraphers. \$5.00 Net. Send for descriptive Circular and Dr. Wells' Electro-medic Guide, free.

J. H. BUNNELL & CO., 76 Cortlandt Street, New York.

**FREE! COMPLETE INSTRUCTION IN TELEGRAPHY.** If you wish to know all about learning Telegraphy, constructing and operating Short Lines of Telegraph, etc., send your address by postal card or letter, and get J. H. BUNNELL & Co.'s Manual of Instruction for Learners of Telegraphy, latest edition, which we will send free of charge to all who apply by mail or otherwise. It is the plainest and best book of instruction in Telegraphy ever published, being fully complete in description, explanation and illustrations.

## Special Railroad Relay.

under the most unfavorable conditions of weather these instruments will work when nothing intelligible can be gotten from the best ordinary 150-ohm relays. Their adjustment is also much more satisfactory on hard, working wires, response being prompt and solid under conditions of heaviest escape, when the sender could not hear his own writing if adjusted for the distant station with ordinary relay. For these advantages together with that of the immense reduction in total resistance of the circuit which is obtained, I regard the relay as a very important improvement."

Price, - - - \$7.00

FOR crowded railway wires and other lines where many relays are worked in a single circuit, these relays, although they are wound to only 50 ohms' resistance, give better service on crowded lines in bad weather than can be obtained with the best 150-ohm relays of ordinary construction. The improvement in the working of line by the clear action of the relay, which is accomplished in this form, together with the immense resistance reduction in the circuit, is such as to insure adoption wherever tried.

Among the many testimonials we hold regarding the extraordinary working of these relays is the following from a prominent superintendent of Railway Telegraphs:

"We have been using your Special Railroad Relay of 50 ohms' resistance on our Division Train Wires, one at each end of line of 128 miles, with 33 offices in circuit, and on another wire of 150 miles, with 39 offices, and on our through wire, 426 miles long. We have watched them carefully, and

## The "Morse" Learners' Outfit

\$2.75 THE BEST \$2.75

The "Morse" Outfit is a full size, well made, complete MORSE TELEGRAPH apparatus of the latest and best form for learners, including handsome giant Sounder with Steel Lever (Solid Trunnion) Key, and a large Cell of the best Gravity Battery, latest form. It is the best working set of learners' Instruments for short or long lines, from a few feet up to 20 miles in length, yet offered.

The Sounder Levers, Sounder Yokes, Adjusting Screws, etc., are in finely finished BRASS Composition, the same metal as in all other first-class instruments.

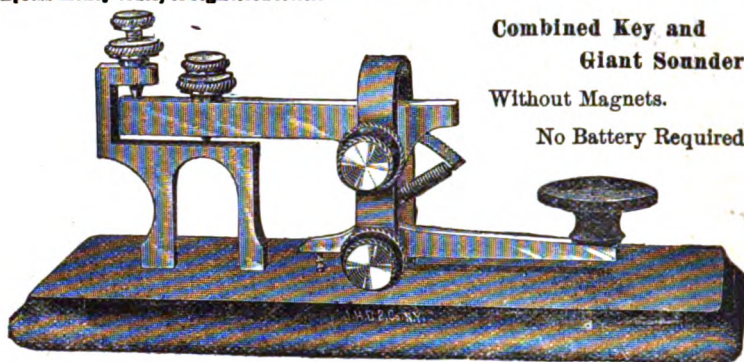

The magnets are strong. The Sounder is loud and clear. The Key is the celebrated Steel Lever Key, known everywhere as the only perfect key.

## NEW "No. 2" IMPROVED MECHANICAL TELEGRAPH INSTRUMENT.

Works Perfectly as a Key, with Sound equal to the best Sounder.

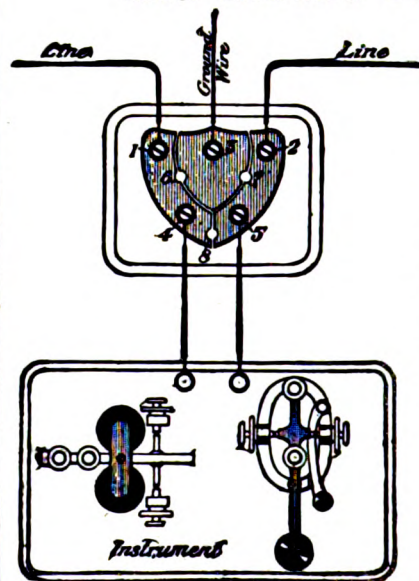

FOR MORSE ALPHABET PRACTICE in sending and reading by sound, and for LEARNING OR TEACHING THE MORSE ALPHABET. Can be carried in the pocket or satchel, and is always ready for use. Works exactly like the very best Sounder and Key Combination Telegraph Set, giving loud, clear sound, with slightest force or movement of Key. All made in first-class Instrument Composition Brass, same pattern as best Giant Sounder.

Price, with Telegraph Instruction Book, package of Morse Alphabet Cards, etc., \$1.50. Sent anywhere in the United States, by mail, prepaid, on receipt of price, in stamps, postal or express money order, or registered letter.

Combined Key and  
Giant Sounder.  
Without Magnets.  
No Battery Required.

## The Union Lightning Arrester and Ground Switch.

As lightning is frequently attracted to outdoor lines and thereby enters the offices, sometimes damaging the instruments, or even setting fire to curtains or other inflammable material about the instrument table, a simple and cheap instrument called "lightning arrester and cut out," is used for the purpose of intercepting and carrying to the earth such discharges of lightning as would be liable to cause damage. This apparatus is entirely effective, and is a complete safeguard against lightning.

PRICE, 50 CENTS BY MAIL, PREPAID.

Send for our LATEST CATALOGUE, October, 1896, containing 224 Pages and nearly 800 ILLUSTRATIONS the VERY BEST Telegraph and Electrical Supplies ever offered to the trade.

For all or any of the above, address J. H. BUNNELL & CO., 76 CORTLANDT STREET, NEW YORK.

**SPECIAL OFFER No. 1.**

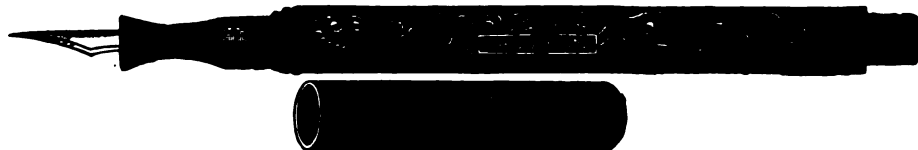

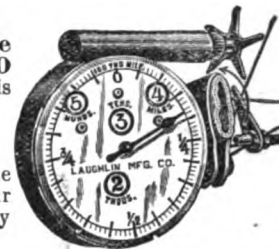

For 30 days only. We have the following special bargains for our Telegraph friends.

Our \$5.00 Globe Vapor Bicycle Lamp and 10,000 Mile Repeating Cyclometer (both articles), to any address, for only \$2.00 net cash. Don't delay your order as these goods will not last long at this price.

**SPECIAL OFFER No. 2.**

For 30 days only. Our No. 12 \$1.50 14k. Gold Pen, the best known and known to be the best Fountain Pen in the world, and our No. 4 \$1.00 Solid, all Agate Stylus, very handsome, perfectly smooth polish, (both articles) for only \$1.50 net cash.

If you are in need of the finest Fountain Pen and Stylus in the world, send your order at once.

These articles are the greatest bargains ever offered, and should be taken advantage of, as we will not be able to repeat them.

# JOURNAL OF THE TELEGRAPH.

VOL. XXX.

NEW YORK, JUNE 20, 1897.

WHOLE NO. 528.

## QUARTERLY REPORT OF THE WESTERN UNION TELEGRAPH COMPANY, FOR THE QUARTER ENDING JUNE 30TH, 1897.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, June 9th, 1897.

The following statement exhibits the condition of the Company at the close of the quarter ended March 31st, 1897:

Surplus January 1st, 1897, as per last Quarterly Report.....	\$7,908,041 49
Net revenues, quarter ended March 31st, 1897.....	1,089,583 89
	\$8,995,624 88
From which deducting for—	
Dividend of 1¼ per cent. paid April 15th.....	\$1,191,945 00
Interest on bonded debt.....	233,871 90
Sinking funds.....	19,991 00
	\$1,425,807 90
Left a surplus April 1st, 1897.....	\$7,569,747 68
Surplus April 1st, 1897, as above.....	\$7,569,747 68
The net revenues of the quarter ending June 30th, instant, based upon nearly completed returns for April, partial returns for May and estimating the business for June, will be about.....	1,550,900 00
	\$9,120,647 68
From which appropriating for—	
Interest on bonds.....	\$233,871 90
Sinking funds.....	20,000 00
	\$253,871 90
Less	
Portion of Sinking Funds for the bonds of 1900 (which was set aside previously) returned to the Company by the Sinking Fund Trustees, because of the drawn bonds not being presented for redemption.....	40,000 00
	\$8,905,873 68
It requires for a dividend of 1¼ per cent. on capital stock issued, about.....	1,216,975 00
Deducting which leaves a surplus, after paying dividend, of.....	\$7,688,897 68

The increase of \$25,000 in the amount required for the payment of a dividend of 1¼ per cent. for the current quarter is caused by the issue and sale, duly authorized, of 20,000 shares of the unissued balance of 46,300 shares of the increase in the capital stock, authorized by the stockholders on October 12th, 1892. The proceeds of this sale have been applied to the account for the construction and acquirement of new lines and property (\$3,138,658.20), and the Chicago Building (\$1,666,212.50), covering the fiscal years 1893, 1894, 1895 and 1896, the cost thereof

having, as shown by the Annual Reports, exceeded the surplus earnings for those years by \$2,112,145.29.

In view of the preceding statements, the Committee recommend the adoption by the Board of the following:

*Resolved*, That a dividend of one and one-quarter per cent. on the capital stock of this Company be hereby declared payable on and after the 15th day of July next, to stockholders of record at the close of the transfer books on the 19th day of June, instant.

*Resolved*, That for the purpose of the dividend hereinbefore declared, the stock books of the Company be closed at three o'clock on the afternoon of the 19th day of June, instant, and be reopened on the morning of the 1st day of July, next.

Respectfully submitted,

THOMAS T. ECKERT, *President*.

## THE PARIS EXPOSITION OF 1900.

THE Paris Exposition will open April 15 and will close November 5, 1900. Preparations are well advanced. The site will comprise the public grounds on both sides of the Seine from the Place de la Concorde, the great monumental square in the very centre of the city, to a point beyond the Pont d'Jéna, embracing the Champ de Mars, the Trocadéro Palace and park (site of the Exposition of 1889), the Esplanade des Invalides, the Quai d'Orsay, the Quai de la Conférence, the Cour la Reine, and a large section of the Champs Elysées, including the site of the Palais de l'Industrie, the great building erected for the International Exposition of 1855, the first of the series. No other city in the world contains, in its very centre, an equal area available for a great Exposition. Not only does this site leave nothing to be desired in point of convenience and accessibility, but divided as it is throughout its entire length by the Seine, winding between magnificent quays and bordered by stately edifices and historic monuments, it lends itself admirably to the works of decoration and embellishment in which the French people are past masters, and which are indispensable to a successful Exposition.

All the details of the architecture are not yet worked out. The unique palace of the Trocadéro, erected for the Exposition of 1878 and utilized a second time in 1889, will be used, as well as several of the great Exposition halls of 1880 in the Champ de Mars, but all of them will undergo more or less modification. The Eiffel Tower will be preserved, but it is probable that some new and striking feature will

be added to it. The Palais de l'Industrie, which housed the entire Exposition of 1855, and in which the annual salon of the Société des Artistes Français is held, will disappear, however, and on its site will be erected a magnificent edifice to serve as the Fine Arts Hall during the Exposition, and to remain as a permanent monument. Demolition is already in progress. To the west of the Fine Arts Hall, on the same side of the Champs Elysées, will rise the Hall of Liberal Arts, which is also to be a stately and permanent edifice. Between these great buildings will be constructed a broad avenue extending from the Champs Elysées to the Seine, at the point where a magnificent bridge is being constructed, named after Alexander III., Emperor of Russia, by whose son, the present Emperor, the cornerstone was laid, with imposing ceremonies, during his recent visit to Paris. This bridge will have a pronounced artistic character, and, with the projected avenue, will connect the Champs Elysées and the Esplanade des Invalides, adding a new and impressive vista to the charms of the famous Parisian avenue, with the stately golden dome which crowns the tomb of the great Napoleon in the background.

Consul General Samuel E. Moras writes from Paris that the Exposition will offer rare opportunities for American artists, inventors, manufacturers and workers in every field of human effort to illustrate once more to the world the vastness of our resources, the superiority of many of our industrial implements and processes, and the variety and excellence of our productions. It is hoped that American manufacturers and producers in all lines will be fully represented.

The classification of "Group No. 5, Electricity," is as follows:

Production and mechanical utilization of electricity.

Chemical electricity.

Electric lighting.

Telegraphy and Telephones.

Different applications of electricity.

Electric railways come under the heading of "Tramways," in the transportation group.—*Electrical Review*.

ACCORDING to a Swiss engineering journal there are now in Switzerland 525 passenger cars which are lit electrically, and the number is continually increasing. On some lines all the trains are to be equipped with this system and on some of the others it is introduced on all the new cars.—*El. World*.

**Highly.** The large envelope, Form 194, should be used only for making remittances by express.

**Mistake.** Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

**R. H. ROCHESTER, Treasurer.**

A MESSAGE sent "collect," reported as "uncollectible," and collected for by sending office from its sender, should always be booked and reported as it was originally checked—and should never be booked and reported as if checked "paid." See Rule 69 Western Union Book of Rules. The amount collected from sender should be reported in the Form No. 4 Report as Receipts for "Guaranteed Messages"—and should not be reported as "Telegraph Receipts."

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, June 20, 1897.

We are requested by the receiver of the Wheeling and Lake Erie Railroad Company to take up, if presented, business franks issued on its account, numbered Q 734 and R 960.

Managers will please comply with this request and return the franks to this office for cancellation.

**JNO. VAN HORNE,**  
Vice-President.

#### TELEGRAPHERS' MUTUAL BENEFIT ASSOCIATION.

At a special meeting of the Executive Committee of Telegraphers' Mutual Benefit Association held May 24, 1897, the resignation of Mr. T. E. Fleming as Secretary of the Association was read and, on motion, accepted; and the following resolution was unanimously adopted:

*Resolved*, that the resignation of Mr. Fleming as Secretary of the Association be accepted, to take effect June 1st; and that in accepting his resignation, this Committee desires to record on the minutes of the Association its regret at losing his services, which have been eminently acceptable and satisfactory to the Committee and to the membership at large. That while the members of the committee are sorry to lose the services of so valuable an officer, they at the same time rejoice with and congratulate him upon his advancement in other fields, and wish him all the success which his abilities and energetic qualities deserve.

*Resolved*, further, that a copy of this resolution, signed by the members of the Committee, be presented to Mr. Fleming upon his retirement from office.

On motion, Mr. M. J. O'Leary was appointed Secretary of the Association, to date from June 1st.

All official communications should be addressed: Telegraphers' Mutual Benefit Association, M. J. O'Leary, Secretary, and in making remittances, have all drafts, checks and money orders made payable to the order of the Association as directed on remittance forms.

Mr. O'Leary has been connected with the Cable Service of the Western Union Telegraph Company for the past fifteen years, and for twelve years a member of the Auditing Committee of the T. M. B. A., as well as prominently identified with many other telegraph societies.

#### TESLA'S NEW DISCOVERIES.

GREAT ACHIEVEMENTS ANNOUNCED TO THE ACADEMY OF SCIENCE.

ONE WILL REVOLUTIONIZE THE METHODS OF ELECTRIC LIGHTING, AND ONE, HE PROMISED, WILL RESULT ULTIMATELY IN TELEGRAPHING WITHOUT WIRES—ROENTGEN RAYS ARE LENNARD RAYS.

AFTER many months of silence, Nikola Tesla spoke night before last at the Academy of Science, and, as always happens on such occasions, the scientific knowledge of the world was the richer thereby. Mr. Tesla, without going deeply into the details of his methods, announced three discoveries that he has made and gave practical illustrations of them. One will revolutionize the present methods of electric lighting, will exert a tremendous influence upon a hundred different things, and will open to the investigator an infinite number of highways of research, and will end, Mr. Tesla says, in bringing about that sought for end of all electricians, the transmission of information through space without the agency of wires now needed. The second discovery announced was that of a new and more powerful source of the Roentgen rays. The third, and Mr. Tesla says this will be the most important and interesting to scientists, is the identification of the Roentgen with the Lennard rays.

Mr. Tesla exhibited on Tuesday night a new and perfect apparatus which he called electrical oscillators, a novel kind of transformers based upon a discovery made by him six years ago which enabled him to produce from ordinary currents, direct or alternating, electrical vibrations of many millions per second. These vibrations were desirable for the attainment of many practical results, the most important being the present system of lighting. This system is inefficient and expensive, and to produce the same or better results upon lines of economy requires enormous electrical vibrations, which Mr. Tesla has been able to secure by his new apparatus. By the use of these vibrations a vacuum tube may be made to emit a powerful light and furnish a lamp that is practically indestructible.

This bare statement of fact is all that Mr. Tesla is willing to give to the public at the present time, for he has not yet explained his methods to the scientific world, but his demonstration of his discovery at the Academy of Science was most complete. Its importance, as can be easily seen, hardly can be exaggerated.

These vibrations can be used in many other ways for the economical production of things necessary to mankind. Besides the lighting problem there are others that require extraordinarily frequent vibrations for their economical solution. Mr. Tesla announces that the manufacture of ozone and other chemical products now attained by costly processes may be done economically and cheaply by these vibrations. Mr. Tesla announced not long ago that by the use of these currents it was possible to manufacture fertilizers by using no other agent than merely mechanical power such as a waterfall or steam.

The use of these currents in the transmission of power is also very probable. Mr. Tesla has worked on this principle a large part of the time since he made his announcement before the Scientific Societies in 1891, and, as he said on

Tuesday night, the machine he exhibited before the Academy of Sciences was the consummation of his labors in this direction. He said it furnished an ideal instrument for the production of the Roentgen rays, and what renders it particularly valuable is that it can be attached to any circuit and will furnish high economies. Its advent means the abolition of many devices of older design, particularly, Mr. Tesla said, of the use of the induction coil. A remarkable feature of the machine Mr. Tesla exhibited was that, although it can furnish any pressure desired, it contains no fine wire, and he illustrated by a simple experiment the advantage of the new principle over the old. The coils of the older principle require several miles of fine wire to develop a pressure equivalent to that developed by Mr. Tesla's machine that has none.

Coming to the subject of the Roentgen rays, Mr. Tesla announced that he had made two important discoveries. The first is a powerful source in an electric arc under certain conditions. This opens up a new field for research, and is most promising, as the rays obtained are very powerful and produce clearer images than those produced by present methods. The second and the one Mr. Tesla places in importance above the other is the demonstration in a peculiar way, which he described, of the deflection of the rays by a magnet. The discovery is particularly important in that this fact was needed to establish the identity of the Roentgen ray and the ray discovered by Lennard in 1891. Through this discovery Lennard appears as the original discoverer of these rays, although in his address on Tuesday night Mr. Tesla said that he did not want to take from Prof. Roentgen the least bit of credit for his remarkable achievement in this line. Mr. Tesla said that in 1894 he himself was investigating the actinic action of phosphorescent bodies and observed the Roentgen rays, but did not recognize them. He said that ever since Roentgen's announcement of his discovery scientists have been endeavoring to establish the identity between the Roentgen and Lennard rays by deflecting them by a magnet. The deflection, however, was so slight that the finest instruments could not record it. Mr. Tesla tried for a long time and failed. At last he invented an instrument that accumulated the rays until he got such a power that a boy could perform the experiment.

Besides the things already referred to, Mr. Tesla showed diagrams and designs tending to prove his theory that Roentgen rays were formed by streams of minute electrified particles of matter projected from the bulb at an extreme velocity. This view is not in accordance with that adopted by the great majority of scientists, which is that the rays are formed by transverse vibration. Prof. Roentgen's theory is that they are formed by longitudinal vibration.

Mr. Tesla promised that the tremendous vibration established by him would ultimately result in telegraphing without wires.—N. Y. Sun.

#### THE LAUGHLIN PEN.

THE Laughlin Pen, manufactured by the Laughlin Manufacturing Co., Detroit, Mich., has been in use in our office for some years, and is a superior article. They are guaranteed to give entire satisfaction, or money will be refunded.

The Company desires to have an agent in each town.

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, June 30, 1897.

The July, 1897, edition of the Tariff Book is now being distributed, and every office should be supplied with one or more copies on or before July 1, when the new book takes effect.

Managers should read carefully the pages of instruction at the beginning of the book; they should also examine the names, square numbers and P. O. addresses of their offices, and the names and rates of "other" line offices with which they connect, and report at once to their Superintendent any errors which they may discover.

Rules for the treatment of cable messages have been revised and modified; they should receive careful attention, particularly the changes referred to in the following, viz:

In rule 2 (page 413) the length of a chargeable word has been extended to fifteen letters. The present rule allows but ten.

In rule 3 (page 413) it is *required* that code words must not contain more than ten letters each.

In rule 4 (page 414) five figures to a word are allowed instead of three to a word as at present. The same rule provides for the count of words (plain words) in cipher messages at the rate of fifteen letters to a word instead of ten as formerly.

In rule 6, last paragraph, "abbreviated and misspelled words and illegitimate compound words" which, under the present rule, are counted at the rate of three letters to a word, are now counted at the rate of five letters to a word.

In rule 13 (page 416) the last line of the first paragraph should read, "The indication R P 7 (or R P with any number up to and including 30) counts as one word."

In the third paragraph of the same rule the indication "R P 20" should be counted as one word.

Other changes will become apparent upon a careful reading of the new rules, or upon comparison of the new schedule with that given in the book of January, 1897.

The following list of "changes" corrects the Tariff Book of July, 1897, to date.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Wildwood, N. J., which was formerly a double star station, but which is now a Western Union office in Square 53.

See Special Notices at end of this circular.

**SPECIAL NOTICES.**

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 191), Catskill Mountains (page 195), and Lake George (page 203.) When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used

alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc., do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own state.

Managers of offices at which messages are transferred to or from "ether lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 30th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated as night message offices in the Tariff Book.

Offices having special rates, should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 419 to 434, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 887 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Notifications of the arrival of steamers at the Port of New York will be forwarded to any address during the Company's usual office hours,

upon payment of \$1.00, plus the tolls for a ten word message between New York City and the office ordering the report.

Orders should be addressed to Manager Marine Department, New York City. This order does not apply to New York City, Brooklyn, Hoboken or Jersey City.

THOMAS T. ECKERT,  
President.

#### TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, June 18, 1897.

To All Transfer Agents and Offices:

The transfer service has been temporarily discontinued at Ellis Island, N. Y., and St. Augustine, Fla.

Managers will correct their lists accordingly.

THOS. T. ECKERT,  
President.

#### TESLA ON ELECTRICITY.

(Concluded.)

But we shall not satisfy ourselves simply with improving steam and explosive engines or inventing new batteries; we have something much better to work for, a greater task to fulfill. We have to evolve means for obtaining energy from stores which are forever inexhaustible, to perfect methods which do not imply consumption and waste of any material whatever. Upon this great possibility, which I have long ago recognized, upon this great problem, the practical solution of which means so much for humanity, I have myself concentrated my efforts since a number of years, and a few happy ideas which came to me have inspired me to attempt the most difficult, and given me strength and courage in adversity. Nearly six years ago my confidence had become strong enough to prompt me to an expression of hope in the ultimate solution of this all-dominating problem. I have made progress since, and have passed the stage of mere conviction such as is derived from a diligent study of known facts, conclusions and calculations. I now feel sure that the realization of that idea is not far off. But precisely for this reason I feel impelled to point out here an important fact, which I hope will be remembered. Having examined for a long time the possibilities of the development I refer to, namely, that of the operation of engines on any point of the earth by the energy of the medium, I find that even under the theoretically best conditions such a method of obtaining power cannot equal in economy, simplicity and many other features the present method, involving a conversion of the mechanical energy of running water into electrical energy and the transmission of the latter in the form of currents of very high tension to great distances. Provided, therefore, that we can avail ourselves of currents of sufficiently high tension, a waterfall affords us the most advantageous means of getting power from the sun sufficient for all our wants, and this recognition has impressed me strongly with the future importance of the water power, not so much because of its commercial value, though it may be very great, but chiefly because of its bearing upon our safety and welfare. I am glad to say that also in this

latter direction my efforts have not been unsuccessful, for I have devised means which will allow us the use in power transmission of electro-motive forces much higher than those practicable with ordinary apparatus. In fact, progress in this field has given me fresh hope, that I shall see the fulfillment of one of my fondest dreams; namely, the transmission of power from station to station without the employment of any connecting wire. Still, whatever method of transmission be ultimately adopted, nearness to the source of power will remain an important advantage.

Gentlemen, some of the ideas I have expressed may appear to many of you hardly realizable; nevertheless, they are the result of long-continued thought and work. You would judge them more justly if you would have devoted your life to them, as I have done. With ideas it is like with dizzy heights you climb: At first they cause you discomfort and you are anxious to get down, distrustful of your own powers; but soon the remoteness of the turmoil of life and the inspiring influence of the altitude calm your blood; your step gets firm and sure and you begin to look—for dizzier heights. I have attempted to speak to you on "Electricity," its development and influence, but I fear that I have done it much like a boy who tries to draw a likeness with a few straight lines. But I have endeavored to bring out one feature, to speak to you in one strain which I felt sure would find response in the hearts of all you, the only one worthy of this occasion—the humanitarian. In the great enterprise at Niagara we see not only a bold engineering and commercial feat, but far more, a giant stride in the right direction as indicated both by exact science and philanthropy. Its success is a signal for the utilization of water powers all over the world, and its influence upon industrial development is incalculable. We must all rejoice in the great achievement and congratulate the intrepid pioneers who have joined their effort; and means to bring it about. It is a pleasure to learn of the friendly attitude of the citizens of Buffalo and of the encouragement given to the enterprise by the Canadian authorities. We shall hope that other cities, like Rochester on this side and Hamilton and Toronto in Canada, will soon follow Buffalo's lead. This fortunate city herself is to be congratulated. With resources now unequalled, with commercial facilities and advantages such as few cities in the world possess, and with the enthusiasm and progressive spirit of its citizens, it is sure to become one of the greatest industrial centres of the globe.

REPORTS are being frequently published both in the public and medical press relating to burnings by the X rays. The injuries caused by the experiments in taking Roentgen photographs are now attracting the serious attention of physicians and physicists. For example, a young woman was photographed who had suffered from hip disease. A few days later she began to feel a numbness and have pains in the hip. She grew worse rapidly, and several operations were performed, the flesh around the sores being cut away, but at last accounts there was no sign of healing, and her condition is now critical. A skin grafting operation will probably be attempted.—Sci. Am.

## ARM REST FOR TELEGRAPH OPERATORS.

One of the most practical patented inventions of the day, supplying a long felt want. Operators know how tiring their work is to the arm; and often it leads to paralysis. The "Rest" prevents that disease, and cures it when contracted. It is invaluable to beginners. Substantially made of hard wood and leather, highly finished.

Sent post-paid for only \$1.00. AGENTS WANTED.

## PONY TELEPHONE RECEIVERS.

(OUT FULL SIZE)

This telephone receiver weighs only 6 ounces. The spool is wound with silk wire to the standard resistance of 75 ohms. The binding posts will not get loose. The shell of the receiver is of cast steel and is strongly magnetized. The adjustment is rigid and will not become changed even by the greatest carelessness.

It is a perfect working telephone receiver, and one that costs ten times as much will not work better.

With suitable signal apparatus, this telephone receiver makes a complete telephone outfit, as it can be used as a transmitter and receiver combined.

The price, as well as the instrument, is small. We always make low prices on our specialties, in order to make them up in quantities.

Price.....50 Cents.

# EUREKA TELEGRAPH OUTFIT

Outfit Complete, With Battery, \$2.25.

(Without Battery, \$1.75.)

Sent by express C. O. D., when the express charges are guaranteed by express agent.

## DESCRIPTION.

The Eureka Learner's Outfit, as shown by illustration, is a first class, full size telegraph set. All of the working parts—which include key lever, sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. The key of the curved lever pattern, and sounder gives a loud and clear sound, equal to the best expensive instrument.

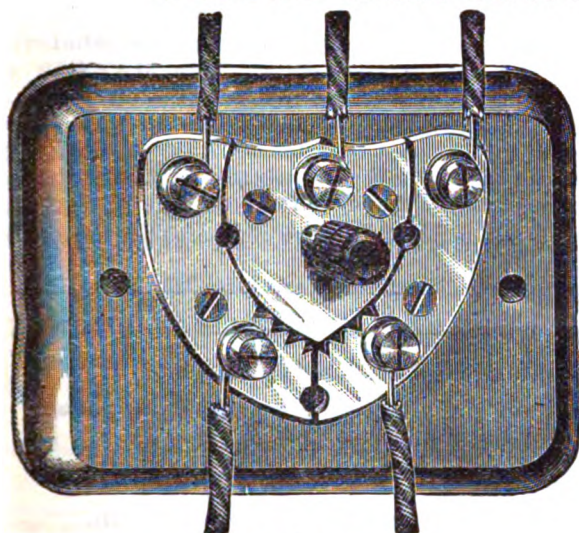

## THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.....	\$2.25
Eureka instrument only (no battery or wire), for short lines....	1.75
Eureka instrument only, wound for lines 1 to 15 miles.....	2.00
Postage on instrument only (battery not mailable).....	.40

We claim this the best low priced telegraph set ever made. Its one of our specialties and made in large quantities.

## UNION LIGHTNING ARRESTOR AND GROUND WIRE SWITCH.

(Illustration full size.)

Just the thing for private telegraph lines. Serves as a lightning arrestor, cut out and also ground wire switch.

Price, each,

\$0.50.

## SMALL ANNUNCIATORS.

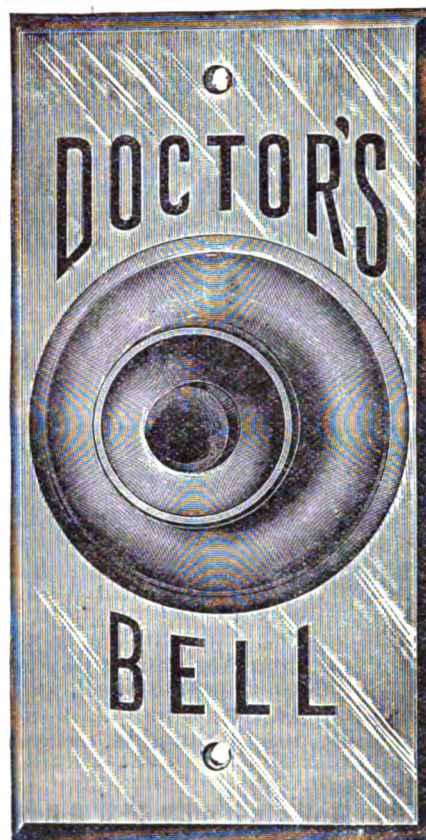

We make all sizes, but this pattern is intended for use where a small case is desired. It is reliable and sold at a low price. Gravity drop pattern. Tags furnished with any numbers, or lettered as desired.

Price, No. 2..... \$2.00.

" 4..... 3.00.

" 6..... 3.75.

Our regular Electrical Supply Catalogue,  
224 pages 10 cents,

## PUSH BUTTONS.

We make nearly 100 different styles of push buttons.

They are all finely finished and made from best metal.

THIS STYLE (cut full size) furnished in bronze. ("Doctor's Bell," "Night Bell" or "Janitor's Bell").

Price, each.....\$0.75.

Our Pushes are finished in bronze, nickel plated, silver plated, oxydized silver, oxydized copper, brass and Bower Barff (dead black).

## IF YOU WANT

**BICYCLE AND PHOTOGRAPHIC SUPPLIES,**

**PAMPHLET 64 PAGES FREE.**

**MANHATTAN ELECTRICAL SUPPLY CO.,**  
**32 CORTLANDT STREET, NEW YORK.**

# J. H. BUNNELL & CO.'S STEEL LEVER SOLID TRUNNION KEYS.

OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 12, 1881.

**THE BUNNELL STEEL LEVER KEY** is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is *only one-half the weight* of the ordinary brass lever as generally made.

The entire Lever and Trunnions together being made of *but one piece* of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of *hardened platina points, sticking is absolutely prevented.*

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

PRICE,  
1.75.

## LEGLESS PATTERN STEEL LEVER KEY

New Form with Open Base.

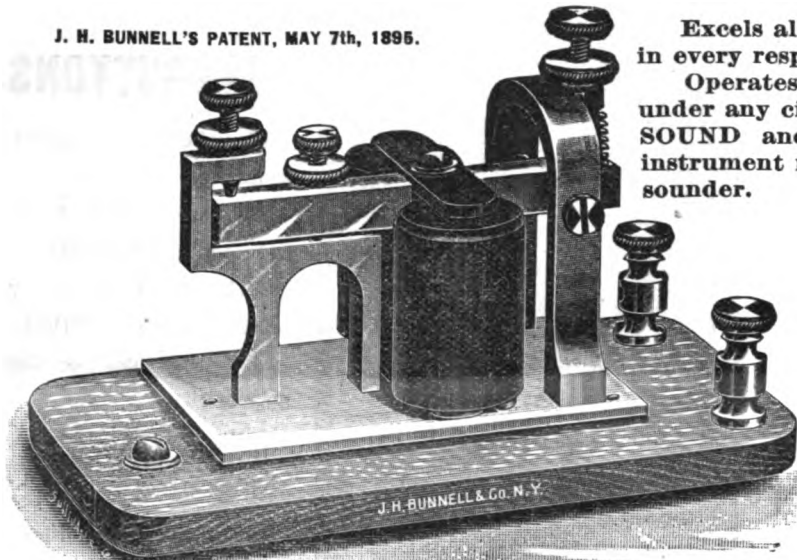

A beautiful and perfect Key suitable for use on Fine Desks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

# THE NEW ALUMINUM LEVER GIANT SOUNDER

J. H. BUNNELL'S PATENT, MAY 7th, 1895.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the **FINEST** and **BEST SOUNDER** ever designed.

Operates with **ONE CELL** only of **LOCAL**, having no need whatever under any circumstances for the use of two cells. The **MARGIN** of **SOUND** and **STRENGTH** and **QUICKNESS** with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, . . . . . \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length, \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

## NEW GIANT SOUNDER, 20 OHMS RESISTANCE, AND STEEL LEVER KEY COMBINATION SET,

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. **Price, \$4.50.** Sent by mail to any distance, carefully boxed, and **PREPAID** by us, on receipt of the above price.

Same set, but wound to 3 ohms (local), **\$4.00.**

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine LEARNERS' OUTFIT, **\$4.75.**

# The New Departure Learners' Outfit.... WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.

The **IDEAL SET** for **HOME PRACTICE.** Always Ready. **NEAT, CLEAN, ATTRACTIVE.**

The **INSTRUMENT** is our well-known "**MORSE LEARNERS' APPARATUS**" with **STEEL LEVER KEY**, arranged for use with our "**MASCOT DRY BATTERY.**"

The "circuit-closer" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "circuit-closer" detached the Mascot Battery should last for several months' practice. The "circuit-closer" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

Instruction Book goes free with each outfit.

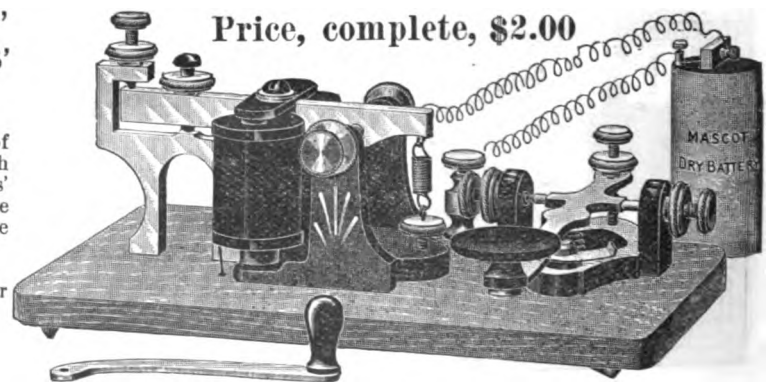

The complete outfit, packed in a wooden box, weighs about 7 lbs.

Shipped by express to any address on receipt of \$2.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 224 pages, sent on receipt of your business card.

These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 50 cents. The Mascot Dry Battery, which too heavy for mailing economically can be obtained at all hardware and electrical supply stores for 50 cents or less.

Price, complete, \$2.00

**J. H. BUNNELL & CO.** 76 Cortlandt St. New York.

Is the latest and very best instrument of the kind ever offered. Price, \$10.00. 50 per cent. discount to Telegraphers. \$5.00 Net. Send for descriptive Circular and Dr. Wells' Electro-pathic Guide, free.

J. H. BUNNELL & CO., 76 Cortlandt Street, New York.

**FREE! COMPLETE INSTRUCTION IN TELEGRAPHY.** If you wish to know all about learning Telegraphy, constructing and operating Short Lines of Telegraph, etc., send your address by postal card or letter, and get J. H. BUNNELL & Co.'s Manual of Instruction for Learners of Telegraphy, latest edition, which we will send free of charge to all who apply by mail or otherwise. It is the plainest and best book of instruction in Telegraphy ever published, being fully complete in description, explanation and illustrations.

## Special Railroad Relay.

Under the most unfavorable conditions of weather these instruments will work when nothing intelligible can be gotten from the best ordinary 150-ohm relays. Their adjustment is also much more satisfactory on hard, working wires, response being prompt and solid under conditions of heaviest escape, when the sender could not hear his own writing if adjusted for the distant station with ordinary relay. For these advantages together with that of the immense reduction in total resistance of the circuit which is obtained, I regard the relay as a very important improvement.

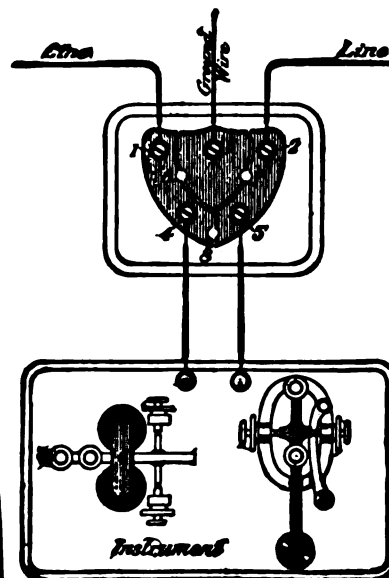

Price, - - - \$7.00

FOR crowded railway wires and other lines where many relays are worked in a single circuit, these relays, although they are wound to only 50 ohms' resistance, give better service on crowded lines in bad weather than can be obtained with the best 150-ohm relays of ordinary construction. The improvement in the working of line by the clear action of the relay, which is accomplished in this form, together with the immense resistance reduction in the circuit, is such as to insure adoption wherever tried.

Among the many testimonials we hold regarding the extraordinary working of these relays is the following from a prominent Superintendent of Railway Telegraphs:

"We have been using your Special Railroad Relay of 50 ohms' resistance on our Division Train Wires, one at each end of line of 128 miles, with 33 offices in circuit, and on another wire of 150 miles, with 39 offices, and on our through wire, 426 miles long. We have watched them carefully, and hold regarding the extraordinary working of these relays is the following from a prominent Superintendent of Railway Telegraphs:

## The Union Lightning Arrester and Ground Switch.

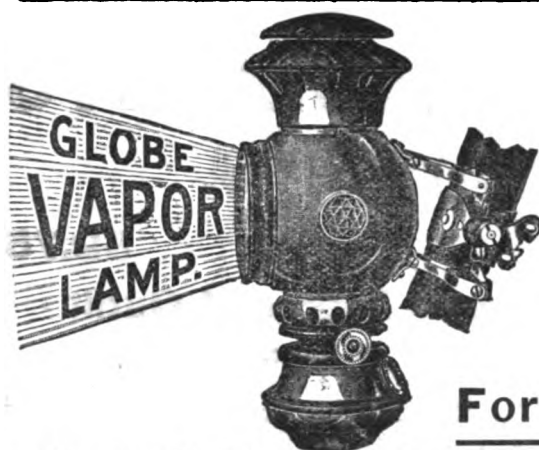

As lightning is frequently attracted to overhead lines and thereby enters the offices, sometimes damaging the instruments, or even setting fire to curtains or other inflammable materials about the instrument table, a simple and cheap instrument called "Lightning arrester and cut-out," is used for the purpose of intercepting and carrying to the earth such discharges of lightning as would be liable to cause damage. This apparatus is entirely effective, and is a complete safeguard against lightning.

—PRICE, 50 CENTS BY MAIL, PREPAID.

Send for our **LATEST CATALOGUE**, October, 1896, containing 224 Pages and nearly 800 ILLUSTRATIONS the **VERY BEST** Telegraph and Electrical Supplies ever offered to the trade.

For all or any of the above, address **J. H. BUNNELL & CO., 76 CORTLANDT STREET, NEW YORK.**

## SPECIAL.

While our present supply of \$5.00 Globe Vapor Lamps and \$2.00 10,000 Mile (repeating) Cyclometers last we will close them out to our telegraph friends at the following low prices:

Lamp, by express, charges prepaid, - \$1.50  
Cyclometer, by mail, postage prepaid, .55  
Terms, Net Cash, with Order.

If your order is received after our supply is exhausted, we will return your money by next mail.

**For 30 Days only**—Our No. 14 \$2.00 14k. Gold Fountain Pen, large fancy chased hard rubber holder, fitted with finest quality

regular pattern No. 4 size Gold Pen (fine medium or stub) and our No. 4 \$1.00 Solid All-Agate Stylus, very handsome (both articles) for only \$2.00. We guarantee

this Fountain Pen and Stylus the finest and most satisfactory working articles of the kind produced, and if not satisfactory will refund purchase price.

Sent to Managers and other responsible parties on approval.

## NIAGARA POWER.\*

BY L. B. STILLWELL.

It is unnecessary to demonstrate to this audience that well-distributed acquisition of material wealth is desirable, and tends to advance civilization. It will be conceded at once that a wise and not wasteful utilization of natural forces, cheapening the cost of power for a community, is praiseworthy. We all believe that there is in the universe a certain fixed quantity of matter, which we are powerless to increase or decrease, and we accept the doctrine, first fully enunciated by Helmholtz, that Nature provides also a fixed quantity of energy to which we can add nothing and from which we can take nothing away.

A man, considered as an engine, and compared with the vast supplies of energy available in coal and falling water, is capable of but an insignificant amount of work. It has been calculated that a very strong man, exerting himself very violently, can, for a few minutes, work at a rate approximating one-fifth of a horse-power; but we have only to remember that one-fifth of a horse-power means 5,600 foot-pounds per minute, and that this is equivalent to lifting 110 pounds one foot every second, to perceive that the calculation does not apply to the average man performing continuous work by the hour. Considering work continued for ten hours per day, I think it is safe to say that the average output of fifty strong laboring men, working steadily and faithfully, would not exceed one horse-power; and it is probably no exaggeration to say that the power of Niagara exceeds the physical power which the whole human race is capable of continuously exerting.

Niagara is a great solar engine. You all understand the cycle. Water raised by the sun from sea and lake and river is precipitated to the earth by changes of temperature, finds its way into the Great Lakes, and thence, by the Niagara River, to the rapids above the falls, more than 200 feet above the level of the water in the gorge immediately below the cataract. To raise a pound of water from the river below the gorge to the head of the rapids, a force of one pound must be exerted through a distance of, say, 200 feet. Therefore, every pound of water at the upper end of the rapids represents 200 foot-pounds of energy, which are given up in falling to the lower level. The rate of flow exceeds 7,000 tons of water per second, and the total horse power is estimated (by the United States census of 1880) to exceed 3,600,000 horse-power. That is an enormous

amount of power. Let us see how much coal we should have to burn to develop as much. A committee of the National Electric Light Association several years ago made a systematic effort to ascertain the economy in the consumption of coal obtained in electric light stations throughout the United States. The final report of this committee is not before me, but the preliminary report, submitted at the convention in St. Louis, March 1, 1893, showed that the average consumption of coal in these stations per horse-power hour, measured as I understand, by electrical measuring instruments on the switchboard, slightly exceeded six pounds. At this rate it would be necessary to burn more than 130,000,000 tons of coal per annum to develop power equal to that of the Niagara River from the upper limit of the rapids to the gorge below the falls. This would be substantially one third the coal product of the world, and would materially exceed the entire amount of coal now used for power purposes. With the best of modern steam plants, the consumption of coal would still exceed the entire annual output of the anthracite coal fields of Pennsylvania. Making all necessary for loss in a hydraulic plant, the power of Niagara Falls, if it could be utilized as a whole, would supply more than 3,000,000 arc lamps of 8,000 nominal candle-power each. An idea of what that number means may be obtained by imagining a row of arc lamps on either side of a railway track extending from New York to San Francisco. Were the number named available, 2,000 candle-power lamps might be located on either side of the track at intervals of twelve feet throughout the entire distance. Expressed in terms of 16-cp. incandescent lamps, there is sufficient power to drive 600 generators like those now installed in the power house of the Niagara Falls Power Company, each of which supplies energy equal to that required by about 75,000 50-watt lamps; or, to put it in still another way, the power of Niagara, if used for the refining of copper by electrolysis, would deposit more than 2,000 net tons per hour.

There is an important difference between using the energy of coal and utilizing the energy of water powers for power purposes. Coal once burned cannot be used again. Water powers, on the other hand, are solar engines perennially renewed. We may utilize the energy of Niagara to-day without subtracting a single horse power from that which Nature intended not only for our age, but for future ages. The thought therefore, immediately suggests itself that we should, so far as possible, utilize our water powers in the mechanic

arts, burning coal only for our protection from cold, for the preparation of food, for necessary metallurgical purposes, etc. If this be impracticable, we should at least see to it that our utilization of the energy of coal does not involve undue waste.

Of course, not all of the power of Niagara can be utilized. Aside from æsthetic considerations, which will, perhaps for all time, prevent the utilization of a sufficient amount to impair the beauty of the falls, and considering the subject simply as an engineering problem, large deductions from the figures above named must be made to cover the difference between the total and the effective head, this difference representing the fall in canals and tunnels conveying water to and from the wheels. I suppose that it would be possible to deliver about 4,000,000 horse-power to the turbines, and of this amount the turbines would deliver about 3,200,000 horse-power at their shafts.

At this point—the shaft of the turbine—engineering science for a long time halted. Water wheels appear to have been used at least 2,000 and probably 4,000 years ago, though not extensively. Every water wheel necessarily had a shaft upon which it was supported and about which the blades revolved. The problem was, how might the power be conveyed from the shaft to a point where it could conveniently be made to do work? Naturally enough, men first used for this purpose something they could see and handle and readily comprehend. They used wooden shafts, then ropes and belts. Then some one thought of using a liquid, and the science of hydraulic began. Still later, somebody suggested using a gas—compressed air—and pneumatic transmission attempted to solve the problem.

When the officers and directors of the Cataract Construction Company came to decide what methods of developing and distributing the power of Niagara should be adopted, they faced a problem of transcendent importance. It involved far more than the mere capital to be invested; it involved, in no small degree, the future development, the prosperity, of a territory bounded by a circle having for its radius the utmost distance to which the future advancement of engineering science might make it possible to transmit power; and the decision of the company carrying a project inaugurated on so vast a scale, occupying so conspicuous a position in the eyes of the scientific and engineering world, must inevitably exert a powerful influence upon the great world problem of the economical utilization of our supplies of natural energy. To utilize and

NEW YORK, JULY 20, 1897

**September 1, 1895.**

**TO ALL WESTERN UNION MANAGERS:**

"The importance of the address (of a message) cannot be over-estimated. When the address given seems insufficient, a better one should be requested."

Managers and receiving clerks are therefore requested to keep the rule well in mind and to give the subject particular attention as occasion demands.

**THOS. T. ECKERT,**  
*President and General Manager.*

All Weather Bureau telegrams should also be accepted without payment by their senders and being transmitted checked "paid govt. rate"

**NEW YORK, May 20, 1894.**

**To All Western Union Managers:**

**THOS. T. ECKERT,**  
*President and General Manager.*

**NEW YORK, March 20, 1897.**

**To all Western Union Managers:**

These claims cannot be admitted, and each letter in such combinations must be counted as one word.

THOS. T. ECKERT,  
*President and General Manager.*

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, April 28, 1897.

Communications which have hitherto been addressed to W. B. Somerville, in relation to press matters, are in future to be addressed to Thos. F. Clark, Assistant to President (Press Service).

**THOS. T. ECKERT,**  
*President.*

**RULE No. 72** requires that: "The original messages 'sent paid' by, and copies of those 'received collect' for the holders of half-rate franks, on which less than full tolls have been paid," should be sent in with the monthly reports. *Copies* of such half-rate franks messages will not meet the requirements of the rule. The originals must be returned.

The checks on half rate frank messages should be full and clear.

The half-rate frank entitles its owner to refund at day rates only. The tolls on half-rate frank messages should not be computed at night rates, nor refund allowed at night rates.

No half-rate frank message can be accepted for less than twenty cents.

JNO. VAN HORNE.  
*Vice-President.*

UNITED STATES Government telegrams that are filed for transmission by Army officers, or the War Department—*Official Telegram* form (on blue paper, and certified as on *Official Business* by the officers sending them) should always be checked "*Paid*" Govt. rate ; but no cash payment required for them from the sender. Each such certified telegram is always a sufficient voucher for the government rate charges due upon it.

**TREASURER'S OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, January, 1898.**

**To Superintendents:** I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

**First.** Every remittance to the treasurer must be accompanied by a letter of transmittal, *written upon blank No. 65*, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, *the amount of such expense must be reported, like any other item, in the monthly account current (form 4).* Vouchers for such expense must *not* be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

*Second.* Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5.00,	5 cts.	Over \$40.00 to 50.00,	18 cts.
Over \$5.00 to 10.00,	8 cts.	Over 50.00 to 60.00,	20 cts.
Over 10.00 to 20.00,	10 cts.	Over 60.00 to 75.00,	25 cts.
Over 20.00 to 30.00,	12 cts.	Over 75.00 to 100.00,	30 cts.
Over \$30.00 to \$40.00,	15 cts.		

**Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank drafts can be obtained at less expense.)**

**Third.** If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

**Fourth.** If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

**Fifth.** If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

*Sixth.* Drafts, express money orders and post office money orders must be made payable to R. H. Rochester, Treasurer, and *sent by mail*. They must *not* be made payable to R. H. Rochester, without the title.

*Seventh.* The small treasurer's envelope, Form 128, must be used where remittances are made by mail.

**Eighth.** The large envelope, Form 124, should be used only for making remittances by express.

**WASH.** Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

**R. H. ROCHESTER, Treasurer.**

A MESSAGE sent "collect," reported as "uncollectible," and collected for by sending office from its sender, should always be booked and reported as it was originally checked—and should never be booked and reported as if checked "paid." See Rule 69 Western Union Book of Rules. The amount collected from sender should be reported in the Form No. 4 Report as Receipts for "Guaranteed Messages"—and should not be reported as "Telegraph Receipts."

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, June 20, 1897.

We are requested by the receiver of the Wheeling and Lake Erie Railroad Company to take up, if presented, business franks issued on its account, numbered Q 784 and R 960.

Managers will please comply with this request and return the franks to this office for cancellation.

**JNO. VAN HORNE,**  
*Vice-President.*

**MRS. GEO. H. FEARONS**, wife of Geo. H. Fearons, General Attorney of the Western Union Telegraph Co., died at her summer home at Long Branch, N. J., on the 5th inst.

In their loss, both Mr. Fearons and his daughter have the warm sympathy of their many friends.

THE Sixteenth Annual Meeting of the Association of Railway Telegraph Superintendents, was held at Niagara Falls, N. Y., June 16th. In the absence of the President, Geo. M. Dugan, the presiding officer was Chas. Selden. Hot Springs, S. D., was selected as the place of the next meeting, and the third Wednesday in June 1898 as the time.

The following officers were elected for the ensuing year.

**J. W. LATTIE**, South Bethlehem, President,  
**W. W. RIDER**, Chicago, Vice-President,  
**P. W. DREW**, Milwaukee, Sec. and Treas.

THE Washington, D. C., Western Union Manager states, that in the recent chess tournament between the United States Congressional Team, and the British Parliamentary Team, the moves were transmitted between Washington and London in fifteen seconds, and not one telegraphic mistake was made. The circuits ran by land lines from the Capitol at Washington to North Sydney, thence by cable to Hearts Content and Valencia, thence by land lines to the House of Parliament at London. The service demonstrated that there might have been a hundred moves an hour so far as their telegraphic transmission was concerned.

## NIAGARA POWER.

(Continued from first page.)

distribute over the widest range, with the least waste, with the greatest certainty, and in form adapted to the widest variety of applications—these were the conditions to be met. To enumerate them now is to suggest to all our minds, with absolute certainty, electricity, the Proteus of engineering science as it exists today; but it must be remembered that when those who inaugurated and have thus far carried out the project began their study of the problem, the possibilities of electricity had not been demonstrated and recognized as they are to-day. At that time, the relative advantages and the limitations of water, air, rope transmissions and electricity were less evident than now, and it was necessary to examine with great care, and weigh with accurate judgment, the merits and defects of many different plans. This the company proceeded to do with remarkable patience thoroughness and ability, inaugurating a Competition which many of the most prominent engineers and manufacturing firms of Europe and America were invited to enter, and offering prizes for the best solution of the problem. The question was in no sense begged at the outstart. The company did not select electricity because it was the newest agent for transmitting power, nor because the general public was (as it still is) disposed to assume that electricity is necessarily the agent best adapted to the solution of every engineering problem. They arrived at their decision to use electricity only after several years of investigation, in which, practically without regard to cost, they endeavored to secure the best of engineering talent, and in which they allowed no prejudice and no difficulty to narrow or limit their cosmopolitan search for the best solution.

Let us consider very briefly some of the limitations to which our various methods of transmitting power are subject. For obvious reasons, transmission by shafts, ropes and belts is effective and efficient only over comparatively moderate distances. A shaft, for instance, even a hollow shaft, if strong, is necessarily heavy. It must be supported and carefully aligned. To effect a change in the direction of transmission, special devices, such as gears and pulleys, must be used. All this means loss of efficiency at every step, and the economical limit is soon reached. In the case of transmission by ropes or cables, also, loss of efficiency results from the necessity of supporting the weight, and sharp turns are difficult to make, and imply heavy losses.

Hydraulic transmission is also limited to comparatively short distances. Under certain conditions, and for distances not exceeding two or three miles, it is used with good results. The municipality of Geneva, Switzerland, under the able direction of Col. Theodore Turrettini, foreign consulting engineer of the Cataract Construction Company, has established a hydraulic plant for the distribution of power throughout that city, which has been splendidly successful and is worthy of most careful study. Colonel Turrettini and the municipality of Geneva, however, recognize the superiority of electric transmission over distances exceeding a very few miles, and they have more recently constructed a second power plant some four miles further down the Rhone, in this case

using electricity to transmit and distribute the power.

Some of the causes that limit the distance to which power can be economically transmitted by water will readily occur to you. For example, the amount of power transmitted by water through a pipe by water under pressure is proportional to two things—the quantity of water that flows through the pipe in a given time, and the head or pressure. Friction increases with pressure, and also with an increase in the length of the pipe. Then, the efficiency of water motors, particularly those of comparatively small output, is low as compared with that of electric motors. Again, the chance of water freezing in the pipes must be considered; and a limitation, not frequently encountered in practice, but still worthy of note, results from the fact that water, unlike electricity, has weight. If we were to undertake to carry a pipe line filled with water over some of the mountain ranges now crossed by electric conductors, we should have a pressure in the pipe, at certain points, of not less than 1,500 pounds per square inch, due to the greater elevation of other parts of the line.

The limitations of pneumatic transmission have not been accurately determined, and it is probably possible to obtain better results by this means than have as yet been realized in practice. Air compressors, however, have been made for many years, and as compared with electric generators, are much less efficient. To compress a gas means necessarily to develop heat, and this, so far as our purpose of transmitting power is concerned, involves loss; and while it seems probable that by using very high pressure in pipes of comparatively small diameter the cost of a system transmitting by compressed air may be much reduced, as compared with present practice, there are certain difficulties to overcome, and up to the present time no satisfactory method of surmounting these difficulties has been demonstrated.

The fourth solution of the problem of transmission is by electricity; that is, by ether under unbalanced pressure. Note, if you please, the interesting sequence of the several solutions of this problem of transmitting power: First, a solid; then, a liquid; then, a gas; and, finally, something (if I may use the expression) more volatile, more subtle, even than a gas; something which, in itself, we can neither touch, taste, smell, hear, nor see; something that we know only by its effects; something so elusive that for centuries the world did not know that it existed. Is it not significant of the progress of engineering science that it should thus have advanced from those agents directly perceptible to our senses to one which our physical senses cannot perceive—from the material to the immaterial?

And, now, what is ether? What is electricity? And how is power transmitted by electricity? These are questions that the science of the present day cannot fully and satisfactorily answer. But we are not totally ignorant of the nature and characteristics of this agent that we are using with such confidence and assurance of results, and it is not difficult to form in our minds a rough conception, useful as a working hypothesis, though not susceptible of proof, and very properly subject to criticism from

(Continued on page 101.)

## TARIFF BUREAU.

## MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, July 30, 1897.

The following list of "changes" corrects the Tariff Book of July, 1897, to date. Changes in the list of "New Offices" are not included.

The hand **[S]** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices", which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Wildwood, N. J., which was formerly a double star station, but which is now a Western Union office in Square 53.

## NEW CABLE RULES.

Rules for the treatment of cable messages, given in Tariff Book of July 1897, should receive careful attention, particularly the changes referred to in the following, viz:

In rule 2 (page 413) the length of a chargeable word has been extended to fifteen letters. The present rule allows but ten.

In rule 3 (page 413) it is *required* that code words *must not* contain more than ten letters each.

In rule 4 (page 414) five figures to a word are allowed instead of three to a word as at present. The same rule provides for the count of words (plain words) in cipher messages at the rate of fifteen letters to a word instead of ten as formerly.

In rule 6, last paragraph, "abbreviated and misspelled words and illegitimate compound words" which, under the present rule, are counted at the rate of three letters to a word, are now counted at the rate of five letters to a word.

In rule 18 (page 416) the last line of the first paragraph should read, "The indication R P 7 (or R P with any number up to and including 30) counts as one word."

In the third paragraph of the same rule the indication "R P 20" should be counted as one word.

Other changes will become apparent upon a careful reading of the new rules, or upon comparison of the new schedule with that given in the book of January, 1897.

See Special Notices at end of this circular.

## SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a num-

ber of offices or double star stations, as Adirondack Mountains (Tariff Book, page 191), Catskill Mountains (page 195), and Lake George (page 203.) When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc., do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own state.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated as night message offices in the Tariff Book.

Offices having special rates, should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

(Continued on page 100.)

**MEXICO.**

August 1, 1897, the Tariff Book rates to offices in Mexico will be discontinued, and on and after that date—with certain exceptions given in a "Supplementary List" hereafter—the rates to offices in Mexico will be the State rates given in the columns to the right of the names in the list below. All messages to or from these places will be checked with "Mexico Junction, Tex.," and the full tolls on each message will be entered as if *all* for "*this*" line against "Mexico Junction, Tex." There will be no division of the tolls into "*this*" and "*other*" lines, nor—*except as noted hereinafter*—will messages be checked against the various connecting offices as at present.

To the places in the list marked with asterisks, messages may be sent *via*, and checked with "Mexico Junction" at the State rates; but they may also be sent *via* and checked as ordinary "other" line offices at the rates for "other" lines given in the Supplementary List. These are the exceptions noted in the above paragraph of instructions. The asterisks refer to the Supplementary List.

"Collect" messages may be accepted *via* "Mexico Junction" to Tampico, Vera Cruz and Mexico City, but such messages, whether answers or not, must in each case be guaranteed. Messages for all other places in Mexico, *via* "Mexico Junction" must be prepaid.

Night rate messages should not be accepted for places in Mexico.

In all other respects, the rules which apply to messages between Western Union offices will apply to messages to and from Mexico.

Messages to Mexico, offered by holders of Western Union Franks, will, if sent via "Mexico Junction," be charged for at the State rates, less present rates to Galveston; but if sent to places, and via the routes named in the Supplementary List, then only the "other" line rate will be charged.

Service messages in regard to messages to or from Mexico, *via* "Mexico Junction," should be addressed to Galveston, Tex.

## SPECIAL NOTICES.

(Continued from page 98.)

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 419 to 484, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 867 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Notifications of the arrival of steamers at the Port of New York will be forwarded to any address during the Company's usual office hours, upon payment of \$1.00, plus the tolls for a ten word message between New York City and the office ordering the report.

**Orders should be addressed to Manager Marine Department, New York City.**

**This order does not apply to New York City, Brooklyn, Hoboken or Jersey City.**

THOMAS T. ECKERT,  
*President.*

## TRANSFER SERVICE

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY, }  
NEW YORK, July 17, 1897.

**To All Transfer Agents and Offices:**

The transfer service has been resumed at Cape May, N. J., Narragansett Pier, R. I., and St. Augustine, Fla., and discontinued at Clyde, N. Y., and Manitou, Col.

Hereafter, transfers to or from Manitou, Col., will be handled at Colorado Springs, Col., same as transfers to or from Allegheny City, and East Liberty, Pa., are now handled at Pittsburgh, Pa.

On July 1st, Long Branch, N. J., was advanced from Class D to Class B, and Sault Ste Marie, Mich., was advanced from Class D to Class C, and on same date, Hot Springs, So. Dak., was added to the list of Class E, transfer offices. in J. J. Dickey's district.

On July 15th, Madison, Wis., was advanced from Class D to Class B, and on same date, Torrington, Ct., was added to the list of Class E. transfer offices, in H. H. Ward's district.

On August 1st, Baldwinsville, N. Y., will be added to the list of Class D, transfer offices, in S. B. Gifford's district.

**Managers will correct their lists accordingly.**

**THOS. T. ECKERT,**  
*President*

**EXHIBITION IN TURIN IN 1898.**

FOR the occasion of the National Exhibition which will be held in Turin, Italy, in the summer of 1898, to celebrate the fiftieth anniversary of the proclamation of the Italian Constitution, the special department of electricity is soliciting exhibits from all countries. The electrical section will be divided into eleven classes, including all of the applications of electricity in the arts, historical exhibits, etc. The large amount of unemployed hydraulic power in Italy is said to afford a considerable field for enterprising electrical engineers. Communications and applications for space should be addressed to Angelo Alasia, 8 Via San Maria, Turin, Italy.—*El. World.*

# NIAGARA POWER.

(Continued from page 91.)

various points of view. We know from optics that there is a medium that is not a solid, not a liquid and not a gas. We may exhaust the air from a glass vessel and light will still pass through it. Air, therefore, is not the medium by means of which light is transmitted. Evidently, there is something still in the glass vessel which serves to convey the ray of light. We know, also, that the space between the earth and the sun is not filled with air, and yet it is traversed by light. We assume, therefore, that the interplanetary spaces are filled with this same something, and, for convenience, we call it ether, and proceed to study its phenomena. The science of optics which deals with the propagation of light through this medium is so well established by observed facts and by general theories which explain and interconnect these facts, that practically nothing within the range of human knowledge is more certain than that something which we call ether does exist, and that it pervades all space and all matter. In 1888 the German physicist Hertz proved beyond the shadow of a doubt that electric and magnetic phenomena have to do with this same medium.

Electricity is defined as ether in a state of strain, or, more properly speaking, in a state of unbalanced strain; this strain manifesting itself along the conductors of an electric circuit connected at one end to a dynamo in action, and at the other to a lamp, motor, or other translating device. Professor Lodge advises us to conceive of an electric conductor as a hole through the ether. The static balance of the ether being relieved or unbalanced along the surface of the conductor, and the strains to which our world of ether is subject (somewhat as water at the bottom of the sea is under pressure) being unbalanced along the line of the circuit, the ether transmits along the surface of the conductor the strain or pressure imparted to it by the dynamo. We need not pause to consider whether the strain is transmitted by the ether within the copper conductor or along its surface, but we may imagine that following the path of the conductor from the dynamo to the motor and back again from the motor to the dynamo, a loop or chain of ether transmits a stress or strain from the dynamo to the motor, somewhat as a belt conveys power from a driving to a driven pulley.

In the telegraph, and more recently in the telephone, we have become familiar with some of the characteristics of electric transmission; notably, the fact that it is practically instantaneous in its action. We press a key in America, and the mind of an operator in England almost instantly has our thought.

We are less familiar with the fact that electricity is strong, but observations of thousands of street railway cars driven at high speeds and up heavy grades, and of motors operating heavy machinery in mills and factories, is teaching us this also. As a matter of fact, the power transmitted through a copper conductor or given section, at the potential now being employed by the Niagara Falls Power Company in transmitting power to Buffalo (between 10,000 and 11,000 volts), is sufficient to break many steel cables of equal section moving ten miles per hour and attempting to transmit

equal power. At 10,000 volts, a single-phase circuit, consisting of a copper conductor one inch in section and carrying 1,000 amperes, transmits more than 13,000 horse-power. The strain upon a cable transmitting this amount of power mechanically and moving ten miles per hour would exceed 1,000,000 pounds—enough to break eight steel cables one inch in section, and having the high ultimate tensile strength of 125,000 pounds per square inch. In three-phase transmission, such as is used between Niagara and Buffalo, the results in this respect are still more remarkable, but to consider three conductors makes our comparison with a steel cable less evident.

Power transmitted by electricity is delivered in a form adapted to a remarkable variety of uses, and, as compared with power transmitted by any other system, possesses important advantages. Supplied to a motor, it performs mechanical work at efficiencies ranging from 60 to 95 per cent., depending upon the size of the motor. Delivered to an arc lamp, it produces from 1,500 to 2,000 actual candle power per horse power. Used to supply incandescent lamps, it produces light agreeable in quality, possessing substantial advantages over other forms of illumination, and developing from 200 to 250 candle-power per horse-power. Conveyed to the terminals of the electric furnace, it produces by synthetic process, various materials new in the arts and of great value, or traversing the electrolyte of the chemist, it tears apart the very molecules of which matter is composed and segregates their constituent elements.

Unlike shafts, belts and cables, it can be indefinitely sub-divided without material loss. It can readily turn corners. It is transmitted vertically with as much ease as horizontally. Unlike water, it never freezes, and, unlike compressed air, it can be delivered from the generating machinery and transmitted many miles at a very high efficiency.

THE next annual meeting of the American Association for the Advancement of Science will be held in Detroit, Mich., August 9-14. The advance programme has just made its appearance and shows that the physical section will be unusually well provided with papers on electrical subjects.

## ELECTRICITY ON THE STAGE.

BY H. BIS'ING.

WHEN we consider the wonderful advance in the practical applications of electricity during the past few years; it is surprising to note the little progress in the application of electricity to the stage. Some few individual effects, such as water ripples, volcanic eruptions, etc., show considerable inventive genius, but in the use of the arc lamp for light alone we are practically not advanced over its original conception. Most electricians of traveling companies have tested the automatic lamps of the various makers for one season and then have returned to the primitive hand-feed lamp.

For stationary use the automatic lamp has been most successfully used, but for traveling purposes the hand-feed is the only truly reliable form. This lamp usually consists of a main gear wheel meshing two rods of different

pitched racks, so that the top carbon is fed up; by this arrangement the arc remains in practically the same position on direct-current circuits. An improved form of lamp is composed of two rods for the positive carbon, one having the same pitch as the lower carbon rod, and the other having a greater pitch. On alternating-current circuits the first and third are thrown in by releasing a pin and both carbons feed the same. On direct circuits the second and third are thrown together, and the positive carbon feeds faster than the negative.

The two great objections which have been rightfully urged against the use of "electro-calciums," as they are very erroneously called, are the unsteadiness of the light on any but almost absolutely constant-potential direct-current circuits, and the cold, intense whiteness of the light.

The former objection can be avoided to a great extent by using large-sized German silver resistance in the circuit in place of small iron wire, employing skilled operators, keeping the contact points perfectly clean and drawing a small arc. In many towns, however, outside of the larger cities, it is necessary to use a 200 to 250-volt motor circuit, on which there is a constantly varying load, accompanied as a rule by a 10 to 25 per cent. drop in voltage. In such places as this it is almost impossible to prevent flickering. Then, again, it is not always possible to get skilled operators who can prevent the carbons from freezing or hissing. On large 115-volt lighting currents using direct current with feed wires well within safe carrying capacity, it is quite possible to overcome this objection almost entirely.

Such is the fate of man, however, that when we are on such a circuit and in the words of the vernacular are "getting light," the artistic stage director complains of the brutal whiteness of the light, or draws his coat tightly about his neck, insisting that that the light is cold enough (no matter how much the poor operator is perspiring) to give him a chill; or maybe he will burst forth in all his wrath and cry: "Put out that — lamp and give me a calcium."

It is impossible to obtain with an electric arc the same mellow light which has kept the gas calcium so long in use. It seems that no matter how much we reduce the light by means of milk glass and gelatine mediums, we cannot reach the ideal set by the gas calcium. This was made strikingly apparent by the change in appearance of that beautiful piece of stage lighting, the ruin scene in Miss Davenport's production of Sardou's "Gismonda." Lighted by gas calciums this scene was a triumph; lighted by electric arc, in charge of an excellent electrician, it was a mediocre success. The writer has spent several years experimenting to obtain a mellow light from the arc, with more or less success, and it is his belief that by varying the voltage and the composition of the carbons used, results can be obtained equal to the gas calcium.

At the present day the importance of the employment of a high grade carbon cannot be emphasized too strongly. It has been the prevailing custom for theatrical electricians to use a very soft carbon. This is a mistake, as much of the flickering and hissing of lamps can be traced to a use of very soft carbons. It is not a

difficult matter to select a proper carbon, as any cored carbon of foreign make will answer the purpose.

The great bugbear of the arc lamp for stage use is alternating current. The light emitted has a pale blue cast and the hum accompanying that light is anything but pleasant for pathetic scenes or solos. By using a bank of resistance of German silver wire instead of an individual coil at each lamp, wound in coils and hung upon an iron frame well covered with asbestos, avoiding porcelain altogether, this hum has been reduced to a minimum, and almost entirely annulled.

The great objection to alternating current is that we cannot get near the amount of light in a given direction with the same ampere flow as with direct current. While this may seem paradoxical at first blush, it nevertheless admits of a simple explanation. When using direct current it has been the custom, in order to throw the light down on the stage, to feed the positive pole to the top carbon and the negative to the lower carbon, at the same time having the lower carbon solid, two sizes smaller than the positive carbon, and staggered about one-quarter of an inch to the front. By these means we draw the crater of the arc to the side of the top carbon and can focus it in any given direction, while at the same time the lower carbon being smaller get practically white hot, and also being smaller it obstructs few of the rays from the positive carbon.

With alternating currents we must burn the same sized carbon top and bottom, and we must keep one carbon directly under the other, to prevent hissing and flaming of the arc. Most alternating low-potential systems are run at 50 volts, and there are still many station superintendents who have yet to find out that the secondaries of similar transformers can be seriesed for 100 volts; it becomes necessary for the electrician to cut out his resistance and greatly increase the hum of his lamp.

The writer has been asked upon numerous occasions to give his idea of the best system for traveling use, and he has always advocated the "bank of coils" in preference to the "individual coil."

The former system is to be preferred to the latter in the first place because all fuse blocks are collected at one point, and the vital points of the system are all gathered in one box. This makes it easier to locate and easier to prevent trouble. When the system is installed for a week's stand, the main resistance can be placed under the stage and wires run to the cut-out blocks on the stage; it is then only necessary to plug in the lamp and turn on the current. When the resistance is carried on the lamp one is apt to save time by using the cut-out blocks in use by the house, and by having a short circuit blow out the entire house, whereas with the bank of resistance one can always get an independent service. When the resistance is on the lamp it must be carefully protected from contact with the tinsel skirts of performers. This protection at the same time allows less air to circulate, keeps the coils hotter and brings a disagreeable heat on the stage. With the bank of resistance the coils can be kept perfectly free to allow a perfect circulation and by protecting the sides of the box all danger from fire is precluded.

With the individual coils the hum of the coil and the hum of the lamp are brought together to greatly disturb the quiet of the performance. With the "bank" the hum of the coils is practically annulled, and we have only a slight hum of the arc to contend with.

The main reason why the arc lamp has been adopted for stage use is, of course, the economy of space and money. The Brownies Company, under the management of Jefferson, Klaw & Erlanger, used the gas calcium during their first season, for which it was necessary to carry at times 150 tanks, empty and filled with gas. These, together with lamps, completely filled one-half of a car. The second and third seasons twelve arc lamps were used. These could be packed in eight boxes and the entire outfit barely filled a small-sized express wagon. At the same time the difference in running expenses must have averaged \$75 per week.

## LIST OF OFFICERS AND DIRECTORS OF THE WESTERN UNION TELEGRAPH COMPANY.

### THOS. T. BOKERT,

*President and General Manager.*

JOHN VAN HORNE,  
R. C. CLOWRY,  
GEORGE J. GOULD,  
J. B. VAN EVERY, } *Vice-Presidents.*

A. R. BREWER, *Secretary.*  
R. H. ROCHESTER, *Treasurer.*  
J. B. VAN EVERY, *Auditor.*  
M. T. WILBUR, *Asst. Treasurer.*  
G. H. FRABONE, *General Attorney.*  
THOMAS F. CLARK, *Assistant to the President.*

- 7 I. N. Miller, Cincinnati, O.
- 8 I. McMichael, Minneapolis, Minn.

### Southern Division General Superintendent.

James Merrihew, - - - - - New York.

### Southern Division District Superintendents.

- 1 J. B. Tree, Richmond, Va.
- 2 James Compton, Nashville, Tenn.
- 3 J. A. Brenner, Augusta, Ga.
- 4 J. M. Stephens, Atlanta, Ga.
- 5 B. F. Dillon, Jacksonville, Fla.

A. S. Brown, *Electrical Engineer*, New York.

William Holmes, *Supt. of Tariff and Check Bureau*, New York.

D. Doren, *General Supt. of Construction*, New York.

G. W. E. Atkins, *Supt. of Contract and Free Service Departments*, New York.

### Supply Department.

E. C. Cockey, *Supt. and General Purchasing Agent*, New York.

E. C. Cockey, *Storekeeper*, New York.

S. C. Mason, *Storekeeper*, Chicago.

### European Agency.

George von Chauvin, *Representative*, London.

SOME interesting experiments have recently been carried out by Professor W. Ritter on the oscillations of a tower in Zurich produced by the ringing of bells, says the *Engineer*. The tower, which is 89½ meters high, contains five bells, ranging in weight from 425 to 3,430 kilo., and it is remarkable that the light bells produced greater oscillations of the tower than the heavy ones. The horizontal oscillations were elliptical in shape and variable in size, those produced by a bell of 705 kilo., which was swung fifty-three times per minute, being at a maximum of 3.6 mm. long and 2.4 mm. wide, the longest axis being in the direction of the movement of the bell. When the five bells were rung at once, the ellipse had a maximum major axis of 5.8 mm. and a minor axis of 4.4 mm. The bells were swung from forty-three to fifty-seven times per minute, while the tower oscillated quite uniformly 160 times per minute. It was shown that the oscillations were felt at any point in the tower below the bells, and that the amount of movement was proportional to the height above the ground. According to the principle of the conservation of center of gravity, the tower tends to move in the opposite direction to that of the bell, and this movement increases until the resistance of the masonry produces equilibrium with the impulsive forces.

## Telegraphers' Mutual Benefit Association.

ORGANIZED 1867.

4,665 MEMBERS. \$139,000 RESERVE FUND.

Has paid its beneficiaries over \$660,000, and accumulated a reserve fund of \$188,000. Assessments average 13¢ per year.

Any person, of either sex, in good health, of not less than 18 or more than 45 years of age, employed in telegraph or telephone service, is eligible to membership.

Initiation fee \$2. Insurance \$500, \$1,000 and \$1,500.

## SOUNDER AND KEY AS ILLUSTRATED ABOVE, \$2.00.

We have purchased the entire stock of telegraph instruments, and about 75% of the entire stock from the assignee of the late E. S. Greeley & Co. The above **FIRST CLASS** Sounder is from this stock. The key is our own make. Only about 300 of these sets at above price.

**WE HAVE** about 200 brass lever keys that are shelf worn but in good condition, at **50 CENTS**.

Box Relays, 150 ohms, with Victor Keys, **\$4.00**.

Box Relays, 150 ohms, no keys, **\$3.00**.

Standard Relays, 150 ohms, **\$3.00**.

Telegraph Switches, 60% off Greeley Catalogue list.

Ludwig Mechanical Telegraph Instruments, **50 CENTS**.

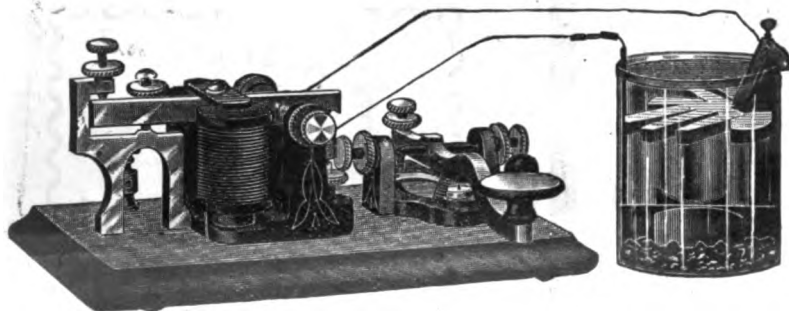

We can supply nearly all the goods illustrated in the Greeley catalogue at very low prices.

**WATCH THIS PAPER** or send to us for bargain lists. Our regular stock of electrical supplies is sold on small margin of profit.

## EUREKA TELEGRAPH OUTFIT

Outfit Complete With Battery, **\$2.25**.

(Without Battery, **\$1.75**.)

The Eureka Instrument with **MESCO** Dry Battery for home practice, **\$1.95**.

### DESCRIPTION.

The Eureka Learner's Outfit, as shown by illustration, is a first-class, full size telegraph set. All of the working parts—which includes key lever, sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. The key is of the curved lever pattern, and sounder gives a loud and clear sound, equal to the best expensive instrument.

### THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.	<b>\$2.25</b>
Eureka instrument only (no battery or wire), for short lines.	<b>1.75</b>
Eureka instrument only, wound for lines 1 to 15 miles.	<b>2.00</b>
Postage on instrument only (battery not mailable).	<b>.40</b>

We claim this the **best** low priced telegraph set ever made. It's one of our specialties, and made in large quantities.

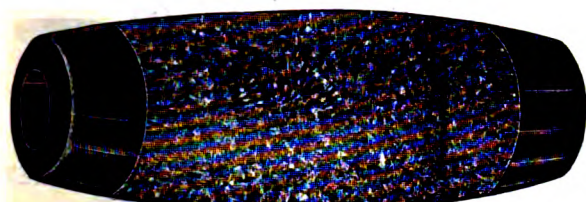

If goods are to be sent C. O. D. one third of the amount must be remitted with order or express charges guaranteed by express agent.

# MANHATTAN ELECTRICAL SUPPLY CO.

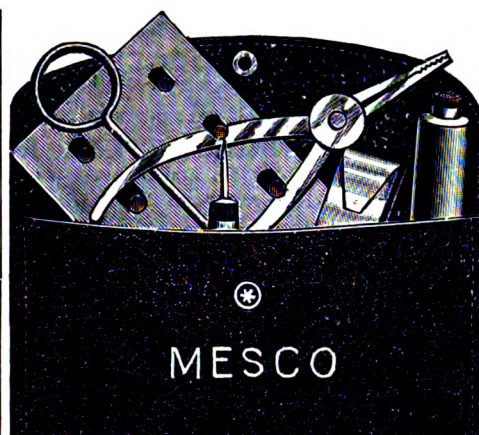

**32 CORTLANDT STREET, NEW YORK.**

# BICYCLE SUNDRIES AT POPULAR PRICES.

**Corkeline Grips.**— $\frac{1}{4}$  and  $\frac{3}{8}$  paper lined. Black or maroon composition ends. Postage, 5 cents. Price, 15 cents per pair.

**Mesco.**—A complete outfit for single-tube or hose-pipe tires. Contains an assortment of plugs, tube of rubber solution with cementing nozzle, pair of steel pliers, package tire tape, puncture rod, etc., in fine leather case. Price, 25 cents each.

**MANHATTAN SINGLE-TUBE TIRES.**  
1 $\frac{1}{8}$  x 28.

This tire is made from the very best Para Rubber and Sea Island Cotton. Light, strong and serviceable. Made in both rough and smooth tread. We supply a pump and Cox's repair kit with each pair. Price, \$6.00 per pair, not mallable.

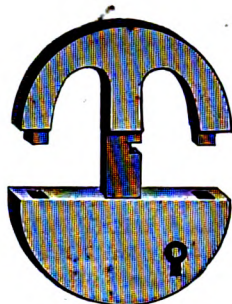

**Acme Lamp Bracket.**

Nickel-plated. Attaches to right or left side.

Postage, 2 cents.

Price, 5 cents each.

**Double Sprocket Lock.**

Makes locking doubly secure.

Brass, nickel-plated.

Postage, 5 cents.

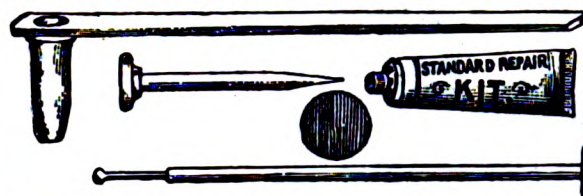

Price, 20 cents each.

**Axle Lamp Bracket.**

Attached or removed instantly without removing nut. Nickel-plated.

Postage, 2 cents.

Price, 10 cents each.

**Standard Repair Kit.**—For single tube or hose-pipe tires. One of the simplest yet most practical kits on the market. Punctures can be instantly repaired. Put up in a neat box. Illustrations demonstrate method of operating. Postage, 5 cents. Price, 25 cents, set complete.

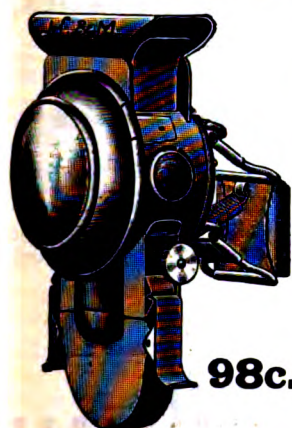

**L. A. W. Sprocket Lock.**

Aluminum shackle, tumbler combination.

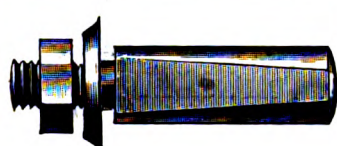

Postage, 5 cents.

Price, 60 cents each.

98c.

**H. & M. Lamp.**—Made on an entirely new principle, detachable oil well, colored side lights, full nickel-plated. Postage, 15 cents. Price, 98 cents each.

**Cotter Pins.**—Nut and Washer all nickel-plated.

Postage, 1 cent.

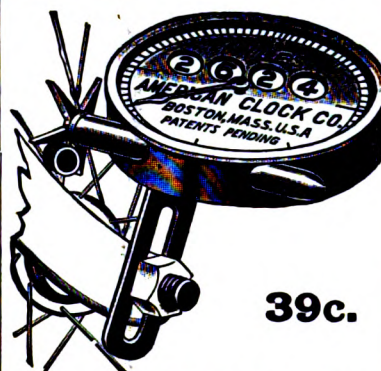

Price, 10 cents each.

**Ajax Coasters.**—Will fit any fork. Made of steel, nickel-plated.

Postage, 3 cents.

Price, 20 cents per pair.

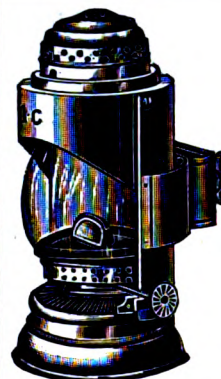

39c.

**American 10,000 Mile Cyclometer.**

Perfect accuracy. Does not get out of order, and every one guaranteed. Made for 24, 26 and 28-inch wheels.

Postage, 5 cents.

Price, 39 cents each.

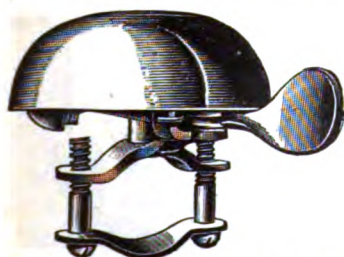

**I. C. Lamp.**—The latest and best low-price lamp on the market. Automatic lamp wick. Simple, practical and durable. Easily taken apart. All parts riveted. All brass, nickel-plated, highly polished. Postage, 10 cents. Price, \$1.00 each.

**Mesco Foot Pump.**

Built for service. Steel foot rest. Nickel barrel,  $1\frac{1}{4}$  x 12 inches. Universal Nipple with K connection. Postage, 25 cents. Price, 35 cents.

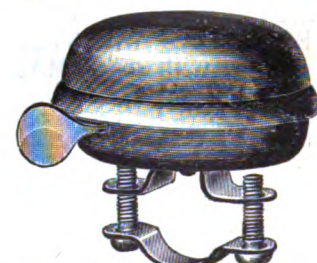

**O. K. Bell.**—Single stroke. Cast gong. Weight,  $2\frac{1}{4}$  ounces.  $1\frac{1}{4}$  inches in diameter. Postage, 4 cents. Price, 15 cents each.

**Meteor Hand Pump.**—Single action. Barrel,  $\frac{3}{4}$  x 5 inches. Fully nickel-plated. Fits any tool-bag. Postage, 5 cents. Price, 13 cents each.

**Rubber Hoods.**—Protect lamp from rain, dust, etc., and always keep the lamp bright. Made for all styles of lamps. Mention style of lamp when ordering. Price, 25 cents each, prepaid.

**No. 225. Double Stroke.**—Size,  $2\frac{1}{4}$  inches. Weight,  $4\frac{1}{2}$  ounces. Postage, 5 cents. Price, 25 cents each.

J. H. BUNNELL &amp; CO.'S

## STEEL LEVER

SOLID  
TRUNNION

## KEYS.

OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

**THE BUNNELL STEEL LEVER KEY** is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is only *one-half* the weight of the ordinary brass lever as generally made.

The entire Lever and Trunnions together being made of *but one piece* of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of *hardened platina points*, sticking is absolutely prevented.

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

PRICE,  
1.75.

## LEGLESS PATTERN STEEL LEVER KEY

New Form with Open Base.

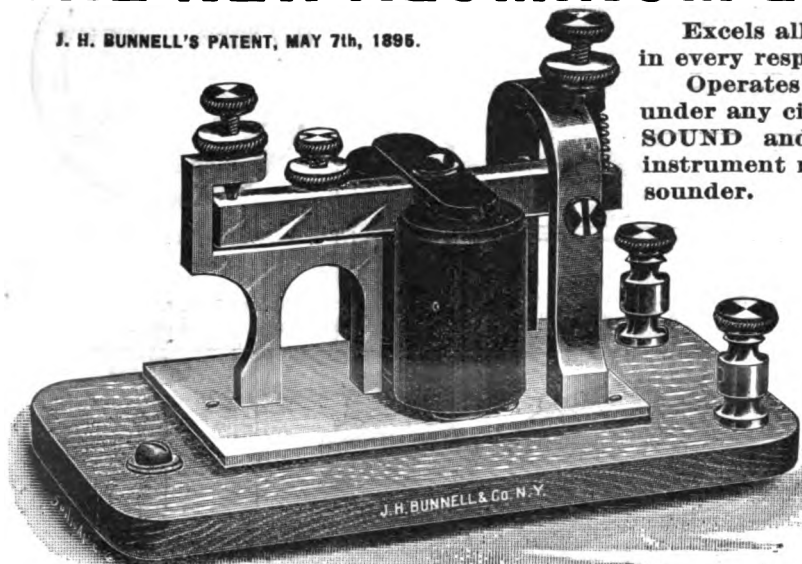

A beautiful and perfect Key suitable for use on Fine Desks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

## THE NEW ALUMINUM LEVER GIANT SOUNDER

J. H. BUNNELL'S PATENT, MAY 7th, 1895.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the **FINEST** and **BEST SOUNDER** ever designed.

Operates with **ONE CELL** only of **LOCAL**, having no need whatever under any circumstances for the use of two cells. The **MARGIN** of **SOUND** and **STRENGTH** and **QUICKNESS** with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length, \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

**NEW GIANT SOUNDER, 20 OHMS RESISTANCE,  
AND STEEL LEVER KEY**

## COMBINATION SET,

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. **Price, \$4.50.** Sent by mail to any distance, carefully boxed, and **PREPAID** by us, on receipt of the above price.

Same set, but wound to 8 ohms (local), **\$4.00.**

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine **LEARNERS' OUTFIT, \$4.75.**

## The New Departure Learners' Outfit....

## WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.

The **IDEAL SET** for **HOME PRACTICE**. Always Ready. **NEAT, CLEAN, ATTRACTIVE.**

The **INSTRUMENT** is our well-known "**MORSE LEARNERS' APPARATUS**" with **STEEL LEVER KEY**, arranged for use with our "**MASCOT DRY BATTERY.**"

The "**circuit-closer**" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "**circuit-closer**" detached the Mascot Battery should last for several months' practice. The "**circuit-closer**" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

Instruction Book goes free with each outfit.

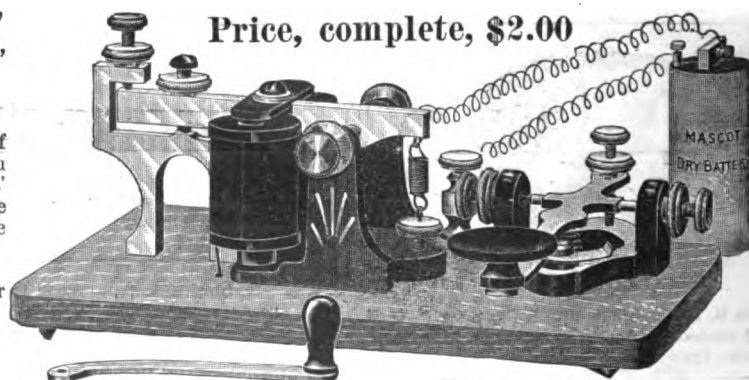

The complete outfit, packed in a wooden box, weighs about 7 lbs.

Shipped by express to any address on receipt of \$2.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 224 pages, sent on receipt of your business card.

These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 50 cents. The Mascot Dry Battery, which too heavy for mailing economically can be obtained at all hardware and electrical supply stores for 50 cents or less.

Price, complete, \$2.00

**J. H. BUNNELL & CO.** 76 Cortlandt St.

### THE NEW No. 4 HOME, D. D. ELECTRO-MEDICAL BATTERY WITH DRY CELL.

Is the latest and very best instrument of the kind ever offered. Price, \$10.00. 50 per cent. discount to Telegraphers. \$5.00 Net. Send for descriptive Circular and Dr. Wells' Electro-pathic Guide, free.

J. H. BUNNELL & CO., 76 Cortlandt Street, New York.

**FREE! COMPLETE INSTRUCTION IN TELEGRAPHY.** If you wish to know all about learning Telegraphy, constructing and operating Short Lines of Telegraph, etc., send your address by postal card or letter, and get J. H. BUNNELL & Co.'s Manual of Instruction for Learners of Telegraphy, latest edition, which we will send free of charge to all who apply by mail or otherwise. It is the plainest and best book of instruction in Telegraphy ever published, being fully complete in description, explanation and illustrations.

## Special Railroad Relay.

Under the most unfavorable conditions of weather these instruments will work when nothing intelligible can be gotten from the best ordinary 150-ohm relays. Their adjustment is also much more satisfactory on hard, working wires, response being prompt and solid under conditions of heaviest escape, when the sender could not hear his own writing if adjusted for the distant station with ordinary relay. For these advantages together with that of the immense reduction in total resistance of the circuit which is obtained, I regard the relay as a very important improvement.

Price, - - - \$7.00

FOR crowded railway wires and other lines where many relays are worked in a single circuit, these relays, although they are wound to only 50 ohms' resistance, give better service on crowded lines in bad weather than can be obtained with the best 150-ohm relays of ordinary construction. The improvement in the working of line by the clear action of the relay, which is accomplished in this form, together with the immense resistance reduction in the circuit, is such as to insure adoption wherever tried.

Among the many testimonials we hold regarding the extraordinary working of these relays is the following from a prominent superintendent of Railway Telegraphs:

"We have been using your Special Railroad Relay of 50 ohms' resistance on our Division Train Wires, one at each end of line of 128 miles, with 33 offices in circuit, and on another wire of 150 miles, with 39 offices, and on our through wire, 426 miles long. We have watched them carefully, and hold regarding the extraordinary working of these relays is the following from a prominent superintendent of Railway Telegraphs:

## The "Morse" Learners' Outfit

\$2.75 THE BEST \$2.75

The "Morse" Outfit is a full size, well made, complete MORSE TELEGRAPH apparatus of the latest and best form for learners, including handsome giant Sounder with Steel Lever (Solid Trunnion) Key, and a large Cell of the best Gravity Battery, latest form. It is the best working set of learners' Instruments for short or long lines, from a few feet up to 20 miles in length, yet offered.

The Sounder Levers, Sounder Yokes, Adjusting Screws, etc., are in finely finished BRASS Composition, the same metal as in all other first-class instruments.

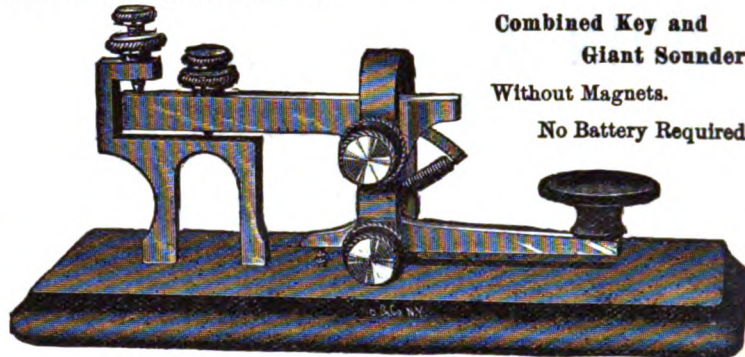

The magnets are strong. The Sounder is loud and clear. The Key is the celebrated Steel Lever Key, known everywhere as the only perfect key.

## NEW "No. 2" IMPROVED MECHANICAL TELEGRAPH INSTRUMENT.

Works Perfectly as a Key, with Sound equal to the best Sounder.

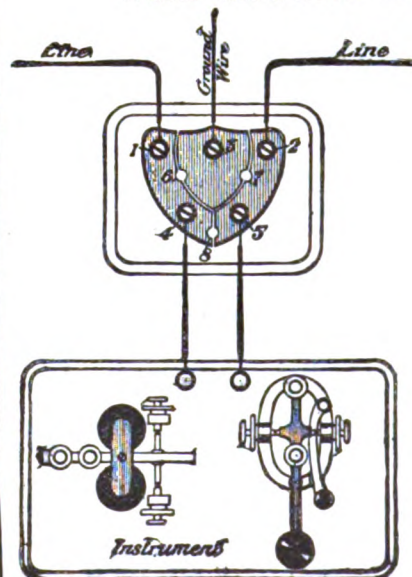

FOR MORSE ALPHABET PRACTICE in sending and reading by sound, and for LEARNING ON TEACHING THE MORSE ALPHABET. Can be carried in the pocket or satchel, and is always ready for use. Works exactly like the very best Sounder and Key Combination Telegraph Set, giving loud, clear sound, with slightest force or movement of Key. All made in first-class instrument Composition Brass, same pattern as best Giant Sounder.

Price, with Telegraph Instruction Book, package of Morse Alphabet Cards, etc., \$1.50. Sent anywhere in the United States, by mail, prepaid, on receipt of price, in stamps, postal or express money order, or registered letter.

Combined Key and  
Giant Sounder.  
Without Magnets.  
No Battery Required.

## The Union Lightning Arrester and Ground Switch.

As lightning is frequently attracted to outdoor lines and thereby enters the offices, sometimes damaging the instruments, or even setting fire to curtains or other inflammable material, about the instrument table, a simple and cheap instrument called "Lightning arrester and cut-out," is used for the purpose of intercepting and carrying to the earth such discharges of lightning as would be liable to cause damage. This apparatus is entirely effective, and is a complete safeguard against lightning.

PRICE, 50 CENTS BY MAIL, PREPAID.

Send for our **LATEST CATALOGUE**, October, 1896, containing 224 Pages and nearly 800 ILLUSTRATIONS the **VERY BEST** Telegraph and Electrical Supplies ever offered to the trade.

For all or any of the above, address **J. H. BUNNELL & CO., 76 CORTLANDT STREET, NEW YORK.**

**SPECIAL.**

Here is a Hot Weather Offer. Do Not Miss It. For Just 30 Days we make this unprecedented offer. One of our finest quality—large size "Laughlin" Fountain Pen.

Fitted with large No. 4 size, 16k. Gold Pen, and one of our beautiful perfectly ground and highly polished allagate (solid) stylus (both articles) by mail, postpaid, for **ONLY \$1.75**. Remember, this pen is superior to any \$4.00 pen on the market. **Order to-day**—if you are not pleased with your bargain send them back—and we will refund your money. If not convenient for you to remit to-day—secure your managers O. K. on your order and send it along—if the goods do not please you, return them—if they do, remit.

Every sale we make on this offer insures the sale of a dozen additional pens, as your friends will all want them. **The SUPERLATIVE QUALITY of these goods are acknowledged by all who use them.**

Our new 20 page Art Catalogue, describing this pen now ready. You can have a copy for the asking.

## POSSIBILITIES OF LIQUID AIR IN ELECTRICAL WORK.\*

BY ELIHU THOMPSON.

THE well-known effect of cooling by liquid air or like gases a conducting metal like copper is to abolish its resistance. Consequently a conductor so cooled is able to carry very much larger currents, with less loss than at ordinary temperatures. This fact has attracted the notice of electricians and physicists for a long time past.

It has recently been found that liquid air is one of the most perfect insulators, and that most insulating materials cooled to the temperature of liquid air are greatly improved in insulating qualities. It is known also that cooling renders it more difficult to cause a spark to occur between oppositely electrified conductors the striking distance for a given pressure being diminished.

The stability of permanence of liquid air in bulk, even when it is fully open to the ordinary atmosphere or kept at atmospheric pressure, is of course, simply dependent upon the heat insulation provided, and if this could be made perfect, the air would never evaporate. Recent methods such as those of Hampson and Linde, make it possible to obtain large quantities of liquid air by simple means and with moderate expenditure of power.

Niagara power is twenty-four hour power, and as there are but few industries demanding power, for the whole day, it must follow that surplus power is either not used or wasted, and that to keep the plant working night and day at full capacity is desirable, even if some of the power only yields a moderate return. Can it not be used in making liquid air? Can not the excess at certain times of day be put to use in compressing air to be afterward liquefied on the large scale?

It would seem that large tanks of liquid air can be heat-insulated very perfectly by layers of air and fibrous material properly placed outside. The evaporated air from the tank could traverse the jacketings in successive order from within outward, so as to help keep down the temperature of the jacketings. A furnace with an internal temperature of 2,000° to 3,000° above the normal temperature of the air is easily insulated by moderate thickness of asbestos or other fibrous coating, so that the outside temperature is but slightly above the normal. The temperature difference between liquid air and normal air is, say, one-eighth of that between the interior of the furnace assumed and the normal, so that it ought to be possible to insulate so that but little heat would enter.

\*Modern Machinery July, 1897.

In most electric long distance transmission lines a loss on the line of about 10 to 15 per cent. is suffered. With 18,000 horse power this would mean from 1,000 to 1,500 horse power lost in resistance of line. If the conductors were immersed in a pipe with liquid air, the loss might fall to not over 1 to 2 per cent., perhaps, leaving available a large power for condensing air to supply evaporation. Just how far 1,000 horse power would go in keeping the conductors supplied with liquid air coatings is a matter requiring data to determine. But if it were not sufficient for the purpose, there is a surplus of power during certain hours to supplement it.

But it may be possible that a much higher voltage than is now used (10,000 to 20,000 volts) may be successfully used with conductors cooled and insulated by liquid air. If the potential could be raised to 50,000 volts, either the loss on the conductors for a given power transmitted would fall off as the inverse square of the voltage, or the conductors could be made smaller in the same proportion, or the distance of transmission increased with the same section of conductors as the square of the potential. These are matters worthy of experimental determination.

The limit of the capacity of an electric transformer to transfer energy from its primary to its secondary circuit is found in the heating and loss involved in the copper conductors comprising these circuits, and upon the nearness with which the two circuits may be placed one to the other, which is in turn governed by the insulating material used to separate them.

Could the conductors be kept cool by liquid air, and thereby their conductivity and insulation greatly increased, the work of transfer in a transformer could be much greater for a given size than it now is, although but 8 per cent. is sacrificed in ordinary practice.

Transformers in liquid air might be made entirely of copper without iron, and their light load efficiency become nearly equal to full load efficiency.

A transformer without iron would avoid the loss in the iron and would permit such a saving in material that changes in design or disposition of the copper could be made to suit the conditions.

We need not touch upon the possibilities of liquid air as a means of energy storage, for they are self-evident enough, since liquid air is virtually compressed air which remains compressed, as it were, even when exposed to atmospheric pressure; that is, addition of heat gives to it pressure and the ability to do work in suitable engines in the usual compressed air

motors. Our object has been to briefly point out what may be termed possibilities in electric engineering, assuming that data favorable to the ideas presented be the outcome of experiment.

It is too early to make any predictions or calculations concerning this object. It must be confessed that it has a certain fascination. Perfection of heat insulation seems to be the key to the situation. All else seems to depend on that, the main questions being what will it cost in power and machinery to supply the necessary evaporation waste in a system of the kind outlined, and whether the voltage of transmission can be raised in consequence of the new condition.

SUPERINTENDENT MARTIN of the New York and Brooklyn Bridge says that electricity gives 25 per cent. more capacity for passengers than did the cable system. The new electrical plant for the Bridge is about completed.

MR. JAMES D. REID has been relieved as American consul at Dunfermline, Scotland, and it is likely he will return to America before winter.

## LORD KELVIN.

It is some thirteen years, we believe, since Lord Kelvin visited this country last, the occasion being the British Association meeting at Montreal and the Electrical Conference and Exposition at Philadelphia, in 1884. The arts of applied electricity have greatly grown in this country in the interval, and our distinguished visitor will doubtless find much to interest and please him. The same period has, however, witnessed the steady growth of Lord Kelvin's own work and the firmer establishment of his own great fame and reputation; and American electricians are glad to extend to him hearty congratulations not only upon his long years of high public service as physicist and inventor, but upon the honors that of late have been poured upon him. With this official recognition of Lord Kelvin's work goes a recognition of electrical advance, and the honors are such, therefore, as we can all share in. And what we say of the welcome now accorded Lord Kelvin here, applies equally to the other well known leaders in electrical science and application who attend the British Association meeting at Toronto this week. We, American electrical engineers, are all delighted to see our brethren from across the sea and trust that their stay may be prolonged.—*El. Eng.*

## JOURNAL OF THE TELEGRAPH.

PUBLISHED MONTHLY, ON 20th OF EACH MONTH, AT  
135 BROADWAY.

THE JOURNAL is issued on the 20th of each month. Its circulation is nearly 25,000 and is steadily increasing. It goes to every State, Territory and Province on the Continent, and is delivered to all the offices of the Western Union Telegraph Company, which now exceed 21,000 in number. Hence it is the best advertising medium of its class in the world.

## TO ALL WESTERN UNION MANAGERS:

Particular attention is called to the third remark under Rule 2, which says:

"The importance of the address (of a message) cannot be over-estimated. When the address given seems insufficient, a better one should be requested."

Insufficient addresses not only put customers to inconvenience from the delay necessary to obtain additional particulars, but they create expense to the Company in the use of the wires for the transmission of service messages, and sometimes in the defence of suits arising from claims for damages.

Managers and receiving clerks are therefore requested to keep the rule well in mind and to give the subject particular attention as occasion demands.

THOS. T. ECKERT,  
President and General Manager.

GOVERNMENT telegrams that Army Officers send, not written upon the (blue) official form furnished by the Quartermaster General, should invariably be paid for by their senders—but, government telegrams that Army Officers send, written upon the (blue) official form furnished by the Quartermaster General, should be accepted without payment by their senders, and being transmitted checked "paid govt. rate," should (unless otherwise specially directed) be taken credit for in, and turned in (as voucher for such credit) with, the monthly Form No. 4 Report.

The foregoing applies only to government telegrams of Army Officers, and does not apply to other government telegrams.

All Weather Bureau telegrams should also be accepted without payment by their senders and being transmitted checked "paid govt. rate

should also be taken credit for in, and turned in with, the monthly Form No. 4 Report.

NEW YORK, May 20, 1894.

## To All Western Union Managers:

You are authorized to send "collect," without the guarantee required by Rule 18, messages of traveling agents or representatives addressed to their home firms, upon sufficient evidence of their connection with those firms.

THOS. T. ECKERT,  
President and General Manager.

NEW YORK, March 20, 1897.

## To all Western Union Managers:

The attention of managers is called to the necessity for insisting upon the requirement of Rule 4, that all unpronounceable groups of letters shall be counted one word for each letter. Some senders of messages claim that such groups as *Opr, Chd, Wse*, which are combinations of the initials of the names of firms or corporations, shall be counted as one word each.

These claims cannot be admitted, and each letter in such combinations must be counted as one word.

THOS. T. ECKERT,  
President and General Manager.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, April 28, 1897.

Communications which have hitherto been addressed to W. B. Somerville, in relation to press matters, are in future to be addressed to Thos. F. Clark, Assistant to President (Press Service).

THOS. T. ECKERT,  
President.

RULE No. 72 requires that: "The original messages 'sent paid' by, and copies of those 'received collect' for the holders of half-rate franks, on which less than full tolls have been paid," should be sent in with the monthly reports. Copies of such half-rate franks messages will not meet the requirements of the rule. The originals must be returned.

The checks on half-rate frank messages should be full and clear.

The half-rate frank entitles its owner to refund at day rates only. The tolls on half-rate frank messages should not be computed at night rates, nor refund allowed at night rates.

No half-rate frank message can be accepted for less than twenty cents.

JNO. VAN HORNE,  
Vice-President.

UNITED STATES Government telegrams that are filed for transmission by Army officers, on the War Department—Official Telegram form (on blue paper, and certified as on Official Business by the officers sending them) should always be checked "Paid" Govt. rate; but no cash payment required for them from the sender. Each such certified telegram is always a sufficient voucher for the government rate charges due upon it.

TREASURER'S OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, January, 1898.

To Superintendents: I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1891) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

First. Every remittance to the treasurer must be accompanied by a letter of transmittal, written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expenses must be reported, like any other item, in the monthly account current (form 4.) Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

Second. Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5.00, 5 cts.	Over \$45.00 to 55.00, 15 cts.
Over \$5.00 to 10.00, 8 cts.	Over 55.00 to 65.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over 65.00 to 75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over 75.00 to 105.00, 30 cts.
Over 30.00 to 40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank drafts can be obtained at less expense.)

Third. If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

Fourth. If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

Fifth. If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

Sixth. Drafts, express money orders and post office money orders must be made payable to R. H. Rochester, Treasurer, and sent by mail. They must not be made payable to R. H. Rochester, without the title.

Seventh. The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

Eighth. The large envelope, Form 124, should be used only for making remittances by express.

**WASH.** Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

R. H. ROCHESTER, *Treasurer.*

A MESSAGE sent "collect," reported as "uncollectible," and collected for by sending office from its sender, should always be booked and reported as it was originally checked—and should never be booked and reported as if checked "paid." See Rule 69 Western Union Book of Rules. The amount collected from sender should be reported in the Form No. 4 Report as Receipts for "Guaranteed Messages"—and should not be reported as "Telegraph Receipts."

The list of Mexican offices and rates given on pages 117 to 120 will not be reprinted. This number of the Journal should therefore be carefully preserved for future reference.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, August 20, 1897.

Following Western Union card franks are hereby revoked and should be taken up if presented:

Numbers Q 784 and R 960, issued on account of the Wheeling and Lake Erie Railroad, ordered to be cancelled by the receiver of that Company.

No. Q 552, lost.

International Ocean Telegraph frank, No. 160, lost.

JNO. VAN HORNE,  
*Vice-President.*

#### THE FASTEST TRAIN IN THE WORLD.

THE distinction of running "the fastest train in the world" now belongs to the Atlantic City Railroad, which has recently inaugurated a summer schedule which includes a one hour train between Philadelphia and Atlantic City. The palm for fast running which was held for so many years by the Empire State Express had latterly been claimed by the Caledonian Railroad, Scotland, which was running a regular passenger train on a schedule of about 60 miles an hour. This, which was considerably higher than the booked speed of the New York Central train, has in turn been greatly exceeded by the railroad above mentioned.

The new train leaves Camden at 3:48 P. M. and is timed to reach Atlantic City, 55½ miles distant, at 4:40 P. M. The new service was inaugurated by a train which, in spite of the fact that it started 2¼ minutes late, reached Atlantic City 1½ minutes ahead of time, the 55½ miles being run off in 48 minutes, or at the rate of 69.35 miles per hour. The train sheet shows that the 4.8 miles between Egg Harbor and Brigantine Junction were covered at a speed of 82.26 miles per hour.

Judged by the mere standard of speed, this was an excellent performance. Even if it had been maintained by a special drawing one or two coaches, it would be worthy of record; but

when it is remembered that the train weighed 820,800 pounds and that much of the distance was run against head winds and in a heavy thunderstorm, the feat becomes truly exceptional.

The train was made up of one combination car, three standard passenger coaches, and a Pullman vestibule parlor car. It was hauled by a Baldwin four cylinder compound with cylinders 13 inches and 22 inches diameter by 26 inches stroke. The heating surface is 1,835 square feet, the drivers are 7 feet in diameter and the total weight of engine and tender is 226,900 pounds. The total weight of engine and train was thus about 278½ tons. It will be seen that the locomotive is a very powerful machine, its weight being about two-thirds that of the train, and the distance is short compared with that covered by the Empire State Express. On the other hand, the Atlantic City train was longer by one more car than the New York Central train, and its booked speed is about 11 miles per hour faster.—*Sci. Am.*

#### AN ELECTRIC SHOW TO BE A STRONG FEATURE OF THE 1897 AMERICAN INSTITUTE FAIR.

THE development of practical electrical science will be illustrated in the next American Institute Fair by exhibits. The old American Institute now in its seventieth year is aggressive in its announcement of a strong and a long show at Madison Square Garden, to run from September 20 to November 4, 1897. The officers of the Board of Managers of the 1897 Fair are Dr. P. H. Murphy, Chairman; Oliver Barratt, Vice-Chairman; Alfred Chasseaud, General Superintendent; and George Whitefield, Jr., Secretary. The American Institute rooms are at 111-115 West 88th Street, but the General Superintendent until the Fair's close will maintain an office at Madison Square Garden.

The Fair's management has planned as an especial attraction to the public a flower show which in extent and cost has never been equalled. It will be scientifically classified and a wide range of species of plants will be accessible to lovers of flowers. The show of fruit, nuts and vegetables too will be the most complete ever seen in New York City. The machinery exhibits will be numerous and will include new inventions of practical worth and unusual interest. There will be a choice collection of paintings and statuary representing the best efforts of America's greatest artists and daily concerts by the Old Guard Band.

It was the American Institute which in one of its fairs, first demonstrated to the doubting world the practicability of Morse's electric telegraph and other lesser but important electrical inventions. The managers of the 1897 Fair would be pleased to see the electrical section made, if possible, the most important of all the Fair departments, appreciating as they do the importance of electricity in the world of to-day and to-morrow.

The electrical section will include everything pertaining to telegraphs, telephones and their construction, signals and alarms, electrical, medical and surgical apparatus and instruments, motors, electric lighting devices, and models of or apparatus and instruments used in electrical processes. All inquiries for in-

formation regarding exhibits should be addressed to Mr. Alfred Chasseaud, General Superintendent of the Fair, at Madison Square Garden, New York City.

#### OLD TIME TELEGRAPHERS' ASSOCIATION AND UNITED STATES MILITARY TELEGRAPH CORPS.

THE seventeenth reunion of the Old Time Telegraphers' Association and the United States Military Telegraph Corps will take place at Nashville, Tenn., on September 15, 16 and 17. The headquarters will be at the Maxwell House, on the European plan, rooms \$1 per day and upwards.

Every member of these associations should be present with his family.

The arrangements already made by the executive and local committees indicate that this will be the banner reunion of these Associations.

It is suggested that rooms be secured at the Maxwell House a week or ten days in advance, and those who desire to attend should notify Mr. A. H. Stewart, care Western Union Telegraph Company, Nashville, as early as possible.

Regarding transportation, it is expected that there will be in September, a special low ten-day rate, from all points to Nashville and return, and that this rate will be lower than can be obtained in any other way, excepting as members may be individually able to arrange for their own transportation. W. J. Dealy 195 Broadway, New York, is secretary of the Old-Timers' Association, and J. E. Pettit, Chicago, secretary of the Military Telegraphers' Corps.

The programme as officially arranged is as follows:

September 15; meeting Old-Timers' Association, at the Maxwell House; 2 P. M., meeting of the United States Military Telegraph Corps, at the Maxwell House. During the day the ladies and visitors will "do" the centennial; at 8 P. M. spectacular at the auditorium, centennial grounds; 10 P. M., special fire-works at the centennial; then go as you please.

September 16, 8 A. M., special train to Belle Meade stock farm; 12 M., special train to Chattanooga, arriving there about 6 P. M.; dinner, 6 to 8 P. M. at Lookout Inn; ball, 9 P. M., at the inn, where the night will be spent.

September 17; 8 A. M., trip to Lookout Point to view the grand scenery and battlefield "above the clouds;" 9 A. M., incline railroad to the foot of the mountain, where tally-hos will convey the party to Chickamauga Park; 2 P. M., lunch at the Park Hotel; 6 P. M., return to Nashville, and go as you please.

#### PRESSURE OF THE AIR.

WE know because we can ascertain directly, that 30 cubic inches of mercury weighs close upon 15 pounds avoirdupois, and therefore we say that, under normal conditions, the pressure of the atmosphere is 15 pounds on every square inch. If however, instead of taking such a tiny space as a square inch for our base, we adopt some larger area, the facts at once begin to assume gigantic proportions. Thus, on a square foot, the weight of the air is little short of a ton; on a square yard it exceeds 8½ tons; and on a square of 10½ feet side it is 100 tons. What is known as Inner London, an area of 122 square miles, supports an aerial pressure of 3,250,000,000 tons, or considerably over 600 tons to each inhabitant. To arrive at some approximate conception of the immensity of such a weight, we will assume the air over our islands to be converted into coal in the bowels of the earth. Our coal fields now yield about 180,000,000 tons of coal annually, and gives employment to 600,000 workmen. To bring to the surface the whole of the air which we have supposed turned into coal would occupy this vast army of miners a matter of 8,000 years.—*Longman's Magazine.*

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, August 30, 1897.

This JOURNAL should be carefully preserved for future reference, as list of Mexican stations and instructions therefor, will not be republished.

The following list of "changes" corrects the Tariff Book of July, 1897, to date. Changes in the list of "New Offices" are not included.

The hand **C** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices", which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Wildwood, N. J., which was formerly a double star station, but which is now a Western Union office in Square 53.

### NEW CABLE RULES.

Rules for the treatment of cable messages, given in Tariff Book of July 1897, should receive careful attention, particularly the changes referred to in the following, viz:

In rule 2 (page 413) the length of a chargeable word has been extended to fifteen letters. The present rule allows but ten.

In rule 3 (page 413) it is *required* that code words must not contain more than ten letters each.

In rule 4 (page 414) five figures to a word are allowed instead of three to a word as at present. The same rule provides for the count of words (plain words) in cipher messages at the rate of fifteen letters to a word instead of ten as formerly.

In rule 6, last paragraph, "abbreviated and misspelled words and illegitimate compound words" which, under the present rule, are counted at the rate of three letters to a word, are now counted at the rate of five letters to a word.

In rule 13 (page 416) the last line of the first paragraph should read, "The indication R P 7 (or R P with any number up to and including 30) counts as one word."

In the third paragraph of the same rule the indication "R P 20" should be counted as one word.

Other changes will become apparent upon a careful reading of the new rules, or upon comparison of the new schedule with that given in the book of January, 1897.

See Special Notices at end of this circular.

### CHANGES.

#### ALABAMA.

- \* Point Clear. Summer office, reopened. Messages subject to delay.
- 358 Prichard, closed.
- 290 Talladega Springs. Summer office, reopened.

(Continued on page 120.)

August 1, 1897, the Tariff Book rates to offices in Mexico will be discontinued, and on and after that date—with certain exceptions given in a "Supplementary List" hereafter—the rates to offices in Mexico will be the State rates given in the columns to the right of the names in the list below. All messages to or from these places will be checked with and routed *via* "Mexico Junction, Tex." and the full tolls on each message will be entered as if *all* for "*this*" line against "Mexico Junction, Tex." There will be no division of the tolls into "*this*" and "*other*" lines, nor—*except as noted hereinafter*—will messages be checked against the various connecting offices as at present.

"Collect" messages may be accepted *via* "Mexico Junction" to Tampico, Vera Cruz and Mexico City, but such messages, whether answers or not, must in each case be guaranteed. Messages for all other places in Mexico, *via* "Mexico Junction" must be prepaid.

In all other respects, the rules which apply to messages between Western Union offices will apply to messages to and from Mexico.

Messages to Mexico, offered by holders of Western Union Franks, will, if sent via "Mexico Junction," be charged for at the State rates, less present rates to Galveston, Tex.; but if sent to places, and via the routes named in the Supplementary List, then only the "other" line rate will be charged.

Service messages in regard to messages to or from Mexico, *via* "Mexico Junction," should be addressed to Galveston, Tex.

## SUPPLEMENTARY LIST

Places in Mexico to which messages may be sent as ordinary "other" line messages at the rate for "other" lines given herewith. If these routes and rates be used, messages should be checked accordingly.

Except for night messages, which are not allowed, the rules which govern Western Union messages will apply for messages via these routes from place of origin to destination.

United States Government messages to Mexico via these routes should be charged full rates for "other" lines.

## CABLES.

For Rule 5 on page 414 of the Tariff Book, the following should be substituted, to take effect immediately:

RULE 5.—In the address of any message, the name of the office of destination, the name of the country, and the name of the territorial sub-division, are counted respectively as one word, no matter how many letters are employed.

Correct Tariff Book, page 430.

Cuba:

An asterisk should be entered after Puerto Principe. Messages for that place are now posted at Santiago.

The following changes in cable rates are now in force. Correct Tariff Book pages 424 to 428, inclusive.

- Word rates beyond London.
- South Africa: Zululand, Etshowe \$1.97, should be erased.
- East Coast Africa, via West Coast.
- British East Africa:
  - Lamu.....\$1.82
  - Malindi.....1.82
  - Mombasa.....1.72
  - Witu.....1.82
  - Delagoa Bay.....1.74
- German East Africa:
  - Bagamoyo, Dar-es-Salaam, Kilwa, Mohororo, Pangani, Saadani and Tanga.....1.76
  - Mozambique.....1.74
  - Zanzibar.....1.72

## SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 191), Catskill Mountains (page 195), and Lake George (page 203.) When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc., do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own state.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated as night message offices in the Tariff Book.

Offices having special rates, should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 419 to 434, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 867 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Notifications of the arrival of steamers at the Port of New York will be forwarded to any address during the Company's usual office hours, upon payment of \$1.00, plus the tolls for a ten word message between New York City and the office ordering the report.

Orders should be addressed to Manager Marine Department, New York City.

This order does not apply to New York City, Brooklyn, Hoboken or Jersey City.

THOMAS T. ECKERT,  
President.

## TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, August 18, 1897.

To All Transfer Agents and Offices:

The transfer service has been resumed at Beatrice, Neb., and temporarily discontinued at Orlando, Fla., Valdosta, Ga., and Yankton, So. Dak.

On August 16th, Hot Springs, Ark., was advanced from Class D to Class C.

On September 1st, Boulder, Col., will be added to the list of Class D, transfer offices, in J. J. Dickey's district, and on same date, Sumter, S. C., will be added to the list of Class E, transfer offices, in J. A. Brenner's district.

Managers will correct their lists accordingly.

THOS. T. ECKERT,  
President.

## ELECTRIC POWER AT RICHMOND, VA.

A PROJECT for utilizing the immense water power at Richmond, Va., for the production of electricity is now assuming definite shape. It is believed that when the enterprise is established it will do more for the material development of Richmond than all the other enterprises attempted. There is more than 10,000 undeveloped horse power in the James River at this point, which if converted into electric power would be of great benefit, not only to present manufacturers, but would also tend to bring other manufacturers to the city.—Sci. Am.

## ELECTRIC CELEBRATION IN MAINE.

THE celebration of the invention of the electric motor car was held on July 26, at Eliott, Me., in connection with the summer meeting of the American Institute of Electrical Engineers. The celebration was in honor of Prof. Moses G. Farmer, who on July 26, 1847, exhibited in Dover, N. H., what was considered the first electric car. The exercises included an interesting exhibit of early apparatus, and addresses by Professors Dolbear, Barker, Duncan, Pupin, etc.—Sci. Am.

## COUNTING AND TYING POSTAL CARDS.

Two of the most interesting automata now working within the limits of the United States are those used by the government for counting and tying postal cards into small bundles. These machines were made in Connecticut, and the two are capable of counting 500,000 cards in ten hours and wrapping and tying the same in packages of twenty-five each. In this operation the paper is pulled off a drum by two long "fingers," which come up from below, and another finger dips in a vat of mucilage and applies itself to the wrapping paper in exactly the right spot. Other parts of the machine twine the paper around the pack of cards, and then a "thumb" presses over the spot where the mucilage is, and the package is thrown upon a carry belt ready for delivery.—*The Argosy*.

It was announced recently, says the Electrical Review, that the National Museum, at Washington, D. C., had secured the famous Cyrus W. Field collection of documents, autographs, telegrams and cablegrams relating to the first Atlantic cable. It has been donated by Mrs. Isabella Field Judson, of Dobbs Ferry, N. Y., and is being arranged for exhibition by Prof. Maynard. The journal kept by Mr. Field, and the notes of deep sea soundings made by him and the officers of the Great Eastern, are part of the collection. Mr. Field's private library forms another part of it. There are also copies of medals presented to him by Congress and the French government, engraved resolutions passed by members of bodies in this country and Europe, a cane made from the wood of the Great Eastern, cases containing sections of the first cable, and those evolved from it, and the globe used by Mr. Field while working out his plans.

## TRIAL OF A SEXTUPLEX TELEGRAPH SYSTEM.

A SEXTUPLEX telegraphic system was successfully operated at Boston, August 2, in the presence of representatives of New York and Boston newspapers. The circuit was to New Haven and return, a distance of three hundred miles. Three different messages were sent over the wire simultaneously, and were easily and accurately received on the receiving sides.

The inventor is Thomas B. Dixon, of Kentucky, son of the late Archibald Dixon, once a Senator of that State. He is a practical telegrapher.

"Other experimenters," said Mr. Dixon, "have pursued one of two methods—either they have used a vibratory current or else have subdivided the current into more than two parts. I have virtually a combination of a quadruplex and duplex wire. I send two messages over one-half of the current as a quadruplex, say at 100 volts, and the third message over the other half as a duplex, by increment—by making the current 300 volts. The great gain is in the saving of wire. We can work the sextuplex with the same current that is used on the quadruplex. We have used one quadruplex over thirteen hundred miles of wire on about two-thirds the current commonly employed. Both quadruplex and sextuplex have been used in all kinds of weather, and they do excellent work. The tests have all been made through a district where the wires were exposed to induction. The thirteen-hundred mile test was on a wire that ran from Boston to Buffalo, then back to Boston; then to New Haven and back to Boston again."—*Sci. Am.*

## SOUNDER AND KEY AS ILLUSTRATED ABOVE, \$2.00.

We have purchased the entire stock of telegraph instruments, and about 75% of the entire stock from the assignee of the late E. S. Greeley & Co. The above **FIRST CLASS** Sounder is from this stock. The key is our own make. Only about 300 of these sets at above price.

**WE HAVE** about 200 brass lever keys that are shelf worn but in good condition, at **50 CENTS**.

Box Relays, 150 ohms, with Victor Keys, **\$4.00**.

Box Relays, 150 ohms, no keys, **\$3.00**.

Standard Relays, 150 ohms, **\$3.00**.

Telegraph Switches, 60% off Greeley Catalogue list.

Ludwig Mechanical Telegraph Instruments, **50 CENTS**.

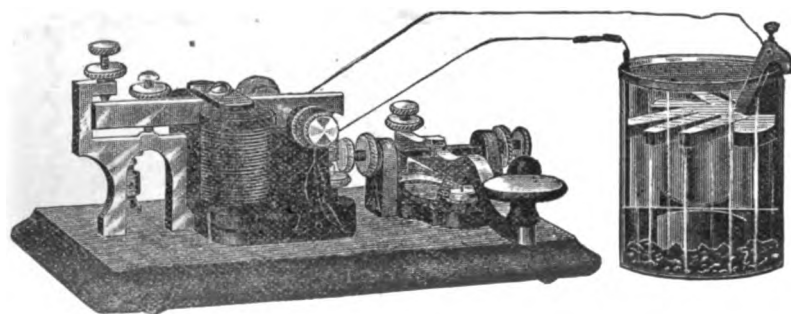

We can supply nearly all the goods illustrated in the Greeley catalogue at very low prices.

**WATCH THIS PAPER** or send to us for bargain lists. Our regular stock of electrical supplies is sold on small margin of profit.

## EUREKA TELEGRAPH OUTFIT

Outfit Complete With Battery, **\$2.25**.

(Without Battery, **\$1.75**.)

The Eureka Instrument with **MESCO** Dry Battery for home practice, **\$1.95**.

### DESCRIPTION.

The Eureka Learner's Outfit, as shown by illustration, is a first-class, full size telegraph set. All of the working parts—which includes key lever, sonnder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. The key is of the curved lever pattern, and sounder gives a loud and clear sound, equal to the best expensive instrument.

### THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.....	<b>\$2.25</b>
Eureka instrument only (no battery or wire), for short lines.....	<b>1.75</b>
Eureka instrument only, wound for lines 1 to 15 miles.....	<b>2.00</b>
Postage on instrument only (battery not mailable).....	<b>.40</b>

We claim this the **BEST** low priced telegraph set ever made. It's one of our specialties, and made in large quantities.

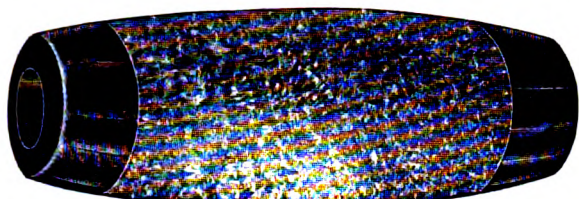

If goods are to be sent C. O. D. one third of the amount must be remitted with order or express charges guaranteed by express agent.

# MANHATTAN ELECTRICAL SUPPLY CO.

**32 CORTLANDT STREET, NEW YORK.**

# BICYCLE SUNDRIES AT POPULAR PRICES.

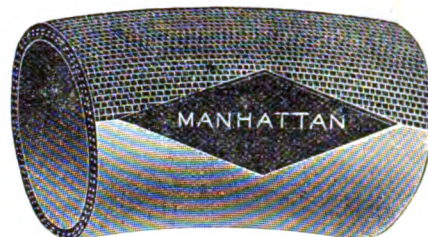

**Corkeline Grips.**— $\frac{3}{4}$  and  $\frac{1}{2}$  paper lined. Black or maroon composition ends. Postage, 5 cents. Price, 15 cents per pair.

**Mesco.**—A complete outfit for single-tube or hose pipe tires. Contains an assortment of plugs, tube of rubber solution with cementing nozzle, pair of steel pliers, package tire tape, puncture rod, etc., in fine leather case. Price, 25 cents each.

J. H. BUNNELL &amp; CO.'S

## STEEL LEVER

SOLID  
TRUNNION

## KEYS.

OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

**THE BUNNELL STEEL LEVER KEY** is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is *only one-half the weight* of the ordinary brass lever as generally made. The entire Lever and Trunnions together being made of *but one piece* of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of *hardened platina points, sticking is absolutely prevented.*

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

PRICE,  
1.75.

## LEGLESS PATTERN STEEL LEVER KEY

New Form with Open Base.

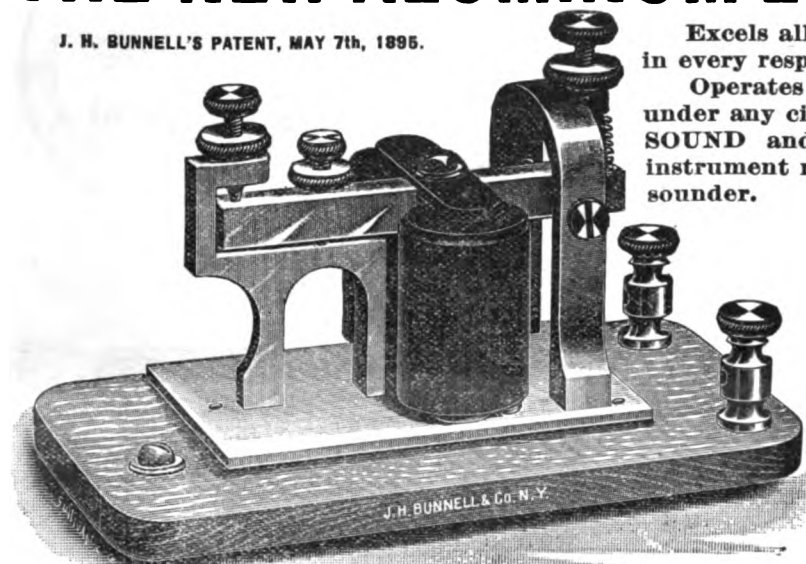

A beautiful and perfect Key suitable for use on Fine Decks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

## THE NEW ALUMINUM LEVER GIANT SOUNDER

J. H. BUNNELL'S PATENT, MAY 7th, 1895.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the **FINEST** and **BEST SOUNDER** ever designed.

Operates with **ONE CELL** only of LOCAL, having no need whatever under any circumstances for the use of two cells. The **MARGIN** of **SOUND** and **STRENGTH** and **QUICKNESS** with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, . . . . . \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length. \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

NEW GIANT SOUNDER, 20 OHMS RESISTANCE,  
AND STEEL LEVER KEY

## COMBINATION SET,

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. Price, \$4.50. Sent by mail to any distance, carefully boxed, and PREPAID by us, on receipt of the above price.

Same set, but wound to 8 ohms (local), \$4.00.

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine LEARNERS' OUTFIT, \$4.75.

## The New Departure Learners' Outfit....

## WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.

The IDEAL SET for HOME PRACTICE. Always Ready. NEAT, CLEAN, ATTRACTIVE.

The INSTRUMENT is our well-known "MORSE LEARNERS' APPARATUS" with STEEL LEVER KEY, arranged for use with our "MASCOT DRY BATTERY."

The "circuit-closer" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "circuit-closer" detached the Mascot Battery should last for several months' practice. The "circuit-closer" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

Instruction Book goes free with each outfit.

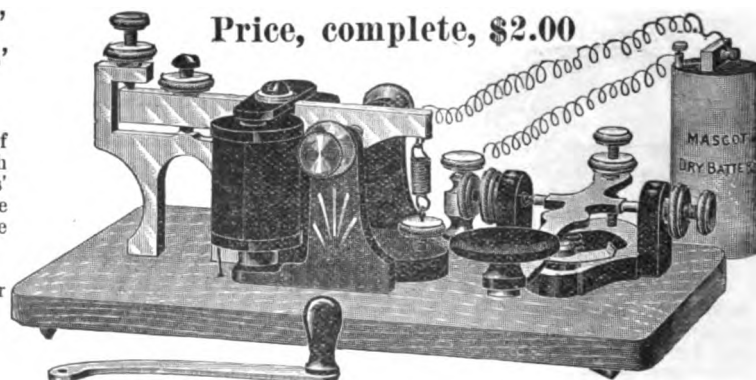

The complete outfit, packed in a wooden box, weighs about 7 lbs.

Shipped by express to any address on receipt of \$2.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 224 pages, sent on receipt of your business card.

These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 50 cents. The Mascot Dry Battery, which too heavy for mailing economically can be obtained at all hardware and electrical supply stores for 50 cents or less.

Price, complete, \$2.00

 Favorable arrangements made with agents everywhere.

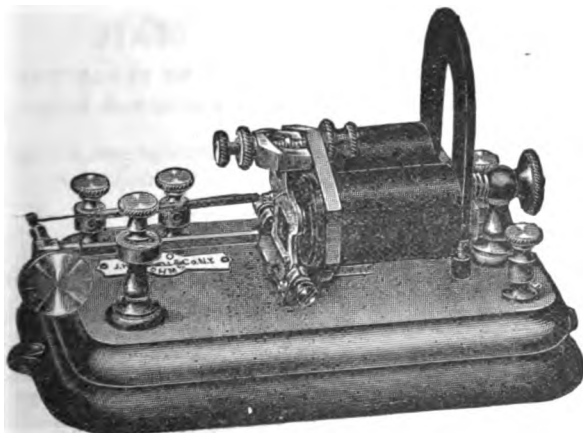

### THE NEW No. 4 HOME, D. D. ELECTRO-MEDICAL BATTERY WITH DRY CELL.

Is the latest and very best instrument of the kind ever offered. Price, \$10.00. 50 per cent. discount to Telegraphers. \$5.00 Net. Send for descriptive Circular and Dr. Wells' Electro-pathic Guide, free.

J. H. BUNNELL & CO., 76 Cortlandt Street, New York.

**FREE! COMPLETE INSTRUCTION IN TELEGRAPHY.** If you wish to know all about learning Telegraphy, constructing and operating Short Lines of Telegraph, etc., send your address by postal card or letter, and get J. H. BUNNELL & Co.'s Manual of Instruction for Learners of Telegraphy, latest edition, which we will send free of charge to all who apply by mail or otherwise. It is the plainest and best book of instruction in Telegraphy ever published, being fully complete in description, explanation and illustrations.

## Special Railroad Relay.

Under the most unfavorable conditions of weather these instruments will work when nothing intelligible can be gotten from the best ordinary 150-ohm relays. Their adjustment is also much more satisfactory on hard, working wires, response being prompt and solid under conditions of heaviest escape, when the sender could not hear his own writing if adjusted for the distant station with ordinary relay. For these advantages together with that of the immense reduction in total resistance of the circuit which is obtained, I regard the relay as a very important improvement."

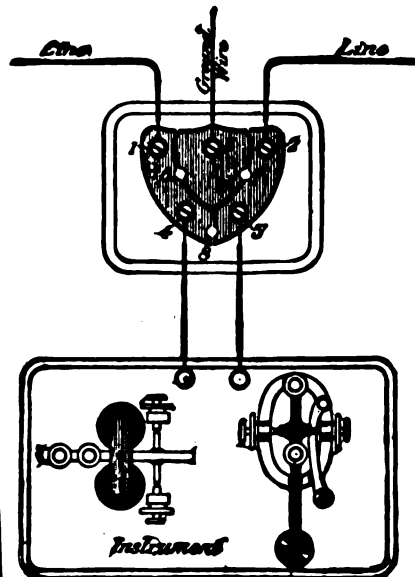

Price, - - - \$7.00

FOR crowded railway wires and other lines where many relays are worked in a single circuit, these relays, although they are wound to only 50 ohms' resistance, give better service on crowded lines in bad weather than can be obtained with the best 150-ohm relays of ordinary construction. The improvement in the working of line by the clear action of the relay, which is accomplished in this form, together with the immense resistance reduction in the circuit, is such as to insure adoption wherever tried.

Among the many testimonials we hold regarding the extraordinary working of these relays is the following from a prominent superintendent of Railway Telegraphs:

"We have been using your Special Railroad Relay of 50 ohms' resistance on our Division Train Wires, one at each end of line of 128 miles, with 33 offices in circuit, and on another wire of 150 miles, with 39 offices, and on our through wire, 426 miles long. We have watched them carefully, and hold regarding the extraordinary working of these relays is the following from a prominent superintendent of Railway Telegraphs:

## The Union Lightning Arrester and Ground Switch.

As lightning is frequently attracted to outdoor lines and thereby enters the offices, sometimes damaging the instruments, or even setting fire to curtains or other inflammable material, about the instrument table, a simple and cheap instrument called "lightning arrester and cut-out," is used for the purpose of intercepting and carrying to the earth such discharges of lightning as would be liable to cause damage. This apparatus is entirely effective, and is a complete safeguard against lightning.

PRICE, 50 CENTS BY MAIL, PREPAID.

Send for our **LATEST CATALOGUE**, October, 1896, containing 224 Pages and nearly 800 ILLUSTRATIONS the **VERY BEST** Telegraph and Electrical Supplies ever offered to the trade.

**STENOGRAPHERS ABANDON SHORTHAND FOR THE ANDERSON TYPEWRITER!**

J. G. K. ANDERSON, Esq.,  
720 Bennett Building, New York.

DEAR SIR: Your shorthand typewriter to hand yesterday. So far as I can see, the machine is a great success.

I have, at time of writing, had only about one hour's practice, but can already write ordinary business letters phonetically in very fair time and expect to get it down fine in about one month. Being a stenographer, I can testify that it is ahead of ordinary shorthand—more easily written and more easily read, especially so in the case of stenographers of limited experience.

Yours truly,

SAM'L M. BRYDGES.

ASSINIBOINE LUMBER CO.,  
BRANDON, MAN., August 12, 1897.

# JOURNAL OF THE TELEGRAPH.

VOL. XXX.

NEW YORK, SEPTEMBER 20, 1897.

WHOLE NO. 531.

## QUARTERLY REPORT OF THE WESTERN UNION TELEGRAPH COMPANY, FOR THE QUARTER ENDING SEPTEMBER 30TH, 1897.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, September 8th, 1897.

The following statement exhibits the condition of the Company at the close of the quarter ended June 30th, 1897:

Surplus April 1st, 1897, as per last Quarterly Report.....	\$7,559,747 69	
Net revenues, quarter ended June 30th, 1897 .....	1,509,683 08	
	\$9,069,430 76	
From which deducting for—		
Dividend of 1¼ per cent. paid July 15th.....	\$1,316,967 56	
Interest on bonded debt.....	384,981 30	
Sinking funds.....	30,000 00	
	\$1,461,888 76	
Less		
Portion of Sinking Funds for the bonds of 1900 (which was set aside previously) returned to the Company by the Sinking Fund Trustees, because of the drawn bonds not being presented for redemption.....	40,000 00	1,491,888 76
Left a surplus July 1st, 1897.....	\$7,647,541 06	
Surplus July 1st, 1897, as above .....	\$7,647,541 06	
The net revenues of the quarter ending September 30th, inst., based upon nearly completed returns for July, partial returns for August and estimating the business for September, will be about....	1,759,608 00	
	\$9,397,541 06	
From which appropriating for—		
Interest on bonds.....	\$325,000 00	
Sinking funds.....	30,000 00	345,000 00
	\$9,122,541 06	
It requires for a dividend of 1¼ per cent. on capital stock issued, about.....	1,316,975 00	
Deducting which leaves a surplus, after paying dividend, of.....	\$7,805,566 06	

In view of the preceding statements, the Committee recommend the adoption by the Board of the following:

*Resolved*, That a dividend of one and one-quarter per cent. on the capital stock of this Company be hereby declared payable on and after the 15th day of October next, to stockholders of record at the close of the transfer books on the 20th day of September, instant.

*Resolved*, That for the purpose of the Annual Meeting of Stockholders, to be held on Wednesday, the 18th day of October next, and of the dividend hereinbefore declared, the stock books of the Company be closed at three o'clock on the afternoon of the 20th day of September, instant, and be reopened on the morning of the 14th day of October, next.

Respectfully submitted,

THOMAS T. ECKERT, *President*.

At the Convention of Railway Telegraph Superintendents, held in June last, the following interesting paper was read by Superintendent of Telegraph L. H. Korty of Union Pacific Railway system, concerning DELIVERY OF COMMERCIAL TELEGRAMS AT RAILWAY STATIONS.

"One of the most important duties at a railroad station where commercial telegrams are handled is the prompt and proper delivery of such messages, and yet most of you, no doubt have often been vexed by cases of failure and neglect of this duty coming to your attention.

Delays in the transmission of telegrams at railroad offices are far less frequent than in their delivery. There are many operators who seem to consider the prompt transmission the only essential requirement, and who will contend for a recruit to a degree beyond the limit of the rules, in order to rush a message and get rid of it, but who will delay the delivery of a received message with the utmost indifference, and often to make matters worse, when finally delivered, no receipt is taken or time of delivery noted. This latter neglect is also quite common at some stations, as is also the failure to note, in proper places, the different degrees of service from time of filing up to that of delivery. Some operators, although carefully marking the time a message is sent, fail to show the time it was filed thus leaving uncertain the time of delay at the originating office in case complaint is made.

Some agents, who would not think of delivering a shipment consisting of scrap iron, an old horse collar or any old thing without taking an iron-clad receipt, will deliver commercial telegrams involving thousands of dollars without any kind of a record of the transaction, and when asked to produce receipt for a lost message, will tell you that they did not know it was necessary to take receipts for commercial messages. The chief "griever" of the Order of Railroad Telegraphers on the Union Pacific system gave this excuse recently, when asked to show delivery of a certain Western Union telegram, and this man had many years' experience as an operator and agent, and from the fact of his occupying an important position in the Order, is regarded by his fellow employees as a man well up in the duties of his profession.

Some patrons of the telegraph are so apprehensive about the delivery of their messages that they prefer to send them "collect," under the impression that, if charges are to be paid at destination, the operator is more apt to give

the delivery better attention than he otherwise would.

The telegraph company's rules on this, and other subjects, are clear enough, but the average agent and operator does not familiarize himself with them. He often gets his training at a station where the commercial telegraph business is a secondary matter and where the rules governing this business are not followed. Such a man is the bane of the railway telegraph superintendent in charge of the commercial telegraphing of his road.

Many telegrams are received at stations addressed to passengers on trains. These must necessarily be given to the train conductor to find the party. The conductor may be unable to give it personal attention and turns it over to the brakeman to find the owner, but "Brakesy," in his anxiety to resume his seat with the lady passenger whom he is entertaining, does not make a thorough search through the train, puts the message in his pocket, and the matter is forgotten until the usual claim for damages on account of non-delivery is received. Investigation proves but one thing; namely, that the message was received at the station, but nothing further is on record. The operator claims he turned it over to the conductor of the train, but has nothing to show for it, as he failed to take his receipt. The conductor disclaims all knowledge of it. Asked why he does not take receipts for commercial messages delivered, the agent in this case may reply that he does take receipts from everybody except conductors, who usually decline to receipt, and be responsible, for telegrams for parties on trains. Under these conditions there is no certainty that a message will ever reach the owner, or, in case of failure to find him, that the sending office will be notified of non-delivery.

Most of the irregularities in delivery service exist at the smaller offices, where there is no messenger and not sufficient business to justify the employment of one, the agent performing all the various duties of the station, including delivery of telegrams; and as station employees too often look upon the commercial telegraph business as an outside matter, imposing upon them duties for which they receive no compensation, this branch of the service is most likely to suffer and be subject entirely to their personal convenience; yet the telegrams received at these thousands of small railroad offices constitute a considerable portion of the whole telegraph business of the country, and, therefore, justly demands our careful attention, and individual efforts to improve. Although a

## JOURNAL OF THE TELEGRAPH.

PUBLISHED MONTHLY, ON 20th OF EACH MONTH, AT  
185 BROADWAY.

THE JOURNAL is issued on the 20th of each month. Its circulation is nearly 25,000 and is steadily increasing. It goes to every State, Territory and Province on the Continent, and is delivered to all the offices of the Western Union Telegraph Company, which now exceed 21,000 in number. Hence it is the best advertising medium of its class in the world.

Nothing inserted for less than one dollar.

A reasonable discount will be allowed on advertisements to remain standing, for which special arrangements can be made.

NEW YORK, SEPTEMBER 20, 1897.

September 1, 1895.

## TO ALL WESTERN UNION MANAGERS:

Particular attention is called to the third remark under Rule 2, which says:

"The importance of the address (of a message) cannot be over-estimated. When the address given seems insufficient, a better one should be requested."

Insufficient addresses not only put customers to inconvenience from the delay necessary to obtain additional particulars, but they create expense to the Company in the use of the wires for the transmission of service messages, and sometimes in the defence of suits arising from claims for damages.

Managers and receiving clerks are therefore requested to keep the rule well in mind and to give the subject particular attention as occasion demands.

THOS. T. ECKERT,

President and General Manager.

GOVERNMENT telegrams that Army Officers send, not written upon the (blue) official form furnished by the Quartermaster General, should invariably be paid for by their senders—but, government telegrams that Army Officers send, written upon the (blue) official form furnished by the Quartermaster General, should be accepted without payment by their senders, and being transmitted checked "paid govt. rate," should (unless otherwise specially directed) be taken credit for in, and turned in (as voucher for such credit) with, the monthly Form No. 4 Report.

The foregoing applies only to government telegrams of Army Officers, and does not apply to other government telegrams.

All Weather Bureau telegrams should also be accepted without payment by their senders and being transmitted checked "paid govt. rate

should also be taken credit for in, and turned in with, the monthly Form No. 4 Report.

NEW YORK, May 20, 1894.

## To All Western Union Managers:

You are authorized to send "collect," without the guarantee required by Rule 13, messages of traveling agents or representatives addressed to their home firms, upon sufficient evidence of their connection with those firms.

THOS. T. ECKERT,

President and General Manager.

NEW YORK, March 20, 1897.

## To all Western Union Managers:

The attention of managers is called to the necessity for insisting upon the requirement of Rule 4, that all unpronounceable groups of letters shall be counted one word for each letter. Some senders of messages claim that such groups as *Cpr, Chd, Wes*, which are combinations of the initials of the names of firms or corporations, shall be counted as one word each.

These claims cannot be admitted, and each letter in such combinations must be counted as one word.

THOS. T. ECKERT,

President and General Manager.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, April 23, 1897.

Communications which have hitherto been addressed to W. B. Somerville, in relation to press matters, are in future to be addressed to Thos. F. Clark, Assistant to President (Press Service).

THOS. T. ECKERT,

President.

RULE No. 72 requires that: "The original messages 'sent paid' by, and copies of those 'received collect' for the holders of half-rate franks, on which less than full tolls have been paid," should be sent in with the monthly reports. Copies of such half-rate franks messages will not meet the requirements of the rule. The originals must be returned.

The checks on half-rate frank messages should be full and clear.

The half-rate frank entitles its owner to refund at day rates only. The tolls on half-rate frank messages should not be computed at night rates, nor refund allowed at night rates.

No half-rate frank message can be accepted for less than twenty cents.

JNO. VAN HORNE,

Vice-President.

UNITED STATES Government telegrams that are filed for transmission by Army officers, on the War Department—Official Telegram form (on blue paper, and certified as on Official Business by the officers sending them) should always be checked "Paid" Govt. rate; but no cash payment required for them from the sender. Each such certified telegram is always a sufficient voucher for the government rate charges due upon it.

TREASURER'S OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, January, 1893.

To Superintendents: I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

First. Every remittance to the treasurer must be accompanied by a letter of transmittal, written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money order, money by express or registered letter, the amount of such expenses must be reported, like any other item, in the monthly account current (form 4). Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

Second. Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5.00, 5 cts.	Over \$40.00 to 50.00, 15 cts.
Over \$5.00 to 10.00, 8 cts.	Over 50.00 to 60.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over 60.00 to 75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over 75.00 to 100.00, 30 cts.
Over \$30.00 to \$40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank draft can be obtained at less expense.)

Third. If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

Fourth. If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

Fifth. If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

Sixth. Drafts, express money orders and post office money orders must be made payable to R. H. Rochester, Treasurer, and sent by mail. They must not be made payable to R. H. Rochester, without the title.

Seventh. The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

Eighth. The large envelope, Form 124, should be used only for making remittances by express.

**WASH.** Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

**R. H. ROCHESTER, Treasurer.**

A MESSAGE sent "collect," reported as "uncollectible," and collected for by sending office from its sender, should always be booked and reported as it was originally checked—and should never be booked and reported as if checked "paid." See Rule 69 Western Union Book of Rules. The amount collected from sender should be reported in the Form No. 4 Report as Receipts for "Guaranteed Messages"—and should not be reported as "Telegraph Receipts."

For new rates and checking instructions for messages to Mexico, dating from August 1st, 1897, see July and August issues of the Journal.

**WILLIAM H. MOUNTFORD**, for the past nine years the Anglo-American Telegraph Co.'s Superintendent at New York, died at his home at Plainfield, N. J., on August 21st, aged 44 years.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, August 20, 1897.

Following Western Union card franks are hereby revoked and should be taken up if presented:

Numbers Q 784 and R 960, issued on account of the Wheeling and Lake Erie Railroad, ordered to be cancelled by the receiver of that Company.

No. Q 552, lost.

International Ocean Telegraph frank, No. 160, lost.

**JNO. VAN HORNE,**  
*Vice-President.*

TELEGRAPHERS' MUTUAL BENEFIT ASSOCIATION.

SECRETARY'S OFFICE.

P. O. Box 510,  
New York City.

NEW YORK, September 10, 1897.

THE annual meeting of the Telegraphers' Mutual Benefit Association will be held in the Western Union Building, 195 Broadway, New York, at four o'clock on Wednesday, November 17, 1897. Members who cannot attend the meeting will please forward their proxies to this office at the earliest date convenient, in order that there may be time for checking and listing them properly.

The following amendment to the Constitution has been proposed and will be submitted to the meeting.

It is proposed to amend Section 1 Article II of the Constitution by adding the words "at the time of application or at any time prior thereto," so that it shall read:

Any person of not less than 18 or more than 45 years of age, who is at the time of application or at any time prior thereto, employed in telegraphic service, and is otherwise qualified as required by

the By-Laws, shall, upon payment of an initiation fee of two dollars (\$2.00), be eligible to membership.

**M. J. O'LEARY,**  
*Secretary.*

#### SECTION XV.

##### ANNUAL AND SPECIAL MEETINGS.

The annual meeting of the Association shall be held on the third Wednesday of November, and at such place as a majority of the preceding annual meeting may direct. Upon petition of one hundred members, the Executive Committee shall call a special meeting of the Association, but no subject shall be considered at the same other than the one for which the special meeting shall have been called.

#### ARTICLE II.

##### MEMBERSHIP.

SEC. 1. Any person of not less than 18 or more than 45 years of age, who is employed in telegraphic service, and is otherwise qualified as required by the By-Laws, shall, upon payment of an initiation fee of two dollars (\$2.00), be eligible to membership.

#### CONVENTION OF RAILWAY TELEGRAPH SUPERINTENDENTS.

*Continued from first page.*

railroad company may not share directly in the telegraph earnings, it is compensated in one way or another through its arrangements with the telegraph company, and, aside from the contract obligations to properly handle the telegraph business at stations, there is a moral obligation on the part of the railroad company toward communities and patrons who are dependent upon its employees for this important service.

An agent, charged up with the tolls on a message delayed or lost through his negligence, generally profits by the experience, and is thereafter usually more watchful of this business; but we should not wait for our employees to be educated in their duties by this means. The paltry amount of tolls refunded to the claimant does not entirely appease his feelings, and he will always entertain a lack of confidence in our telegraph service, as well as the service in general, at railroad stations.

How best to accomplish an improvement in this service is a question. I have, through special instructions at various times, reminded all concerned in my jurisdiction of the necessity of prompt and proper deliveries in accordance with the rules, but any improvement resulting therefrom has been only temporary on account of so many changes, and new comers to break in, and I find that, although some start in to take receipts for deliveries, they are apt after a time to conclude that it is an unnecessary duty and abandon it. I have recently commenced another plan which, I believe, will prove more successful if kept up, and that is to frequently call for delivery sheets from all offices for a certain month, to be sent in with monthly reports, for the purpose of examining the same, and to check them up with the number of messages reported delivered. By this plan the offices that fail to keep up their delivery sheets can be discovered, which alone will be of considerable value to the superintendent, even if he does not take the time to check them up to see if any entries are omitted. I don't know but what it would be a good plan to have all delivery sheets sent in with each monthly report and filed in the superintendent's office.

In order to get the train conductors into line in regard to delivery of messages for parties on trains, we invoked the aid of the general man-

ager, who issued a circular on the subject as follows:

'1. Conductors will receipt to operators for all commercial telegrams handed them for delivery on trains.

2. Due effort must be made to find parties addressed and receipts taken for such telegrams on forms supplied for that purpose, first writing thereon party's address and time of delivery.

3. If party cannot be found, notice must be wired to receiving office from the next stop.

4. If any charges are to be collected on telegrams, the same must be paid over to the receiving office as soon as possible. In case a party decline to pay charges, telegram may be delivered, but notice of such refusal must be wired to receiving office.

5. Blank forms of receipts are to be pasted on inside of conductors' report book. These receipts must be preserved as evidence of proper delivery in case complaint is made. Future supplies of conductors' report books will have blank receipts for telegrams printed therein.'

This circular was issued two and a half years ago, and since that time there has not been a failure of a commercial message reaching a passenger on the Union Pacific system."

THE electric light has been used in night fishing, and now a French entomologist has devised a plan to secure specimens of insects. He took an incandescent lamp of three or four candle power, he then placed a small portable battery on the bank of the pond. The battery was connected with the lamp by wire; the lamp was fixed to a semicircle of iron, and below the semicircle and lamp was placed a large net having an opening thirty-two inches across and similar to those used for snaring birds. The whole contrivance was lowered very slowly into the pond, the current was turned on and the lamp lighted. The insects, fish, larvæ, frogs, tadpoles, etc., rushed in in great number. A string is now pulled which closes the net, and by a single movement several pounds of victims may be captured with a considerable number of fish and tadpoles that happen to be in the pond. A small Geissler tube can be used in the same manner.

THE Old Time Telegraphers' Association, James Compton, President, and the United States Military Telegraph Corps, W. R. Plum, President, met in reunion at Nashville, September 15th and after the business meetings on that day, had a most enjoyable social time in visiting the Centennial Exposition, at which the names of the Societies, and "73" were shown in special fire-works in the evening. Next day the party including several ladies, went by special train to Chattanooga, spent the evening and night at the hotel on the summit of Lookout Mountain, and from the verandas viewed the surrounding beautiful scenery of seven states. On the 17th all went to Chickamauga National Park. Returned to Chattanooga at 6 P. M. whence they departed for their respective homes, first voting that for geniality, hospitality, and generous entertainment, none could excel the "Boys of the Sunny South."

The next Reunion will be at Omaha.

**J. J. DICKEY,** *Old Timers' President.*

**W. B. WILSON,** *U. S. M. T. President.*

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, September 30, 1897.

The following list of "changes" corrects the Tariff Book of July, 1897, to date. Changes in the list of "New Offices" are not included.

The hand **[B]** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices", which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Wildwood, N. J., which was formerly a double star station, but which is now a Western Union office in Square 58.

### NEW CABLE RULES.

Rules for the treatment of cable messages, given in Tariff Book of July 1897, should receive careful attention, particularly the changes referred to in the following, viz:

In rule 2 (page 418) the length of a chargeable word has been extended to fifteen letters. The present rule allows but ten.

In rule 3 (page 418) it is *required* that code words *must not* contain more than ten letters each.

In rule 4 (page 414) five figures to a word are allowed instead of three to a word as at present. The same rule provides for the count of words (plain words) in cipher messages at the rate of fifteen letters to a word instead of ten as formerly.

In rule 6, last paragraph, "abbreviated and misspelled words and illegitimate compound words" which, under the present rule, are counted at the rate of three letters to a word, are now counted at the rate of five letters to a word.

In rule 13 (page 416) the last line of the first paragraph should read, "The indication R P 7 (or R P with any number up to and including 30) counts as one word."

In the third paragraph of the same rule the indication "R P 20" should be counted as one word.

Other changes will become apparent upon a careful reading of the new rules, or upon comparison of the new schedule with that given in the book of January, 1897.

See Special Notices at end of this circular.

### CHANGES.

#### ALABAMA.

- [B]** \* Ashville, closed.
- [B]** \* \* \* Bedford, now 30 1 Sulligent, Ala.

## CABLES.

For Rule 5 on page 414 of the Tariff Book, the following should be substituted, to take effect immediately:

RULE 5.—In the address of any message, the name of the office of destination, the name of the country, and the name of the territorial sub-division, are counted respectively as one word, no matter how many letters are employed.

Correct Tariff Book, page 430.

Cuba: An asterisk should be entered after Puerto Principe. Messages for that place are now posted at Santiago.

The following changes in cable rates are now in force.

## SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 191), Catskill Mountains (page 195), and Lake George (page 203.) When accepting messages for such localities, the receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the tolls

for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc., do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own state.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 30th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated as night message offices in the Tariff Book.

Offices having special rates, should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book

on pages 419 to 484, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 887 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Notifications of the arrival of steamers at the Port of New York will be forwarded to any address during the Company's usual office hours, upon payment of \$1.00, plus the tolls for a ten word message between New York City and the office ordering the report.

Orders should be addressed to Manager Marine Department, New York City.

This order does not apply to New York City, Brooklyn, Hoboken or Jersey City.

THOMAS T. ECKERT,  
President.

#### MONEY TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, September 18, 1897.

#### To All Transfer Agents and Offices:

The transfer service has been resumed at Yankton, S. Dak., and discontinued for the season at Narragansett Pier, R. I., and temporarily discontinued at Frankfort, Ind., Port Gibson, Miss., and Shelbyville, Ill.

On September 18th, Long Branch, N. J., was reduced from Class B to Class D, transfer office.

On October 1st, Ottawa, Ks., will be added to the list of Class E, transfer offices in J. J. Diekey's district.

In the list of transfer offices in the Tariff Book, is *Owasso, Mich.*, it should read *Owosso, Mich.* Managers should correct their lists accordingly.

It is ordered that Rule 17 of the Money Transfer Service in relation to "Incorrect Addresses" is to be construed as directing that when, for any reason, Notice to Payee (Form Number 75) cannot be delivered, or payment of a transfer cannot be made, the Manager of the paying office will notify his Transfer Agent of the fact immediately, stating reasons and such information will be conveyed, through the Transfer Agent of the remitting office, to the depositor.

But, in such case, cancellation of the transfer will not be made until the expiration of the 48 hour limit, unless specially requested by the depositor in accordance with the provisions of Rule 20, and the preliminary notice of inability to deliver notice or pay transfer given by the paying manager to his Transfer Agent, should be followed in due course by the usual notice of cancellation.

THOS. T. ECKERT,  
President.

# TELEGRAPH INSTRUMENTS.

Our stock of the Greeley & Co. Telegraph Instruments is getting low, but while they last will be supplied at our advertised prices. No more of the 50 cent keys left and only a few more sets (Key and Sounder) at \$2.00. See July and August numbers of the JOURNAL. Our prices are for goods by express. We do not pay postage. If the goods are out of stock we will return money.

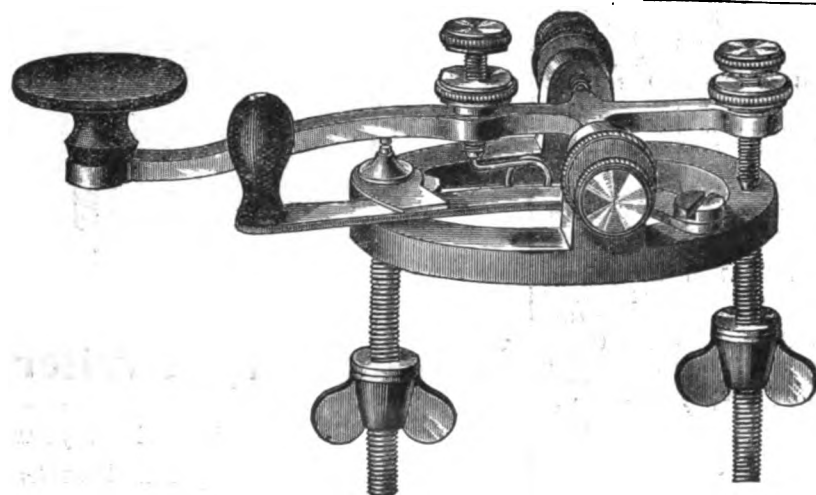

**Box Sounding Relay, 150 ohms, with Victor Key, High Grade Instrument. \$4.00 (regular price \$9.00).**

**Above Relay, no key on base, \$3.00 (regular price \$7.00).**

**Pony Box Relay, no key on base, \$2.50.**

## STEEL LEVER KEYS

When properly made are more durable than the heavy brass lever keys. We guarantee our key to be the finest in the market. We have never offered them in large lots as it is our desire to let operators use them who are willing to purchase their own key. If they are not pleased with it we know there will be some "kicking" done. The keys will stand the test, and we will stand the Price,

**WITH LEGS, - \$1.00**  
**WITHOUT LEGS, \$1.15** } Postage, 12 cents extra.

**Fully Nickel Plated, 15 cents extra, either style**

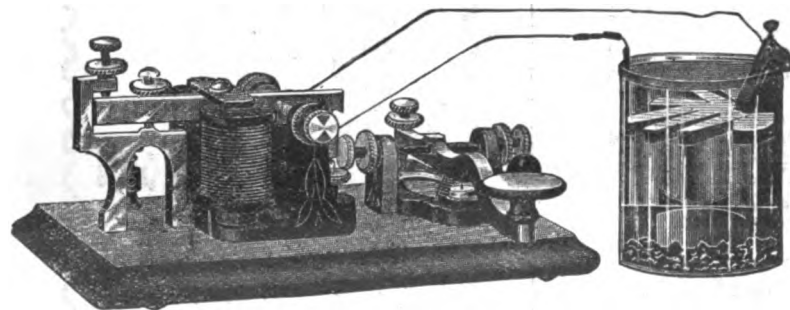

Ask your Superintendent or Purchasing Agent if they ever bought a good key at such a low price.

**TELEPHONES.** Our very best **LONG DISTANCE TELEPHONE OUTFIT** will be furnished to operators for **\$9.00**. There is no better telephone outfit to be purchased, or rented that outclasses this instrument. We make everything in the Electrical line and are quoting operators our lowest prices.

## EUREKA TELEGRAPH OUTFIT

**Outfit Complete With Battery, \$2.25.**

**(Without Battery, \$1.75.)**

**The Eureka Instrument with MESCO Dry Battery for home practice, \$1.95.**

If goods are to be sent C. O. D. one third of the amount must be remitted with order or express charges guaranteed by express agent.

### DESCRIPTION.

The Eureka Learner's Outfit, as shown by illustration, is a first-class, full size telegraph set. All of the working parts—which includes key lever, sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. The key is of the curved lever pattern, and sounder gives a loud and clear sound, equal to the best expensive instrument—or, we will furnish steel lever if preferred.

### THE PRICE.

**ONE SET, AS SHOWN BY ILLUSTRATION.**

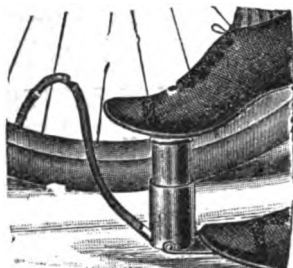

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc. ....	<b>\$2.25</b>
Eureka instrument only (no battery or wire), for short lines.....	<b>1.75</b>
Eureka instrument only, wound for lines 1 to 15 miles.....	<b>2.00</b>
Postage on instrument only (battery not mailable).....	<b>.40</b>

We claim this the **BEST** low priced telegraph set ever made. It's one of our specialties, and made in large quantities.

**MANHATTAN ELECTRICAL SUPPLY CO.**  
**32 CORTLANDT STREET, NEW YORK.**

# A FEW LEADERS IN OUR BICYCLE AND PHOTOGRAPHIC DEPARTMENTS.

Showing pump closed. One-half size.

## A JOB LOT OF NEW DEPARTURE SYKL PUMPS.

We have just purchased several thousand of these Pumps, and we want every operator to have one. The Pump is adapted to the tool bag and will inflate a tire with one-quarter the expenditure of force and time required with other pumps. They are small ( $1\frac{1}{4}$  by 3 inches), strong, thoroughly reliable, and nickel plated. Our net price has been 60 cents each. Send in your order for one at 30 cents.

Postage, 8 cents extra.

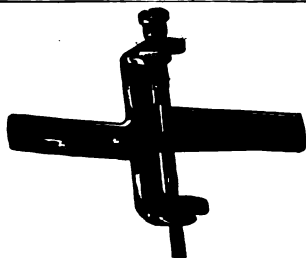

### MANHATTAN.

Black and Russet. One of the most popular saddles. Cannot lose its shape. It does not chafe. Leather covered top and bottom. Resembles "McClellan Army," "Cowboy," or Jockey saddle, and is the best saddle made for long or short distance riding. Postage, 25 cents extra. Price, \$1.50.

### I. C. LAMP.

The latest and best low-price lamp on the market. Automatic lamp wick. Simple, practical and durable. Easily taken apart. All parts riveted. All brass, nickel-plated, highly polished. Postage, 10 cents. Price, \$1.00 each.

### STAYTHERE

Nipple Wrench will take any size Nipple. Postage, 2 cents. Price, 10 cents each.

## THE MANHATTAN WHEEL. LADIES' AND GENTLEMEN MODELS.

### A GUARANTEE WITH EACH WHEEL. Special Price, \$25.00 EACH. WITH HAND PLUNGER BRAKE, \$1.50 EXTRA.

FRAME.—The frame is made of the best quality of brazed and drawn tubing, which is perfectly smooth, showing no seam or ridge. Sizes as follows: Lower reach and seat post tube,  $1\frac{1}{4}$  inches; upper reach, 11-16 inches; head tube,  $1\frac{1}{4}$  inches; lower rear stays,  $\frac{3}{4}$  inch; upper rear stays, 11-16 inch.

FRAME HEAD CONNECTION.—Steel stampings. CRANK BOX.—Drop forgings. HUB AND CRANK BOX.—Barrel pattern. TREAD.— $5\frac{1}{4}$  inch.

SPOCKET WHEELS.—Detachable.

FORK CROWN.—Drop forgings. FORK SIDES.—One inch.

HANDLE BARS.—Steel stationery, either up or down curve, or wood adjustable.

PEDALS.—Bat-trap, so constructed that rubbers can be attached.

TIRES.—Morgan & Wright D, X, or S2, or single-tube tires such as Goodrich, Vim, Hartford No. 77, or Manhattan.

CUPS AND CONES.—Hardened Steel.

WHEELS.—28 inches. RIMS.—Wood.

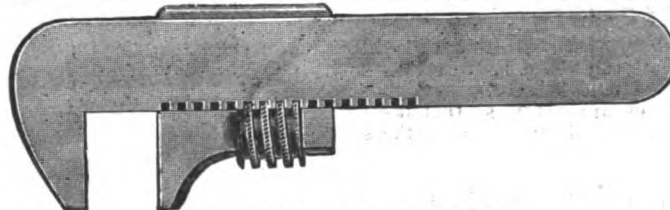

SPOKES.—Specially drawn wire, rolled threads.

GEAR.—70 will be standard unless otherwise ordered. Sprockets can be furnished to gear to 66 $\frac{2}{3}$ .

68, 70, 72, 73 $\frac{1}{2}$ , 74, 76, 77, and 80. 7 and 8 tooth rear sprockets will be used.

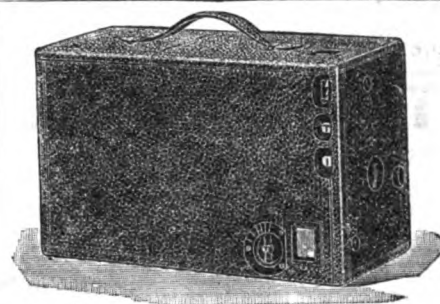

SADDLES.—Sager 3K Hygenic, or Beck No. 5 steel cantile.

COLOR.—Black, maroon, or green, striped and decorated.

### "SNUG-FIT" WRENCH.

Made entirely of tempered forged steel; very powerful, handsomely nickled. Postage, 6c. Price, 30c each.

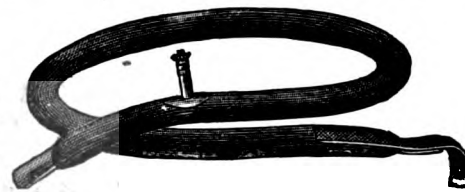

### POCO SPECIAL.

Poco Special 4 x 5, is a first class camera at a low price. It is well made, light and compact, exceedingly neat in appearance, and possesses merits only found heretofore in higher priced cameras.

It is covered with morocco grain leather and has a leather handle. All working parts are flush with side of camera box.

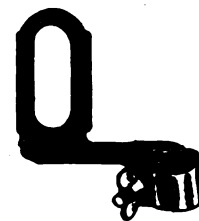

It has two large, brilliant viewfinders, two tripod plates, and large panel at the back to focus on the ground-glass. The focusing scale is accurately marked for each lens that accompanies the camera.

It has a high-grade Rapid Achromatic Lens and a Rochester Shutter. Price, complete with one holder, \$6.00 each, (unmailable).

### INNER TUBE WITH VALVE AND VALVE STEM.

Inner tube for double-tube tires. Complete with valve. Postage, 16 cents. Price, \$1.00 each.

### LAMP BRACKET.

Star Fork.—Made for right or left fork. Nickel plated and polished. Postage, 3 cents each. Price, 15 cents each.

# J. H. BUNNELL & CO.'S STEEL LEVER

SOLID  
TRUNNION

# KEYS.

OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

**THE BUNNELL STEEL LEVER KEY** is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is only one-half the weight of the ordinary brass lever as generally made.

The entire Lever and Trunnions together being made of but one piece of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of hardened platina points, sticking is absolutely prevented.

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

PRICE,  
1.75.

**LEGLESS PATTERN STEEL LEVER KEY**  
New Form with Open Base.

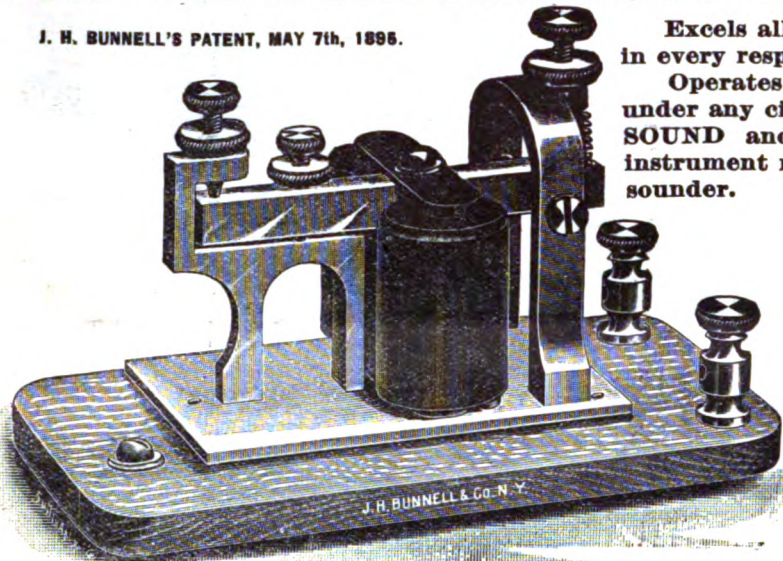

A beautiful and perfect Key suitable for use on Fine Desks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

## THE NEW ALUMINUM LEVER GIANT SOUNDER

J. H. BUNNELL'S PATENT, MAY 7th, 1895.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the FINEST and BEST SOUNDER ever designed.

Operates with ONE CELL only of LOCAL, having no need whatever under any circumstances for the use of two cells. The MARGIN of SOUND and STRENGTH and QUICKNESS with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length, \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

**NEW GIANT SOUNDER, 20 OHMS RESISTANCE,  
AND STEEL LEVER KEY**

## COMBINATION SET,

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. Price, \$4.50. Sent by mail to any distance, carefully boxed, and PREPAID by us, on receipt of the above price.

Same set, but wound to 3 ohms (local), \$4.00.

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine LEARNERS' OUTFIT, \$4.75.

## The New Departure Learners' Outfit.... WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.

The IDEAL SET for HOME PRACTICE. Always Ready. NEAT, CLEAN, ATTRACTIVE.

The INSTRUMENT is our well-known "MORSE LEARNERS' APPARATUS" with STEEL LEVER KEY, arranged for use with our "MASCOT DRY BATTERY."

The "circuit-closer" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "circuit-closer" detached the Mascot Battery should last for several months' practice. The "circuit-closer" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

Instruction Book goes free with each outfit.

The complete outfit, packed in a wooden box, weighs about 7 lbs.

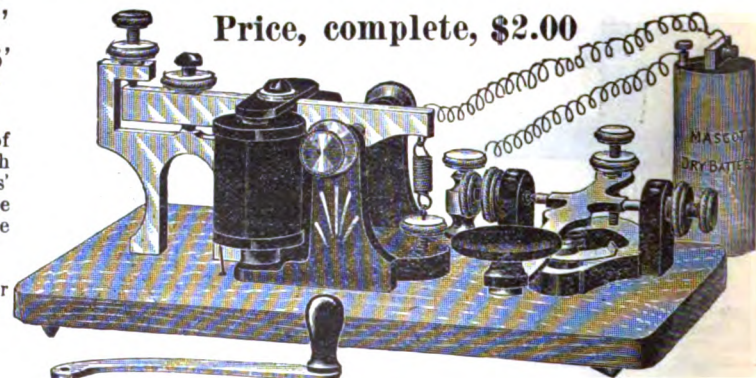

Shipped by express to any address on receipt of \$2.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 224 pages, sent on receipt of your business card.

These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 50 cents. The Mascot Dry Battery, which too heavy for mailing economically can be obtained at all hardware and electrical supply stores for 50 cents or less.

Price, complete, \$2.00

 Favorable arrangements made with agents everywhere.

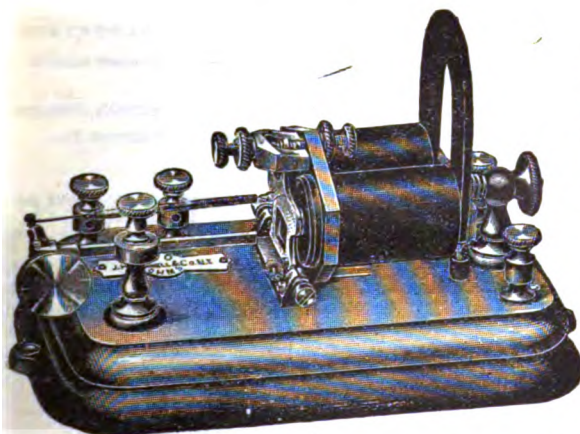

### THE NEW No. 4 HOME, D. D. ELECTRO-MEDICAL BATTERY WITH DRY CELL.

Is the latest and very best instrument of the kind ever offered. Price, \$10.00. 50 per cent. discount to Telegraphers. \$5.00 Net. Send for descriptive Circular and Dr. Wells' Electro-pathic guide, free.

J. H. BUNNELL & CO., 76 Cortlandt Street, New York.

**FREE! COMPLETE INSTRUCTION IN TELEGRAPHY.** If you wish to know all about learning Telegraphy, constructing and operating Short Lines of Telegraph, etc., send your address by postal card or letter, and get J. H. BUNNELL & Co.'s Manual of Instruction for Learners of Telegraphy, latest edition, which we will send free of charge to all who apply by mail or otherwise. It is the plainest and best book of instruction in Telegraphy ever published, being fully complete in description, explanation and illustrations.

## Special Railroad Relay.

Under the most unfavorable conditions of weather these instruments will work when nothing intelligible can be gotten from the best ordinary 150-ohm relays. Their adjustment is also much more satisfactory on hard, working wires, response being prompt and solid under conditions of heaviest escape, when the sender could not hear his own writing if adjusted for the distant station with ordinary relay. For these advantages together with that of the immense reduction in total resistance of the circuit which is obtained, I regard the relay as a very important improvement.

Price, - - - \$7.00

FOR crowded railway wires and other lines where many relays are worked in a single circuit, these relays, although they are wound to only 50 ohms' resistance, give better service on crowded lines in bad weather than can be obtained with the best 150-ohm relays of ordinary construction. The improvement in the working of line by the clear action of the relay, which is accomplished in this form, together with the immense resistance reduction in the circuit, is such as to insure adoption wherever tried.

Among the many testimonials we hold regarding the extraordinary working of these relays is the following from a prominent superintendent of Railway Telegraphs:

"We have been using your Special Railroad Relay of 50 ohms' resistance on our Division Train Wires, one at each end of line of 128 miles, with 33 offices in circuit, and on another wire of 150 miles, with 39 offices, and on our through wire, 426 miles long. We have watched them carefully, and

hold regarding the extraordinary working of these relays is the following from a prominent superintendent of Railway Telegraphs:

## The "Morse" Learners' Outfit

\$2.75 THE BEST \$2.75

The "Morse" Outfit is a full size, well made, complete MORSE TELEGRAPH apparatus of the latest and best form for learners, including handsome giant Sounder with Steel Lever (Solid Trunnion) Key, and a large Cell of the best Gravity Battery, latest form. It is the best working set of learners' Instruments for short or long lines, from a few feet up to 90 miles in length, yet offered.

The Sounder Levers, Sounder Yokes, Adjusting Screws, etc., are in finely finished BRASS Composition, the same metal as in all other first-class instruments.

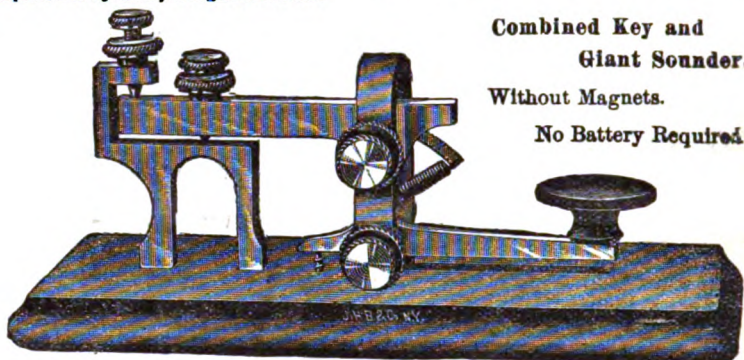

The magnets are strong. The Sounder is loud and clear. The Key is the celebrated Steel Lever Key, known everywhere as the only perfect key.

## NEW "No. 2" IMPROVED MECHANICAL TELEGRAPH INSTRUMENT.

Works Perfectly as a Key, with Sound equal to the best Sounder.

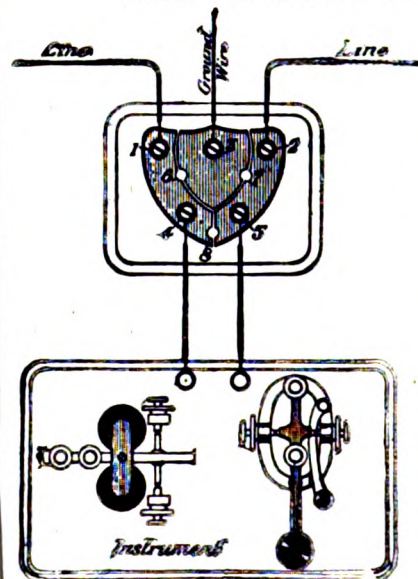

FOR MORSE ALPHABET PRACTICE in sending and reading by sound, and for LEARNING OR TEACHING THE MORSE ALPHABET. Can be carried in the pocket or satchel, and is always ready for use. Works exactly like the very best Sounder and Key Combination Telegraph Set, giving loud, clear sound, with slightest force or movement of Key. All made in first-class Instrument Composition Brass, same pattern as best Giant Sounder.

Price, with Telegraph Instruction Book, package of Morse Alphabet Cards, etc., \$1.50. Sent anywhere in the United States, by mail, prepaid, on receipt of price, in stamps, postal or express money order, or registered letter.

Combined Key and  
Giant Sounder.  
Without Magnets.  
No Battery Required.

## The Union Lightning Arrester and Ground Switch.

As lightning is frequently attracted to sub-  
 geor lines and thereby enters the offices, some times damaging the instruments, or even setting fire to curtains or other inflammable material about the instrument table, a simple and cheap instrument called "lightning arrester and cut-out" is used for the purpose of intercepting and carrying to the earth such discharges of lightning as would be liable to cause damage. This apparatus is entirely effective, and is a complete safeguard against lightning.

PRICE, 50 CENTS BY MAIL, PREPAID.

Send for our LATEST CATALOGUE, October, 1896, containing 224 Pages and nearly 800 ILLUSTRATIONS the VERY BEST Telegraph and Electrical Supplies ever offered to the trade.

For all or any of the above, address J. H. BUNNELL & CO., 76 CORTLANDT STREET, NEW YORK.

# EVERY RAILROAD AGENT, OPERATOR AND CONDUCTOR WANTS ONE OF OUR

## RAILROAD MANIFOLD FOUNTAIN PENS MADE IN TWO SIZES

Fitted with large size platinum (alloyed with iridium) tipped (regular diamond point), ball pointed gold pens, with hard, stiff nibs, made especially for Railroad Manifolding—works equally well with copying ink or ordinary writing fluid. Unconditionally guaranteed satisfactory or money refunded.

For Agents' work on Expense Bills, Transfers, O. S. and D. Reports, Claims, Etc., Etc. For Telegraphers, in copying direct from the wire, all work wanted in duplicate. For Conductors, Wheel and other reports, correspondence, etc. For Train and Station Baggage men, in fact all classes of Railroad Men. Enormous Sales for this pen already assured. Now is the time for Operators with a moment's spare time to supply Railroad Agents, Clerks, Conductors, etc., with this pen.

The early bird catches the worm. Write to-day for catalogue, Agents' terms, prices, etc. (A postal card will do it.) Remember this is the success of the century. Address

### ARM REST FOR TELEGRAPH OPERATORS.

One of the most practical patented inventions of the day, supplying a long felt want. Operators know how tiring their work is to the arm; and often it leads to paralysis. The "Rest" prevents that disease, and cures it when contracted. It is invaluable to beginners. Substantially made of hard wood and leather, highly finished.

Sent post-paid for only \$1.00. AGENTS WANTED.

HENRY W. GOODROE, Hinesburgh, Vt.

### HOME STUDY

### DIVIDEND NO. 116.

THE Board of Directors have declared a quarterly dividend of ONE AND ONE-QUARTER PER CENT. upon the capital stock of this company, payable at the office of the Treasurer on and after the 15th day of October next, to shareholders of record at the close of the transfer books on the 20th day of September inst.

For the purpose of the annual meeting of stockholders, to be held Wednesday, the 13th day of October next, and of the dividend above referred to, the transfer books will be closed at 3 o'clock on the afternoon of September 20th inst., and reopened on the morning of October 14th, 1897.

R. H. ROEBLING, Treasurer.

WHOLE NO 532.

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, October 20, 1897.

The following list of "changes" corrects the Tariff Book of July, 1897, to date. Changes in the list of "New Offices" are not included.

The hand **g** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices", which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Vanndale, Ark., which was formerly a three star station, but which is now a Western Union office in Square 432.

### NEW CABLE RULES.

Rules for the treatment of cable messages, given in Tariff Book of July, 1897, should receive careful attention, particularly the changes referred to in the following, viz:

In rule 3 (page 413) the length of a chargeable word has been extended to fifteen letters. The present rule allows but ten.

In rule 3 (page 413) it is *required* that code words must not contain more than ten letters each.

In rule 4 (page 414) five figures to a word are allowed instead of three to a word as at present. The same rule provides for the count of words (plain words) in cipher messages at the rate of fifteen letters to a word instead of ten as formerly.

In rule 6, last paragraph, "abbreviated and misspelled words and illegitimate compound words" which, under the present rule, are counted at the rate of three letters to a word, are now counted at the rate of five letters to a word.

In rule 13 (page 416) the last line of the first paragraph should read, "The indication R P 7 (or R P with any number up to and including 30) counts as one word."

In the third paragraph of the same rule the indication "R P 20" should be counted as one word.

Other changes will become apparent upon a careful reading of the new rules, or upon comparison of the new schedule with that given in the book of January, 1897.

See Special Notices at end of this circular.

### CHANGES.

#### ALABAMA.

- ASHVILLE, now \*\*\* Ashville, 25 0 Gadsden.
- \*\*\* Bedford, now 20 1 Sulligent, Ala.
- \*\*\* Beaverton, now 20 1 Sulligent, Ala.

## WYOMING.

798 Badger.

## CABLES.

For Rule 5 on page 414 of the Tariff Book, the following should be substituted, to take effect immediately:  
 RULE 5.—In the address of any message, the name of the office of destination, the name of the country, and the name of the territorial sub-division, are counted respectively as one word, no matter how many letters are employed.

Correct Tariff Book, page 420.

Cuba:  
 An asterisk should be entered after Puerto Principe. Messages for that place are now posted at Santiago.

The following changes in cable rates are now in force.  
 Correct Tariff Book pages 424 to 428, inclusive.

	Word rates beyond London.
South Africa:	
Zululand, Etshowe \$1.27, should be erased.	
East Coast Africa, via West Coast.	
British East Africa:	
Lamu	\$1.82
Malindi	1.83
Mombassa	1.73
Witu	1.83
Delagoa Bay	1.74
German East Africa:	
Bagamoyo, Dar-es-Salaam, Kilwa, Mohorro,	
Pangani, Saadani and Tanga	1.76
Mozambique	1.74
Zanzibar	1.73

## SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 191), Catskill Mountains (page 195), and Lake George (page 203.) When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc., do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own state.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated as night message offices in the Tariff Book.

Offices having special rates, should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 419 to 434, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 367 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Notifications of the arrival of steamers at the Port of New York will be forwarded to any address during the Company's usual office hours, upon payment of \$1.00, plus the tolls for a ten word message between New York City and the office ordering the report.

Orders should be addressed to Manager Marine Department, New York City.

This order does not apply to New York City, Brooklyn, Hoboken or Jersey City.

THOMAS T. ECKERT,  
President.

## TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, October 18, 1897.

To All Transfer Agents and Offices:

The transfer service has been resumed at Frankfort, Ind., Orlando, Fla., Shelbyville, Ill., and Valdosta, Ga., temporarily discontinued at Madison Wis., and Sheboygan, and discontinued at Grove City, Pa., Hurley, Wis., and Jefferson, Texas, and discontinued for the season at Cape May, N. J.

On October 1st, Prescott, Ariz., was transferred from J. J. Dickey's district to W. J. Martin's district.

July Tariff Book gives J. T. Alleyn as Transfer Agent at New Orleans, La., it should read W. D. West.

Managers should correct their lists accordingly.

THOS. T. ECKERT,  
President.

## BENEFIT FROM THE BUILDING LOAN ASSOCIATION.

THE maturing of the fifth and sixth series of shares in the Serial Building Loan and Savings Institution, of 195 Broadway, has partly cleared of incumbrances, the homes of two more of the main office operators.

As each succeeding series matures one or more operators will have the great satisfaction of having their mortgages satisfied, and their homes made thus free and clear.

While this is going on, as the result of years of patient toil and effort, others are now beginning the task. Since the first of last January eight operators have bought or built homes through the medium of this association. Most of these homes are located in the beautiful suburban towns, or along the line of the convenient railroads. One of the night chief operators, who has recently built himself a handsome cottage in Bensonhurst is more than pleased with the change from a Brooklyn flat.

The cost of his loan, which includes its repayment in installments, is only \$10 a month more than he paid for rent.

This institution is managed entirely by telegraphers, and makes a specialty of loaning money to telegraphers for the purpose of making homes. Any telegrapher or railroad man, within 100 miles of New York can buy or build a home with the assistance of this association.

#### THE LONGEST TROLLEY RIDE IN THE WORLD.

It is possible, according to the *Boston Herald*, to make a continuous trip of 124 miles over electric railway lines in actual operation in the Eastern States. The route given is as follows: From the residence of Mr. Henry H. Rogers, at Fort Phoenix, in Fairhaven, to Nashua, N. H., through New Bedford, Fall River, Taunton, Bridgewater, Brockton, Braintree, Quincy, to Boston, and then through Malden, Melrose, Wakefield, Reading, Wilmington, Bellerica, Lowell, Dracut, to Nashua. The only break in this line is from Bowensville, a part of Fall River, over Slade's Ferry bridge, a distance of about one mile. This connection is made by means of a coach, which meets every car, free transfers being given. The tracks are now being laid, and it will be but a short time before the entire distance will be connected by rail.

#### ELECTRIC TIME DISTRIBUTION IN 1857.

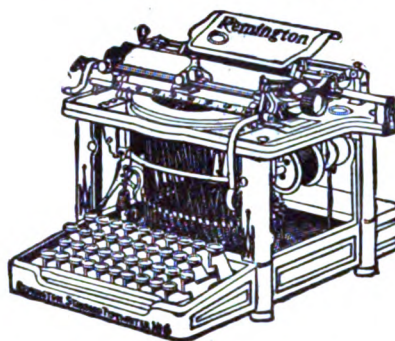

It may not be generally known that in the city of Brussels, in Belgium, a system of elec-

trically-operated clocks was installed in April, 1857, at which time 100 clocks were installed, using the Nolet system; with some modifications they have been in operation ever since then.—*Elect. World*.

#### A CABLE TO ICELAND.

IN connection with the proposed submarine telegraph cable between the North of Scotland and Iceland, it is stated that the Icelandic Parliament has granted the Great Northern Telegraph Company of Copenhagen, a subsidy of 35,000 kroner for 20 years. The distance from the nearest point of Scotland to the Farøe Islands is about 250 miles, the greatest depth being 254 fathoms, while the bottom is composed of debris of shells and mud. The distance from the Farøe Islands to Iceland is about 350 miles, the depth averaging a little under 300 fathoms, the bottom being there also composed of sand, shells and mud.—*Elect. World*.

# TELEGRAPH INSTRUMENTS.

Our stock of the Greeley & Co. Telegraph Instruments is getting low, but while they last will be supplied at our advertised prices. No more of the 50 cent keys left and only a few more sets (Key and Sounder) at \$2.00. See July and August numbers of the JOURNAL. Our prices are for goods by express. We do not pay postage. If the goods are out of stock we will return money.

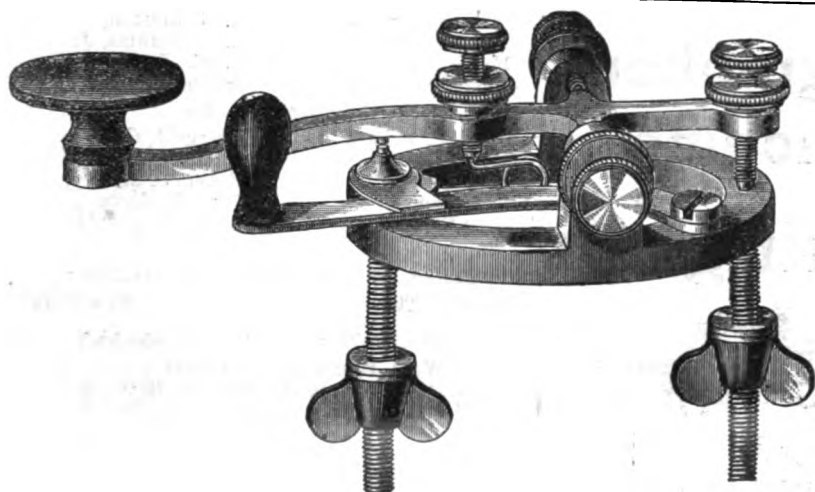

Box Sounding Relay, 150 ohms, with Victor Key, High Grade Instrument. \$4.00 (regular price \$9.00).

Above Relay, no key on base, \$3.00 (regular price \$7.00).

Pony Box Relay, no key on base, \$2.50.

## STEEL LEVER KEYS

When properly made are more durable than the heavy brass lever keys. We guarantee our key to be the finest in the market. We have never offered them in large lots as it is our desire to let operators use them who are willing to purchase their own key. If they are not pleased with it we know there will be some "kicking" done. The keys will stand the test, and we will stand the Price,

WITH LEGS, - \$1.00 } Postage, 12 cents extra.  
WITHOUT LEGS, \$1.15 }

Fully Nickel Plated, 15 cents extra, either style

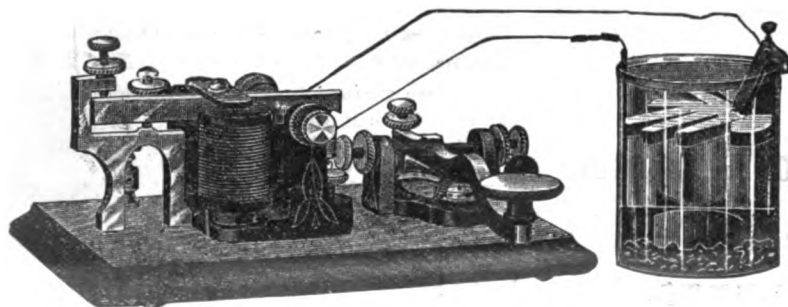

Ask your Superintendent or Purchasing Agent if they ever bought a good key at such a low price.

**TELEPHONES.** Our very best LONG DISTANCE TELEPHONE OUTFIT will be furnished to operators for \$9.00. There is no better telephone outfit to be purchased, or rented that outclasses this instrument. We make everything in the Electrical line and are quoting operators our lowest prices.

## EUREKA TELEGRAPH OUTFIT

Outfit Complete With Battery, \$2.25.

(Without Battery, \$1.75.)

The Eureka Instrument with MESCO Dry Battery for home practice, \$1.95.

If goods are to be sent C. O. D. one third of the amount must be remitted with order or express charges guaranteed by express agent.

### DESCRIPTION.

The Eureka Learner's Outfit, as shown by illustration, is a first-class, full size telegraph set. All of the working parts—which includes key lever, sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. The key is of the curved lever pattern, and sounder gives a loud and clear sound, equal to the best expensive instrument—or, we will furnish steel lever if preferred.

### THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

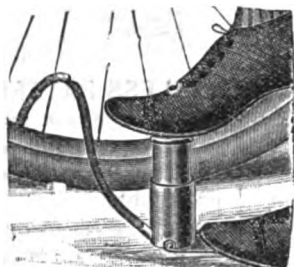

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.	\$2.25
Eureka instrument only (no battery or wire), for short lines.	1.75
Eureka instrument only, wound for lines 1 to 15 miles.	2.00
Postage on instrument only (battery not mailable).	.40

We claim this the best low priced telegraph set ever made. It's one of our specialties, and made in large quantities.

**MANHATTAN ELECTRICAL SUPPLY CO.**  
**32 CORTLANDT STREET, NEW YORK.**

# A FEW LEADERS IN OUR BICYCLE AND PHOTOGRAPHIC DEPARTMENTS.

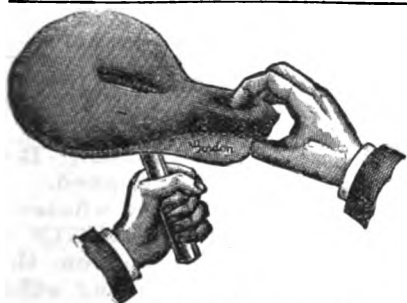

## A JOB LOT OF NEW DEPARTURE SYKL PUMPS.

We have just purchased several thousand of these Pumps, and we want every operator to have one. The Pump is adapted to the tool bag and will inflate a tire with one-quarter the expenditure of force and time required with other pumps. They are small (1 1/4 by 3 inches), strong, thoroughly reliable, and nickel plated. Our net price has been 60 cents each. Send in your order for one at 30 cents.

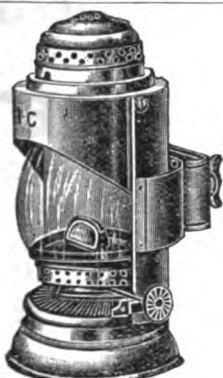

Postage, 8 cents extra.

Showing pump closed. One half size

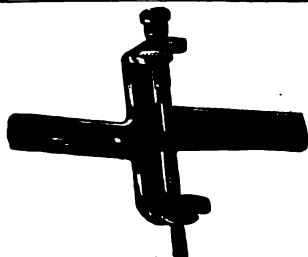

### MANHATTAN.

Black and Russet. One of the most popular saddles. Cannot lose its shape. It does not chafe. Leather covered top and bottom. Resembles "McClellan Army," "Cowboy," or Jockey saddle, and is the best saddle made for long or short distance riding. Postage, 25 cents extra. Price, \$1.50.

### I. C. LAMP.

The latest and best low-price lamp on the market. Automatic lamp wick. Simple, practical and durable. Easily taken apart. All parts riveted. All brass, nickel-plated, highly polished. Postage, 10 cents. Price, \$1.00 each.

### STAYTHERE

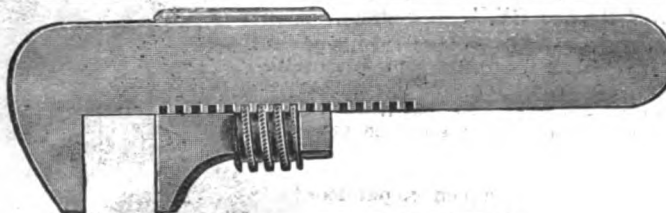

Nipple Wrench will take any size Nipple. Postage, 2 cents. Price, 10 cents each.

## THE MANHATTAN WHEEL. LADIES' AND GENTLEMEN MODELS.

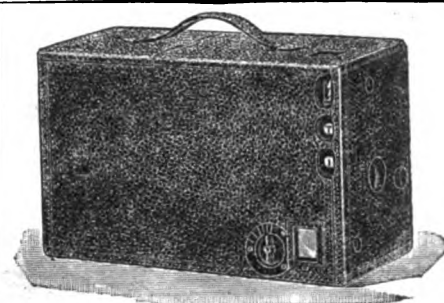

A GUARANTEE WITH EACH WHEEL.  
**Special Price, \$25.00 EACH.**  
WITH HAND PLUNGER BRAKE, \$1.50 EXTRA.

FRAME.—The frame is made of the best quality of brazed and drawn tubing, which is perfectly smooth, showing no seam or ridge. Sizes as follows: Lower reach and seat-post tube, 1 1/4 inches; upper reach, 1 1/2-16 inches; head tube, 1 1/4 inches; lower rear stays, 3/4 inch; upper rear stays, 1 1/2-16 inch.  
FRAME HEAD CONNECTION.—Steel stampings. CRANK BOX.—Drop forgings.  
HUB AND CRANK BOX.—Barrel pattern. TREAD.—5 1/4 inch.  
SPROCKET WHEELS.—Detachable.  
FORK CROWN.—Drop forgings. FORK SIDES.—One inch.  
HANDLE BARS.—Steel stationery, either up or down curve, or wood adjustable.  
PEDALS.—Rat-trap, so constructed that rubbers can be attached.  
TIRES.—Morgan & Wright D, X, or S2, or single-tube tires such as Goodrich, Vim, Hartford No. 77, or Manhattan.  
CUPS AND CONES.—Hardened Steel.  
WHEELS.—28 inches. RIMS.—Wood.  
SPOKES.—Specially drawn wire, rolled threads.  
GEAR.—70 will be standard unless otherwise ordered. Sprockets can be furnished to gear to 66 1/2, 68, 70, 72, 73 1/2, 74, 76, 77, and 80. 7 and 8 tooth rear sprockets will be used.  
SADDLES.—Sager 3K Hygenic, or Beck No. 5 steel cantile.  
COLOR.—Black, maroon, or green, striped and decorated.

### "SNUG-FIT" WRENCH.

Made entirely of tempered forged steel; very powerful, handsomely pickled. Postage, 6c. Price, 30c each.

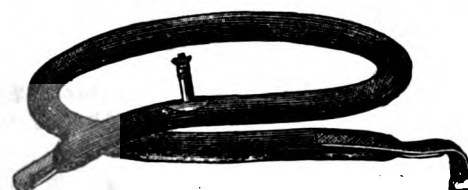

### POCO SPECIAL.

Poco Special 4 x 5, is a first class camera at a low price. It is well made, light and compact, exceedingly neat in appearance, and possesses merits only found heretofore in higher priced cameras.

It is covered with morocco grain leather and has a leather handle. All working parts are flush with side of camera box.

It has two large, brilliant viewfinders, two tripod plates, and large panel at the back to focus on the ground-glass. The focusing scale is accurately marked for each lens that accompanies the camera.

It has a high-grade Rapid Achromatic Lens and a Rochester Shutter. Price, complete with one holder, \$6.00 each, (unmaillable).

### INNER TUBE WITH VALVE AND VALVE STEM.

Inner tube for double-tube tires. Complete with valve. Postage, 16 cents. Price, \$1.00 each.

### LAMP BRACKET.

Star Fork.—Made for right or left fork. Nickel plated and polished. Postage, 3 cents each. Price, 15 cents each.

J. H. BUNNELL &amp; CO.'S

## STEEL LEVER

SOLID  
TRUNNION

## KEYS.

OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 12, 1881.

**THE BUNNELL STEEL LEVER KEY** is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is only one-half the weight of the ordinary brass lever as generally made.

The entire Lever and Trunnions together being made of but one piece of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of *hardened platina points, sticking is absolutely prevented.*

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

## LEGLESS PATTERN STEEL LEVER KEY

New Form with Open Base.

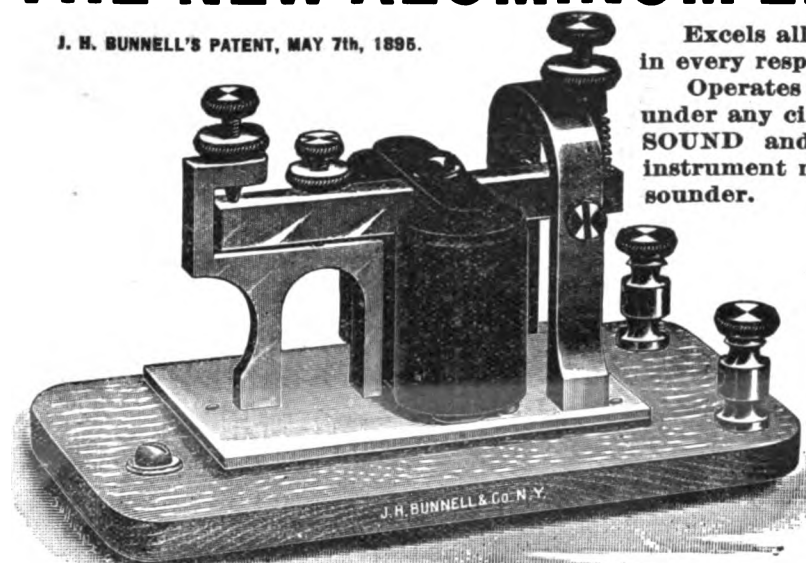

A beautiful and perfect Key suitable for use on Fine Desks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

## THE NEW ALUMINUM LEVER GIANT SOUNDER

J. H. BUNNELL'S PATENT, MAY 7th, 1895.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the FINEST and BEST SOUNDER ever designed.

Operates with ONE CELL only of LOCAL, having no need whatever under any circumstances for the use of two cells. The MARGIN of SOUND and STRENGTH and QUICKNESS with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length, \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

## NEW GIANT SOUNDER, 20 OHMS RESISTANCE, AND STEEL LEVER KEY

## COMBINATION SET,

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. Price, \$4.50. Sent by mail to any distance, carefully boxed, and PREPAID by us, on receipt of the above price.

Same set, but wound to 8 ohms (local), \$4.00.

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine LEARNERS' OUTFIT, \$4.75.

## The New Departure Learners' Outfit....

## WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.

The IDEAL SET for HOME PRACTICE. Always Ready. NEAT, CLEAN, ATTRACTIVE.

The INSTRUMENT is our well-known "MORSE LEARNERS' APPARATUS" with STEEL LEVER KEY, arranged for use with our "MASCOT DRY BATTERY."

The "circuit-closer" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "circuit-closer" detached the Mascot Battery should last for several months' practice. The "circuit-closer" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

Instruction Book goes free with each outfit.

The complete outfit, packed in a wooden box, weighs about 7 lbs.

Shipped by express to any address on receipt of \$3.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 224 pages, sent on receipt of your business card. These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 50 cents. The Mascot Dry Battery, which too heavy for mailing economically can be obtained at all hardware and electrical supply stores for 50 cents or less.

Price, complete, \$2.00

J. H. BUNNELL &amp; CO. 76 Cortlandt St. New York.

Send for Catalogues, Circulars, Etc., of all the above to

The Key Knobs, Circuit Closer Knobs, Magnet Heads, etc., of polished hard rubber. The Contact points are of pure hardened platina. Base of polished mahogany. Key Steel Lever.

### THE BEST.

Price, \$2.75, complete with Battery, Book of Instruction, Wire Chemicals and all necessary materials for operating.

"Morse" instrument, alone, without battery,	\$2.25
"Morse" instrument without battery, and wound with fine wire for lines of one to fifteen miles,	3.40
Call of Battery complete,	.45
"Morse" Learners' instrument without Battery, sent by mail, (Battery cannot be sent by mail.)	2.75

### Instruction Book, Free.

Goods sent C. O. D. to points within 500 miles of New York, if one-third of the amount of the bill is sent with the order.

Remit by Draft, Postal Money Order, or Registered Letter.

Favorable arrangements made with agents everywhere.

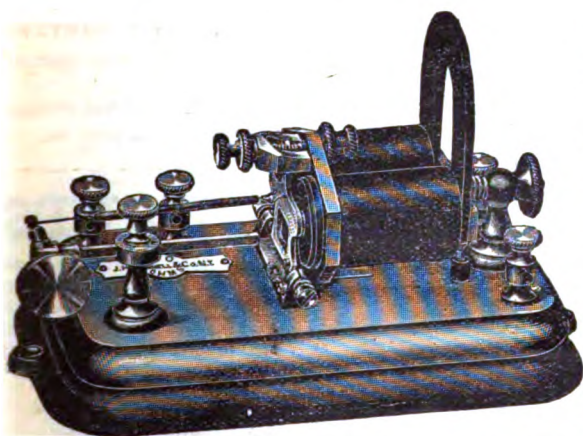

### THE NEW No. 4 HOME, D. D. ELECTRO-MEDICAL BATTERY WITH DRY CELL.

Is the latest and very best instrument of the kind ever offered. Price, \$10.00. 50 per cent. discount to Telegraphers. \$5.00 Net. Send for descriptive Circular and Dr. Wells' Electro-pathic Guide, free.

J. H. BUNNELL & CO., 76 Cortlandt Street, New York.

**FREE! COMPLETE INSTRUCTION IN TELEGRAPHY.** If you wish to know all about learning Telegraphy, constructing and operating Short Lines of Telegraph, etc., send your address by postal card or letter, and get J. H. BUNNELL & Co.'s Manual of Instructions for Learners of Telegraphy, latest edition, which we will send free of charge to all who apply by mail or otherwise. It is the plainest and best book of instruction in Telegraphy ever published, being fully complete in description, explanation and illustrations.

## Special Railroad Relay.

FOR crowded railway wires and other lines where many relays are worked in a single circuit, these relays, although they are wound to only 50 ohms' resistance, give better service on crowded lines in bad weather than can be obtained with the best 150-ohm relays of ordinary construction. The improvement in the working of line by the clear action of the relay, which is accomplished in this form, together with the immense resistance reduction in the circuit, is such as to insure adoption wherever tried.

Among the many testimonials we hold regarding the extraordinary working of these relays is the following from a prominent superintendent of Railway Telegraphs:

"We have been using your Special Railroad Relay of 50 ohms' resistance on our Division Train Wires, one at each end of line of 128 miles, with 33 offices in circuit, and on another wire of 150 miles, with 39 offices, and on our through wire, 426 miles long. We have watched them carefully, and

under the most unfavorable conditions of weather these instruments will work when nothing intelligible can be gotten from the best ordinary 150-ohm relays. Their adjustment is also much more satisfactory on hard working wires, response being prompt and solid under conditions of heaviest escape, when the sender could not hear his own writing if adjusted for the distant station with ordinary relay. For these advantages together with that of the immense reduction in total resistance of the circuit which is obtained, I regard the relay as a very important improvement."

## The "Morse" Learners' Outfit

\$2.75 THE BEST \$2.75

The "Morse" Outfit is a full size, well made, complete MORSE TELEGRAPH apparatus of the latest and best form for learners, including handsome giant Sounder with Steel Lever (Solid Trunnion) Key, and a large Cell of the best Gravity Battery, latest form. It is the best working set of learners' Instruments for short or long lines, from a few feet up to 90 miles in length, yet offered.

The Sounder Levers, Sounder Yokes, Adjusting Screws, etc., are in finely finished BRASS Composition, the same metal as in all other first-class instruments.

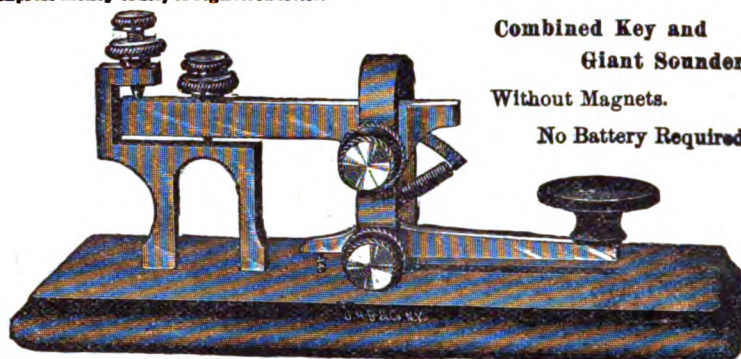

The magnets are strong. The Sounder is loud and clear. The Key is the celebrated Steel Lever Key, known everywhere as the only perfect key.

## NEW "No. 2" IMPROVED MECHANICAL TELEGRAPH INSTRUMENT.

Works Perfectly as a Key, with Sound equal to the best Sounder.

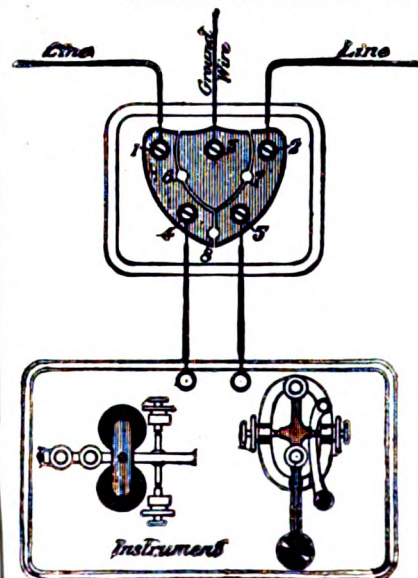

FOR MORSE ALPHABET PRACTICE in sending and reading by sound, and for LEARNING OR TEACHING THE MORSE ALPHABET. Can be carried in the pocket or satchel, and is always ready for use. Works exactly like the very best Sounder and Key Combination Telegraph Set, giving loud, clear sound, with slightest force or movement of Key. All made in first-class Instrument Composition Brass, same pattern as best Giant Sounder.

Price, with Telegraph Instruction Book, package of Morse Alphabet Cards, etc., \$1.50. Sent anywhere in the United States, by mail, prepaid, on receipt of price, in stamps, postal or express money order, or registered letter.

Combined Key and  
Giant Sounder.  
Without Magnets.  
No Battery Required.

## The Union Lightning Arrestor and Ground Switch.

As lightning is frequently attracted to outdoor lines and thereby enters the offices, sometimes damaging the instruments, or even setting fire to curtains or other inflammable material about the instrument, a simple and cheap instrument called "lightning arrester and cut out," is used for the purpose of intercepting and carrying to the earth such discharges of lightning as would be liable to cause damage. This apparatus is entirely effective, and is a complete safeguard against lightning.

PRICE, 50 CENTS BY MAIL, PREPAID.

Send for our LATEST CATALOGUE, October, 1896, containing 224 Pages and nearly 800 ILLUSTRATIONS the VERY BEST Telegraph and Electrical Supplies ever offered to the trade.

For all or any of the above, address J. H. BUNNELL & CO., 76 CORTLANDT STREET, NEW YORK.

# EVERY RAILROAD AGENT, OPERATOR AND CONDUCTOR WANTS ONE OF OUR

## RAILROAD MANIFOLD FOUNTAIN PENS MADE IN TWO SIZES

Fitted with large size platinum (alloyed with iridium) tipped (regular diamond point), ball pointed gold pens, with hard, stiff nibs, made especially for Railroad Manifold—works equally well with copying ink or ordinary writing fluid. Unconditionally guaranteed satisfactory or money refunded. For Agents' work on Expense Bills, Transfers, O. S. and D. Reports, Claims, Etc., Etc. For Telegraphers, in copying direct from the wire, all work wanted in duplicate. For Conductors, Wheel and other reports, correspondence, etc. For Train and Station Baggage men, in fact all classes of Railroad Men. Enormous Sales for this pen already assured. Now is the time for Operators with a moment's spare time to supply Railroad Agents, Clerks, Conductors, etc., with this pen.

**The early bird catches the worm.** Write to-day for catalogue, Agents' terms, prices, etc. (A postal card will do it.) Remember this is the success of the century. Address

### ARM REST FOR TELEGRAPH OPERATORS.

One of the most practical patented inventions of the day, supplying a long felt want. Operators know how tiring their work is to the arm; and often it leads to paralysis. The "Rest" prevents that disease, and cures it when contracted. It is invaluable to beginners. Substantially made of hard wood and leather, highly finished.

Sent post-paid for only \$1.00. AGENTS WANTED.

**HENRY W. GOODROE, Hinesburgh, Vt.**

Anyone sending a sketch and description may quickly ascertain, free, whether an invention is probably patentable. Communications strictly confidential. Oldest agency for securing patents in America. We have a Washington office. Patents taken through Munn & Co. receive special notice in the

WHOLE NO. 533.

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, November 20, 1897.

The following list of "changes" corrects the Tariff Book of July, 1897, to date. Changes in the list of "New Offices" are not included.

The hand **337** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices", which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Vannale, Ark., which was formerly a three star station, but which is now a Western Union office in Square 432.

### NEW CABLE RULES.

Rules for the treatment of cable messages, given in Tariff Book of July, 1897, should receive careful attention, particularly the changes referred to in the following, viz:

In rule 2 (page 418) the length of a chargeable word has been extended to fifteen letters. The present rule allows but ten.

In rule 3 (page 418) it is *required* that code words must not contain more than ten letters each.

In rule 4 (page 414) five figures to a word are allowed instead of three to a word as at present. The same rule provides for the count of words (plain words) in cipher messages at the rate of fifteen letters to a word instead of ten as formerly.

In rule 6, last paragraph, "abbreviated and misspelled words and illegitimate compound words" which, under the present rule, are counted at the rate of three letters to a word, are now counted at the rate of five letters to a word.

In rule 13 (page 416) the last line of the first paragraph should read, "The indication R P 7 (or R P with any number up to and including 80) counts as one word."

In the third paragraph of the same rule the indication "R P 20" should be counted as one word.

Other changes will become apparent upon a careful reading of the new rules, or upon comparison of the new schedule with that given in the book of January, 1897.

See Special Notices at end of this circular.

### CHANGES.

#### ALABAMA.

- Ashville, now \*\*\* Ashville, 35 0 Gadsden.

Turkey in Asia, via Indo and Bushire (Secret language prohibited.)	

## SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 191), Catskill Mountains (page 195), and Lake George (page 203.) When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc., do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own state.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect.

Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated as night message offices in the Tariff Book.

Offices having special rates, should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 419 to 484, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 367 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Notifications of the arrival of steamers at the Port of New York will be forwarded to any address during the Company's usual office hours, upon payment of \$1.00, plus the tolls for a ten word message between New York City and the office ordering the report.

Orders should be addressed to Manager Marine Department, New York City.

This order does not apply to New York City, Brooklyn, Hoboken or Jersey City.

THOMAS T. ECKERT,  
President.

#### MONEY TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, November 18, 1897.

To All Transfer Agents and Offices:

The transfer service has been resumed at Madison, Wis., and Sheboygan, Wis., and temporarily discontinued at Elwood, Ind., and Muncie, Ind.

The transfer service was temporarily discontinued at Sunbury, Pa., on October 26th, and resumed on October 28th.

On November 1st, Shelbyville, Ind., was advanced from Class E to Class D, transfer office,

and on same date Miami, Fla., was added to the list of I. O. T., transfer offices in B. F. Dillon's district.

On December 1st, the following offices will be added to the list of transfer offices:

In F. M. Mulford, Jr.'s district, Belvidere, Ill., Class E.

In B. F. Dillon's district, Bainbridge, Ga., Class E, Cordele, Ga., Class E.

A. G. Saylor has been appointed Transfer Agent at Philadelphia, Pa., instead of Acting Transfer Agent.

THOS. T. ECKERT,  
President.

#### TO OPERATORS AND AGENTS.

Send me 10 cents for twenty or 20 cents for fifty cards with your name, address and employment printed upon them. Good white envelopes with your card printed in the corner. 50 cents per hundred.

N. E. ARNOLD, Operator, GRENOBLE, PA.

# THE CYCLONIC SUCCESS OF THE CENTURY.

## The Laughlin Railroad and Express Manifold Pen.

Manifold Fountain Pen, medium size.....Price, \$2.25  
 Manifold Fountain Pen, large size....." 2.50  
 For use on all forms required in Duplicate, Way Bills, Bills of Lading, Reports, Expense Bills, Transfers, Correspondence, etc., etc.

**REDUCES YOUR LABOR 50 PER CENT.**

**AS MANY COPIES AS YOU WANT WITH ONE WRITING.**

Will carry copying as well as writing fluid. Handsomely chased hard rubber reservoir holder, fitted with large iridium ball pointed 16-k. hard-nib gold pen. Your money back, if not satisfied.

**AGENTS, MESSENGERS, OPERATORS, CONDUCTORS, INVESTIGATE.**

Hundreds of testimonials received daily, of which the following are samples:

THE PACIFIC EXPRESS COMPANY,  
 SUPERINTENDENT'S OFFICE.

W. R. BRESSIE, Superintendent.

Laughlin Manufacturing Co., Detroit, Mich.

Gentlemen—Myself and quite a number of our employes are using "Laughlin Fountain Pens." They are "all right." I have one on my desk that I have used *every day* for the past *six years*, and it is *still good*. I would not be without a fountain pen, and I consider yours *better than any* I have seen.

Yours truly,

W. R. BRESSIE, Superintendent.

DECATUR, ILL., Feb. 8, 1897.

THE WABASH RAILROAD CO.,

E. A. GOULD, Supt. E. D.

Laughlin Mfg. Co., Detroit, Mich.

Gents—I take pleasure in speaking a good word for the fountain pen manufactured by your Company, which has been in use by me. It does its work perfectly.

Yours truly,

E. A. GOULD, Superintendent.

PERU, IND., July 19, 1897.

No railroad or expressman should be without this pen. You have been disappointed, perhaps, in your fountain pen experience: but it wasn't a Laughlin was it? Some well-known pens have soiled your hands and tried your patience. Those who must have perfect pens should insist on the

# TELEGRAPH INSTRUMENTS.

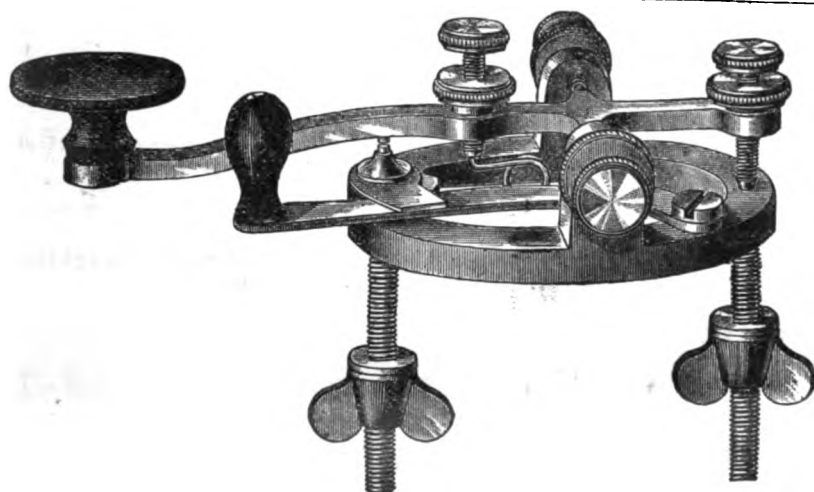

Our stock of the Greeley & Co. Telegraph Instruments is getting low, but while they last will be supplied at our advertised prices. No more of the 50 cent keys left and only a few more sets (Key and Sounder) at \$2.00. See July and August numbers of the JOURNAL. Our prices are for goods by express. We do not pay postage. If the goods are out of stock we will return money.

Box Sounding Relay, 150 ohms, with Victor Key, High Grade Instrument. \$4.00 (regular price \$9.00).  
Above Relay, no key on base, \$3.00 (regular price \$7.00).

Pony Box Relay, no key on base, \$2.50.

## STEEL LEVER KEYS

When properly made are more durable than the heavy brass lever keys. We guarantee our key to be the finest in the market. We have never offered them in large lots as it is our desire to let operators use them who are willing to purchase their own key. If they are not pleased with it we know there will be some "kicking" done. The keys will stand the test, and we will stand the Price,

WITH LEGS, - \$1.00 } Postage, 12 cents extra.  
WITHOUT LEGS, \$1.15 }

Fully Nickel Plated, 15 cents extra, either style.

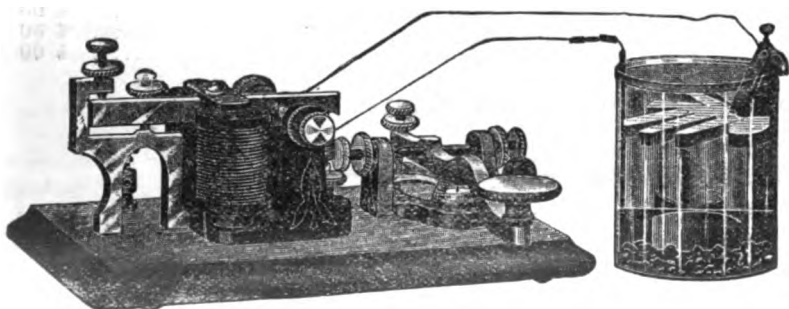

Ask your Superintendent or Purchasing Agent if they ever bought a good key at such a low price.

## TELEPHONES.

Our very best LONG DISTANCE TELEPHONE OUTFIT will be furnished to operators for \$9.00. There is no better telephone outfit to be purchased, or rented that outclasses this instrument. We make everything in the Electrical line and are quoting operators our lowest prices.

## EUREKA TELEGRAPH OUTFIT

Outfit Complete With Battery, \$2.25.  
(Without Battery, \$1.75.)

The Eureka Instrument with MESCO Dry Battery for home practice, \$1.95.

If goods are to be sent C. O. D. one third of the amount must be remitted with order or express charges guaranteed by express agent.

### DESCRIPTION.

The Eureka Learner's Outfit, as shown by illustration, is a first-class, full size telegraph set. All of the working parts—which includes key lever, sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. The key is of the curved lever pattern, and sounder gives a loud and clear sound, equal to the best expensive instrument—or, we will furnish steel lever if preferred.

### THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

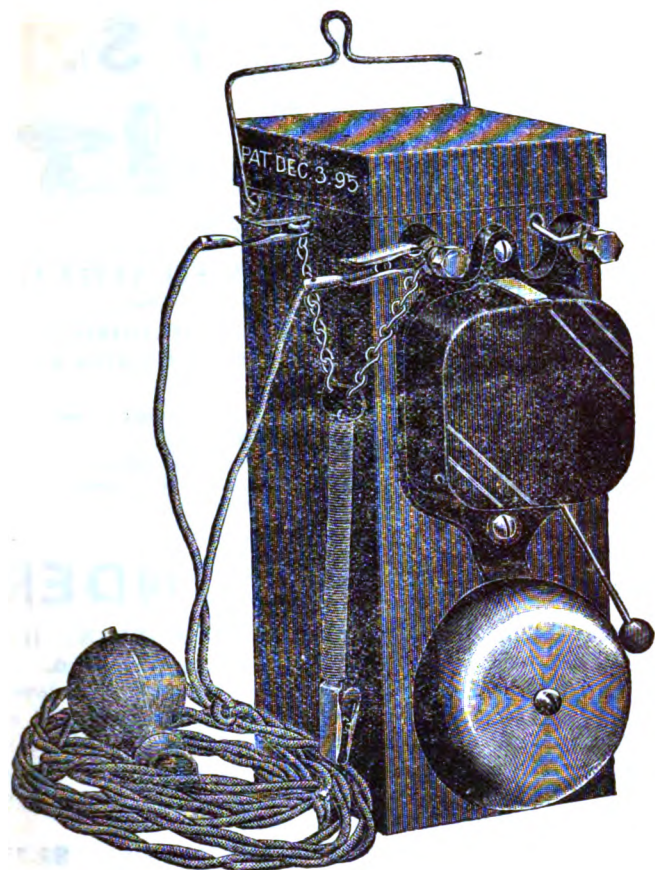

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.....	\$2.25
Eureka instrument only (no battery or wire), for short lines.....	1.75
Eureka instrument only, wound for lines 1 to 15 miles.....	2.00
Postage on instrument only (battery not mailable).....	.40

We claim this the BEST low priced telegraph set ever made. It's one of our specialties, and made in large quantities.

# MANHATTAN ELECTRICAL SUPPLY CO.

32 CORTLANDT STREET, NEW YORK.

## NEW COMBINATION PORTABLE CALL-BELL OUTFIT AND CLOCK ALARM ATTACHMENT.

As a portable call-bell outfit it can be used in the sick-room by hanging the bell and battery outside the room and placing pear-push on the bed. It can also be used in the dining-room, or other parts of the house, or in offices for calling attendants.

We supply six yards of double flexible conducting cord with each outfit; if more is required, the cost will be six cents per yard extra. The chain clamp can be attached to the alarm, winding-key of any style, or make of mechanical alarm clock, and the electric bell will ring continuously from the time mechanical alarm goes off until the clamp is detached from the key.

**PRICE, EACH, - - \$1.00.**

## NEW No. 4 HOME MEDICAL APPARATUS WITH DRY BATTERY.

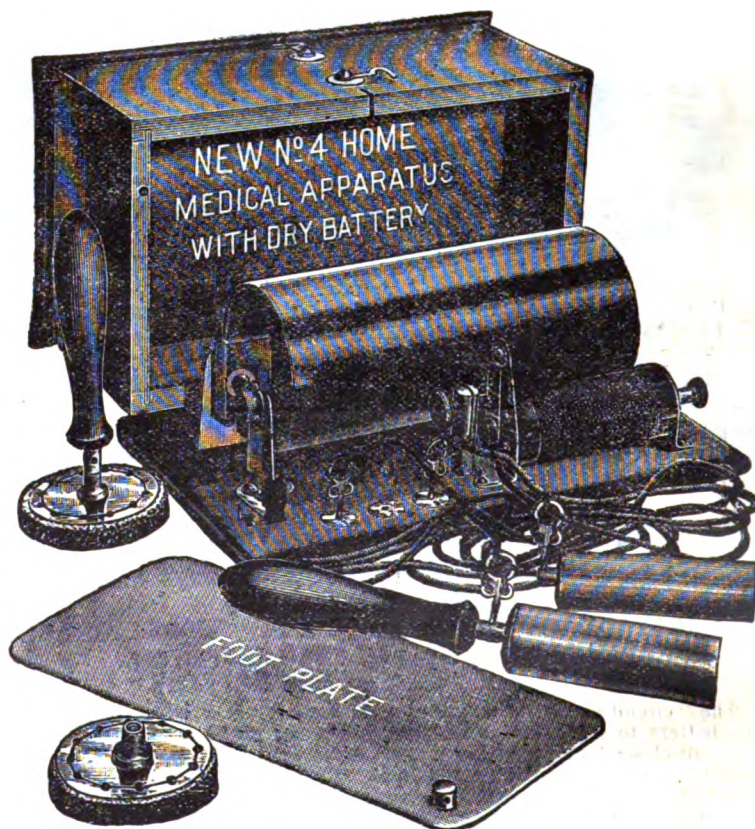

For physician or patient, home use or traveling, this is the best and most convenient form of Medical Battery ever produced.

Its currents are smooth and even, and their strength can be graded from the mildest perceptible to a power that few can endure.

The complete battery is contained in an elegant, highly polished mahogany case, having a strong, handy, nickel-plated handle. The dimensions of the case are 9 x 5½ x 4½ inches, and its weight, complete with Cell and Electrodes is about 5½ pounds.

Physicians prescribing applications of the Faradic current for patients, personally, at home, or by nurse, under specific direction, will find much satisfaction in using this form of apparatus, inasmuch as, from its simplicity and entire absence of acids or liquids, it is particularly suited to the use of those who are entirely unfamiliar with the care and precautions necessary for handling the ordinary acid batteries.

**PRICE, EACH COMPLETE, \$3.00.**

The New No. 4 Home Medical Apparatus. Case open at lower compartment, showing the entire apparatus, with Battery, Coil and Electrodes complete.

100 Page Pamphlet of Bicycle, Photographic and Electrical Supplies **FREE.**

Our Regular Electrical Supply Catalogue, 304 Pages (just issued), mailed on receipt of ten cents.

J. H. BUNNELL &amp; CO.'S

**STEEL LEVER****SOLID  
TRUNNION****KEYS.**

OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

**THE BUNNELL STEEL LEVER KEY** is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is only *one-half* the weight of the ordinary brass lever as generally made.

The entire Lever and Trunnions together being made of *but one piece* of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of *hardened platina points*, sticking is absolutely prevented.

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

PRICE,  
1.75.

**LEGLESS PATTERN STEEL LEVER KEY**  
New Form with Open Base.

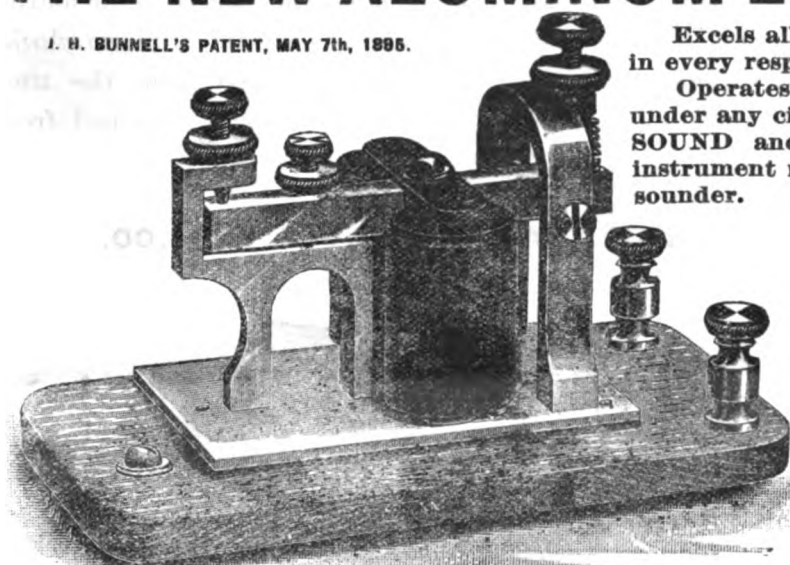

A beautiful and perfect Key suitable for use on Fine Desks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

**THE NEW ALUMINUM LEVER GIANT SOUNDER**

J. H. BUNNELL'S PATENT, MAY 7th, 1895.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the **FINEST** and **BEST SOUNDER** ever designed.

Operates with **ONE CELL** only of LOCAL, having no need whatever under any circumstances for the use of two cells. The **MARGIN** of **SOUND** and **STRENGTH** and **QUICKNESS** with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, . . . . . \$2.25

Sounders wound with fine wire to 30 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length. \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

**NEW GIANT SOUNDER, 20 OHMS RESISTANCE,  
AND STEEL LEVER KEY**

**COMBINATION SET,**

For Private Lines, City Wires, and all  
short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. **Price, \$4.50.** Sent by mail to any distance, carefully boxed, and **PREPAID** by us, on receipt of the above price.

Same set, but wound to 8 ohms (local), **\$4.00.**

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an **Extra Fine LEARNERS' OUTFIT, \$4.75.**

**The New Departure Learners' Outfit....****WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.**

The **IDEAL SET** for **HOME PRACTICE.** Always Ready. **NEAT, CLEAN, ATTRACTIVE.**

The **INSTRUMENT** is our well-known "**MORSE LEARNERS' APPARATUS**" with **STEEL LEVER KEY**, arranged for use with our "**MASCOT DRY BATTERY.**"

The "**circuit-closer**" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "**circuit-closer**" detached the Mascot Battery should last for several months' practice. The "**circuit-closer**" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

Instruction Book goes free with each outfit.

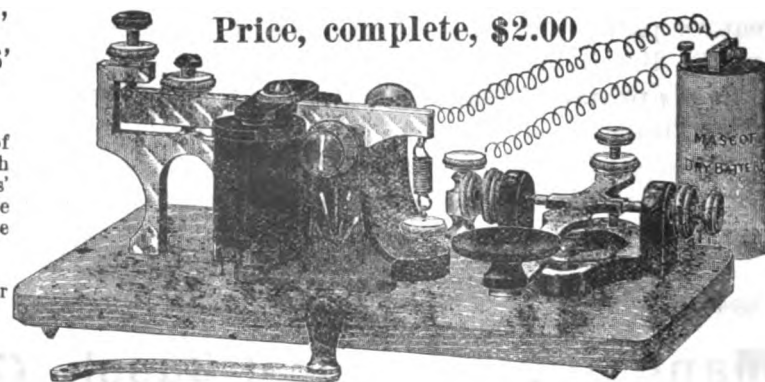

The complete outfit, packed in a wooden box, weighs about 7 lbs.

Shipped by express to any address on receipt of \$2.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 324 pages, sent on receipt of your business card.

These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 50 cents. The Mascot Dry Battery, which too heavy for mailing economically can be obtained at all hardware and electrical supply stores for 50 cents or less.

Price, complete, \$2.00

### ARM REST FOR TELEGRAPH OPERATORS.

One of the most practical patented inventions of the day, supplying a long felt want. Operators know how tiring their work is to the arm; and often it leads to paralysis. The "Rest" prevents that disease, and cures it when contracted. It is invaluable to beginners. Substantially made of hard wood and leather, highly finished.

Sent post-paid for only \$1.00. AGENTS WANTED.

HENRY W. GOODROE, Hinesburgh, Vt.

Anyone sending a sketch and description may quickly ascertain, free, whether an invention is probably patentable. Communications strictly confidential. Oldest agency for securing patents in America. We have a Washington office. Patents taken through Munn & Co. receive special notice in the

**SCIENTIFIC AMERICAN,**  
beautifully illustrated, largest circulation of any scientific journal, weekly, terms \$3.00 a year; \$1.50 six months. Specimen copies and HAND BOOK ON PATENTS sent free. Address

*President and General Manager.*

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, December 20, 1897.

The following list of "changes" corrects the Tariff Book of July, 1897, to date. Changes in the list of "New Offices" are not included.

The hand **☞** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices", which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Vandale, Ark., which was formerly a three star station, but which is now a Western Union office in Square 432.

### NEW CABLE RULES.

Rules for the treatment of cable messages, given in Tariff Book of July, 1897, should receive careful attention, particularly the changes referred to in the following, viz:

In rule 2 (page 418) the length of a chargeable word has been extended to fifteen letters. The present rule allows but ten.

In rule 3 (page 418) it is required that code words must not contain more than ten letters each.

In rule 4 (page 414) five figures to a word are allowed instead of three to a word as at present. The same rule provides for the count of words (plain words) in cipher messages at the rate of fifteen letters to a word instead of ten as formerly.

In rule 6, last paragraph, "abbreviated and misspelled words and illegitimate compound words" which, under the present rule, are counted at the rate of three letters to a word, are now counted at the rate of five letters to a word.

In rule 13 (page 416) the last line of the first paragraph should read, "The indication R P 7 (or R P with any number up to and including 80) counts as one word."

In the third paragraph of the same rule the indication "R P 20" should be counted as one word.

Other changes will become apparent upon a careful reading of the new rules, or upon comparison of the new schedule with that given in the book of January, 1897.

See Special Notices at end of this circular.

## WYOMING.

798 Badger.

## CABLES.

For Rule 5 on page 414 of the Tariff Book, the following should be substituted, to take effect immediately:

RULE 5.—In the address of any message, the name of the office of destination, the name of the country, and the name of the territorial sub-division, are counted respectively as one word, no matter how many letters are employed.

Correct Tariff Book, page 430.

Ona: An asterisk should be entered after Puerto Principe. Messages for that place are now posted at Santiago.

The following changes in cable rates are now in force. Correct Tariff Book pages 434 to 438, inclusive.

A cable has been laid from Guadaloupe to the Island of Les Saintes in the West Indies. Rate to Les Saintes same as to Guadaloupe.

## SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 191), Catskill Mountains (page 195), and Lake George (page 303.) When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 86) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc., do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own state.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 30th of each month, and that contemplated

changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated in night message offices in the Tariff Book

THOMAS T. ECKERT,  
President.

## TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, December 18, 1897.

## To All Transfer Agents and Offices:

The transfer service has been resumed at Muncie, Ind., and temporarily discontinued at Mackinac Island, Mich.

The transfer service was temporarily discontinued at Huntington, W. Va., on November 28d, at Mattoon, Ill., on December 3d, at Winona, Miss., on November 18th, and resumed as follows: at Huntington, W. Va., on December 7th, at Mattoon, Ill., on December 10th at Winona, Miss., on December 3d.

On December 15th, Green Bay, Wis., was advanced from Class D, to Class C, transfer office.

Managers will correct their lists accordingly. The second section of Rule 25 of the money transfer service is hereby modified to read as follows:

"The transfer service will be suspended at all offices on Sundays and all National Holidays, viz.:

January 1st, February 22d, May 30th, July 4th, Thanksgiving day and Christmas day.

On any State holiday, transfers for offices in the State in which such holiday occurs will be accepted subject to delay, the words 'accepted subject to delay' being stamped or written upon the application for transfer and receipt for deposit, Forms 72 and 73."

The third section of Rule 42 of the money transfer service is hereby modified to read as follows:

"Printed lists of State holidays can be obtained from the Treasurer upon written application. In case of any changes or additions to such State holidays, Transfer Agents will notify the Treasurer in advance of such changes or additions in their respective States, in order that other Transfer Agents and offices may be duly notified thereof."

THOS. T. ECKERT,  
President.

## TO OPERATORS AND AGENTS.

Send me 10 cents for twenty or 20 cents for fifty cards with your name, address and employment printed upon them. Good white envelopes with your card printed in the corner. 50 cents per hundred.

Ask your Superintendent or Purchasing Agent if they ever bought a good key at such a low price.

**TELEPHONES.** Our very best **LONG DISTANCE TELEPHONE OUTFIT** will be furnished to operators for **\$9.00.** There is no better telephone outfit to be purchased, or rented that outclasses this instrument. We make everything in the Electrical line and are quoting operators our lowest prices.

## EUREKA TELEGRAPH OUTFIT

**Outfit Complete With Battery, \$2.25.**  
**(Without Battery, \$1.75.)**

The Eureka Instrument with **MESCO Dry Battery** for home practice, **\$1.95.** Always remove the circuit breaker when dry battery is used to prevent possibility of continuous closed circuit.

If goods are to be sent C. O. D. one third of the amount must be remitted with order or express charges guaranteed by express agent.

### DESCRIPTION.

The Eureka Learner's Outfit, as shown by illustration, is a first-class, full size telegraph set. All of the working parts—which includes key lever, sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. The key is of the curved lever pattern, and sounder gives a loud and clear sound, equal to the best expensive instrument—or, we will furnish steel lever if preferred.

### THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc. ....	<b>\$2.25</b>
Eureka instrument only (no battery or wire), for short lines. ....	<b>1.75</b>
Eureka instrument only, wound for lines 1 to 15 miles. ....	<b>2.00</b>
Postage on instrument only (battery not mailable). ....	<b>.40</b>

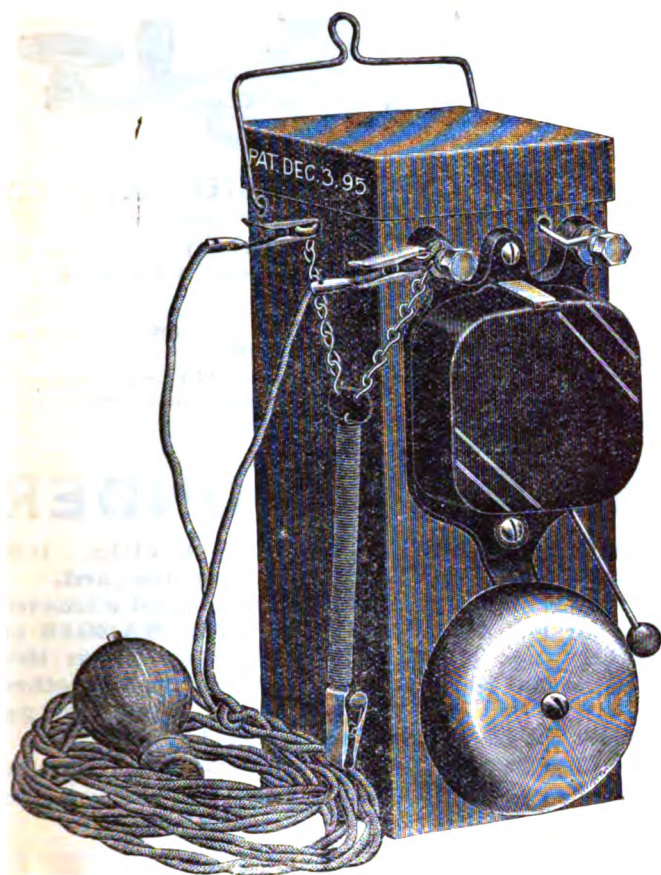

We claim this the **BEST** low priced telegraph set ever made. It's one of our specialties, and made in large quantities.

# MANHATTAN ELECTRICAL SUPPLY CO.

**32 ORTLANDT STREET, NEW YORK.**

# COMBINATION PORTABLE CALL-BELL OUTFIT AND ELECTRIC ALARM CLOCK ATTACHMENT.

**AS AN ALARM ATTACHMENT.**—The spiral spring (see illustration) has a spring clasp at the end. It is only necessary to press on the clasp to attach it—the same to remove it. The clasp can be attached to the winding key of any Mechanical Alarm Clock. When the alarm goes off, the two chains, as shown in cut, are twisted together, make an electrical contact and the Bell rings until the clasp is removed from the key or winding lever. There will be no oversleeping when the Alarm goes off, as it is necessary to get out of bed to stop it by removing clasp.

**AS A CALL BELL.**—We supply six yards of double flexible conducting cord, to one end of which is attached a pear shaped push button, to hang at the bed-side or any convenient place. The opposite ends are provided with two spring clasps, the same can be connected or detached in a jiffy. Can be used for many purposes, in the office, at the bedside, for the dining room, connecting adjoining rooms, etc., etc.

**This is the best and cheapest outfit of this description ever offered.**

**CONSISTS OF:**—One first-class electric bell; one cell MESCO Dry Battery, case for same covered, imitation leather, with swinging wire loop for hanging on nail, etc.; clasp and spiral spring connection for attaching to Mechanical Alarm Clock; 18 feet double flexible conducting cord with pear shape push button at one end and spring clasp connectors at other end.

**ALL FOR \$1.00.**

Discount on the above in quantities of one dozen or more, 10 per cent.

## NEW No. 4 HOME MEDICAL APPARATUS

**WITH DRY MESCO BATTERY.**

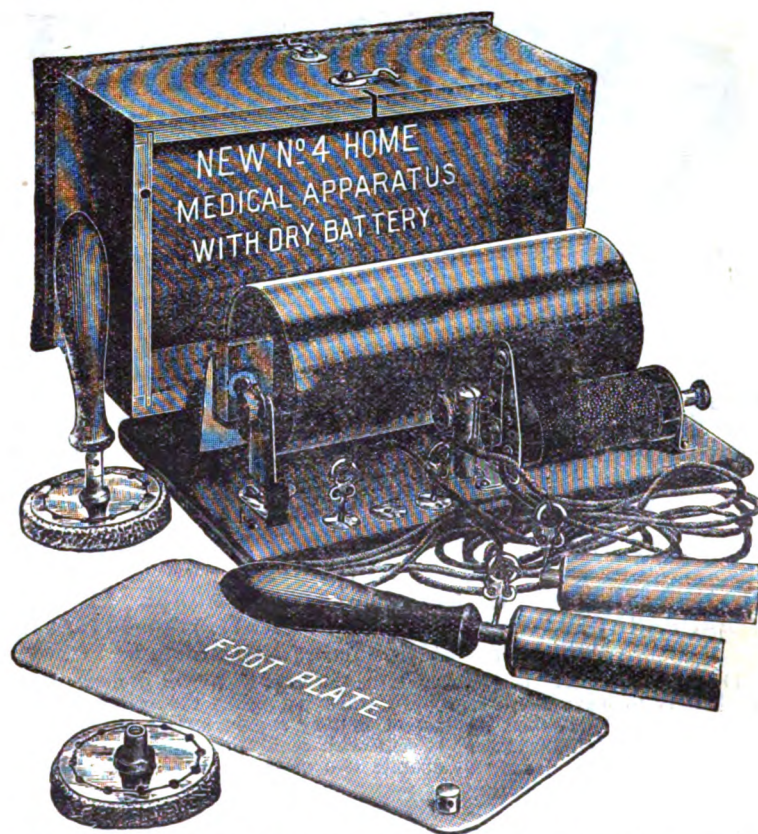

For physician or patient, home use or traveling, this is the best and most convenient form of Medical Battery ever produced.

Its currents are smooth and even, and their strength can be graded from the mildest perceptible to a power that few can endure.

The complete battery is contained in an elegant, highly polished mahogany or oak case, having a strong, handy, nickel-plated handle. The dimensions of the case are  $9 \times 5\frac{1}{4} \times 4\frac{1}{2}$  inches, and its weight, complete with Cell and Electrodes is about  $5\frac{1}{2}$  pounds.

Physicians prescribing applications of the Faradic current for patients, personally, at home, or by nurse, under specific direction, will find much satisfaction in using this form of apparatus, inasmuch as, from its simplicity and entire absence of acids or liquids, it is particularly suited to the use of those who are entirely unfamiliar with the care and precautions necessary for handling the ordinary acid batteries.

**PRICE, COMPLETE, (as shown in Illustration) \$3.00.**

The New No. 4 Home Medical Apparatus. Case open at lower compartment, showing the entire apparatus, with Battery, Coil and Electrodes complete.

**Manhattan Electrical Supply Co., 32 Cortlandt St., New York.**

100 Page Pamphlet of Bicycle, Photographic and Electrical Supplies FREE.

Our Regular Electrical Supply Catalogue, 304 Pages (just issued), mailed on receipt of ten cents.

# J. H. BUNNELL & CO.'S STEEL LEVER SOLID TRUNNION KEYS.

OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

**THE BUNNELL STEEL LEVER KEY** is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is *only one-half the weight* of the ordinary brass lever as generally made. The entire Lever and Trunnions together being made of *but one piece* of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of *hardened platina points*, *sticking is absolutely prevented*.

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

PRICE,  
1.75.

**LEGLESS PATTERN STEEL LEVER KEY**  
New Form with Open Base.

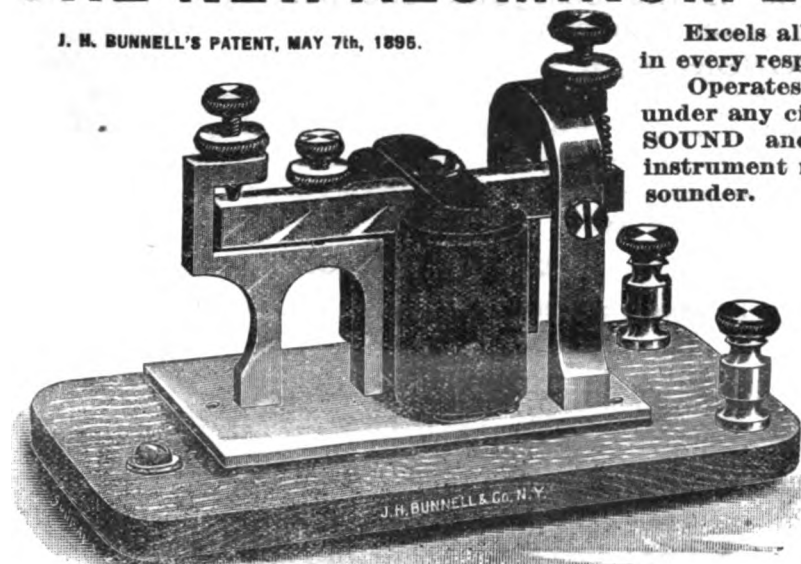

A beautiful and perfect Key suitable for use on Fine Desks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

## THE NEW ALUMINUM LEVER GIANT SOUNDER

J. H. BUNNELL'S PATENT, MAY 7th, 1895.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the **FINEST** and **BEST SOUNDER** ever designed.

Operates with **ONE CELL** only of **LOCAL**, having no need whatever under any circumstances for the use of two cells. The **MARGIN** of **SOUND** and **STRENGTH** and **QUICKNESS** with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length, \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

## NEW GIANT SOUNDER, 20 OHMS RESISTANCE, AND STEEL LEVER KEY COMBINATION SET,

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. **Price, \$4.50.** Sent by mail to any distance, carefully boxed, and **PREPAID** by us, on receipt of the above price.

Same set, but wound to 8 ohms (local), **\$4.00.**

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine **LEARNERS' OUTFIT, \$4.75.**

## The New Departure Learners' Outfit.... WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.

The **IDEAL SET** for HOME PRACTICE. Always Ready. **NEAT, CLEAN, ATTRACTIVE.**

The **INSTRUMENT** is our well-known "**MORSE LEARNERS' APPARATUS**" with **STEEL LEVER KEY**, arranged for use with our "**MASCOT DRY BATTERY.**"

The "circuit-closer" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "circuit-closer" detached the Mascot Battery should last for several months' practice. The "circuit-closer" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

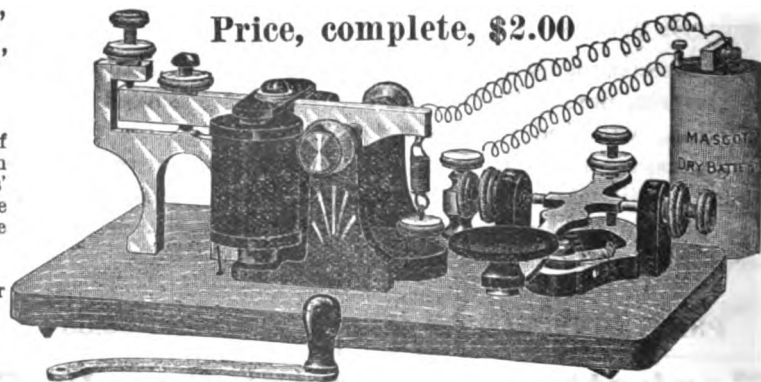

Instruction Book goes free with each outfit.

The complete outfit, packed in a wooden box, weighs about 7 lbs.

Shipped by express to any address on receipt of \$3.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 224 pages, sent on receipt of your business card. These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 60 cents. The Mascot Dry Battery, which too heavy for mailing economically can be obtained at all hardware and electrical supply stores for 80 cents or less.

Price, complete, \$2.00

**J. H. BUNNELL & CO. 76 Cortlandt St. New York.**

### DIVIDEND NO. 117.

THE Board of Directors have declared a quarterly dividend of ONE AND ONE-QUARTER PER CENT. upon the capital stock of this company, payable at the office of the Treasurer on and after the 15th day of January next, to shareholders of record at the close of the transfer books on the 20th day of December inst.

The transfer books will be closed at 3 o'clock on the afternoon of December 30th inst., and reopened on the morning of January 3d next.

M. T. WILBUR,  
Assistant Treasurer.

WHOLE NO. 535.

Prior to 1887, only the largest cities possessed any electric lighting service; the alternating current, which is now so large a factor in electrical enterprises, had scarcely begun to be used. At present, even the smaller towns have their electrical stations.

their arc lamps for street lighting, and the smaller incandescents for general use. The incandescent lamps employed in the United States are numbered by millions; and there are several hundred thousand arc lamps besides. There are now in operation nearly 3,000 electric-light supply stations, which together with isolated electric plants, represent a capital of about \$500,000,000.

Stress is naturally laid by Mr. Thomson on the remarkable application of electricity at Niagara. Here is brought home to us the industrial importance of cheap and unfailing power developed from water in its fall. The power of huge water wheels is delivered to massive dynamos for giving out in turn electric energy. Upon the water power thus transmitted depend the electric light and the electric railways of the city of Niagara, as well as a number of remarkable industrial establishments founded in that place. Here too, the feasibility of the long-distance transmission of power is exemplified by a high-pressure line extending to Buffalo and delivering the electric energy to an electric station there. The Niagara plant has grown into existence within the last five years, as a consequence of the advances in electrical science made within the decade just closed. There are other examples of water-power transmission, some of them far exceeding in distance that between Niagara and Buffalo, and some in which the amount of power conveyed as well as the pressure of the current used upon the line, is much greater than is yet exhibited at Niagara.

Notable, also, are the applications of the electric current to heating and to metallurgy. By electric welding machines are now made carriage hardware, axles, wheel tires, parts of bicycles, and tools, metal bands for pails, tubs, and barrels, and innumerable other articles. Electric methods have been found adaptable to the annealing of armor for war vessels. Formerly, it was almost impossible to drill or cut holes in the plates of Harveyized armor, but, by the application of electric machinery, it has been found practicable to obtain extreme localization in the heating of metal through the delivery of electrical energy and its conversion into heat at the desired point without impairing the quality of the rest of the plate. Mr. Thomson reminds us that, before the advent of the electric welding process, iron and platinum were regarded as the only weldable metals. Now all metals are capable of being welded under electric treatment.

Electric heating is used in many other ways. There are electric cooking utensils, electric soldering tools and similar devices, while many street cars are provided with electric heat in winter.

In metallurgy the value of electricity has received of late a new demonstration at Niagara, where the metal aluminum which, not many years ago cost \$2 an ounce, is now produced and sold at a price which makes it, bulk for bulk, cheaper than brass. In this case, of course, the electric current's power of electrolyzing or breaking up strong chemical unions is employed. Works for the production of metallic sodium and other metals similarly depend upon the decomposition effected by the electric current. Enormous amounts of crude copper are annually refined by electrolysis,

with the result that a nearly pure metal is obtained, where formerly impurities lessened the value of the copper. Not only is this the case, but, in some instances, amounts of the precious metals sufficient to pay the cost of the process have been separated in the refining.

Passing from the applications of electricity to industrial purposes, Mr. Thomson reviews the advances made in electrical science considered as a department of physics. Among other discoveries, he refers to the demonstration made by Herz and others that signals may be transmitted to distant points without wires simply by using electric waves of some millions of vibrations per second; these invisible waves being recognized by suitable receivers. Whether, however, the wireless telegraph will supersede surface telegraph lines and submarine cables, is pronounced questionable. We note, finally, that the discovery of the X-rays belongs, properly, to electrical science, seeing that the rays are the result of electrical action in certain vacuum bulbs. On the whole, the data set forth by Mr. Thomson fully justify his conclusion that the application of electricity to the needs of mankind will be deemed hereafter the crowning glory of the latter half of the nineteenth century.—*New York Sun*.

#### TELEGRAPHERS MUTUAL BENEFIT ASSOCIATION.

Following the report of the Telegraphers Mutual Benefit Association in a recent issue, it will no doubt be of great interest, especially to the younger members of the Telegraph fraternity, to give a brief history of the association in this time.

Starting in 1867 with 125 members it numbered at the close of 1868, 316, and five years later numbered 1230; ten years after the close of 1883 it had 2592 members. Twenty years after its organization it had 8233 members; at the close of the last fiscal year, the thirtieth year of its successful career, its membership numbered 4287 in the full (\$1,000) grade and 198 in the half (\$500) grade.

There has been collected from members since organization for assessments upward of \$822,000 and disbursed for death claims \$710,000, and after payment of all necessary expenses there is held in the treasury as a protection against excessive assessments the Reserve Fund of \$144,400 which represents the savings of the Institution and the increment from careful and judicious investments.

These facts speak eloquently of the manner in which the association has redeemed and is redeeming the promises made to its members of the beneficent protection which it has afforded the widows and orphans and other dependents of deceased telegraphers, and holds out the assurance that it can with confidence look forward to greater and more magnificent results being accomplished in the future.

Thirty years have passed since the Association was founded, and of the 125 who banded themselves together at its inception many have passed to their reward, and their beneficiaries have reaped the result of their care and thoughtfulness.

The survivors, many of whom have risen to the highest places in the telegraph service, and who are still with us, together with the officers,

executive committee, agents and active members of the organization, point with pride to the results which have been achieved and earnestly recommend every eligible employé of the telegraph service (male and female) to join the association and partake of its advantages.

The cost is within the reach of all, and all information will be cheerfully furnished by the Secretary or any of the agents, a list of which will be found on another page.

#### GOLD AND STOCK LIFE INSURANCE ASSOCIATION

195 BROADWAY, NEW YORK.

THE GOLD AND STOCK LIFE INSURANCE ASSOCIATION is a fraternal Association, organized in 1878, for the purpose of affording to Telegraphers and others in Electrical pursuits, the advantage of insurance on a plan differing somewhat from the usual method followed by most insurance companies and associations.

The plan of the Association is briefly:

Initiation Fee.....\$1.00  
Dues per Month......50

Payments to beneficiaries of deceased members, \$50 per month for ten months, or total insurance, \$500.

Any person, of not less than eighteen or more than forty-five years of age, who is, or who has been engaged in telegraph or other electrical service, eligible to membership.

Medical examinations are not required when the general good health, family history and character of the applicants appear to make such examinations unnecessary.

The "GOLD AND STOCK" has been in active operation for nineteen years, and since its organization has collected and disbursed to beneficiaries of its deceased members over \$40,000.

It is in no sense antagonistic to, nor in competition with, other insurance organizations, relying upon the telegraphic fraternity for support.

The plan of monthly payments to beneficiaries will be found to be a welcome supplement to other policies, and the promptness with which all obligations have been discharged, as well as the rigid economy with which the business has been conducted, should commend the Association to all.

President: R. J. HUTCHINSON, N. Y. Stock Exchange, New York.

Vice-President: A. J. DRIVER, Gold and Stock Telegraph Co., New York.

Treasurer: M. BRESLIN, New York.

Secretary: WM. J. DEALY, W. U. Telegraph Co., New York.

## Telegraphers' Mutual Benefit Association.

ORGANIZED 1867.

(\$66 MEMBERS. \$189,000 RESERVE FUND.)

Has paid its beneficiaries over \$560,000, and accumulated a reserve fund of \$189,000. Assessments average 18 per year. Any person, of either sex, in good health, of not less than 18 or more than 45 years of age, employed in telegraph or telephone service, is eligible to membership.

Initiation fee \$2. Insurance \$500, \$1,000 and \$1,500.

## ELECTRIC AND OTHER POWER TRANSMISSIONS.

*[From the Engineering and Mining Journal.]*

THE successful beginning made in the transmission of power by electricity from the plant at Niagara Falls to the City of Buffalo is, we believe, the beginning of an economic change of great importance. At present a force equivalent to 1 000 horse power is sent to Buffalo, and is used in operating the street railroads of the city; but the Niagara Falls company is under contract to increase the transmission to 10,000 horse-power, with the probability of a still further growth as the arrangements for distributing and using the power are completed. So far the transmission has worked very smoothly and successfully, but it has not been in operation long enough to reach a definite conclusion as to the proportion of loss and the percentage of the force actually utilized in work performed. The main fact is that the supply of a large city with power from a distant source on a large scale has actually been begun. Long-distance transmission of power to single plants has been carried on for some time, but not for general distribution, as is contemplated in Buffalo, and will certainly be carried out in that city within a few months.

Now, there are very few of our large cities which are situated like Buffalo, within a comparatively short distance of a natural source of almost unlimited power, such as is found in Niagara Falls. Unless the practical radius of transmission is increased by new devices or inventions, the number of towns which can be supplied from water-powers is limited. We have, however, a number of large cities which are within easy reach of coal mines which could supply the fuel for great power plants, which might be erected on such a scale as almost to equal the natural water-powers in economy of production. There is every probability that in this direction will be found our next great industrial development in this country.

We have before pointed out the great economies to be realized in this way, and it is hardly necessary now to go over them again in detail. The consumption of fuel and its conversion into either gas or electricity at points close to the mines would not only save the cost of the preparation for market now required and of the transportation; it would avoid a large part of the waste and loss which now occur at the mines, as substantially all the coal taken out could be consumed, and with it probably a large part of the culm and dust piles which are now found at almost every mine. The economies of steam or gas production on a large scale could be fully

realized. The cost of storing coal and of distributing and delivering it to individual consumers in the cities, which amounts in the aggregate to a very large sum, would be saved. While, of course, the expense of transporting and distributing gas or electric power would be considerable, we believe that it would be trifling in comparison with that of handling the coal itself as is now done. And in addition there is to be considered the labor and cost of firing with coal, the removal of ashes and the like, matters difficult to estimate because they are so much subdivided, but certainly amounting to a great total, to say nothing of the difficulties attending such work in a large city.

Of course, it will require time to bring about such a change, especially as it will be opposed by many large interests. The great sums invested in railroads, which are chiefly supported by the carrying of coal, the large amounts also invested in the present machinery of the coal trade and the other interests which would be effected by such a change, would all be ranged against it, and their opposition would take time to overcome. As in all important industrial changes, injury to a few would be the immediate result, but this would be far overbalanced by the general benefits secured.

Whether gas or electricity will be the form most generally adopted for the transmission of power as well as heat and light, admits of much variation in opinion, and the field is certainly open for discussion. The comparatively recent development of electricity, and the probability that great advances will be made hereafter in that direction, present an element of uncertainty in the problem. At present it seems as if in many cases the conversion of coal into gas and its transmission by pipes to the points where it is needed would be, upon the whole, the best solution; but there are plenty of grounds upon which the electrical people may contest this point.

The use of gas fuel is familiar to many of our people through the general employment of natural gas in Pittsburgh and in the towns and cities of the gas belt in Ohio and Indiana. In many manufacturing establishments also the use of the Taylor and other forms of gas producers is becoming common, while the gas engine is rapidly coming into general use. An instance of the introduction of producer gas for ordinary city use was given in our last issue, and other cities will soon follow the precedent there set.

Should gas be generally adopted in this way it would be practicable to supply it to a very large part of our cities and towns by piping direct from the mines. There are only a few districts, such as New England, in the East, and a large section of the Pacific coast, which are beyond reach of such pipe-lines. In those districts a great part of the area could be supplied from plants located on the sea-coast or at points where coal could be delivered at very low rates. This is the plan proposed in Boston, which will probably soon be carried out; it is already on trial at Halifax, in Nova Scotia.

The subject is so large that it can be treated but very slightly in a single article, but we hope that discussion may be called out. Undoubtedly many engineers recognize the fact that a change is coming and some are preparing themselves accordingly.

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, February 20, 1898.

The January, 1898, edition of the Tariff Book is now being distributed, and every office should be supplied with one or more copies on or before February 26th.

Managers should read carefully the pages of instruction at the beginning of the book; they should also examine the names, square numbers and P. O. addresses of their offices, and the names and rates of "other" line offices with which they connect, and report at once to their superintendent any errors which they may discover.

Particular attention is called to the new rates for, and method of checking business to and from Mexico, given in pages 123 to 132 of new Tariff Book. Your attention is also called to the new rates *via* Key West to Jamaica and other places in the West Indies, given on page 439.

The following list of "changes" corrects the Tariff Book of January, 1898, to date.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Toledo Junc., Ohio, which was formerly a single star "other" line office but which is now a Western Union office in Square 191.

## CABLES.

For changes in rates to Jamaica and other places in West Indies, see page 439 of January 1898 Tariff Book.

Cable communication has been established with Turks Island in the Bahamas. Rate, 25c per word less than to Bermuda given on page 427 of Tariff Book.

## SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 192), Catskill Mountains (page 196), and Lake George (page 204). When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc., do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own state.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Ocean Steamers. The arrival of any Steamship at the Port of New York will be reported to any address during the Company's usual office hours for \$1.00, and the tolls on a ten word day message to New York, N. Y. The \$1.00 to be accounted for as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

This order does not apply to New York City, Brooklyn, Hoboken or Jersey City.

THOMAS T. ECKERT,  
President.

## TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, January 18, 1898

## To All Transfer Agents and Offices:

The transfer service has been resumed at Elwood, Ind., and temporarily discontinued at Yazoo City, Miss.

The transfer service was temporarily discontinued at Spartanburg, S. C., on December 20th, and resumed on January 3d.

On February 1st, the following offices will be added to the list of transfer offices:

In J. J. Dickey's district, Perry, Okla., Class D.

In B. F. Dillon's district, Palm Beach, Fla., Class D.

In E. M. Mulford's, Jr. district.

Managers will correct their lists accordingly.

**TREASURER'S OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, January, 1898.**

*To Superintendents:* I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

*First.* Every remittance to the treasurer must be accompanied by a letter of transmittal, written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expense must be reported, like any other item, in the monthly account current (form 4.) Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should be shown on blank 65.

*Second.* Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates viz:

Not exceeding \$5.00, 5 cts.	Over \$40.00 to 50.00, 18 cts
Over \$5.00 to 10.00, 8 cts.	Over 50.00 to 60.00, 30 cts
Over 10.00 to 20.00, 10 cts.	Over 60.00 to 75.00, 35 cts
Over 20.00 to 30.00, 12 cts.	Over 75.00 to 100.00, 30 cts
Over 30.00 to 40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank draft can be obtained at less expense.)

*Third.* If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

*Fourth.* If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

*Fifth.* If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

*Sixth.* Drafts, express money orders and post office money orders must be made payable to R. H. Rochester, Treasurer, and sent by mail. They must not be made payable to R. H. Rochester, without the title.

*Seventh.* The small treasurer's envelope, Form 138, must be used where remittances are made by mail.

*Eighth.* The large envelope, Form 124, should be used only for making remittances by express.

*Ninth.* Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

M. T. WILBUR, Asst. Treasurer.

A MESSAGE sent "collect," reported as "uncollectible," and collected for by sending office from its sender, should always be booked and reported as it was originally checked—and should never be booked and reported as "checked paid." See Rule 69 Western Union Book of Rules. The amount collected from sender should be reported in the Form No. 4 Report as Receipts for "Guaranteed Messages"—and should not be reported as "Telegraph Receipts."

GOVERNMENT telegrams that Army Officers send, not written upon the (blue) official form furnished by the Quartermaster General, should invariably be paid for by their senders—but, government telegrams that Army Officers send, written upon the (blue) official form furnished by the Quartermaster General, should be accepted without payment by their senders, and being transmitted checked "paid govt. rate," should (unless otherwise specially directed) be taken credit for in, and turned in (as voucher for such credit) with, the monthly Form No. 4 Report.

The foregoing applies only to government telegrams of Army Officers, and does not apply to other government telegrams.

All Weather Bureau telegrams should also be accepted without payment by their senders and being transmitted checked "paid govt. rate" should also be taken credit for in, and turned in with, the monthly Form No. 4. Report.

RULE No. 72 requires that: "The original messages 'sent paid' by, and copies of those 'received collect' for the holders of half-rate franks, on which less than full tolls have been paid," should be sent in with the monthly reports. Copies of such half-rate franks messages will not meet the requirements of the rule. The originals must be returned.

The checks on half rate frank messages should be full and clear.

The half-rate frank entitles its owner to refund at day rates only. The tolls on half-rate frank messages should not be computed at night rates, nor refund allowed at night rates.

No half-rate frank message can be accepted for less than twenty cents.

# TELEGRAPH INSTRUMENTS.

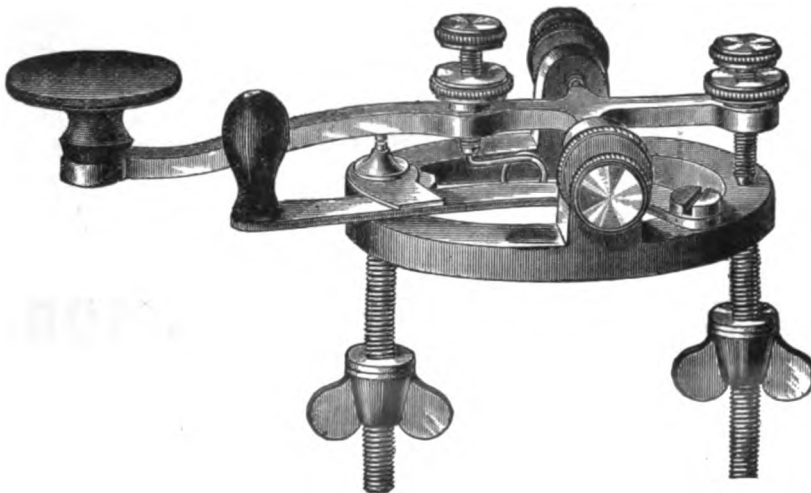

Our stock of the Greeley & Co. Telegraph Instruments is getting low, but while they last will be supplied at our advertised prices. **No more of the 50 cent Keys left or Key and Sounder at \$2.00.** Our prices are for goods by express. We do not pay postage. If the goods are out of stock we will return money.

**Box Sounding Relay, 150 ohms, with Victor Key, High Grade Instrument. \$4.00 (regular price \$9.00).**  
**Above Relay, no key on base, \$3.00 (regular price \$7.00).**

**Pony Box Relay, 20 or 50 ohms, no key on base, \$2.50.**  
**A few Victor Sounders at \$1.25.**

## STEEL LEVER KEYS

When properly made are more durable than the heavy brass lever keys. We guarantee our key to be the finest in the market. We have never offered them in large lots as it is our desire to let operators use them who are willing to purchase their own key. If they are not pleased with it we know there will be some "kicking" done. The keys will stand the test, and we will stand the Price,

**WITH LEGS, - \$1.00**  
**WITHOUT LEGS, \$1.15** } Postage, 12 cents extra.

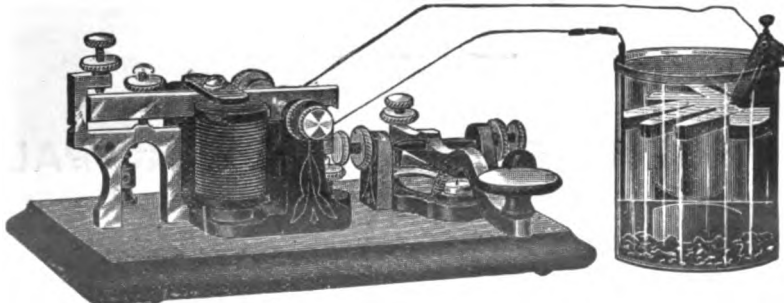

Fully Nickel Plated, 15 cents extra, either style.

Ask your Superintendent or Purchasing Agent if they ever bought a good key at such a low price.

**TELEPHONES.** Our very best **LONG DISTANCE TELEPHONE OUTFIT** will be furnished to operators for **\$9.00.** There is no better telephone outfit to be purchased, or rented that outclasses this instrument. We make everything in the Electrical line and are quoting operators our lowest prices.

## EUREKA TELEGRAPH OUTFIT

**Outfit Complete With Battery, \$2.25.**  
**(Without Battery, \$1.75.)**

**The Eureka Instrument with MESCO Dry Battery for home practice, \$1.95.** Always remove the circuit breaker when dry battery is used to prevent possibility of continuous closed circuit.

If goods are to be sent C. O. D. one third of the amount must be remitted with order or express charges guaranteed by express agent.

### DESCRIPTION.

The Eureka Learner's Outfit, as shown by illustration, is a first-class, full size telegraph set. All of the working parts—which includes key lever, sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. The key is of the curved lever pattern, and sounder gives a loud and clear sound, equal to the best expensive instrument—or, we will furnish steel lever if preferred.

### THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.....	<b>\$2.25</b>
Eureka instrument only (no battery or wire), for short lines.....	<b>1.75</b>
Eureka instrument only, wound for lines 1 to 15 miles.....	<b>2.00</b>
Postage on instrument only (battery not mailable).....	<b>.40</b>

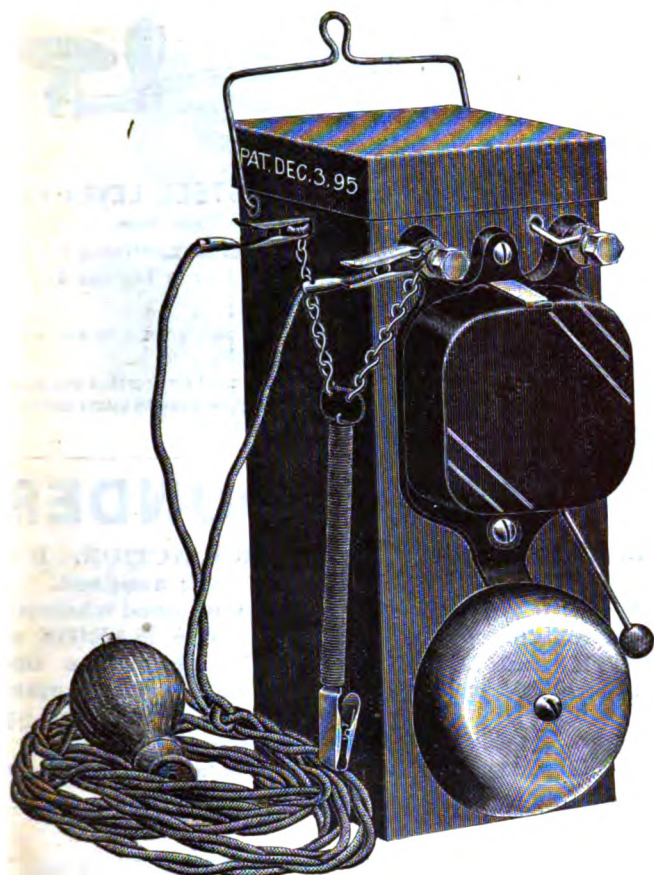

We claim this the **BEST** low priced telegraph set ever made. It's one of our specialties, and made in large quantities.

# MANHATTAN ELECTRICAL SUPPLY CO.

## 32 CORTLANDT STREET, NEW YORK.

# COMBINATION PORTABLE CALL-BELL OUTFIT AND ELECTRIC ALARM CLOCK ATTACHMENT.

**AS AN ALARM ATTACHMENT.**—The spiral spring (see illustration) has a spring clasp at the end. It is only necessary to press on the clasp to attach it—the same to remove it. The clasp can be attached to the winding key of any Mechanical Alarm Clock. When the alarm goes off, the two chains, as shown in cut, are twisted together, make an electrical contact and the Bell rings until the clasp is removed from the key or winding lever. There will be no oversleeping when the Alarm goes off, as it is necessary to get out of bed to stop it by removing clasp.

**AS A CALL BELL.**—We supply six yards of double flexible conducting cord, to one end of which is attached a pear shaped push button, to hang at the bed-side or any convenient place. The opposite ends are provided with two spring clasps, the same can be connected or detached in a jiffy. Can be used for many purposes, in the office, at the bedside, for the dining room, connecting adjoining rooms, etc., etc.

**This is the best and cheapest outfit of this description ever offered.**

**CONSISTS OF:**—One first-class electric bell; one cell Mesco Dry Battery, case for same covered, imitation leather, with swinging wire loop for hanging on nail, etc.; clasp and spiral spring connection for attaching to Mechanical Alarm Clock; 18 feet double flexible conducting cord with pear shape push button at one end and spring clasp connectors at other end.

**ALL FOR \$1.00.**

Discount on the above in quantities of one dozen or more, 10 per cent.

## NEW No. 4 HOME MEDICAL APPARATUS

**WITH DRY MESCO BATTERY.**

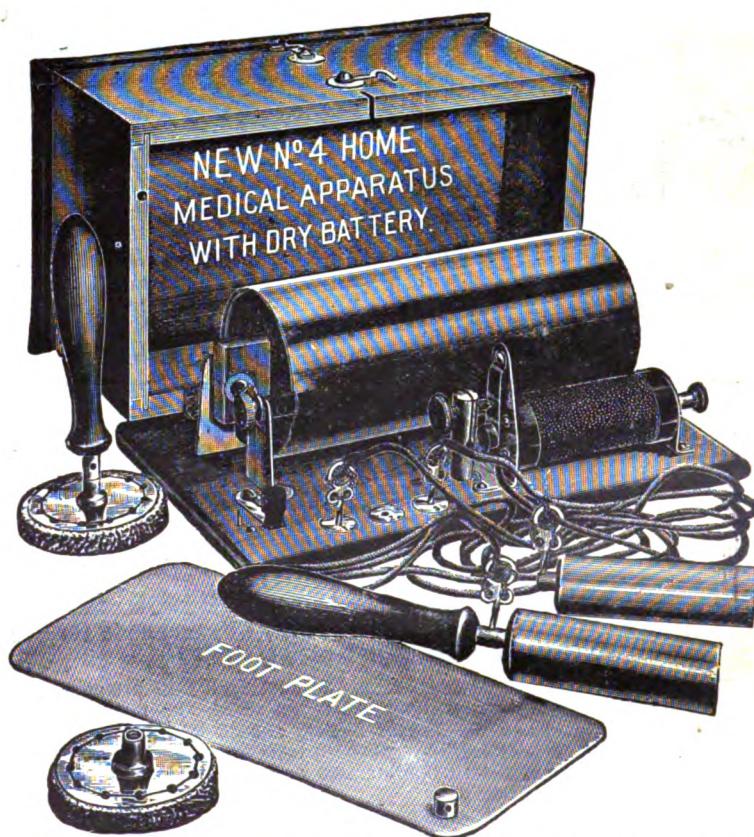

For physician or patient, home use or traveling, this is the best and most convenient form of Medical Battery ever produced.

Its currents are smooth and even, and their strength can be graded from the mildest perceptible to a power that few can endure.

The complete battery is contained in an elegant, highly polished mahogany or oak case, having a strong, handy, nickel-plated handle. The dimensions of the case are 9 x 5 1/4 x 4 1/2 inches, and its weight, complete with Cell and Electrodes is about 5 1/2 pounds.

Physicians prescribing applications of the Faradic current for patients, personally, at home, or by nurse, under specific direction, will find much satisfaction in using this form of apparatus, inasmuch as, from its simplicity and entire absence of acids or liquids, it is particularly suited to the use of those who are entirely unfamiliar with the care and precautions necessary for handling the ordinary acid batteries.

**PRICE, COMPLETE, (as shown in Illustration) \$3.00.**

The New No. 4 Home Medical Apparatus. Case open at lower compartment, showing the entire apparatus, with Battery, Coil and Electrodes complete.

**Manhattan Electrical Supply Co., 32 Cortlandt St., New York.**

100 Page Pamphlet of Bicycle, Photographic and Electrical Supplies FREE.

J. H. BUNNELL &amp; CO.'S

## STEEL LEVER

SOLID  
TRUNNION

## KEYS.

OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

**THE BUNNELL STEEL LEVER KEY** is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is *only one-half the weight* of the ordinary brass lever as generally made. The entire Lever and Trunnions together being made of *but one piece* of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of *hardened platina points*, *sticking is absolutely prevented*.

The size and proportions are such as to make it the most perfect operating key possible to obtain either for the hand of the skilled and rapid expert, or the beginner.

Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

PRICE,  
1.75.

**LEGLESS PATTERN STEEL LEVER KEY**  
New Form with Open Base.

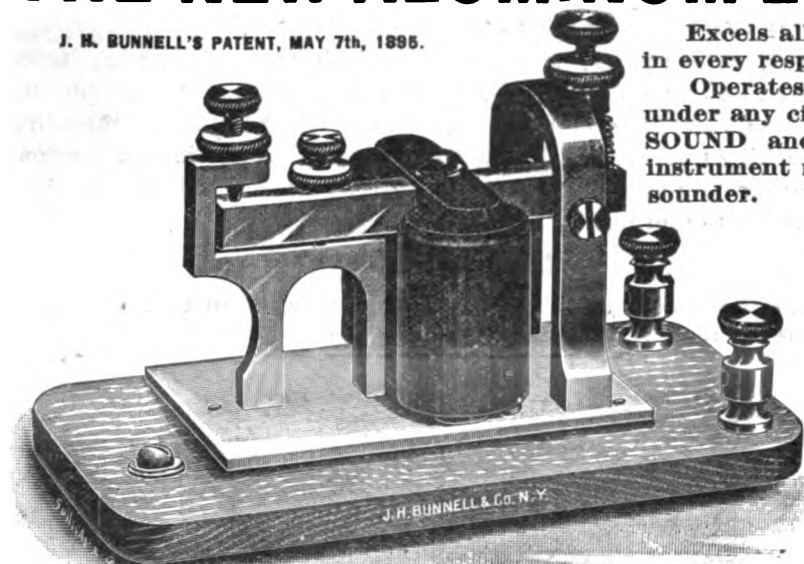

A beautiful and perfect Key suitable for use on Fine Desks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

## THE NEW ALUMINUM LEVER GIANT SOUNDER

J. H. BUNNELL'S PATENT, MAY 7th, 1895.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the **FINEST** and **BEST** SOUNDER ever designed.

Operates with **ONE CELL** only of **LOCAL**, having no need whatever under any circumstances for the use of two cells. The **MARGIN** of **SOUND** and **STRENGTH** and **QUICKNESS** with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, \$2.25

Sounders wound with fine wire to 30 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length, \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

**NEW GIANT SOUNDER, 20 OHMS RESISTANCE,  
AND STEEL LEVER KEY**

## COMBINATION SET,

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 30 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. **Price, \$4.50.** Sent by mail to any distance, carefully boxed, and **PREPAID** by us, on receipt of the above price.

Same set, but wound to 8 ohms (local), **\$4.00.**

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine **LEARNERS' OUTFIT, \$4.75.**

# The New Departure Learners' Outfit....

## WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.

The **IDEAL SET** for HOME PRACTICE. Always Ready. **NEAT, CLEAN, ATTRACTIVE.**

The **INSTRUMENT** is our well-known "**MORSE LEARNERS' APPARATUS**" with **STEEL LEVER KEY**, arranged for use with our "**MASCOT DRY BATTERY.**"

The "circuit-closer" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "circuit-closer" detached the Mascot Battery should last for several months' practice. The "circuit-closer" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

Instruction Book goes free with each outfit.

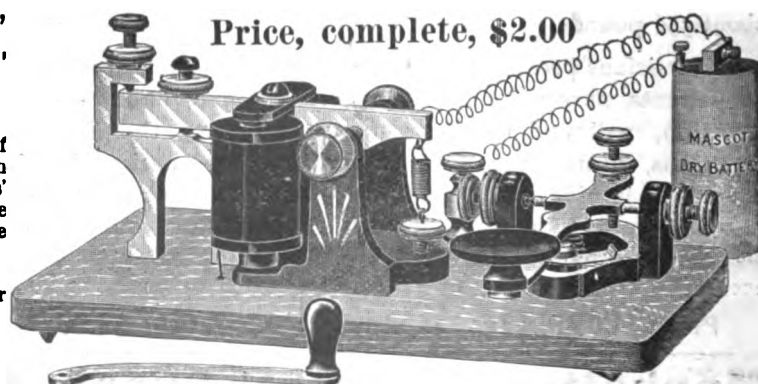

The complete outfit, packed in a wooden box, weighs about 7 lbs.

Shipped by express to any address on receipt of \$2.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 224 pages, sent on receipt of your business card.

These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 50 cents. The Mascot Dry Battery, which too heavy for mailing economically can be obtained at all hardware and electrical supply stores for 50 cents or less.

Price, complete, \$2.00

VOL. XXXI.

NEW YORK, FEBRUARY 20, 1898.

WHOLE NO. 536.

## TELEGRAPHERS' MUTUAL BENEFIT ASSOCIATION.

Official report of condition and affairs of Telegraphers' Mutual Benefit Association made by order of the Superintendent of Insurance Department, State of New York.

NEW YORK, January 29, 1898.

To the HONORABLE LOUIS F. PAYN,  
Superintendent of Insurance,  
ALBANY, N. Y.

SIR:—Acting under instructions contained in Appointment No. 1075, dated January 13, 1898, hereto annexed, I have made an examination of the condition and affairs of the Telegraphers' Mutual Benefit Association of New York, and respectfully present the following report thereon.

The said Association was organized and commenced business on October 22d, 1867, and is engaged in the business of life-insurance upon the co-operative or assessment plan, as defined and regulated by Article VI of the Insurance Law, and is confined entirely to persons engaged in the business of telegraphy. This examination was made as of date of January 28, 1898, the financial condition of the Association being as follows:

### ASSETS.

Loans secured by mortgages on real estate (first liens). \$64,500.00  
Interest accrued thereon..... 832.76

### BONDS OWNED BY THE ASSOCIATION.

	PAR VALUE.	MARKET VALUE.
Gold and Stock Telegraph Co. 5% coupon bonds, due 1900, guaranteed by Western Union Telegraph Co. \$30,000.00	\$30,000.00	\$30,000.00
Western Union Telegraph Co. 7% registered bonds, due 1900	8,000.00	8,150.00
Long Island R. R. Co., 2d mortgage 7% coupon bonds due 1910	7,000.00	8,540.00
North Western Telegraph Co. 1st mortgage 7% coupon bonds, due 1904	5,000.00	5,800.00
Ocean Steamship Company 1st mortgage 5% coupon bonds due 1920	5,000.00	5,250.00
Binghamton Street Railway Company 1st mortgage 6% bonds due 1910	5,000.00	5,900.00

Total par and market values, \$55,000.00 \$57,440.00

Cash on deposit with Western Union Telegraph Co. 41,509.63

Total..... \$154,949.39

### LIABILITIES.

Unpaid mortality claims..... \$10,185.00

The number of members in good standing is 4,539 and one assessment thereon would produce \$4,712.12.

The affairs of the Association are in a most prosperous condition; claims are paid promptly and in full, and the expense of management is confined to the salary of the Secretary and other incidental expenses attending collections of assessments.

A copy of the Constitution and By-laws is annexed hereto.

Very respectfully submitted,  
(Signed) THOMAS J. MCCABE.

STATE OF NEW YORK.  
CITY AND COUNTY OF NEW YORK. } ss:

Thomas J. McCabe, being duly sworn deposes and says that the foregoing report subscribed to by him is true to the best of his knowledge and belief. Subscribed and sworn to before me, January 29th, 1898.

(Signed) THOMAS J. MCCABE.

(Signed) ELIZABETH W. MUNN,  
Notary Public No. 189,  
New York County.

In connection with the foregoing it is interesting to note that the last official examination of the Association was made on January 19th, 1896, on which date there were 3250 members and the surplus of assets amounted to \$49,100. The above report shows a membership of 4539 and a surplus of assets over all liabilities of \$144,181.39. This is the result of careful and economical management and is the best evidence that the officers and executive committee of the association have labored but for one end, the protection of the families and dependents of the members of the telegraph fraternity.

Every employee in the service (male and female) between the ages of 18 and 45 and in good health is eligible for membership, and the rates for assessments which average about 12 a year are:

From 18 to 30 Full Grade	\$1.00	Half Grade	50 cents.
" 30 to 35 "	1.25	" "	53 cents.
" 35 to 40 "	1.50	" "	75 cents.
" 40 to 45 "	2.00	" "	\$1.00

## WHAT RAILROADS SPEND.

THEY ARE THE GREAT DISBURSING AGENCIES OF THE COUNTRY.

THE railroads of the United States expend in a year a sum more than \$100,000,000 in excess of the total expenditures of the United States Government, and this computation does not include nearly \$350,000,000 paid in the form of interest upon railroad bonds or guaranteed stock and from \$80,000,000 to \$100,000,000 paid in the form of dividends to stockholders. The railroads, indeed, are the great disbursing agencies of the country, handling never less than a billion dollars in a year and disbursing it all, or practically all, for railroads as a rule do not keep large bank accounts, and do practically a cash business, turning money rapidly.

An estimate, made by one of the scientific papers a short time ago gave as the average annual expense of American railroads in maintaining the condition of their roadbeds \$75,-

000,000, besides \$35,000,000 for the purchase of rails, ties and sleepers, and \$15,000,000 for the construction of new bridges. The railroads of the country spent last year for fences, signboards, signals, and watch towers \$3,500,000, and for printing and advertising \$8,500,000. Very few persons have an accurate idea of the extent to which railroad expenses are to be subdivided, supposing probably, that the largest items of expenditure are for cars and engines, fuel, employees, and terminals. Such is the fact, but there are other large items, and one of the largest of these is the item of taxes. Railroad corporations of the United States are heavily taxed, and they pay collectively in a year, it has been estimated, \$40,000,000. There is then another item which figures largely in all railroad accounts, the item of legal expenses, railroads being drawn into almost constant litigation and requiring at all times the services of counsel. It is estimated that expenses of American railroads for professional legal services amount in a year to about \$10,000,000, and this is, of course, exclusive of the sums requisite to meet claims for personal injuries or damages to property. Some of the large railroad companies expend as much as a quarter of a million dollars in a year for the settlement of such cases or the payment of judgments recovered. This item of expense on all American railroads is ordinarily put at about \$5,000,000. A serious accident may entail on a railroad company damages so large as to offset many months of profit, and some railroads have been crippled for long periods by such cases.

There are in the United States 800,000 railroad employees, 100,000 station men, 35,000 engineers, 40,000 firemen and helpers, 25,000 conductors and dispatchers, 65,000 trainmen, 30,000 machinists, 100,000 shopmen other than machinists, 20,000 telegraph operators and their helpers, 45,000 switchmen, flagmen and watchmen and 175,000 trackmen. The daily pay roll on all American railroads combined, officers and clerical staff included, amounts to about \$2,000,000 a day.—N. Y. Sun.

F. H. TUBBS, Superintendent Western Union Telegraph Co., Chicago, acknowledges receipt from an old employé of \$5.00 conscience money.

THE Anglo American Telegraph Company's financial report for last year, indicate that the traffic receipts of the "pool" cables that in 1896 were about \$200,000 greater than in 1895, were in 1897 about \$100,000 greater than in 1896.

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, February 20, 1898.

The following list of "changes" corrects the Tariff Book of January, 1898, to date. Changes in the list of "New Offices" are not included.

The hand **✱** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices", which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Toledo Junc., Ohio, which was formerly a single star "other" line office but which is now a Western Union office in Square 191.

See Special Notices at end of this circular.

## CABLES.

Erase from page 431 of Tariff Book the rate beyond Havana to Santiago, and enter Santiago on page 439 as 73 cents per word from W. Union offices east of the Mississippi River, and 83 cents per word from offices west of the Mississippi River.

For changes in rates to Jamaica and other places in West Indies, see page 436 of January 1898 Tariff Book.

Cable communication has been established with Turks Island in the Bahamas. Rate, 25c per word less than to Bermuda given on page 437 of Tariff Book.

## SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country or a summer or winter resort, includes a number of offices or double star stations. As Adirondack Mountains (Tariff Book, page 192), Catskill Mountains (page 196), and Lake George (page 204.) When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the toll for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc. do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own state.

Managers of offices at which messages are transferred to or from "ether lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Ocean Steamers. The arrival of any Steamship at the Port of New York will be reported to any address during the Company's usual office hours for \$1.00, and the tolls on a ten word day message to New York, N. Y. The \$1.00 to be accounted for as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

This order does not apply to New York City, Brooklyn, Hoboken or Jersey City.

THOMAS T. ECKERT,  
President.

## TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, February 18, 1898.

## To All Transfer Agents and Offices:

The transfer service has been resumed at Muncie, Ind.

The transfer service has been discontinued at Clyde, N. Y., and the name should be stricken out of the list of transfer offices in the Tariff Book.

On February 1st, Waukegan, Ill., was added to the list of Class D, transfer offices in E. M. Mulford's, Jr. district.

On February 5th, Hastings, Ont., was added to the list of Class E, transfer offices in Arthur Cox's district.

Frank B. Steele has been appointed Transfer Agent at San Francisco, Cal., vice W. J. Martin resigned.

The name of Sumter, S. C., Class E, J. A. Brenner, should appear in the list of transfer offices in the Tariff Book of January, 1898.

On list of State Holidays is:

"February, first Tuesday of (Arbor Day) in Arizona."

The day has been changed and it should read:

"February, first Friday of (Arbor Day) in Arizona."

Fortress Monroe, Va., in list of transfer offices in Tariff Book, should read:

Fortress Monroe (or Old Pt. Comfort), Va.

Managers will correct their lists accordingly.

THOS. T. ECKERT,

President.

RULE No. 72 requires that: "The original messages 'sent paid' by, and copies of those 'received collect' for the holders of half-rate franks, on which less than full tolls have been paid," should be sent in with the monthly reports. Copies of such half-rate franks messages will not meet the requirements of the rule. The originals must be returned.

The checks on half-rate frank messages should be full and clear.

The half-rate frank entitles its owner to refund at day rates only. The tolls on half-rate frank messages should not be computed at night rates, nor refund allowed at night rates.

No half-rate frank message can be accepted for less than twenty cents.

#### GOLD AND STOCK LIFE INSURANCE ASSOCIATION

195 BROADWAY, NEW YORK.

THE GOLD AND STOCK LIFE INSURANCE ASSOCIATION is a fraternal Association, organized in 1878, for the purpose of affording to Telegraphers and others in Electrical pursuits, the advantage of insurance on a plan differing somewhat from the usual method followed by most insurance companies and associations.

The plan of the Association is briefly:

Initiation Fee.....\$1.00  
Dues per Month......50

Payments to beneficiaries of deceased members, \$50 per month for ten months, or total insurance, \$500.

Any person, of not less than eighteen or more than forty-five years of age, who is, or who has been engaged in telegraph or other electrical service, eligible to membership.

Medical examinations are not required when the general good health, family history and character of the applicants appear to make such examinations unnecessary.

The "GOLD AND STOCK" has been in active operation for nineteen years, and since its organization has collected and disbursed to beneficiaries of its deceased members over \$40,000.

It is in no sense antagonistic to, nor in competition with, other insurance organizations, relying upon the telegraphic fraternity for support.

The plan of monthly payments to beneficiaries will be found to be a welcome supplement to other policies, and the promptness with which all obligations have been discharged, as well as the rigid economy with which the business has been conducted, should commend the Association to all.

# TELEGRAPH INSTRUMENTS.

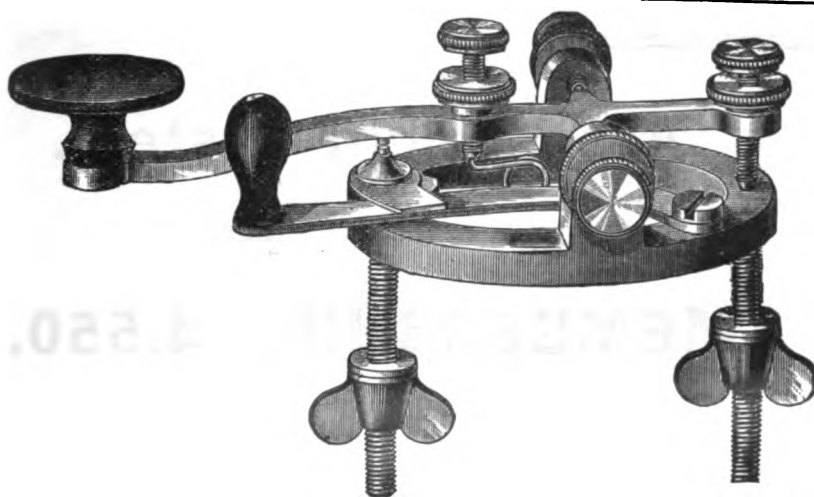

Our stock of the Greeley & Co. Telegraph Instruments is getting low, but while they last will be supplied at our advertised prices. No more of the 50 cent Keys left or Key and Sounder at \$2.00. Our prices are for goods by express. We do not pay postage. If the goods are out of stock we will return money.

**Box Sounding Relay, 150 ohms, with Victor Key, High Grade Instrument. \$4.00 (regular price \$9.00).**  
**Above Relay, no key on base, \$3.00 (regular price \$7.00).**

**Pony Box Relay, 20 or 50 ohms, no key on base, \$2.50.**  
**A few Victor Sounders at \$1.25.**

## STEEL LEVER KEYS

When properly made are more durable than the heavy brass lever keys. We guarantee our key to be the finest in the market. We have never offered them in large lots as it is our desire to let operators use them who are willing to purchase their own key. If they are not pleased with it we know there will be some "kicking" done. The keys will stand the test, and we will stand the Price,

**WITH LEGS, - \$1.00**  
**WITHOUT LEGS, \$1.15** } Postage, 12 cents extra.

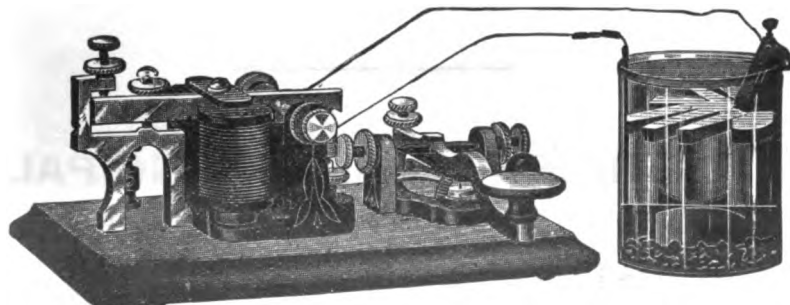

Fully Nickel Plated, 15 cents extra, either style

Ask your Superintendent or Purchasing Agent if they ever bought a good key at such a low price.

**TELEPHONES.** Our very best **LONG DISTANCE TELEPHONE OUTFIT** will be furnished to operators for \$9.00. There is no better telephone outfit to be purchased, or rented that outclasses this instrument. We make everything in the Electrical line and are quoting operators our lowest prices.

## EUREKA TELEGRAPH OUTFIT

**Outfit Complete With Battery, \$2.25.**  
**(Without Battery, \$1.75.)**

**The Eureka Instrument with MESCO Dry Battery for home practice, \$1.95.** Always remove the circuit breaker when dry battery is used to prevent possibility of continuous closed circuit.

If goods are to be sent C. O. D. one third of the amount must be remitted with order or express charges guaranteed by express agent.

### DESCRIPTION.

The Eureka Learner's Outfit, as shown by illustration, is a first-class, full size telegraph set. All of the working parts—which includes key lever, sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. The key is of the curved lever pattern, and sounder gives a loud and clear sound, equal to the best expensive instrument—or, we will furnish steel lever if preferred.

### THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

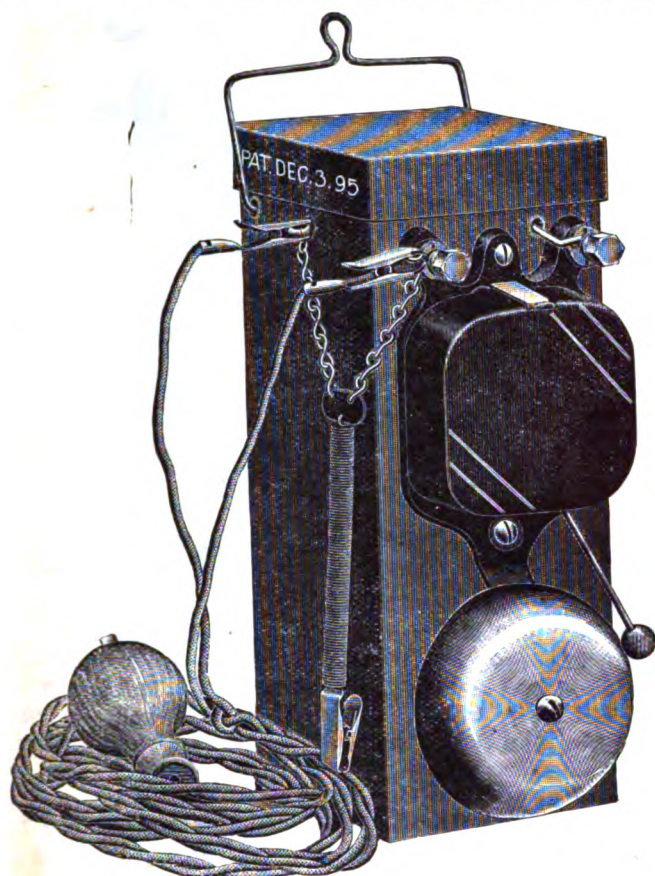

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.....	\$2.25
Eureka instrument only (no battery or wire), for short lines.....	1.75
Eureka instrument only, wound for lines 1 to 15 miles.....	2.00
Postage on instrument only (battery not mailable).....	.40

We claim this the best low priced telegraph set ever made. It's one of our specialties, and made in large quantities.

**MANHATTAN ELECTRICAL SUPPLY CO.**  
**32 CORTLANDT STREET, NEW YORK.**

# COMBINATION PORTABLE CALL-BELL OUTFIT AND ELECTRIC ALARM CLOCK ATTACHMENT.

**AS AN ALARM ATTACHMENT.**—The spiral spring (see illustration) has a spring clasp at the end. It is only necessary to press on the clasp to attach it—the same to remove it. The clasp can be attached to the winding key of any Mechanical Alarm Clock. When the alarm goes off, the two chains, as shown in cut, are twisted together, make an electrical contact and the Bell rings until the clasp is removed from the key or winding lever. There will be no oversleeping when the Alarm goes off, as it is necessary to get out of bed to stop it by removing clasp.

**AS A CALL BELL.**—We supply six yards of double flexible conducting cord, to one end of which is attached a pear shaped push button, to hang at the bed-side or any convenient place. The opposite ends are provided with two spring clasps, the same can be connected or detached in a jiffy. Can be used for many purposes, in the office, at the bedside, for the dining room, connecting adjoining rooms, etc., etc.

**This is the best and cheapest outfit of this description ever offered.**

**CONSISTS OF :—**One first-class electric bell; one cell MESCO Dry Battery, case for same covered, imitation leather, with swinging wire loop for hanging on nail, etc.; clasp and spiral spring connection for attaching to Mechanical Alarm Clock; 18 feet double flexible conducting cord with pear shape push button at one end and spring clasp connectors at other end.

**ALL FOR \$1.00.**

Discount on the above in quantities of one dozen or more, 10 per cent.

## NEW No. 4 HOME MEDICAL APPARATUS

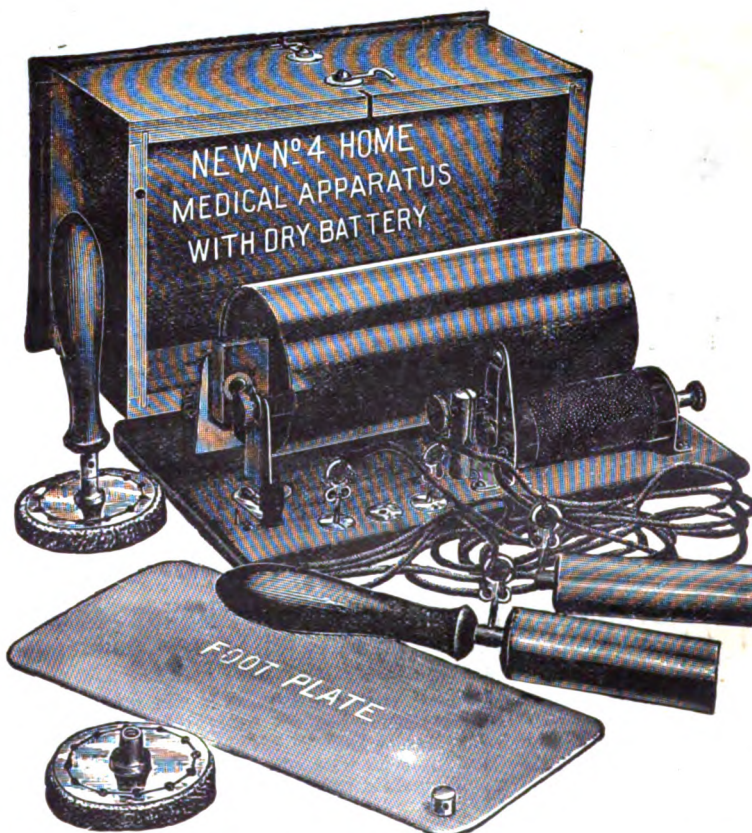

**WITH DRY MESCO BATTERY.**

For physician or patient, home use or traveling, this is the best and most convenient form of Medical Battery ever produced.

Its currents are smooth and even, and their strength can be graded from the mildest perceptible to a power that few can endure.

The complete battery is contained in an elegant, highly polished mahogany or oak case, having a strong, handy, nickel-plated handle. The dimensions of the case are  $9 \times 5\frac{1}{4} \times 4\frac{1}{2}$  inches, and its weight, complete with Cell and Electrodes is about  $5\frac{1}{2}$  pounds.

Physicians prescribing applications of the Faradic current for patients, personally, at home, or by nurse, under specific direction, will find much satisfaction in using this form of apparatus, inasmuch as, from its simplicity and entire absence of acids or liquids, it is particularly suited to the use of those who are entirely unfamiliar with the care and precautions necessary for handling the ordinary acid batteries.

**PRICE, COMPLETE, (as shown in Illustration) \$3.00.**

The New No. 4 Home Medical Apparatus. Case open at lower compartment, showing the entire apparatus, with Battery, Coil and Electrodes complete.

**Manhattan Electrical Supply Co., 32 Cortlandt St., New York.**

# J. H. BUNNELL & CO.'S STEEL LEVER SOLID TRUNNION KEYS.

OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

**THE BUNNELL STEEL LEVER KEY** is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is only one-half the weight of the ordinary brass lever as generally made.

The entire Lever and Trunnions together being made of but one piece of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of hardened platina points, sticking is absolutely prevented.

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

• Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

PRICE,  
1.75.

**LEGLESS PATTERN STEEL LEVER KEY**

New Form with Open Base.

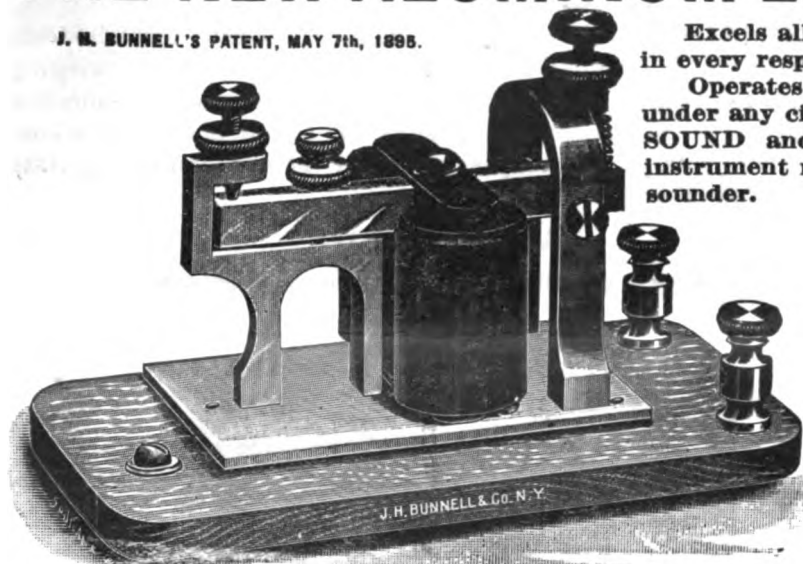

A beautiful and perfect Key suitable for use on Fine Desks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

## THE NEW ALUMINUM LEVER GIANT SOUNDER

J. H. BUNNELL'S PATENT, MAY 7th, 1895.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the FINEST and BEST SOUNDER ever designed.

Operates with ONE CELL only of LOCAL, having no need whatever under any circumstances for the use of two cells. The MARGIN of SOUND and STRENGTH and QUICKNESS with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, . . . . . \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length, \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

## NEW GIANT SOUNDER, 20 OHMS RESISTANCE, AND STEEL LEVER KEY COMBINATION SET,

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. Price, \$4.50. Sent by mail to any distance, carefully boxed, and PREPAID by us, on receipt of the above price.

Same set, but wound to 3 ohms (local), \$4.00.

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine LEARNERS' OUTFIT, \$4.75.

## The New Departure Learners' Outfit....

### WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.

The IDEAL SET for HOME PRACTICE. Always Ready. NEAT, CLEAN, ATTRACTIVE.

The INSTRUMENT is our well-known "MORSE LEARNERS' APPARATUS" with STEEL LEVER KEY, arranged for use with our "MASCOT DRY BATTERY."

The "circuit-closer" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "circuit-closer" detached the Mascot Battery should last for several months' practice. The "circuit-closer" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

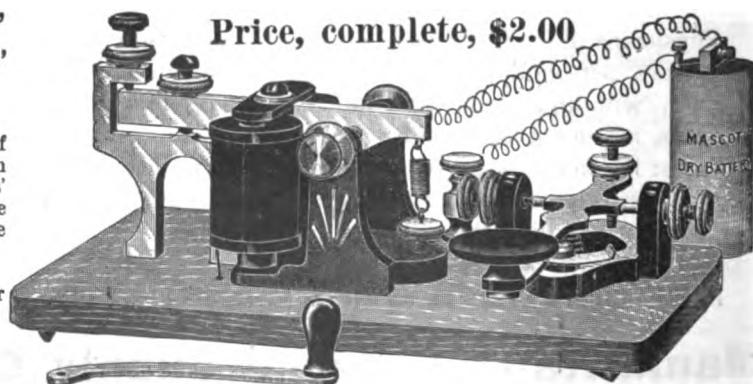

Instruction Book goes free with each outfit.

The complete outfit, packed in a wooden box, weighs about 7 lbs.

Shipped by express to any address on receipt of \$2.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 224 pages, sent on receipt of your business card. These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 50 cents. The Mascot Dry Battery, which too heavy for mailing economically can be obtained at all hardware and electrical supply stores for 50 cents or less.

Price, complete, \$2.00

# JOURNAL OF THE TELEGRAPH.

VOL. XXXI.

NEW YORK, MARCH 20, 1898.

WHOLE NO. 537.

## QUARTERLY REPORT OF THE WESTERN UNION TELEGRAPH COMPANY, FOR THE QUARTER ENDING MARCH 31st, 1898.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, March 9th, 1898.

The following statement exhibits the condition of the Company at the close of the quarter ended December 31st, 1897 :

Surplus October 1st, 1897, as per last Quarterly Report.....	\$7,910,001 61
Net revenues, quarter ended December 31st, 1897 .....	1,553,514 35
	\$9,463,515 96
From which deducting for—	
Dividend of 1¼ per cent. paid January 15th.....	\$1,315,976 95
Interest on bonded debt.....	323,399 88
	\$1,440,376 08
Left a surplus January 1st, 1898.....	\$8,023,139 88
Surplus January 1st, 1898, as above .....	\$8,023,139 88
The net revenues of the quarter ending March 31st, inst., based upon nearly completed returns for January, partial returns for February and estimating the business for March, will be about.....	1,900,000 00
	\$9,923,139 88
From which appropriating for—	
Interest on bonds.....	\$324,420 00
Working fund.....	9,991 00
	\$34,411 00
	\$9,958,538 88
It requires for a dividend of 1¼ per cent. on capital stock issued, about.....	1,916,980 00
Deducting which leaves a surplus, after paying dividend, of.....	\$7,771,548 88

In view of the preceding statements, the Committee recommend the adoption by the Board of the following:

*Resolved*, That a dividend of one and one-quarter per cent. on the capital stock of this Company be hereby declared payable on and after the 15th day of April next, to stockholders of record at the close of the transfer books on the 18th day of March, instant.

*Resolved*, That for the purpose of the dividend hereinbefore declared, the stock books of the Company be closed at three o'clock on the afternoon of the 18th day of March, instant, and be reopened on the morning of the 1st day of April next.

Respectfully submitted,

THOMAS T. ECKERT, President.

An official estimate of the population of Greater New York, by the Health Department is as follows: Number of persons in all five boroughs, 3,438,899, of which 1,911,755 are in the borough of Manhattan; 137,075 in the Bronx; 1,197,100 in Brooklyn; 128,043 in Queens and 64,927 in Richmond. London, by the census of 1891, had 4,231,000 inhabitants, so that New York is about a million less.

## DENIS DOREN.

DENIS DOREN died of apoplexy at Norwalk, Ohio, February 25, 1898. Born in Ashland County, Ohio, February 13, 1830, in about 1850, under J. H. Wade, he entered the telegraph service, with which he was thereafter associated for nearly fifty years.

In the early days of the telegraph, he aided in the construction of many of the pioneer lines in Ohio and Indiana. During the Civil War he was Superintendent of the Military Telegraph Construction Corps of the Department of the Potomac, rendering "meritorious and valuable service" to the government. After its close, he was for about ten years Superintendent of Construction of the Eastern Division of the Western Union Telegraph Company; and for the past seventeen years he has been the General Superintendent of Construction of that Company. For six years between 1875 and 1881 he occupied the same position with the Atlantic & Pacific and American Union Telegraph Companies—and in the early part of 1881 was President of the American Cable Construction Co.

He was about to start to take a train at Norwalk, Ohio, to begin an extended inspection trip throughout the Southern Division, when suddenly he was stricken and died at once.

In the telegraph service, no one had a larger acquaintance than he had, and no one was more esteemed, or more beloved. He was a true and staunch friend. Unassuming, benevolent and amiable, he did good by stealth; and was ever a peacemaker, never a trouble maker. He served the great corporation with which he was so long connected with energy, fidelity and devotion. His funeral took place at Norwalk, Ohio, on Sunday, February 27th, and was attended by a large number of the principal Officers and Superintendents of the Western Union Co., assembled there from all directions. May he rest in well earned peace.

JOHN C. VAN DUZER died at Escanaba, Mich., on February 3d, 1898, aged 71 years. A well-known and highly esteemed old-time telegrapher, he first entered the telegraph service in 1848 on what was known as Speeds lines.

Later he served with the Western Union Co. and the Erie R. R. Co., but at the outbreak of the Civil War entered the Federal service in the South West, becoming Asst. Supt. U. S. Military Telegraph of the Department of the Cumberland, commissioned Captain and Asst. Quartermaster, and later Chief of the U. S.

Military Telegraph in the South-West, promoted to Lieutenant-Colonel. Energetic and courageous, he with fidelity zealously served his country. His death will be mourned by many who held him in affectionate remembrance.

## TELEGRAPHERS MUTUAL BENEFIT ASSOCIATION.

IN our last issue the publication of the official examination into the affairs of the Telegraphers Mutual Benefit Association has attracted considerable interest in the telegraph fraternity, and as a result the Secretary's office has been called upon to answer many inquiries respecting the association.

Several of the parties interested have joined the association and are now enjoying its advantages.

Since our last, the regular examination, as provided by the Constitution and By-Laws, was made of the business of the first quarter of the fiscal year, and a gratifying increase in both assets and membership over same last year is shown.

Every person employed in telegraph or telephone service in good health, between the ages of 18 and 45, is eligible for membership and the cost is within the reach of all.

THE Western Union Telegraph Co. and the Mutual District Messenger Co. recently removed to their new offices in Washington, D. C., on the corner of F and Fourteenth Streets.

The main Operating Department of the Western Union Co., which is located on the sixth floor, is twenty-two feet in height and is lighted by thirty-five windows. It has two galleries, one of which is occupied by the Commercial News Department and the other by the clerks and file cases, and it contains one hundred and forty typewriter tables, with resonators also, fourteen polar duplex sets, twelve quad sets, and twenty repeaters. The main switch board accommodates two hundred and fifty wires, besides which there is a loop switch. The receiving room of the Western Union Co. is on the first floor. On the fifth floor is the office of Manager Marean, storage battery, wardrobe rooms, and a large emergency operating room. All the appointments are of advanced type.

A new cable steamer is being built in England capable of carrying 6,000 tons of cable. This is twice the capacity of the present largest cable steamer.

## JOURNAL OF THE TELEGRAPH.

PUBLISHED MONTHLY, ON 20TH OF EACH MONTH, AT  
195 BROADWAY.

THE JOURNAL is issued on the 20th of each month. Its circulation is nearly 25,000 and is steadily increasing. It goes to every State, Territory and Province on the Continent, and is delivered to all the offices of the Western Union Telegraph Company, which now exceed 21,000 in number. Hence it is the best advertising medium of its class in the world.

NEW YORK, MARCH 20, 1898

All remittances by Western Union Superintendents, Managers and Cashiers heretofore made to R. H. Rochester, Treasurer, New York, should until further notice be made and be made payable to M. T. Wilbur, Assistant Treasurer, New York.

UNITED STATES Government telegrams that are filed for transmission by Army officers, on the War Department—Official Telegram form (on blue paper, and certified as on Official Business by the officers sending them) should always be checked "Paid" Govt. rate; but no cash payment required for them from the sender. Each such certified telegram is always a sufficient voucher for the government rate charges due upon it

September 1, 1895.

## TO ALL WESTERN UNION MANAGERS:

Particular attention is called to the third remark under Rule 2, which says:

"The importance of the address (of a message) cannot be over-estimated. When the address given seems insufficient, a better one should be requested."

Insufficient addresses not only put customers to inconvenience from the delay necessary to obtain additional particulars, but they create expense to the Company in the use of the wires for the transmission of service messages, and sometimes in the defence of suits arising from claims for damages.

Managers and receiving clerks are therefore requested to keep the rule well in mind and to give the subject particular attention as occasion demands.

THOS. T. ECKERT,  
President and General Manager.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, November 20, 1897.

## NOTICE TO MANAGERS OF WESTERN UNION AND INTERNATIONAL OCEAN TELEGRAPH COMPANIES OFFICES.

ATTENTION is called to the growing improper practice of checking "Collect," messages which are answers to free messages received. Such answers should be checked "D. H. ans. to D. H." When checked "Collect," payment is refused by the Receivers, on the ground that they are answers, and should be charged to their franks; thereby causing extra trouble to the delivery office, and confusion in book-keeping, and making up the monthly Paid and Free Reports.

THOS. T. ECKERT,  
President and General Manager.

NEW YORK, March 20, 1897.

## To all Western Union Managers:

The attention of managers is called to the necessity for insisting upon the requirement of Rule 4, that all unpronounceable groups of letters shall be counted one word for each letter. Some senders of messages claim that such groups as *Opr, Chd, Was*, which are combinations of the initials of the names of firms or corporations, shall be counted as one word each.

These claims cannot be admitted, and each letter in such combinations must be counted as one word.

THOS. T. ECKERT,  
President and General Manager

A MESSAGE sent "collect," reported as "un collectible," and collected for by sending office from its sender, should always be booked and reported as it was originally checked—and should never be booked and reported as if checked "paid." See Rule 69 Western Union Book of Rules. The amount collected from sender should be reported in the Form No. 4 Report as Receipts for "Guaranteed Messages"—and should not be reported as "Telegraph Receipts."

GOVERNMENT telegrams that Army Officers send, not written upon the (blue) official form furnished by the Quartermaster General, should invariably be paid for by their senders—but, government telegrams that Army Officers send, written upon the (blue) official form furnished by the Quartermaster General, should be accepted without payment by their senders, and being transmitted checked "paid gov't. rate," should (unless otherwise specially directed) be taken credit for in, and turned in as voucher for such credit) with, the monthly Form No. 4 Report.

The foregoing applies only to government telegrams of Army Officers, and does not apply to other government telegrams.

All Weather Bureau telegrams should also be accepted without payment by their senders and being transmitted checked "paid gov't. rate" should also be taken credit for in, and turned in with, the monthly Form No. 4. Report.

TREASURER'S OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, January, 1898.

To Superintendents: I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

First. Every remittance to the treasurer must be accompanied by a letter of transmittal written upon blank No. 65, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, the amount of such expense must be reported, like any other item, in the monthly account current (form 4). Vouchers for such expense must not be sent to the treasurer as cash.

The actual amount of cash remittance only should shown on blank 65.

Second. Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5.00, 5 cts.	Over \$40.00 to \$50.00, 15 cts.
Over \$5.00 to 10.00, 8 cts.	Over 50.00 to 60.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over 60.00 to 75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over 75.00 to 100.00, 30 cts.
Over 30.00 to 40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (excepting where bank drafts can be obtained at less expense.)

Third. If neither bank draft nor express money order can be obtained, post office money order should be forwarded.

Fourth. If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

Fifth. If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

Sixth. Drafts, express money orders and post office money orders must be made payable to M. T. Wilbur, Assistant Treasurer, and sent by mail. They must not be made payable to M. T. Wilbur without the title.

Seventh. The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

Eighth. The large envelope, Form 124, should be used only for making remittances by express.

Ninth. Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

M. T. WILBUR, Asst. Treasurer.

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY.  
NEW YORK, March 30, 1898.

The following list of "changes" corrects the Tariff Book of January, 1898, to date. Changes in the list of "New Offices" are not included.

The hand **✱** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices," which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Toledo Junc., Ohio, which was formerly a single star "other" line office but which is now a Western Union office in Square 191.

See Special Notices at end of this circular.

## CABLES.

The rate to Wladivostock, Russia in Asia, *via Siberia*, is same as to 2d Region East of Warkhne Oudinsk given on page 432 of Tariff Book, viz.: 31 cents per word beyond London.

Erase from page 434 of Tariff Book the rate beyond Havana to Santiago, and enter Santiago on page 439 as 73 cents per word from W. Union offices east of the Mississippi River, and 83 cents per word from offices west of the Mississippi River.

For changes in rates to Jamaica and other places in West Indies, see page 439 of January 1898 Tariff Book.

Cable communication has been established with Turks Island in the Bahamas. Rate, 27c per word less than to Bermuda given on page 427 of Tariff Book.

## SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 192), Catskill Mountains (page 196), and Lake George (page 204.) When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc., do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own state.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month,

so that the information may be in the hands of all offices on that date.

Ocean Steamers. The arrival of any Steamship at the Port of New York will be reported to any address during the Company's usual office hours for \$1.00, and the tolls on a ten word day message to New York, N. Y. The \$1.00 to be accounted for as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City. This order does not apply to New York City, Brooklyn, Hoboken or Jersey City.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated as night message offices in the Tariff Book.

Offices having special rates, should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 423 to 439, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 373 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

THOMAS T. ECKERT,  
President.

## TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, March 18, 1898.

## To All Transfer Agents and Offices:

The transfer service has been resumed at Yazoo City, Miss., and temporarily discontinued at Elwood, Ind., Mechanics Falls, Me., and New Castle, Ind.

The transfer service was temporarily discontinued at Waycross, Ga., on February 21st, and resumed on February 28th.

The transfer service has been permanently discontinued at Ellensburg, Wash., and the name should be stricken from the list of transfer offices in the Tariff Book.

On March 15th, St. Joseph, Mich., was advanced from Class D, to Class C, transfer office.

On March 21st, Freeport, Ill., will be advanced from Class D, to Class C, transfer office.

On April 1st, Frederickton, N. B., will be added to the list of Class D, transfer offices in D. C. Dawson's district.

Journal, January 20th, says, Frank B. Steele appointed Transfer Agent at San Francisco, Cal., it should read Frank R. Steele.

The following errors appear in the January Tariff Book:

Clinton, Mo., Class E., L. C. Faker. Joplin, Mo., Class F., T. P. Cook. Junction City, Kas., Class F., J. J. Dickey.

It should read:

Clinton, Mo., Class E., T. P. Cook. Joplin, Mo., Class E., T. P. Cook. Junction City, Kas., Class E., J. J. Dickey.

Managers should correct their lists accordingly.

On May 1st, the following changes will take effect:

A new Transfer Agency will be established at Denver, Col., and placed in charge of B. Brooks. The following named offices, now in J. J. Dickey's district, will be transferred, on the date named, to the new district, and all transfers for such offices, on and after that date, will be addressed to B. Brooks, Denver, Col., viz:

Albuquerque, N. M.	Greeley, Col.
Aspen, Col.	Las Vegas, N. M.
Butte, Mont.	Leadville, Col.
Canon City, C. 1.	Manitou, Col.
Cheyenne, Wy.	Ogden, Utah.
Colorado Springs, Col.	Ouray, Col.
Cripple Creek, Col.	Pueblo, Col.
Denver, Col.	Salt Lake, Utah.
Durango, Col.	Santa Fe, N. M.
El Paso, Tex.	Silverton, Col.
Glenwood Springs, Col.	Telluride, Col.
Grand Junction, Col.	Trinidad, Col.
	Victor, Col.

New Transfer districts, comprising one office each, will be established at:

Albany, N. Y.	Kansas City, Mo.
Atlanta, Ga.	Los Angeles, Cal.
Augusta, Ga.	Milwaukee, Wis.
Brooklyn, N. Y.	Minneapolis, Minn.
Cleveland, Ohio.	Nashville, Tenn.
Columbus, Ohio.	Newark, N. J.
Dallas, Tex.	Omaha, Neb.
Detroit, Mich.	Portland, Ore.
Duluth, Minn.	Providence, R. I.
Ft. Worth, Tex.	Rochester, N. Y.
Galveston, Tex.	Savannah, Ga.
Grand Rapids, Mich.	St. Paul, Minn.
Indianapolis, Ind.	Syracuse, N. Y.
	Toledo, Ohio.

The twenty-seven offices named above will be transferred to the new districts, and transfers for such offices will, on and after May 1st, be addressed as follows:

Albany, N. Y., M. L. Morgan.
Atlanta, Ga., J. C. Courtney.
Augusta, Ga., J. M. Crowley.
Brooklyn, N. Y., W. G. Magowan.
Cleveland, Ohio, Isaac Morris.
Columbus, Ohio, S. M. Dunlap.
Dallas, Tex., G. M. Baker.
Detroit, Mich., M. S. Corbett.
Duluth, Minn., G. E. Fletcher.
Fort Worth, Tex., E. L. Otto.
Galveston, Tex., J. C. Smith.
Grand Rapids, Mich., C. A. Elster.
Indianapolis, Ind., M. D. Butler.
Kansas City, Mo., M. D. Wood.
Los Angeles, Cal., E. A. Beardslee.
Milwaukee, Wis., A. Weller.
Minneapolis, Minn., J. P. Cassidy.
Nashville, Tenn., J. W. Fisher.
Newark, N. J., J. A. Hill.
Omaha, Neb., W. W. Ulmsted.
Portland, Ore., W. Dumars.
Providence, R. I., P. S. Carey.
Rochester, N. Y., G. D. Butler.

St. Paul, Minn., W. A. Rudd.  
Savannah, Ga., L. J. Maxwell.  
Syracuse N. Y., J. E. Bierhardt.  
Toledo, Ohio, F. M. Greene.

THOS. T. ECKERT,  
President.

Western Union Telegraph Company,

New York, March 9, 1898.

### DIVIDEND NO. 118.

THE Board of Directors have declared a quarterly dividend of **ONE AND ONE-QUARTER PER CENT.** upon the capital stock of this company, payable at the office of the Treasurer on and after the 18th day of April next, to shareholders of record at the close of the transfer books on the 18th day of March instant.

The transfer books will be closed at 3 o'clock on the afternoon of March 18th inst., and reopened on the morning of April 1st next.

M. T. WILBUR,  
Assistant Treasurer.

Fully Nickel Plated, 15 cents extra, either style.

## NEW No. 4 HOME MEDICAL APPARATUS

**WITH DRY MESCO BATTERY.**

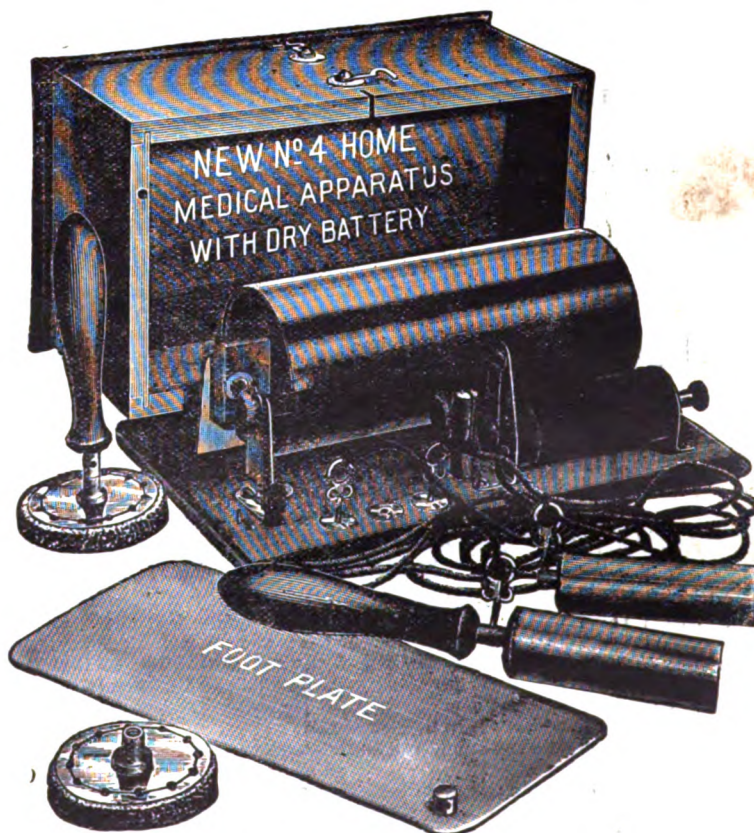

For physician or patient, home use or traveling, this is the best and most convenient form of Medical Battery ever produced.

Its currents are smooth and even, and their strength can be graded from the mildest perceptible to a power that few can endure.

The complete battery is contained in an elegant, highly polished mahogany or oak case, having a strong, handy, nickel-plated handle. The dimensions of the case are 9 x 5¼ x 4½ inches, and its weight, complete with Cell and Electrodes is about 5½ pounds.

Physicians prescribing applications of the Faradic current for patients, personally, at home, or by nurse, under specific direction, will find much satisfaction in using this form of apparatus, inasmuch as, from its simplicity and entire absence of acids or liquids, it is particularly suited to the use of those who are entirely unfamiliar with the care and precautions necessary for handling the ordinary acid batteries.

**PRICE, COMPLETE, (as shown in Illustration) \$3.00.**

The New No. 4 Home Medical Apparatus. Case open at lower compartment, showing the entire apparatus, with Battery, Coil and Electrodes complete.

**Manhattan Electrical Supply Co., 32 Cortlandt St., New York.**

100 Page Pamphlet of Bicycle, Photographic and Electrical Supplies **FREE.**

Our Regular Electrical Supply Catalogue, 304 Pages (just issued), mailed on receipt of ten cents.

**STEEL LEVER****SOLID  
TRUNNION****KEYS.**

OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

**THE BUNNELL STEEL LEVER KEY** is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is only one-half the weight of the ordinary brass lever as generally made. The entire Lever and Trunnions together being made of but one piece of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of hardened platina points, sticking is absolutely prevented.

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

\* Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

**LEGLESS PATTERN STEEL LEVER KEY**  
New Form with Open Base.

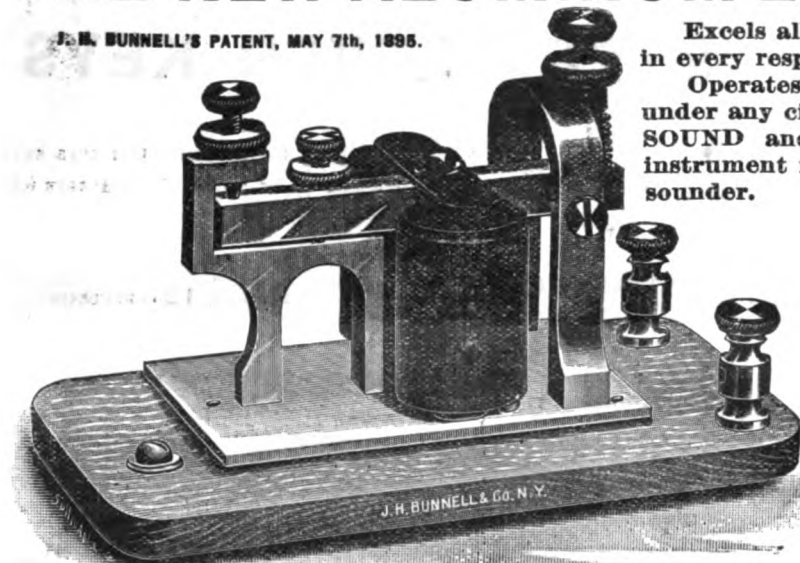

A beautiful and perfect Key suitable for use on Fine Desks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

**THE NEW ALUMINUM LEVER GIANT SOUNDER**

J. H. BUNNELL'S PATENT, MAY 7th, 1895.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the FINEST and BEST SOUNDER ever designed.

Operates with ONE CELL only of LOCAL, having no need whatever under any circumstances for the use of two cells. The MARGIN of SOUND and STRENGTH and QUICKNESS with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main Line use (without relay) on lines up to 15 miles in length, \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

**NEW GIANT SOUNDER, 20 OHMS RESISTANCE,  
AND STEEL LEVER KEY**

**COMBINATION SET,**

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced Price, \$4.50. Sent by mail to any distance, carefully boxed, and PREPAID by us, on receipt of the above price.

Same set, but wound to 8 ohms (local), \$4.00.

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine LEARNERS' OUTFIT, \$4.75.

**The New Departure Learners' Outfit....**

**WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.**

The IDEAL SET for HOME PRACTICE. Always Ready. NEAT, CLEAN, ATTRACTIVE.

The INSTRUMENT is our well-known "MORSE LEARNERS' APPARATUS" with STEEL LEVER KEY, arranged for use with our "MASCOT DRY BATTERY."

The "circuit-closer" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "circuit-closer" detached the Mascot Battery should last for several months' practice. The "circuit-closer" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

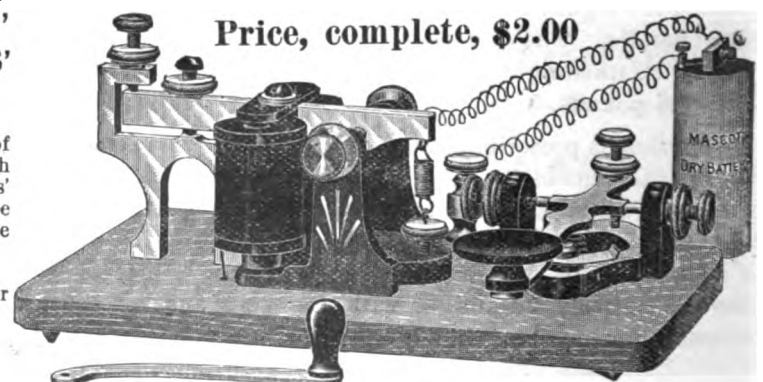

Instruction Book goes free with each outfit.

The complete outfit, packed in a wooden box, weighs about 7 lbs.

Shipped by express to any address on receipt of \$2.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 224 pages, sent on receipt of your business card. These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 50 cents. The Mascot Dry Battery, which too heavy for mailing economically can be obtained at all hardware and electrical supply stores for 50 cents or less.

Price, complete, \$2.00

## RAILROAD MANIFOLD FOUNTAIN PENS MADE IN TWO SIZES

Large  
Size.

PRICE,  
\$2.50.

Fitted with large size platinum (alloyed with iridium) tipped (regular diamond point), ball pointed gold pens, with hard, stiff nibs, made especially for Railroad Manifold—works equally well with copying ink or ordinary writing fluid. Unconditionally guaranteed satisfactory or money refunded. For Agents' work on Expense Bills, Transfers, O. S. and D. Reports, Claims, Etc., Etc. For Telegraphers, in copying direct from the wire, all work wanted in duplicate. For Conductors, Wheel and other reports, correspondence, etc. For Train and Station Baggage men, in fact all classes of Railroad Men. Enormous Sales for this pen already assured. Now is the time for Operators with a moment's spare time to supply Railroad Agents, Clerks, Conductors, etc., with this pen.

The early bird catches the worm. Write to-day for catalogue, Agents' terms, prices, etc. (A postal card will do it.) Remember this is the success of the century. Address

WHOLE NO. 538.

## THE IMPORTANT PART THAT ELECTRICITY WILL PLAY IN WAR.

INVENTIONS inspired by the war excitement are pouring into the Patent Office from all over the country. That "infernal Yankee ingenuity," of which foreigners speak, has been stimulated to a high pitch by the expectation of hostilities, and it is not unlikely that some of the novel devices now being evolved may prove to possess very practical value in the approaching conflict. Quite a number of them employ electricity as an agent of destruction, and among these are various patterns of electric guns, electric projectiles, and electrically actuated torpedoes.

The direct employment of electricity as a weapon, in imitation of nature's lightning, is a problem that is believed by some experts to be on the point of solution. Without going so far as to endorse this assertion, Dr. Emil Berliner, the famous electrician, said yesterday:

Recent invention has produced apparatus in which a great quantity of electricity may be put away in a very little room. Contrivances of this kind, which are merely improved Leyden jars, are called condensers, and those of the latest pattern look like so many dress-suit cases, though only about one-fourth the size. They are neatly made of wood, and thousands of them can be put together in a small space. There is no limit to the electrical power which may be thus accumulated and made ready for discharge. A few of these condensers will hold many times as much electricity as is contained in a celestial thunderbolt. Indeed, a bolt of lightning contains no great amount of the fluid; it is the voltage that is big. By voltage is meant propelling force.

Summed up, this means that a fighting ship to-day may carry on her deck a store of actual lightning sufficient in quantity to wipe out a whole fleet. It only remains to learn from nature or to devise a way of discharging it at the foe. Where would Spain's dreaded torpedo-boat destroyers be if assailed by such a terrific agent of mischief? A flash of electricity would burn them up quicker than a wink. One of the new ideas is for an electric bomb, which is to contain a stored charge of lightning, to be distributed with fearful havoc on striking. The projectile is to be attached by a copper wire to a powerful dynamo at the firing station. Being fired, it will carry the wire with it, and through the wire the exploding current will be sent when the bomb has alighted on a hostile ship.

Examiner Seely, chief of the Division of Electricity at the Patent Office, has devised an electrical gun for throwing a continuous stream of projectiles containing high explosives. The weapon is a tube composed of a series of wire coils, and it is fed with the explosive shells from a hopper. Along the tube runs a copper channel, and

wires are so attached as to connect the two ends of the gun with a battery. The contrivance is very simple, being of the sort known to electrical experts as a "solenoid." The spherical projectile, as it runs through the tube, closes the circuit at a series of points and obtains a steadily augmented velocity, being finally projected from the mouth of the gun with force enough to throw it six miles.

A gun of this description, concealed behind a hill or embankment, could project a steady rain of bursting projectiles upon ships at sea, or into a fort occupied by the enemy. It would be silent as well as invisible, no report and no smoke accompanying its discharge. Of course there would be no danger of the bursting of a projectile in the tube—that peril always so dreaded when dynamite is used in guns—because the shell would receive no shock in being thrown.

Two inventors of Russian birth, named Bernados and Olszewski, have offered a scheme by which steel ships may be bored as full of holes as so many colanders. It is perfectly practicable, too, apparently. There are various ways in which it might be carried out, but, preferably, a submarine boat is employed. Having arrived at a point immediately beneath the vessel that is to be attacked, the operator attaches a copper wire to her bottom. The wire is connected with a powerful battery, and to the latter is also hitched a second wire, which terminates in a carbon stick, such as is used for arc lights. Taking this stick in his hand, the operator holds it close to the ship's bottom, though not quite in contact, and the current being turned on, the metal melts and runs like so much wax. Only a short time is required to bore a great many holes, and the first thing the Spaniards know is that their vessel is a sieve, taking water into every compartment.

There are several new inventions which have for their object the substitution of the electric spark for the detonating cap in rifle cartridges. One of these is the idea of J. K. G. Gavitt, a Philadelphia man. It is a magazine gun, with a small storage battery in the stock. Each cartridge for this species of weapon has two little wires, the points of which project out of the rear end. When the trigger is pulled, these points are brought into contact with a couple of wires that communicate with the battery, closing a circuit. The closing of the circuit sends a spark to the powder contained within the cartridge, which is thus fired.

Capt. E. L. Zalinski, U. S. A., the well-known inventor of the pneumatic dynamite gun, has contrived a flying torpedo, which is calculated to work a lot of mischief, containing, as it does, a quantity of high explosives, together with an electric battery to set them off when the proper moment arrives. The battery is of a chemical nature, and the chemicals are put into it dry. So long as they remain dry no electrical action is excited and the apparatus

is harmless. Thus the projectile may be fired by a gun with perfect safety. It is intended to be thrown into the water near a hostile ship. A hole in the shell is plugged with gelatine, which is presently melted, and the water entering energizes the battery, exploding the torpedo and distributing the enemy's vessel over the briny waves in fragments not too large for kindling.

Another sort of use for which projectiles of this kind are recommended is the clearing away of set torpedoes in harbors. Being thrown ahead of a ship, they may be so timed as to burst soon after reaching bottom, exploding any mines that obstruct the channel. It is said that 100 pounds of dynamite thus applied will destroy all torpedoes or break the connecting wires on which they depend for their efficiency within a radius of 100 feet. A serious problem that is sure to confront the naval forces of the United States early in the coming war is the clearing out of the mines with which the harbor of Havana has been extensively sown within the last few days. This is likely to be accomplished with the guns of the dynamite cruiser *Vesuvius*, and the cost of the business has been estimated at \$30,000 per mile of channel.

By no means least interesting of the novel projectiles for naval use is a conical shell that has a long tail with a screw propeller on the end of it. The tail screws into the body of the contrivance, and is meant to detach itself after the shell is fired. When discharged, the projectile revolves very rapidly and continues to do so after falling into the water and while it speeds on its way through the latter element. But the propeller fans on the tail, while increasing the accuracy of the projectile's course in the air, are stopped from revolving by the water and thus cause the caudal appendage to unscrew itself rapidly and drop off. In doing this it completes an electric circuit and explodes the dynamite contained in the shell.

The new Halpine torpedo seems to be a wonder in its way. It is like a very much elongated boat, and can not only be directed from the shore at a distance of miles, but after delivering its deadly missile will turn about and return to the operator. If obstructed by a torpedo net it will turn over on its back and throw its projectile upon the deck of the vessel attacked. There is quite a variety of such "dirigible torpedoes," as they are called, one of the most notable being attachable to a float miles from shore. It is so perfectly under control that it can be released from the float by an operator on the land and started off from that point on its errand of mischief. During the last few weeks the engineers of the army have planted submarine mines in all the harbors along the Atlantic coast, and any Spanish warship that ventures in their neighborhood will be blown to smithereens by the touch of a button on shore.

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, April 30, 1898.

The following list of "changes" corrects the Tariff Book of January, 1898, to date. Changes in the list of "New Offices" are not included.

The hand **✱** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices," which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Toledo Junc., Ohio, which was formerly a single star "other" line office but which is now a Western Union office in Square 191.

See Special Notices at end of this circular.

## CABLES.

The rate to Wladivostok, Russia in Asia, via Siberia, is same as to 2d Region East of Wexhne Oudinsk given on page 432 of Tariff Book, viz.: 31 cents per word beyond London.

Braze from page 431 of Tariff Book the rate beyond Havana to Santiago, and enter Santiago on page 430 as 73 cents per word from W. Union offices east of the Mississippi River, and 83 cents per word from offices west of the Mississippi River.

For changes in rates to Jamaica and other places in West Indies, see page 430 of January 1898 Tariff Book.

Cable communication has been established with Turks Island in the Bahamas. Rate, 37c per word less than to Bermuda given on page 437 of Tariff Book.

## SPECIAL NOTICES.

Attention is called to the telegraph route to Fort Steele, B. C., given in the Tariff Book, i. e., 75 5 (50 3 N M) beyond Kalispell, Mont. It seems to have been overlooked by a number of officers, who have accepted Fort Steele messages and sent them to go by mail from Golden City, B. C.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 193), Catskill Mountains (page 196), and Lake George (page 204). When accepting messages for such localities, the receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Ocean Steamers. The arrival of any Steamship at the Port of New York will be reported to any address during the Company's usual office hours for \$1.00, and the tolls on a ten word day message to New York, N. Y. The \$1.00 to be accounted for as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

This order does not apply to New York City, Brooklyn, Hoboken or Jersey City.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated as night message offices in the Tariff Book.

Offices having special rates should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collected" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 423 to 439, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 878 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

THOMAS T. ECKERT,  
President.

## TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, April 18, 1898

## To All Transfer Agents and Offices:

The transfer service has been resumed at Mechanics Falls, Me., and New Castle, Ind., discontinued for the season at Palm Beach, Fla., and temporarily discontinued at Drifton, Pa., Iron Mountain, Mich., and Salisbury, N. C.

The transfer service has been permanently discontinued at Port Gibson, Miss., and the name should be stricken from the list of transfer offices in the Tariff Book.

On May 1st, Charlevoix, Mich., will be added to the list of Class E, transfer offices in C. Corbett's district.

Notice in Journal of March 20th. relating to St. Joseph, Mich., should read, On March 15th, St. Joseph, Mich., was added to the list of Class C, transfer offices in C. Corbett's district, instead of being advanced from Class D, to Class C.

Managers will correct their lists accordingly. On May 1st, the following changes will take effect:

A new Transfer Agency will be established at Denver, Col., and placed in charge of A. M. Fisher. The following named offices, now in J. J. Dickey's district, will be transferred, on the date named, to the new district, and all transfers for such offices, on and after that date, will be addressed to A. M. Fisher, Denver, Col., viz:

Albuquerque, N. M.	Greeley, Col.
Aspen, Col.	Las Vegas, N. M.
Boulder, Col.	Leadville, Col.
Butte, Mont.	Manitou, Col.
Canon City, Col.	Ogden, Utah.
Cheyenne, Wyo.	Ouray, Col.
Colorado Springs, Col.	Pueblo, Col.
Cripple Creek, Col.	Salt Lake, Utah.
Denver, Col.	Santa Fe, N. M.
Durango, Col.	Silverton, Col.
El Paso, Tex.	Telluride, Col.
Glenwood Springs, Col.	Trinidad, Col.
Grand Junction, Col.	Victor, Col.

New Transfer districts, comprising one office each, will be established at:

Albany, N. Y.	Kansas City, Mo.
Atlanta, Ga.	Los Angeles, Cal.
Augusta, Ga.	Milwaukee, Wis.
Brooklyn, N. Y.	Minneapolis, Minn.
Cleveland, Ohio.	Nashville, Tenn.
Columbus, Ohio.	Newark, N. J.
Dallas, Tex.	Omaha, Neb.
Detroit, Mich.	Portland, Ore.
Duluth, Minn.	Providence, R. I.
Ft. Worth, Tex.	Rochester, N. Y.
Galveston, Tex.	Savannah, Ga.
Grand Rapids, Mich.	St. Paul, Minn.
Indianapolis, Ind.	Syracuse, N. Y.
	Toledo, Ohio.

The twenty-seven offices named above will be transferred to the new districts, and transfers for such offices will, on and after May 1st, be addressed as follows:

Albany, N. Y.	M. L. Morgan.
Atlanta, Ga.	J. O. Courtney.
Augusta, Ga.	J. M. Crowley.
Brooklyn, N. Y.	W. G. Magowan.
Cleveland, Ohio.	Isaac Morris.
Columbus, Ohio.	S. M. Dunlap.
Dallas, Tex.	G. M. Baker.
Detroit, Mich.	M. S. Corbett.
Duluth, Minn.	G. E. Fletcher.
Fort Worth, Tex.	E. L. Otto.
Galveston, Tex.	J. C. Smith.
Grand Rapids, Mich.	C. A. Elster.
Indianapolis, Ind.	M. D. Butler.
Kansas City, Mo.	M. D. Wood.
Los Angeles, Cal.	E. A. Beardslee.
Milwaukee, Wis.	W. A. Stroebel.
Minneapolis, Minn.	J. P. Cassidy.
Nashville, Tenn.	J. W. Fisher.
Newark, N. J.	J. A. Hill.
Omaha, Neb.	W. W. Umsted.
Portland, Ore.	W. Dumars.
Providence, R. I.	P. S. Carey.
Rochester, N. Y.	G. D. Butler.
St. Paul, Minn.	W. A. Radd.

Savannah, Ga. .... L. J. Maxwell.  
Syracuse, N. Y. .... J. E. Bierhardt.  
Toledo, Ohio. .... F. M. Greene.

The following changes have been made in the list of Transfer Agents published in the JOURNAL for March, viz:  
Denver, Col., A. M. Fisher, instead of B. Brooks.  
Milwaukee, Wis., W. A. Stroebel instead of A. Weller.

THOS. T. ECKERT,  
President.

# Columbia Chainless Bicycles

"It has a clean cut symmetrical look  
that pleases the eye, and compared to  
which a chain wheel seems to be en-  
cumbered and complicated."

—New York Herald.

"The construction of the new chain-  
less wheel is simplicity itself."

—Boston Journal.

"Viewed from whatever standpoint,  
the new wheel represents the highest  
form of bicycle development."

—Philadelphia Ledger.

"The factory that has turned out this  
novelty is more than twice as large as  
any bicycle establishment in existence,  
and for twenty-one years has achieved  
one unbroken series of successes."

—Chicago Inter-Ocean.

"It will run longer with a single turn  
of the cranks than the easiest running  
wheel now in use."

—Philadelphia Press.

"All the driving mechanism is enclosed,  
so that it is impossible for dust to get in  
the bearings."

—New Orleans Picayune.

"The wheel runs smoothly, easily and  
is admirable in up grade work. It's a  
beauty and no mistake."

—Buffalo Commercial.

"It costs more, to be sure, but then  
good things always come high."

—Evening Gazette, Haverhill, Mass.

"The wheel is a model of grace and  
beauty."

—Baltimore American.

"Finest bicycle ever made and easiest  
to propel."

—New York Press.

**A few Victor Sounders at \$1.25.**

## STEEL LEVER KEYS

We guarantee our key to be the finest in the market. Our keys have spiral spring for adjustment—easily put up or removed. The keys will stand the test, and we will stand the price.

**WITH LEGS, - 80c.** } Postage, 12 cents extra.  
**WITHOUT LEGS, 90c.** }

**Fully Nickel Plated, 15 cents extra, either style.**

## NEW No. 4 HOME MEDICAL APPARATUS

**WITH DRY MESCO BATTERY.**

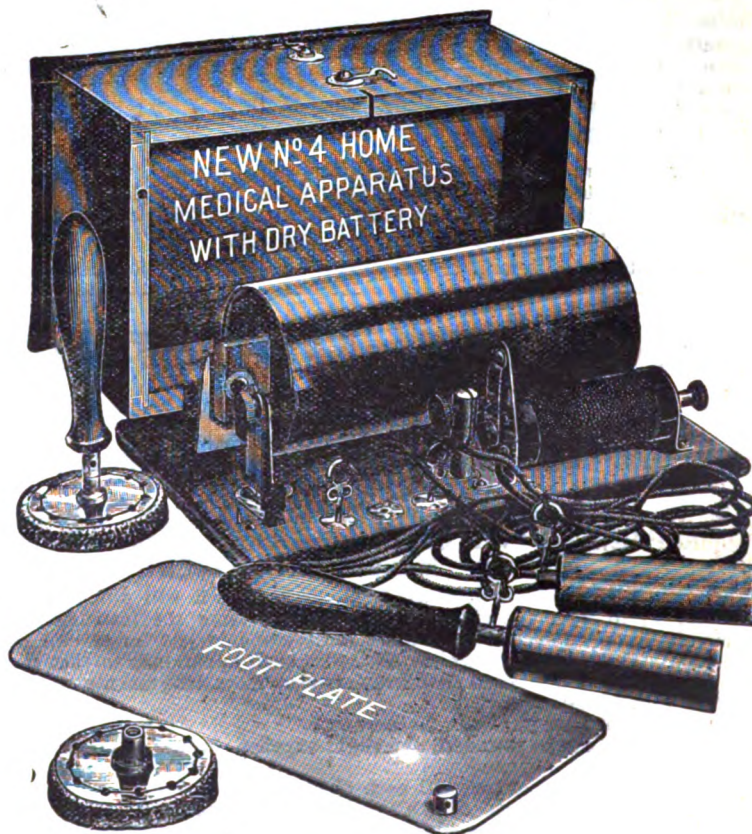

For physician or patient, home use or traveling, this is the best and most convenient form of Medical Battery ever produced.

Its currents are smooth and even, and their strength can be graded from the mildest perceptible to a power that few can endure.

The complete battery is contained in an elegant, highly polished mahogany or oak case, having a strong, handy, nickel-plated handle. The dimensions of the case are  $9 \times 5\frac{1}{4} \times 4\frac{1}{2}$  inches, and its weight, complete with Cell and Electrodes is about  $5\frac{1}{2}$  pounds.

Physicians prescribing applications of the Faradic current for patients, personally, at home, or by nurse, under specific direction, will find much satisfaction in using this form of apparatus, inasmuch as, from its simplicity and entire absence of acids or liquids, it is particularly suited to the use of those who are entirely unfamiliar with the care and precautions necessary for handling the ordinary acid batteries.

**PRICE, COMPLETE, (as shown in Illustration) \$3.00.**

The New No. 4 Home Medical Apparatus. Case open at lower compartment, showing the entire apparatus, with Battery, Coil and Electrodes complete.

**Manhattan Electrical Supply Co., 32 Cortlandt St., New York.**

**100 Page Pamphlet of Bicycle, Photographic and Electrical Supplies FREE.**

**Our Regular Electrical Supply Catalogue, 304 Pages (just issued), mailed on receipt of ten cents.**

J. H. BUNNELL &amp; CO.'S

**STEEL LEVER****SOLID  
TRUNNION****KEYS.**

OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

**THE BUNNELL STEEL LEVER KEY** is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is only one-half the weight of the ordinary brass lever as generally made.

The entire Lever and Trunnions together being made of but one piece of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of hardened platina points, sticking is absolutely prevented.

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

• Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

PRICE,  
1.75.

**LEGLESS PATTERN STEEL LEVER KEY**  
New Form with Open Base.

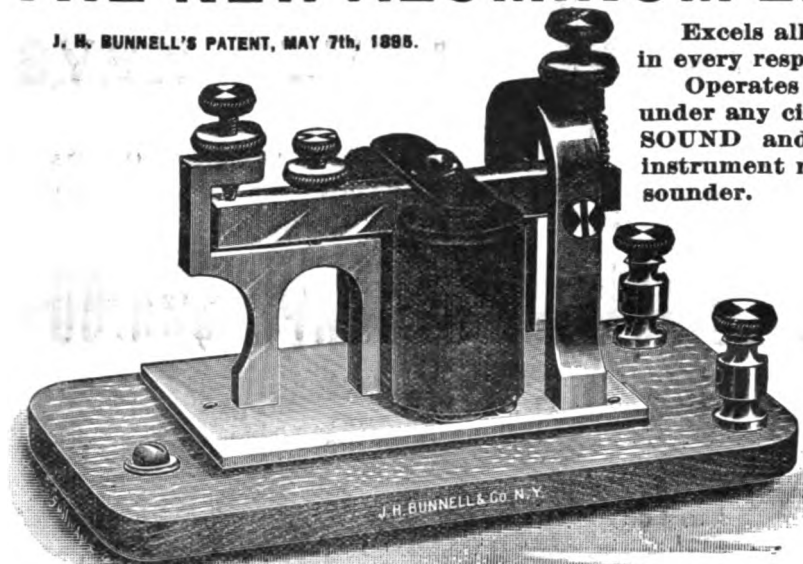

A beautiful and perfect Key suitable for use on Fine Desks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

**THE NEW ALUMINUM LEVER GIANT SOUNDER**

J. H. BUNNELL'S PATENT, MAY 7th, 1898.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the FINEST and BEST SOUNDER ever designed.

Operates with ONE CELL only of LOCAL, having no need whatever under any circumstances for the use of two cells. The MARGIN of SOUND and STRENGTH and QUICKNESS with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, . . . . . \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length, \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

**NEW GIANT SOUNDER, 20 OHMS RESISTANCE,  
AND STEEL LEVER KEY**

**COMBINATION SET,**

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. Price, \$4.50. Sent by mail to any distance, carefully boxed, and PREPAID by us, on receipt of the above price.

Same set, but wound to 8 ohms (local), \$4.00.

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine LEARNERS' OUTFIT, \$4.75.

**The New Departure Learners' Outfit....**

**WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.**

The IDEAL SET for HOME PRACTICE. Always Ready. NEAT, CLEAN, ATTRACTIVE.

The INSTRUMENT is our well-known "MORSE LEARNERS' APPARATUS" with STEEL LEVER KEY, arranged for use with our "MASCOT DRY BATTERY."

The "circuit-closer" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "circuit-closer" detached the Mascot Battery should last for several months' practice. The "circuit-closer" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

Instruction Book goes free with each outfit.

The complete outfit, packed in a wooden box, weighs about 7 lbs.

Shipped by express to any address on receipt of \$3.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 224 pages, sent on receipt of your business card.

These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 50 cents. The Mascot Dry Battery, which too heavy for mailing economically can be obtained at all hardware and electrical supply stores for 50 cents or less.

Price, complete, \$2.00

# JOURNAL OF THE TELEGRAPH

VOL. XXXI.

NEW YORK, MAY 20, 1898.

WHOLE NO. 539.

## THE TELEGRAPHERS' MUTUAL BENEFIT ASSOCIATION.

UNDER the caption "The Public Demands Security," the *Keystone Workman*, a journal devoted to the interests of the Ancient Order of United Workmen, calls attention to the fact that the public has become educated in the business of fraternal life insurance to such an extent that it demands a system of protection that presents as a basis a recognized standard of perpetuity, and that only the organization that in its inception, or in the early days of its existence, recognizes the immutable laws of mortality and adequately provides therefor, will live and prosper.

Thirty years ago, when the foundations of the Telegraphers' Mutual Benefit Association were laid by such well known telegraph men as Hon. J. D. Reid, D. R. Downer, A. S. Brown, and more than 120 others, the principles of fraternal life insurance were but little known or understood, but after a few years it became apparent to the officers and executive committee of the youthful Association that the seed sown by them would bear abundant fruit, and that the Association was destined to occupy a foremost place among the societies and associations in the United States, and that to enable it to occupy that place with credit it was necessary to husband, and, as it were, to develop its resources, it was early seen that, unless adequate provision was made for the immutable laws of mortality, the Association, like hundreds of others who have since fallen by the wayside, was destined to perish from the earth. To this end, the Reserve Fund was created in 1875, and since then has been carefully nurtured by successive presidents and committees until it has attained its present magnificent proportions of \$141,000, upwards of three per cent. of the total insurance in force; an amount equal to \$30 for each \$1,000 benefit certificate; equivalent to monthly assessments of \$1 each, paid in advance for two years and a half; a larger proportion of assets to liabilities than can be shown by any similar organization.

This is the hostage the Telegraphers' Mutual Benefit Association offers to its future—this is the security which it offers to the young men and women in the telegraph business to join in membership, and so long as membership is retained and the reasonable requirements of the Constitution and By-Laws observed, whether their lives be cut off, more or less prematurely by any of the many ills that beset humanity, or prolonged to their utmost span, that the full payment of the amount accruing under the benefit certificate is assured to their families or heirs.

The Association is desirous that every eligible person should partake of its advantages, and it has upwards of 100 agents scattered in principal cities of United States and Canada, any one of whom will

gladly furnish application blanks, etc., or same can be had direct from the Secretary, P. O. Box 510, New York City.

The Western Union Cable Office in Key West has been the most interesting spot on the island since the war began. The most important man is the censor. One naturally comes to associate the two together.

The cable office is a small brick building, two stories high, with a large cocoanut palm growing on either side. The palms spread their great branches above the building and form a perfect arch over the red-tiled roof. Great clusters of cocoanuts are suspended from the green arch. It is only a few yards from the door of the cable office to the government dock. In fact, it is only a few yards from any point on the island to the water, and when the tide is at the highest point, the sea sets back through most of the streets, and leaves a white fringe of salt along the gutters when the tide goes out and the salt-soaked earth dries.

Up through the narrow street which leads from the cable office to the wharf, some very interesting and exciting races have taken place during the past few weeks. When the newspaper dispatch boats come in from the gulf, they always land as near to the cable office as possible, and when correspondents land at the same time, the race for the cable office is more interesting than any steeplechase ever run. Some of them, after a long cruise, go staggering and reeling on their sea legs like drunken men. Others are weak from seasickness, and still others are limping from bruises received from being pitched about in the rough sea. But sickness and bruises are forgotten when land is reached, and every effort is put forth to be the first to file copy.

If it be late at night five seconds gained in the race from the dock to the cable office may mean an exclusive story for one of the great dailies in the North. Cable transmission is necessarily slower than sending over land wires, and the correspondent who files 3,000 words at midnight is pretty sure that no other paper will be able to get anything for its morning edition from Key West that night.

But after the copy has been filed the correspondent's trouble is not at an end. Every word of it must be read and passed upon by the censor. No matter how much time, hardship or expense it has required to get the story, if, in the judgment of the censor, it not ought to be printed, it cannot be sent.

If it gives any information as to the movements of the fleet or the army it cannot go.

There are something like one hundred and fifty newspaper correspondents in Key West, and while most of them appreciate the wisdom of the government censorship of news matter, some have grown impatient in their eagerness to tell the interesting stories that are to be told, and have tried all manner

of ingenious schemes for getting matters past the censor. Usually, however, all plans have been detected by the censor, and the apparently innocent or stupid dispatch has been returned to the writer with "No" written in red ink across it.

The most trying period of the correspondents was on the day the fleet started on its cruise eastward.

Every correspondent in Key West knew that the great battleships were steaming away from here for Havana in quest of big Spanish game. Every newspaper man was eager to send the story, but not a line, not a word would the censor permit to pass. From a hundred papers in the North came the query, "Has the fleet started?"

Even the answer "yes" to this inquiry was not permitted to go.

Some of the correspondents had arranged a cipher code with their home offices, but the code was useless. Everything that had the appearance of cipher—everything that was not absolutely plain and explainable—was stopped. One correspondent worked out a plan which he thought would give the desired information to his paper, but he failed. Early in the morning he filed a dispatch, the first line reading as follows: "The newspaper fleet sailed this morning toward Porto Rico." An hour later he went to file a personal message to his editor reading: "Correction—omit second word in last dispatch."

When he handed in the last message the censor met him at the receiving desk, and with a kindly smile handed back the first dispatch with these words written across it: "All fleets look alike to me."

The Seventeenth Annual meeting of the Association of Railway Telegraph Superintendents will convene at the Hotel Dellone, Omaha, Nebraska, at 10 A. M. June 15, 1898.

Executive Committee.	{ J. W. LATTIG, President.
	{ W. W. RYDER, Vice-Pres.
	{ P. W. DREW, Sec'y and Treas.

The April number of "Electricity" gives some interesting information regarding the early use of electricity to explode submarine mines. It seems that the first instance of a submarine mine being exploded by the aid of electricity occurred on the Potomac some fifty-six years ago. As Robert Fulton was undoubtedly one of the first, if not the first, to improve the torpedo then in use, so Samuel Colt, the inventor of the well-known revolver, was the first to make use of an electric battery in firing a mine located under water. In the summer of 1842 the United States government was prevailed upon to place an old schooner at Mr. Colt's disposal to be experimented upon in the Potomac. In the presence of a large number of high government officials,

The following list of "changes" corrects the Tariff Book of January, 1898, to date. Changes in the list of "New Offices" are not included.

The hand **13** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices," which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by

giving the name of the office with the words "now Square," etc., as in the case of Toledo Junc., Ohio, which was formerly a single star "other" line office but which is now a Western Union office in Square 191.

See Special Notices at end of this circular.

## CABLES.

The rate to Wladivostock, Russia in Asia, via Siberia, is same as to 2d Region East of Werkhne Ondinsk given on page 432 of Tariff Book, viz.: 31 cents per word beyond London.

Erase from page 434 of Tariff Book the rate beyond Havana to Santiago, and enter Santiago on page 439 as 73 cents per word from W. Union offices east of the Mississippi River, and 83 cents per word from offices west of the Mississippi River.

For changes in rates to Jamaica and other places in West Indies, see page 439 of January 1898 Tariff Book.

Cable communication has been established with Turks Island in the Bahamas. Rate, 27c per word less than to Bermuda given on page 437 of Tariff Book.

## SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 192), Catskill Mountains (page 196), and Lake George (page 204). When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading "This office checks" give only the amount of your receipts for "this" line with offices of your own State.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 30th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

**Ocean Steamers.** The arrival of any Steamship at the Port of New York will be reported to any address during the Company's usual office hours for \$1.00, and the tolls on a ten word day message to New York, N. Y. The \$1.00 to be accounted for as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

This order does not apply to New York City, Brooklyn, Hoboken or Jersey City.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated as night message offices in the Tariff Book.

Offices having special rates should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 428 to 489, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 878 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

THOMAS T. ECKERT,  
President

#### TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, May 18, 1898.

To All Transfer Agents and Offices:

The transfer service has been resumed at Elwood, Ind., and temporarily discontinued at Bristol, Tenn., Newport, Ky., and Sault Ste Marie, Mich.

On April 25th New Castle, Ind., was reduced from Class D, to Class E, transfer office.

On May 1st, Yreka, Cal., was added to the list of Class D, transfer offices in F. R. Steele's district.

On and after June 1st, the transfer service will be permanently discontinued at Coaticooke, Que., Shelburne, Ont., and Waukegan, Ill.

THOS. T. ECKERT,  
President.

W. F. VANDEN HOUTEN  
PRINTER  
247-249 PEARL STREET  
NEW YORK

The number of periodicals dealing exclusively or largely with electricity, amounts to sixty-six. Of these, eighteen are published in France, fourteen in the United States, twelve in Germany, six in England, three in Switzerland, two in Austria, Belgium, Holland, Italy and Spain, and one in Canada, Japan and Russia. The oldest electrical paper now in existence is the *Annales Télégraphiques* published since 1855 in Paris, France. The second oldest is the *Journal of the Telegraph*, published since 1868 in New York, and the third, the *Journal Télégraphique*, published since 1869 in Berne, Switzerland. — *L'Industrie Electrique*.

### DESCRIPTION OF EUREKA OUTFIT.

The Eureka Learner's Outfit, as shown by illustration, is a first-class, full size telegraph set. All of the working parts—which includes sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. Steel lever key and sounder gives a loud and clear sound, equal to the best expensive instrument.

### THE PRICE.

ONE SET, AS SHOWN BY ILLUSTRATION.

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.,	\$2.25
Eureka instrument only (no battery or wire), for short lines	1.75
Eureka instrument only, wound for lines 1 to 15 miles.	2.00
Postage on instrument only (battery not mailable).....	.40

We claim this the BEST low priced telegraph set ever made. It's one of our specialties, and made in large quantities.

If goods are to be sent C. O. D. one-third of the amount must be remitted with order or express charges guaranteed by express agent

## MANHATTAN ELECTRICAL SUPPLY CO.

32 CORTLANDT STREET, NEW YORK.

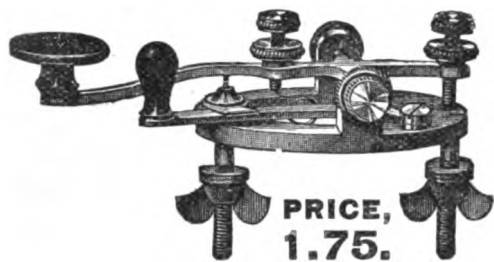

J. H. BUNNELL &amp; CO.'S

## STEEL LEVER

SOLID  
TRUNNION

## KEYS.

OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

**THE BUNNELL STEEL LEVER KEY** is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is only one-half the weight of the ordinary brass lever as generally made.

The entire Lever and Trunnions together being made of but one piece of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of hardened platina points, sticking is absolutely prevented.

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

\* Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

PRICE,  
1.75.

**LEGLESS PATTERN STEEL LEVER KEY**  
New Form with Open Base.

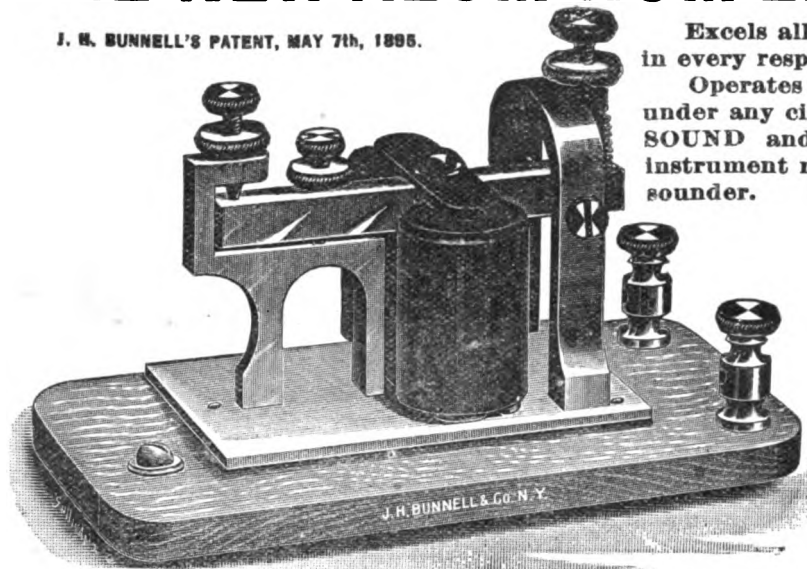

A beautiful and perfect Key suitable for use on Fine Desks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

## THE NEW ALUMINUM LEVER GIANT SOUNDER

J. H. BUNNELL'S PATENT, MAY 7th, 1895.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the FINEST and BEST SOUNDER ever designed.

Operates with ONE CELL only of LOCAL, having no need whatever under any circumstances for the use of two cells. The MARGIN of SOUND and STRENGTH and QUICKNESS with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, . . . . . \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length, \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

NEW GIANT SOUNDER, 20 OHMS RESISTANCE,  
AND STEEL LEVER KEY  
**COMBINATION SET,**

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. Price, \$4.50. Sent by mail to any distance, carefully boxed, and PREPAID by us, on receipt of the above price.

Same set, but wound to 3 ohms (local), \$4.00.

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine LEARNERS' OUTFIT, \$4.75.

**The New Departure Learners' Outfit....**  
**WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.**

The IDEAL SET for HOME PRACTICE. Always Ready. NEAT, CLEAN, ATTRACTIVE.

The INSTRUMENT is our well-known "MORSE LEARNERS' APPARATUS" with STEEL LEVER KEY, arranged for use with our "MASCOT DRY BATTERY."

The "circuit-closer" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "circuit-closer" detached the Mascot Battery should last for several months' practice. The "circuit-closer" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

Instruction Book goes free with each outfit.

The complete outfit, packed in a wooden box, weighs about 7 lbs.

Shipped by express to any address on receipt of \$3.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 224 pages, sent on receipt of your business card.

These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 60 cents. The Mascot Dry Battery, which too heavy for mailing economically can be obtained at all hardware and electrical supply stores for 60 cents or less.

Price, complete, \$2.00

**J. H. BUNNELL & CO.** 76 Cortlandt St.

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, June 20, 1898.

The July, 1898, edition of the Tariff Book is now being distributed, and every office should be supplied with one or more copies on or before July 1, when the new book takes effect.

Managers should read carefully the pages of instruction at the beginning of the book; they should also examine the names, square numbers and P. O. addresses of their offices, and the names and rates of "other" line offices with which they connect, and report at once to their Superintendent any errors which they may discover.

The following list of "changes" corrects the Tariff Book "of July, 1898, to date.

The list of "New Offices" contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Ward, Col., which was formerly a single star station, but which is now a Western Union office in Square 827.

See Special Notices at end of this circular.

## SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 195), Catskill Mountains (page 199), and Lake George (page 207). When accepting messages for such localities, the receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the toll for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated as night message offices in the Tariff Book.

Offices having special rates should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 427 to 448, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 877 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any Steamship at the Port of New York will be reported to any address during the Company's usual office hours for \$1.00, and the tolls on a ten word day message to New York, N. Y. The \$1.00 to be accounted for as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

This order does not apply to New York City, Brooklyn, Hoboken or Jersey City.

THOMAS T. ECKERT,  
President.

## TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, June 18, 1898.

## To All Transfer Agents and Offices:

The transfer service has been resumed at Mackinac Island, Mich., Newport, Ky., and Sault Ste Marie, Mich., and temporarily discontinued at Kokomo, Ind., Palatka, Fla., Pulaski, Tenn., and Valdosta, Ga., and permanently discontinued at Garden City, Kas. The transfer service was temporarily discontinued at Tallahassee, Fla., on May 25th, and resumed on May 30th.

On July 1st, the following changes will take effect:

Lake Charles, La., will be added to the list of Class E, transfer offices in J. M. Stephens district.

Long Branch, N. J., will be increased from Class D, to Class B, transfer office.

The transfer service will be resumed at Cape May, N. J., on July 1st.

"Caution" transfers not exceeding fifty dollars in any one order, can be promptly paid at Chickamauga Park Camp, when addressed to Chattanooga, Tenn.

THOS. T. ECKERT,  
President.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, April 20th, 1898.

Business frank No. 9591, issued on account of the Omaha, Kansas City & Eastern Railroad is hereby revoked.

Managers will please take up that frank if presented and return it to this office for cancellation.

THOS. F. CLARK,  
Acting Vice-President.

## ELECTRICITY AT THE PARIS EXPOSITION.

AMERICAN electrical machinery manufacturers are to have the opportunity to furnish the Paris Exposition with electrical machinery to the value of \$1,000,000. This opportunity is the result of efforts exerted by the special American commission sent to Paris to look over the ground and furnish advice regarding the American display there. Commissioner Ham-burger, who has just returned to New York, said that it is evident that the French government desires to cultivate the friendliest relations with America, and an opportunity has again been given to our electricians to furnish electrical machinery to the amount mentioned above. A chance was formerly given American electricians to furnish electrical machinery, but, because of the absence of information, the American manufacturers did not respond quickly enough. Negotiations were then begun with manufacturers of other countries, and as far as America was concerned the matter seemed to be closed. This new contract will be awarded, notwithstanding the fact that, while Germany and Russia have each appropriated \$1,250,000 to defray the expenses of a display, and England has appropriated \$500,000, this country has not as yet voted any sum for the national exhibit or even appointed a permanent commission. It is said that the \$1,000,000 worth of machinery would be equivalent to 40,000 electrical horse power, and this machinery would be a display and also prove a profitable transaction.—Scientific American.

**TREASURER'S OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, January, 1898.**

*To Superintendents:* I beg to call your attention to the following instructions (intended as a revision of circular of October 25, 1881) which have been given before but have been disregarded by some, forgotten by others and are perhaps unknown to new managers. Each item of these instructions may seem trivial to an office manager, but, because of the wide extent of our business and the great number of our offices, every item is very important and should be strictly complied with.

*First.* Every remittance to the treasurer must be accompanied by a letter of transmittal *written upon blank No. 65*, which must state the exact amount of remittance, date on which it was forwarded, full name of the office remitting, name of state or territory, whether by draft, express money order, post office money order, currency by express, or registered letter. If exchange is paid for draft, or fees for express money orders, post office money orders, money by express or registered letter, *the amount of such expense must be reported, like any other item, in the monthly account current (form 4).* Vouchers for such expense must *not* be sent to the treasurer as cash.

The actual amount of cash remittance only should shown on blank 65.

*Second.* Remittances must be in the form of draft on New York, when drafts of reliable banks can be obtained at less expense than express money orders.

It is believed that New York drafts can be obtained at all the larger offices, without expense, if proper effort is made.

Express money orders are absolutely safe and can be obtained at almost any of the offices of the Adams, American, Denver and Rio Grande, Pacific, Great Northern, National, Northern Pacific, Southern, United States, Wells, Fargo and Co. Express Companies, at following rates, viz:

Not exceeding \$5.00, 5 cts.	Over \$40.00 to \$50.00, 18 cts.
Over \$5.00 to 10.00, 8 cts.	Over 50.00 to 60.00, 20 cts.
Over 10.00 to 20.00, 10 cts.	Over 60.00 to 75.00, 25 cts.
Over 20.00 to 30.00, 12 cts.	Over 75.00 to 100.00, 30 cts.
Over 30.00 to 40.00, 15 cts.	

Managers of offices on the lines of either of the above express companies should remit express money orders (*excepting where bank drafts can be obtained at less expense.*)

*Third.* If neither bank draft nor express money order can be obtained, post office money orders should be forwarded.

*Fourth.* If neither draft on New York, express money order nor post office money order can be obtained, then currency should be forwarded by express.

*Fifth.* If neither of the above means is available, then, as a last resort, the remittance should be forwarded by registered letter.

*Sixth.* Drafts, express money orders and post office money orders must be made payable to M. T. Wilbur, Assistant Treasurer, and *sent by mail.* They must *not* be made payable to M. T. Wilbur without the title.

*Seventh.* The small treasurer's envelope, Form 123, must be used where remittances are made by mail.

*Eighth.* The large envelope, Form 124, should be used only for making remittances by express.

*Ninth.* Mutilated silver coin is uncurrent, and its value as bullion is much less than its nominal value. Offices should not accept either mutilated or foreign silver coins and must not remit such to the treasurer.

M. T. WILBUR, Asst. Treasurer.

WHILE the population of Europe, estimated at 175,000,000 in the beginning of the century, rose to 216,000,000 in 1880, 300,000,000 in 1870, and is now nearly 370,000,000, there has been a still more remarkable increase in the number of towns with over 100,000 inhabitants. There were only 21 of these in 1801 (with 4,500,000 inhabitants), 42 in 1850, 70 in 1870 (with 20,000 - 000 inhabitants), and 121 in 1896 (with about 37,000,000 inhabitants). In 1801 France had three towns with over 100,000 inhabitants, while England and Germany had two each, but in 1870 the figures were—England 18, Germany 10, and France 9, while in 1896 they stood—England 30, Germany 28 and France 10. *Sci. Am.*

Western Union Telegraph Company,

New York, June 8, 1898.

**DIVIDEND NO. 119.**

THE Board of Directors have declared a quarterly dividend of **ONE AND ONE-QUARTER PER CENT.** upon the capital stock of this company, payable at the office of the Treasurer on and after the 15th day of July next, to shareholders of record at the close of the transfer books on the 30th day of June instant.

The transfer books will be closed at 3 o'clock on the afternoon of June 30th inst., and reopened on the morning of July 1st next.

A. R. BREWER,  
Acting Treasurer.

Edison Phonographs,	No. 1,	20.00
	No. 2,	30.00
	Records, per doz.,	5.00

### DESCRIPTION OF EUREKA OUTFIT.

The Eureka Learner's Outfit, as shown by illustration, is a first-class, full size telegraph set. All of the working parts—which includes sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. Steel lever key and sounder gives a loud and clear sound, equal to the best expensive instrument.

### THE PRICE.

#### ONE SET, AS SHOWN BY ILLUSTRATION.

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.,	\$2.25
Eureka instrument only (no battery or wire), for short lines	1.75
Eureka instrument only, wound for lines 1 to 15 miles.	2.00
Postage on instrument only (battery not mailable).....	.40

We claim this the BEST low priced telegraph set ever made. It's one of our specialties, and made in large quantities.

If goods are to be sent C. O. D. one-third of the amount must be remitted with order or express charges guaranteed by express agent

## MANHATTAN ELECTRICAL SUPPLY CO.

32 CORTLANDT STREET, NEW YORK.

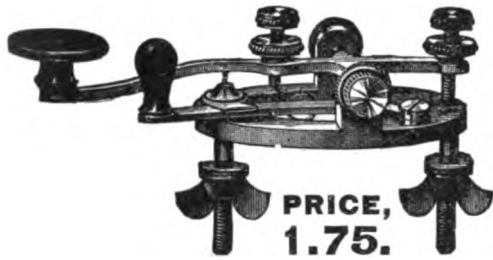

J. H. BUNNELL &amp; CO.'S

## STEEL LEVER

SOLID  
TRUNNION

## KEYS.

OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

**THE BUNNELL STEEL LEVER KEY** is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is *only one-half the weight* of the ordinary brass lever as generally made.

The entire Lever and Trunnions together being made of *but one piece* of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of *hardened platina points*, *sticking is absolutely prevented*.

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

• Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

PRICE,  
1.75.

**LEGLESS PATTERN STEEL LEVER KEY**  
New Form with Open Base.

A beautiful and perfect Key suitable for use on Fine Decks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

## THE NEW ALUMINUM LEVER GIANT SOUNDER

J. H. BUNNELL'S PATENT, MAY 7th, 1896.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the **FINEST** and **BEST SOUNDER** ever designed.

Operates with **ONE CELL** only of **LOCAL**, having no need whatever under any circumstances for the use of two cells. The **MARGIN** of **SOUND** and **STRENGTH** and **QUICKNESS** with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, . . . . . \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main

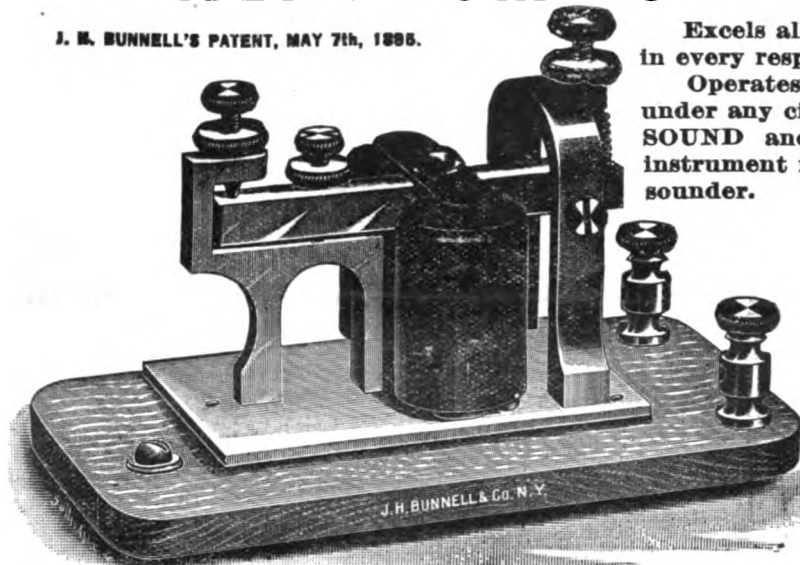

Line use (without relay) on lines up to 15 miles in length. \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

**NEW GIANT SOUNDER, 20 OHMS RESISTANCE,  
AND STEEL LEVER KEY**

## COMBINATION SET,

For Private Lines, City Wires, and all  
short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. **Price, \$4.50.** Sent by mail to any distance, carefully boxed, and **PREPAID** by us, on receipt of the above price.

Same set, but wound to 8 ohms (local), **\$4.00.**

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an **Extra Fine LEARNERS' OUTFIT, \$4.75.**

## The New Departure Learners' Outfit....

**WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.**

The **IDEAL SET** for HOME PRACTICE. Always Ready. **NEAT, CLEAN, ATTRACTIVE.**

The **INSTRUMENT** is our well-known "**MORSE LEARNERS' APPARATUS**" with **STEEL LEVER KEY**, arranged for use with our "**MASCOT DRY BATTERY.**"

The "circuit-closer" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "circuit-closer" detached the Mascot Battery should last for several months' practice. The "circuit-closer" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

Instruction Book goes free with each outfit.

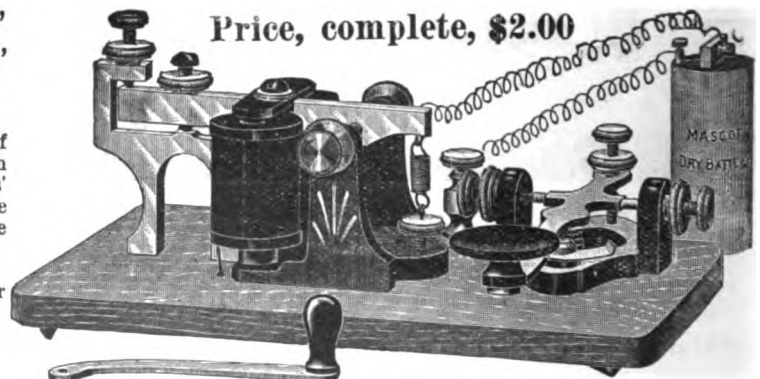

The complete outfit, packed in a wooden box, weighs about 7 lbs.

Shipped by express to any address on receipt of \$2.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 224 pages, sent on receipt of your business card. These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 50 cents. The Mascot Dry Battery, which too heavy for mailing economically can be obtained at all hardware and electrical supply stores for 50 cents or less.

Price, complete, \$2.00

# A SURE THING.

You can **Make Money** with a **Model Electro-Plating Outfit.**

**NO EXPERIENCE REQUIRED.**

We will send **FREE**, to any address, an Illustrated Pamphlet with full details.

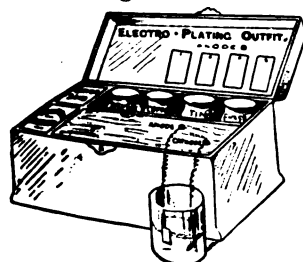

## ELECTRO-PLATING IS PROFITABLE.

In these days of sharp competition, when so many men are looking about for an occupation or trade which is not overcrowded, there are few, if any, opportunities which offer an active man as much probability of making a comfortable and independent living, with certainty, and the possibility of making a considerable amount of money, as the business of Electro-Plating.

In justice to yourself, do not neglect your opportunity any longer. Get a **MODEL ELECTRO-PLATING OUTFIT** and go to work at once.

### Amateur Model Electro-Plating Outfit.

Especially designed for use of Amateurs. Will be a source of pleasure and amusement for anyone inclined toward scientific pastime; contains the following:

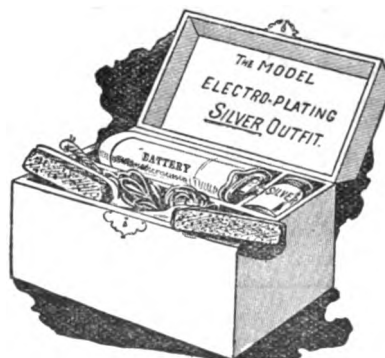

Silver Salts for  $\frac{1}{2}$  Gal., Battery,  
Tin " "  $\frac{1}{2}$  " Silver Sand,  
Copper " "  $\frac{1}{2}$  " Jeweler's Sawdust,  
Brass " "  $\frac{1}{2}$  " Wire.  
Silver, Tin, Copper and Brass Anodes,  
Handbook on Electro-Plating.

**PRICE, \$4.00.**

N. B.—While this outfit is capable of doing perfect work on a small scale, it is, in fact, a scientific toy, and for practical purposes, we would recommend any of the larger outfits.

### Model Electro-Plating Silver Outfit.

Contains the following material in polished case,  $5 \times 8 \frac{1}{2} \times 10 \frac{1}{2}$  inches:

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, July 20, 1898.

The following list of "changes" corrects the Tariff Book "of July, 1898," to date. Changes in the list of "New Offices" are not included.

The hand  indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices" which is corrected to date contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Ward, Col., which was formerly a single star station, but which is now a Western Union office in Square 827.

See Special Notices at end of this circular.

## SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 195), Catskill Mountains (page 199), and Lake George (page 207). When accepting messages for such localities, the receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated as night message offices in the Tariff Book.

Offices having special rates should retain such special rates until cancelled by special orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 427 to 448, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 877 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any Steamship at the Port of New York will be reported to any address during the Company's usual office hours for \$1.00, and the tolls on a ten word day message to New York, N. Y. The \$1.00 to be accounted for as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

This order does not apply to New York City, Brooklyn, Hoboken or Jersey City.

THOMAS T. ECKERT,  
President.

### TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
NEW YORK, July 18, 1898.

#### To All Transfer Agents and Offices:

The transfer service has been resumed at Palatka, Fla., Pulaski, Tenn., and Valdosta, Ga., and temporarily discontinued at Maysville, Ky., and Spartansburg, S. C.

Transfer service was temporarily discontinued at Bradford, Pa., on June 28th, and resumed on July 12th.

Managers will correct their lists accordingly. In accordance with the War Revenue Law, which took effect on July 1, 1898, the sender of each money transfer is required to attach to the application (Form 72) a two cent documentary stamp for each one hundred dollars or fraction of one hundred dollars transferred. The messages necessary to the transfer being sent by and addressed to the Agents of the Company will not require stamps. The War Revenue Law also requires that for all money orders drawn in the United States but payable out of the United States there shall be paid for a sum not exceeding one hundred dollars, four cents, and for each one hundred dollars or fractional part thereof in excess of one hundred dollars four cents. It will therefore be necessary to have stamps of these denominations placed upon the application for money transfers from any transfer office in the United States to any transfer office in Canada or the British Provinces. The requirements of a two cent stamp applies only to money orders issued in and payable in the United States.

The following changes should be made in the list of Transfer Offices in the July, 1898 Tariff Book:

Colfax, Wash., should read F. R. Steele instead of J. McRobie.

Freeport, Ill., should read Class C, instead of Class D.

Green Bay, Wis., should read Class C instead of Class D.

Joplin, Mo., should read Class E instead of Class F.

Junction City, Kan., should read Class E instead of Class F.

New Albany, Ind., should read Class D instead of Class E.

New Castle, Ind., should read Class E instead of Class D.

Petaluma, Cal., should read F. R. Steele instead of W. J. Martin.

Princeton, N. J., should read A. G. Saylor instead of C. S. Jarvis.

St. Louis, Mich., should read St. Louis, Mo. Syracuse, N. Y., J. A. Bierhardt should read J. E. Bierhardt.

The following new offices should be added to the list:

Charlevoix, Mich., Class E, C. Corbett.

Hastings, Ont., Class E, Arthur Cox.

Perry, Okla., Class D, J. J. Dickey.

THOS. T. ECKERT,  
President.

Or by M. J. O'LEARY, Secretary,  
P. O. Box 510, New York

**TELEGRAPHERS' MUTUAL BENEFIT ASSOCIATION.**

As the public is demanding security in fraternal Life Insurance Associations and the Telegraphers' Mutual Benefit Association long since adopted the principle of Reserve Fund as protection and security to its members it is interesting to note that only those Associations which have recognized this principle show a marked increase in the number of applications for membership.

This is a healthy sign of the times, as it shows better business conditions, and at the same time shows that fraternalism has not lost favor with the general public where it is shown to be founded on correct business principles.

The wisdom of creating and maintaining a Reserve Fund has now met with the unqualified approval of nearly all orders and associations—this Surplus keeps pace with the obligations incurred, and is a true criterion of strength—and in this connection it should be borne in mind, that the books and accounts, assets and liabilities of the Association are subject to a quarterly inspection by a committee of members elected by the Association, as well as to an examination at any time—always a stringent one,—of the Insurance Department of the State of New York.

The prompt and ringing affirmative response of nearly all fraternal associations to protect the policies of their members, who, in the present condition of the Country's affairs, are called into the service of the United States Government in the Army or Navy has added another link to the chain of affection between the public and the associations, and it is gratifying to state that many of the members of the TELEGRAPHERS' MUTUAL BENEFIT ASSOCIATION have notified the home office of having taken service, and received the assurance that in the event of disaster their policies would be fully protected.

Carlisle declared "the best gift God ever gave to man was an eye that could see," and in the essential

matter of life insurance, uninsured men and women in the telegraph fraternity may well use that faculty to discern the better qualities and progressive spirit of the TELEGRAPHERS' MUTUAL BENEFIT ASSOCIATION. It neither speaks ill, nor in any other way detracts from any other order or association, it appeals solely on its merits, offering insurance to the fraternity at absolute cost, and its officers will gladly welcome the aid of all telegraph officials throughout the country to extend its membership and bring its advantages within the reach of all.

Request for reports, pamphlets, application blanks, etc., will be promptly filled on application to the Secretary, P. O. Box 510, New York, or by any of the Agents, a list of whom will be found on this page.

**CHAMPIONSHIP**

OF THE

**UNITED STATES.**

THE

**Remington**  
Standard Typewriter

was used by Mr. E. H. Curlette, the winner of the First Prize in the championship class at the Telegraph Tournament held in Madison Square Garden, New York, May 14, 1898.

The REMINGTON is ABSOLUTELY RELIABLE ALWAYS, and is therefore the only typewriter that the up-to-date telegrapher will be satisfied with.

Records, per doz.,	5.00

### DESCRIPTION OF EUREKA OUTFIT.

The Eureka Learner's Outfit, as shown by illustration, is a first-class, full size telegraph set. All of the working parts—which includes sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. Steel lever key and sounder gives a loud and clear sound, equal to the best expensive instrument.

### THE PRICE.

#### ONE SET, AS SHOWN BY ILLUSTRATION.

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.,	\$2.25
Eureka instrument only (no battery or wire), for short lines	1.75
Eureka instrument only, wound for lines 1 to 15 miles.	2.00
Postage on instrument only (battery not mailable).	.40

We claim this the BEST low priced telegraph set ever made. It's one of our specialties, and made in large quantities.

If goods are to be sent C. O. D. one-third of the amount must be remitted with order or express charges guaranteed by express agent

## MANHATTAN ELECTRICAL SUPPLY CO.

32 CORTLANDT STREET, NEW YORK.

J. H. BUNNELL &amp; CO.'S

## STEEL LEVER

SOLID  
TRUNNION

## KEYS.

OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

**THE BUNNELL STEEL LEVER KEY** is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is *only one-half the weight* of the ordinary brass lever as generally made. The entire Lever and Trunnions together being made of *but one piece* of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of *hardened platina points, sticking is absolutely prevented.*

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

• Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

PRICE,  
1.75.

**LEGLESS PATTERN STEEL LEVER KEY**  
New Form with Open Base.

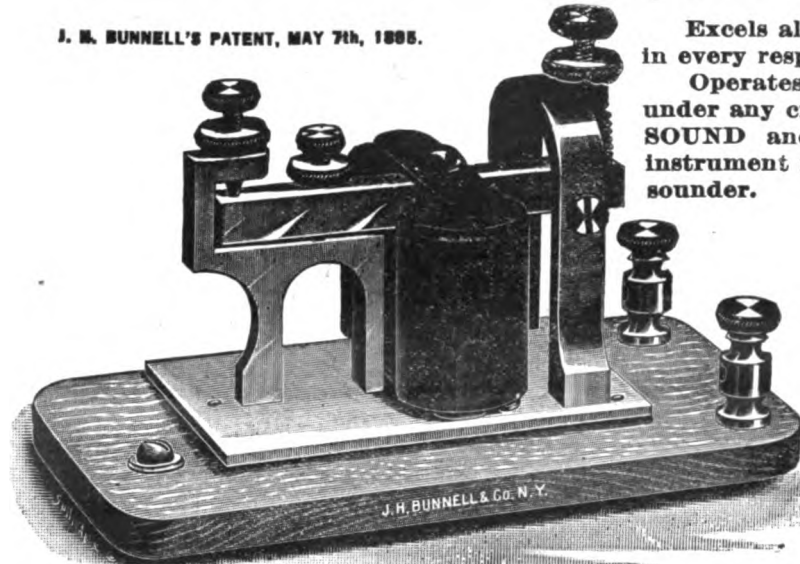

A beautiful and perfect Key suitable for use on Fine Decks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

## THE NEW ALUMINUM LEVER GIANT SOUNDER

J. H. BUNNELL'S PATENT, MAY 7th, 1888.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the **FINEST** and **BEST SOUNDER** ever designed.

Operates with **ONE CELL** only of **LOCAL**, having no need whatever under any circumstances for the use of two cells. The **MARGIN** of **SOUND** and **STRENGTH** and **QUICKNESS** with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, . . . . . \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length, \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

**NEW GIANT SOUNDER, 20 OHMS RESISTANCE,  
AND STEEL LEVER KEY**

## COMBINATION SET,

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. Price, \$4.50. Sent by mail to any distance, carefully boxed, and PREPAID by us, on receipt of the above price.

Same set, but wound to 3 ohms (local), \$4.00.

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine LEARNERS' OUTFIT, \$4.75.

## The New Departure Learners' Outfit....

**WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.**

The **IDEAL SET** for HOME PRACTICE. Always Ready. NEAT, CLEAN, ATTRACTIVE.

The **INSTRUMENT** is our well-known "**MORSE LEARNERS' APPARATUS**" with **STEEL LEVER KEY**, arranged for use with our "**MASCOT DRY BATTERY**."

The "circuit-closer" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "circuit-closer" detached the Mascot Battery should last for several months' practice. The "circuit-closer" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

Instruction Book goes free with each outfit.

The complete outfit, packed in a wooden box, weighs about 7 lbs.

Shipped by express to any address on receipt of \$2.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 224 pages, sent on receipt of your business card.

These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 50 cents. The Mascot Dry Battery, which too heavy for mailing economically can be obtained at all hardware and electrical supply stores for 50 cents or less.

Price, complete, \$2.00

## TARIFF BUREAU. MONTHLY CIRCULAR.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY.  
NEW YORK, August 20, 1898.

The following list of "changes" corrects the Tariff Book "of July, 1898," to date. Changes in the list of "New Offices" are not included.

The hand **✱** indicates those changes which have not been published in the preceding issue of the JOURNAL.

The list of "New Offices," which is corrected to date, contains the names of all offices not shown in the Tariff Book.

When a single, double or three star station is made a Western Union office, the fact is noted by giving the name of the office with the words "now Square," etc., as in the case of Ward, Col., which was formerly a single star station, but which is now a Western Union office in Square 827.

See Special Notices at end of this circular.

## CABLES.

## BERMUDA AND TURKS' ISLAND.

A reduction in the rate to Bermuda was made August 1st. To obtain the new rate to Bermuda, deduct 89 cents from the rates given on page 481 of the Tariff Book. Thus, Tariff Book rate New York to Bermuda is 81 cents per word. The new rate is 89 cents less than 81, or 43 cents.  
The rate to Turk's Island will remain as given in the Tariff Book, viz.: 25 cents per word less than the Tariff Book rate to Bermuda, or 14 cents per word more than the new rate to Bermuda. Thus New York to Turk's Island is 56 cents per word.

## SPECIAL NOTICES.

In a number of cases, the geographical boundary of a city or town, a section of country, or a summer or winter resort, includes a number of offices or double star stations, as Adirondack Mountains (Tariff Book, page 195), Catskill Mountains (page 199), and Lake George (page 307). When accepting messages for such localities, the Receiving clerk may sometimes secure a better address than the general name of the locality by ascertaining to which of the sub-stations, if to any, the message is to go. Thus, a message intended for Bolton on Lake George, should be addressed to "Bolton, Lake George." The words "Lake George," if used alone, would not be a proper address for Bolton messages.

Offices forwarding messages which they have received from places not shown in the Tariff Book, should be careful to see that checks of such messages show, first, the tolls for "this" line, and then the tolls for "other" lines.

The attention of Managers is called to the necessity of more careful observance of that part of Rule 55 which requires the messenger to leave a notice (Form 66) at the place of address when the addressee, or a person authorized to receive a message, cannot be found.

The attention of offices is recalled to the requirements of Rule 4 in relation to the count of messages, and particularly to that part of the Rule covering the count of unpronounceable groups of letters, and of improper combinations of words.

Managers of Western Union offices will enter in figures under the printed heading on the back of their Check reports the total amount of "this" line receipts with other Western Union (not G. N. W.) offices of their own State. Thus: Each Alabama office will give the amount of "this" line receipts with other Alabama offices; each Arkansas office will give the amount of "this" line receipts with other Arkansas offices, etc.; do not include any of the amounts under the heading "This office checks," give only the amount of your receipts for "this" line with offices of your own State.

Managers of offices at which messages are transferred to or from "other lines" or "telephone lines" should endeavor to secure from such connections any contemplated changes in their rates, names of offices, opening or closing of offices, or other information of importance to Western Union offices, in time for publication in the JOURNAL before the changes take effect. Managers of such offices should call the attention of those who control the connecting lines to the fact that the JOURNAL is issued on the 20th of each month, and that contemplated changes should, if possible, be made to take effect on the first day of the following month, so that the information may be in the hands of all offices on that date.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book, or JOURNAL. Care should also be taken not to accept messages at night rates for places not indicated as night message offices in the Tariff Book.

Offices having special rates should retain such special rates until cancelled by special

orders, in which such rates are particularly referred to. The receipt, by any office, of new State and Square rates, must not be considered as cancelling any special rates.

Hereafter for all messages which may be received "collect" from offices on "other" lines, or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 427 to 448, both inclusive, are CABLE messages and should be reported in accordance with rule No. 71, page 877 of Tariff Book. The charges on cable messages should not be entered on the Check Report (Form 7).

Ocean Steamers. The arrival of any Steamship at the Port of New York will be reported to any address during the Company's usual office hours for \$1.00, and the tolls on a ten word day message to New York, N. Y. The \$1.00 to be accounted for as received for Other lines.

Orders should be addressed to Manager Marine Department, New York City.

This order does not apply to New York City.

THOMAS T. ECKERT  
President.

#### TRANSFER SERVICE.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, August 18, 1898.

#### To All Transfer Agents and Offices:

The transfer service has been resumed at Kokomo, Ind., Maysville, Ky., Narragansett Pier, R. I., and Salisbury, N. C., and temporarily discontinued at Bozeman, Mont., Gainesville, Ga., and Ironwood, Mich.

The transfer service will be resumed at Spartansburg, S. C., on September 1st.

On September 1st, the following offices will be added to the list of transfer offices:

#### In A. M. Fisher's district:

Anaconda, Mont. .... Class C.  
Florence, Col. .... Class E.  
Montrose, Col. .... Class E.  
Salida, Col. .... Class E.

Managers will correct their lists accordingly. The Commissioner of Internal Revenue now rules concerning the stamp tax on money transfers, as follows:

First.—Each money transfer between offices in the United States requires only a two-cent stamp, regardless of the amount of the transfer.

Second.—Each money transfer issued in the United States and payable at any telegraph office out of the United States, requires a four-cent stamp for any sum not exceeding one hundred dollars, and an additional four-cent stamp for each additional one hundred dollars or fraction thereof.

THOS. T. ECKERT,  
President.

EXECUTIVE OFFICE,  
WESTERN UNION TELEGRAPH COMPANY,  
New York, April 20th, 1898.

Business frank No. 9591, issued on account of the Omaha, Kansas City & Eastern Railroad is hereby revoked.

Managers will please take up that frank if presented and return it to this office for cancellation.

THOS. F. CLARK,  
Acting Vice-President.

THE question of signalling at sea has been a topic much discussed by naval officers of late. A number of systems are now in use in our navy. In addition to the "flag hoist system," which is commonly used in daylight when men-of-war are within glass range, for not interfering, many other methods are necessary, as no single system has yet been devised which is sufficient under all conditions. Some years ago the Morse system was used largely by giving a significance in that code to certain flag movements, but the "Myers" system was mainly used during the Cuban campaign. By the Meyers system, electric lights in heavy lanterns are run up and down the mast, and are operated by a keyboard from the bridge. The lights are in two colors—red meaning one, white meaning two—and the lights are rapidly turned on and off in varying combinations for the formation of letters. Often at night the searchlights are employed for signaling, and by giving the beams certain sky-angles, ships which would be more than "hull down" in the horizon, would communicate when other systems which necessitate the ships being within actual sighting distance were not possible. It would be practical to communicate by the 200,000,000 candle-power searchlight at Sandy Hook on a clear night, with a squadron 100 miles at sea.—*Electrical Review.*

## CHAMPIONSHIP OF THE UNITED STATES.

THE

# Remington Standard Typewriter

was used by Mr. E. H. Curlette, the winner of the First Prize in the championship class at the Telegraph Tournament held in Madison Square Garden, New York, May 14, 1898.

The REMINGTON is ABSOLUTELY RELIABLE ALWAYS, and is therefore the only typewriter that the up-to-date telegrapher will be satisfied with.

	Records, per doz.,	5.00

### DESCRIPTION OF EUREKA OUTFIT.

The Eureka Learner's Outfit, as shown by illustration, is a first-class, full size telegraph set. All of the working parts—which includes sounder lever, sounder yoke or anvil, adjusting screws, etc.—are finely finished composition metal, such as used in all high-grade instruments. The sounder and key base is japanned and striped with gilt.

Key knob, circuit closer knob, and magnet heads are of polished hard rubber. The base is mahogany, and highly polished. Steel lever key and sounder gives a loud and clear sound, equal to the best expensive instrument.

### THE PRICE.

#### ONE SET, AS SHOWN BY ILLUSTRATION.

One Crowfoot Battery, size 5x7, with chemicals, 75 feet insulated wire, with instructions for setting up, etc.,	\$2.25
Eureka instrument only (no battery or wire), for short lines	1.75
Eureka instrument only, wound for lines 1 to 15 miles.	2.00
Postage on instrument only (battery not mailable).....	.40

We claim this the BEST low priced telegraph set ever made. It's one of our specialties, and made in large quantities.

If goods are to be sent C. O. D. one-third of the amount must be remitted with order or express charges guaranteed by express agent

## MANHATTAN ELECTRICAL SUPPLY CO.

32 CORTLANDT STREET, NEW YORK.

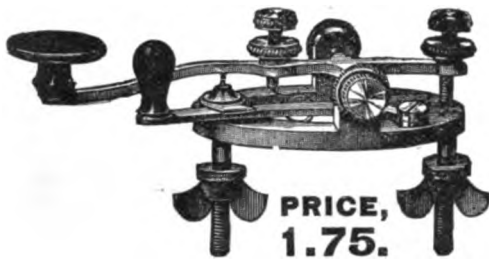

J. H. BUNNELL &amp; CO.'S

## STEEL LEVER

SOLID  
TRUNNION

## KEYS.

OVER 100,000 NOW IN USE.  
THE ONLY PERFECT KEY.

J. H. BUNNELL'S PATENT, FEB. 15, 1881.

**THE BUNNELL STEEL LEVER KEY** is more durable, and in every respect better than any other for rapid and perfect sending, for the following reasons:

The Lever is *only one-half the weight* of the ordinary brass lever as generally made. The entire Lever and Trunnions together being made of *but one piece* of fine wrought steel, the common defect of loose trunnions is avoided, the strength of a heavy brass lever is obtained with much less weight of metal, and, by the perfect bearing which the solid trunnion gives, together with the use of *hardened platina points, sticking is absolutely prevented.*

The size and proportions are such as to make it the most perfect operating key possible to obtain, either for the hand of the skilled and rapid expert, or the beginner.

• Sent by mail, post-paid, to any part of the United States, or Canada, on receipt of the price, by Registered Letter or Money Order.

PRICE,  
1.75.

## LEGLESS PATTERN STEEL LEVER KEY

New Form with Open Base.

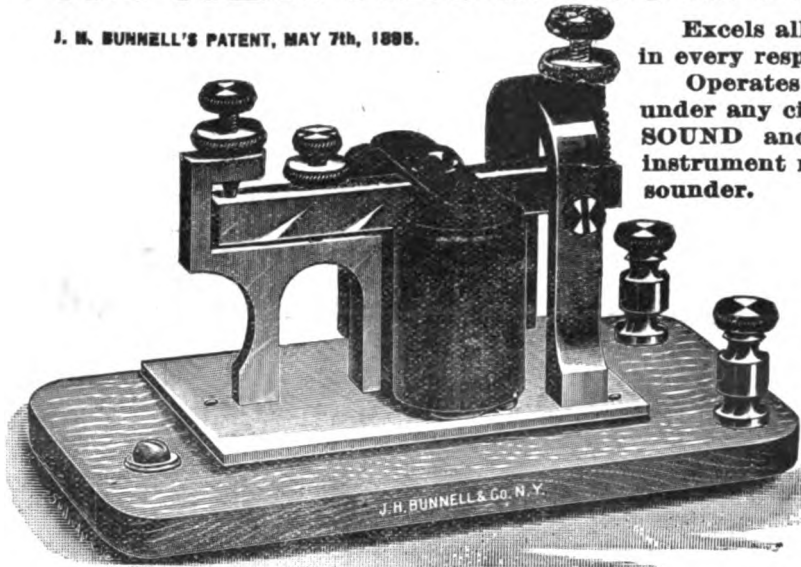

A beautiful and perfect Key suitable for use on Fine Decks or wherever a Legless Key is preferable.

PRICE, carefully boxed, and sent, prepaid, by mail to any part of the United States, \$2.25.

This form is especially convenient for operators who prefer to possess their own private Key, as it can be placed anywhere or removed, without boring holes.

## THE NEW ALUMINUM LEVER GIANT SOUNDER

J. H. BUNNELL'S PATENT, MAY 7th, 1895.

Excels all others in TONE, LOUDNESS and QUICK ACTION. It is in every respect the **FINEST** and **BEST** SOUNDER ever designed.

Operates with **ONE CELL** only of LOCAL, having no need whatever under any circumstances for the use of two cells. The **MARGIN** of **SOUND** and **STRENGTH** and **QUICKNESS** with one cell on this instrument more than equal the margin with two cells on any other sounder.

Price, . . . . . \$2.25

Sounders wound with fine wire to 20 ohms resistance for Main

Line use (without relay) on lines up to 15 miles in length. \$2.75

Sent by mail to any part of the U. S., carefully boxed and prepaid on receipt of price.

## NEW GIANT SOUNDER, 20 OHMS RESISTANCE, AND STEEL LEVER KEY

## COMBINATION SET,

For Private Lines, City Wires, and all short Lines up to 10 or 15 Miles in Length.

Our standard first-class Giant Sounder, finely finished, with Rubber covered coils, fine Silk covered Wire, bound to 20 ohms resistance, mounted on Polished Mahogany Base, with a Steel Lever Key, making the prettiest and most perfect set of Short Line or Learners' Instruments ever produced. Price, \$4.50. Sent by mail to any distance, carefully boxed, and PREPAID by us, on receipt of the above price.

Same set, but wound to 8 ohms (local), \$4.00.

The latter set with large cell of battery, book of instruction, chemicals, wire, etc., making an Extra Fine LEARNERS' OUTFIT, \$4.75.

## The New Departure Learners' Outfit....

## WITH MASCOT DRY BATTERY AND STEEL LEVER KEY.

The IDEAL SET for HOME PRACTICE. Always Ready. NEAT, CLEAN, ATTRACTIVE.

The INSTRUMENT is our well-known "MORSE LEARNERS' APPARATUS" with STEEL LEVER KEY, arranged for use with our "MASCOT DRY BATTERY."

The "circuit-closer" is detached from the key, as it will prolong the life of the battery to leave the circuit open when not using the instrument. With "circuit-closer" detached the Mascot Battery should last for several months' practice. The "circuit-closer" is sent with each apparatus, so that it can be replaced when it is desired to operate two or more instruments on the same circuit with bluestone battery.

Extra Mascot Renewal Cells, 20 cents each.

The magnets can be rewound, at a slight expense, for use on longer, out-door lines.

Instruction Book goes free with each outfit.

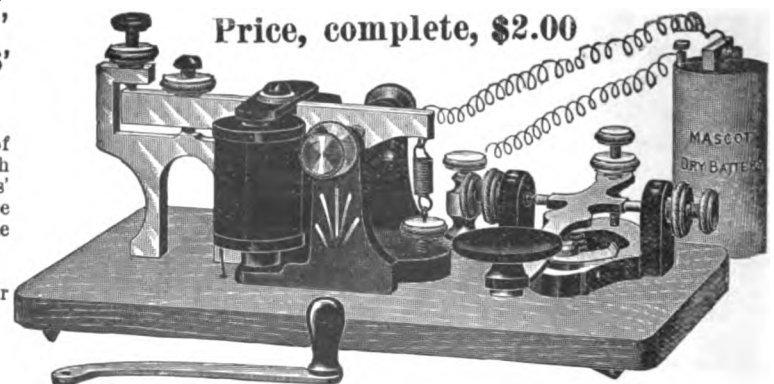

The complete outfit, packed in a wooden box, weighs about 7 lbs.

Shipped by express to any address on receipt of \$3.00.

Manual of Telegraphy sent free on application.

Our large general catalogue of 224 pages, sent on receipt of your business card.

These sets arranged to be operated with Mascot Dry Battery can be sent anywhere in the United States by mail for 60 cents. The Mascot Dry Battery, which too heavy for mailing economically can be obtained at all hardware and electrical supply stores for 60 cents or less.

Price, complete, \$2.00

J. H. BUNNELL & CO. 76 Cortlandt St. New York.

Sent for Subscribers, Circulars, Etc., of all the above to

J. H. BUNNELL & CO., 76 CORTLANDT STREET, NEW YORK, TELEGRAPH AND TELEPHONE SUPPLIES OF EVERY DESCRIPTION.
